ARLINGTON TOWN RECORDS FOR THE MUNICIPAL YEAR 1907.

TOWN MEETING, MARCH 4, 1907.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX SS

To Garritt Barry, A Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Monday, the fourth day of March, next, at 6.00 o'clock, A. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To elect by ballot the following Town Officers: A Town Clerk, for one year; a Town Treasurer, for one year; a Town Collector, for one year; an Auditor, for one year; three Selectmen, for one year; one Assessor, for three years; three members of the School Committee, for three years; one member of the Board of Trustees of the Pratt Fund, for five years; one member of the Board of Commissioners of the Sinking Fund, for three years; two Trustees of the Robbins Library, for three years; one member of the Consolidated Board of Trustees of the Robbins Fund, Soldiers Monument Fund and the Trustees of Cemeteries, for three years; five Constables, for one year; one Park Commissioner, for three years; one member of the Board of Health, for three years; one Tree Warden, for one year; three members of the Board of Public Works, for one year. Also to choose or appoint all the other usual Town Officers, in such manner as the Town may determine. Also, upon the same ballot to vote "Yes" or "No" upon the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" For these purposes the polls will be opened as soon as possible after the organization of the meeting and kept open until five o'clock, P. M.

ART. 3. To hear and act on the reports of the Selectmen and other Town Officers and Committees heretofore appointed.

ART. 4. To act on the list of Jurors as revised by the Selectmen.

ART. 5. To make an appropriation for the Robbins Library for the ensuing year.

ART. 6. To make an appropriation for the Public Schools for the ensuing year, and determine in what manner the same shall be expended.

ART. 7. To determine in what manner the town ways, highways and bridges shall be repaired the ensuing year.

ART. 8. To determine what sum of money the Town will raise by general tax, to defray Town expenses, interest, debt, and State Aid, and make an appropriation for the same.

ART. 9. To see if the Town will appoint the Selectmen agents of the Town, to institute and prosecute actions in favor of the Town and appear and defend suits and legal proceedings against or involving the interests of the Town, with power to employ counsel therein and, when necessary, in all other legal matters and business appertaining to Town affairs during the year commencing March 4, 1907.

ART. 10. To see what action the Town will take in relation to the appointment of a Committee of Twenty-One for the ensuing year.

ART. 11. To see if the Town will appropriate the sum of $275.00 for the proper observance of Memorial Day, the same to be expended under the direction of Francis Gould Post 36, G. A. R.

(Inserted at request of Henry Bradley and others.)

ART. 12. To see if the Town will appoint a committee to revise the Town by-laws and make additions to or changes in said by-laws and report to the Town its recommendations.

ART. 13. To see if the Town will accept the provisions of Chapter 191 of the Acts of the year 1905, being an act to authorize cities and towns to establish municipal building insurance funds and make an appropriation to establish a municipal building insurance fund.

ART. 14. To see if the Town will vote to discontinue or authorize the Selectmen to discontinue all town fire insurance, or take any action in relation thereto.

ART. 15. To see what action the Town will take relative to the calling of a Town Meeting for the purpose of submitting to the legal voters the question, 'Shall an act passed by the General Court in the year 1906, entitled 'An act relative to Town Meetings in the Town of Arlington,' and providing for the ratification of certain votes passed at such meetings," be accepted by the Town?

ART. 16. To see if the Town will discontinue the Almshouse or take any action relative thereto.

ART. 17. To see if the Town will discontinue the printing of the by-laws of the Town in the Annual Town Report, or take any action thereon.

ART. 18. To see if the Town will make an appropriation for suppressing leaf eating insects, other than gypsy and brown-tail moths, or take any action relative thereto.

ART. 19. To see what action the Town will take towards providing additional vault or safe room for the safe keeping of Town records, papers and documents, and make an appropriation for the same.

ART. 20. To see if the Town will make an appropriation for the better drainage and improvement of Spy Pond Brook, or take any action thereon.

ART. 21. To see if the Town will contribute a memorial stone for the Pilgrim Monument now building at Provincetown, said stone to mark the date of settlement of Arlington, and make an appropriation for the same.

ART. 22. To see if the Town will make an appropriation for painting and decorating the interior of Town Hall building, or take any action thereon.

ART. 23. To see if the Town will accept a proposition from William E. Wellington, of Dubuque, Iowa, for the improvement of the area at the corner of Lowell Street and Massachusetts Avenue, or take any action thereon.

ART. 24. To see if the Town will make an appropriation for the repair of the Almshouse stable, or take any action thereon.

ART. 25. To see if the Town will appropriate $7,000, in accordance with the vote passed December 6, 1904, for water used for fire hydrants, street watering and public buildings for the ensuing year.

(Inserted at request of Board of Public Works.)

ART. 26. To see what action the Town will take in regard to the extension of water mains and make an appropriation for the same.

(Inserted at request of Board of Public Works.)

ART. 27. To see if the Town will make an appropriation for the construction and repair of permanent sidewalks.

(Inserted at request of Board of Public Works.)

ART. 28. To see if the Town will make an appropriation for the maintenance and extension of the sewerage system for the ensuing year.

(Inserted at request of Board of Public Works.)

ART. 29. To see if the Town will make an appropriation for the use of the Highway Division.

(Inserted at request of Board of Public Works.)

ART. 30. To see if the Town will make an appropriation for the purchase of a steam roller, and determine in what manner the same shall be expended.

(Inserted at request of Board of Public Works.)

Art. 31. To see if the town will make an appropriation for street watering.

(Inserted at request of Joint Board.)

Art. 32. To see if the Town will make an appropriation for street lighting.

(Inserted at request of Joint Board.)

Art. 33. To see if the Town will vote to authorize its Collector of Taxes to use all means of collecting taxes for the year 1907 which a town treasurer may use when appointed a collector of taxes.

(Inserted at request of Collector of Taxes.)

Art. 34. To see if the Town will appropriate a sum of money not exceeding fifty (50) dollars, to be expended by the Collector of Taxes with the approval of the Town Counsel, for the purpose of obtaining the surrender and discharge of various tax deeds given by the Collector, where, by reason of error, omission or informality in the assessment or sale, the purchaser has no claim upon the property sold.

(Inserted at request of Collector of Taxes.)

Art. 35. To see if the Town will appropriate the sum of twenty-five (25) dollars to pay bill for rent of Union Hall, Arlington Heights, for the years 1900, 1901, 1902, 1903, 1904 and 1905, said hall being used by the Registrars of Voters.

(Inserted at request of Registrars of Voters.)

Art. 36. To see if the Town will make an additional appropriation for the observance of the one hundredth anniversary of the incorporation of the Town.

(Inserted at request of Committee on Anniversary.)

Art. 37. To see if the Town will authorize the Committee, heretofore appointed, to arrange for a proper observance of the one hundredth anniversary of the incorporation of the Town, to add to its membership.

(Inserted at request of Committee on Anniversary.)

Art. 38. To hear and act upon any report the School Committee may make, and to discuss and act upon any measures (in so far as they do not require appropriations) pertaining to the educational interests of the Town.

(Inserted at request of Melvin L. Severy and others.)

Art. 39. To see if the Town will vote to insert the following Article in the Warrant for the first Fall Town Meeting of each ensuing year, during the life of this vote, if passed:

> To hear and act upon any report the School Committee may make, and discuss and act upon any measures (in so far as they do not require appropriations) pertaining to the educational interests of the Town.

(Inserted at request of Melvin L. Severy and others.)

ART. 40. To see what action the Town will take relative to rescinding its vote of November 22, 1906, relative to an appropriation for the construction of Palmer, Wyman and Tanager Streets and Avon Place.

(Inserted at request of Town Treasurer.)

ART. 41. To see what action the Town will take relative to making an appropriation of $7,050 for the construction of Palmer, Wyman and Tanager Streets and Avon Place, and to determine in what manner the Town will raise the said sum of $7,050.

(Inserted at request of Town Treasurer.)

ART. 42. To see if the Town will appropriate the sum of $165 rental of Lawrence Field to be used by the school children for athletic purposes, under direction of the School Committee.

(Inserted at request of School Committee.)

ART. 43. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

ART. 44. To see what action the Town will take relative to making a new contract for street lighting.

(Inserted at request of the Joint Board.)

Hereof, fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this twenty-first day of February in the year of our Lord one thousand nine hundred and seven.

JAMES A. BAILEY, JR.,
S. FREDERICK HICKS,
FREDERICK S. MEAD,
Selectmen of the Town of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, in said Arlington, on Monday, the fourth day of March, in the year of our Lord nineteen hundred and seven, and were called to order at six (6) o'clock in the morning, by the Town Clerk, who read articles one and two of the warrant calling the meeting and the return of the constable who served the same upon the inhabitants. By unanimous consent the reading of the remaining articles was postponed until the adjourned meeting.

Article 1 taken up. (Choice of Moderator.)

John G. Brackett received seven votes and was declared elected Moderator and was sworn to the faithful performance of his duties.

The following ballot clerks and tellers, who had previously been appointed by the Selectmen, were sworn to the faithful discharge of their duties and assigned as follows:

Ballot Clerks—Frank Y. Wellington and John J. Mahoney.

Inspectors—Frank F. Russell and Arthur L. Marston.

Checkers at Ballot Box—Horace A. Freeman and George C. Tewksbury.

Tellers—George H. Peirce, Frank J. Rowe, Charles P. Ladd, Jr., David T. Dale, William H. Bailey, Maurice P. Ahern, Arthur L. Bridgham, Frank M. Rowe and James M. Mead.

A sealed package of ballots was then delivered to the Moderator, who publicly broke the seal and delivered the ballots to the ballot clerks. A package of womens' ballots was also delivered to the ballot clerks.

Cards of instructions and penalties on voters were posted in prominent places as were also specimen ballots in conformity to law.

The ballot box was examined by the Moderator and Town Clerk and was found to be empty with the register set at zero.

The box was then locked and the keys delivered into the custody of Constable John Duffy and remained in his custody until the close of the polls.

A list of registered voters, both men and women, was supplied by the Registrars of Voters to the ballot clerks and checkers at the ballot box.

The polls were then declared open for the reception of votes for Town Officers, under article two of the warrant and remained open until five o'clock in the afternoon, at which time after due notice, they were declared closed.

By unanimous consent the ballot box was opened at various times during the day for the purpose of removing ballots to be counted.

At the close of the polls the ballot box registered eight hundred and eight (808) votes.

The names checked at the ballot box and those checked by the ballot clerks were counted and found to agree with the number registered by the ballot box, eight hundred and eight (808).

The ballots not used were inclosed in a package, sealed and delivered to the Town Clerk.

The ballots cast were then canvassed by the Moderator, Town Clerk and Tellers and declaration made thereof at twenty minutes after five o'clock as follows:—

Whole number of men's ballots cast eight hundred and two. Whole number of women's ballots cast six. Total number of ballots cast eight hundred and eight.

Town Clerk for one year—Thomas J. Robinson had six hundred and forty (640) votes and was declared elected. Sworn by Moderator in open meeting. Blanks one hundred and sixty-two (162).

Selectmen for one year—J. Howell Crosby had five hundred and ninety-six (596) votes and was declared elected. (Sworn March 4, 1907). S. Frederick Hicks had five hundred and four (504) votes and was declared elected. (Sworn March 4, 1907). Frederick S. Mead had five hundred and sixty-eight (568) votes and was declared elected. (Sworn March 4, 1907). Elliott A. Gove had two hundred and eighty-seven (287) votes. Blanks four hundred and fifty-one (451).

Assessor for three years—Omar W. Whittemore had six hundred thirty-six (636) votes and was declared elected. (Sworn March 5, 1907). Blanks one hundred sixty-six (166).

Treasurer for one year—William A. Muller had five hundred eighty (580) votes and was declared elected. (Sworn March 6, 1907). Blanks two hundred twenty-two (222).

Collector of Taxes for one year—Harvey S. Sears had six hundred thirty-four (634) votes and was declared elected. (Sworn March 5, 1907). Blanks one hundred sixty-eight (168).

Auditor for one year—Elbert L. Churchill had five hundred seventy-two votes and was declared elected. (Sworn March 5, 1907). Blanks two hundred thirty (230).

Board of Public Works for one year—Henry W. Hayes had six hundred (600) votes and was declared elected. (Sworn March 7, 1907). Peter Schwamb had five hundred seventy-eight (578) votes and was declared elected. (Sworn March 7, 1907). William N. Winn had five hundred ninety-seven (597) votes and was declared elected. (Sworn March 6, 1907). Blanks, six hundred thirty-one (631).

School Committee for three years—John A. Bishop had six hundred thirty-nine (639) votes and was declared elected. (Sworn March 6, 1907). Lindsay K. Foster had five hundred forty-two (542) and was declared elected. (Sworn March 5, 1907). Herbert W. Rawson had five hundred thirty-three (533) votes and was declared elected. (Sworn March 6, 1907). Blanks, six hundred ninety-nine (699).

Park Commissioner for three years—Charles H. Gannett had five hundred seventy-six (576) votes and was declared elected. (Sworn March 7, 1907). Blanks, two hundred twenty-six (226).

Board of Health for three years—Laurence L. Peirce had six hundred nine (609) votes and was declared elected. (Sworn March 6, 1907). Blanks, one hundred ninety-three (193).

Commissioner for Sinking Fund for three years—Alfred D. Hoitt had five hundred fifty-four (554) votes and was declared elected. (Sworn March 5, 1907.) Blanks, two hundred forty-eight (248).

Trustee for Pratt Fund for five years—William E. Wood had five hundred seventy-eight (578) votes and was declared elected. (Sworn March 7, 1907.) Blanks, two hundred twenty-four (224).

Trustees for Robbins Library for three years—James P. Parmenter had five hundred seventy-five (575) votes and was declared elected. (Sworn March 8, 1907.) Arthur J. Wellington had five hundred seventy-four (574) votes and was declared elected. (Sworn March 7, 1907.) Blanks, four hundred fifty-five (455).

Consolidated Boards for three years—George G. Allen had five hundred forty-five (545) votes and was declared elected. (Sworn March 7, 1907.) Blanks, two hundred fifty-seven (257).

Tree Warden for one year—A. Foster Brooks had five hundred seventy-two (572) votes and was declared elected. (Sworn March 5, 1907.) Blanks, two hundred thirty (230).

Constables for one year—Garritt Barry had five hundred ninety-three (593)

votes and was declared elected. (Sworn March 5, 1907.) John Duffy had five hundred nineteen (519) votes and was declared elected. (Sworn March 7, 1907.) Daniel M. Hooley had five hundred fifty-two (552) votes and was declared elected. (Sworn March 7, 1907.) Thomas O. D. Urquhart had four hundred sixty-one (461) votes and was declared elected. (Sworn March 6, 1907.) James E. Whitten had five hundred twenty-seven (527) votes and was declared elected. (Sworn March 8, 1907.) Blanks, thirteen hundred fifty-three (1353).

On the question "Shall licenses be granted for the sale of intoxicating liquors in this Town?" two hundred fourteen (214) voted "Yes" and four hundred seventy-three (473) voted "No." Blanks, one hundred fifteen (115) and declaration was made that the Town had voted that no licenses be granted for the sale of intoxicating liquors during the ensuing year.

The blank forms approved by the Secretary of the Commonwealth were used by the Tellers in counting and tabulating the ballots cast.

Voted: That when this meeting adjourns it adjourn to meet in Town Hall, Tuesday evening, March 19, 1907, at 7.30 o'clock.

The check list used at the entrance to the polling place together with the list used at the ballot box and the ballots cast were then sealed up in open meeting and indorsed by the election officers. They were then delivered into the custody of the Town Clerk.

Article 19 taken up. (Additional vault room.)

Voted: That the subject matter of article 19 be referred to a committee of five, to be appointed by the Moderator, to investigate and report at the adjourned meeting, March 19, 1907. Committee appointed were Chairman of Selectmen, Chairman Board of Public Works, Town Clerk, Town Treasurer and Town Collector.

Voted: That this meeting do now adjourn.

Meeting adjourned at forty-five minutes after five o'clock.

A True Record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

ARLINGTON, March 19, 1907.

Pursuant to adjournment the citizens of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall in said Town on Tuesday, the nineteenth day of March, in the year nineteen hundred and seven, and were called to order at thirty minutes after seven o'clock in the evening by the Moderator, John G. Brackett.

Printed copies of the warrant having been distributed to the voters, it was voted to dispense with the reading of the articles not acted on at the annual meeting, March 4th.

Voted: That when this meeting adjourns it adjourn to meet in Town Hall, Tuesday evening, March 26th, at seven thirty o'clock.

Article 10 taken up. (Appointment of Committee of 21.)

Voted: That a Committee consisting of twenty-one citizens, other than Town officers elected by ballot, be appointed to serve throughout the ensuing year and until the end of the annual meeting of 1908. The members of said committee to be selected as follows: Nine from the residents of the Russell School District, four from the Locke School District, four from the Cutter School District and four from the Crosby School District.

That the Moderator of this meeting with the chairman and secretary of the present committee of twenty-one are hereby appointed a committee to nominate said new committee of twenty-one and to report same at the adjournment of this meeting.

To this committee, when appointed, are hereby referred all articles calling for an appropriation of money in any town warrant issued during its term of office.

Said committee shall, after due consideration of the subject matter of said articles, report thereon in print or otherwise such recommendations as it shall deem best. Said committee shall choose its own officers and have power to fill vacancies.

Article 19 taken up. (Additional vault room.)

S. Fred. Hicks, Chairman of the Committee appointed March 4th, reported that the Committee had investigated the entire matter and that they were of the opinion that a vault should be built on the easterly side of the Town Hall building, and fitted with steel filing cabinets at a cost of about thirteen hundred dollars ($1,300.)

Voted: That the report of the committee be accepted and that the subject matter of vault room, together with the recommendations of the committee, be referred to the Committee of Twenty-one, said Committee to report at the adjournment of this meeting.

Article 19 was then laid on the table.

Article 3 taken up. (Reports of Town Officers.)

Under this article Frederick A. Bisbee, Chairman of the Committee of

Twenty-one, presented the report of said Committee in printed form which was distributed to the voters present.

Voted: That the report of the Committee of Twenty-one as presented be accepted.

Article 3 was then, by vote, laid on the table.

Voted: That the various articles in the warrant calling for an appropriation, which had been referred to the Committee of Twenty-one, be now taken up, and that they be taken up in the order in which they appear in the report of said Committee.

Article 5 taken up. (Robbins Library.)

Voted: That there be appropriated the sum of three thousand dollars ($3,000) in addition to the dog tax, and the receipts for fines and the sale of catalogues, for the maintenance of the Robbins Library for the year 1907, the same to be expended under the direction of its trustees.

Article 6 was taken up and laid on the table.

Article 11 taken up. (Appropriation for Memorial Day.)

Voted: That the sum of two hundred seventy-five dollars ($275) be appropriated for the proper observance of Memorial Day, the same to be paid to the quarter master of Francis Gould Post 36, G. A. R., to be expended under the direction of the officers of said post.

Article 13 taken up. (To establish municipal insurance funds.)

Voted: That the Town do not accept the provisions of Chapter 191 of the Acts of the year 1905, to allow cities and towns to establish municipal insurance funds.

Article 18 taken up. (Suppressing leaf-eating insects.)

Voted: That the sum of two hundred dollars ($200) be appropriated for suppressing leaf-eating insects, other than gypsy and brown-tail moths, during the year 1907, said amount to be expended under the direction of the Selectmen.

Article 21 taken up. (Memorial stone at Provincetown.)

Voted: That the town contribute a memorial stone for the Pilgrim monument now building at Provincetown, said stone to mark the date of settlement of Arlington, and that the sum of forty-five dollars, ($45) to be expended under the direction of the Selectmen, be appropriated for the same.

Article 22 taken up. (Painting and decorating Town Hall).

Voted: That the subject matter of Article 22 be referred back to the Selectmen with instructions to obtain definite estimates of the cost of painting and decorating the interior of Town Hall building.

Article 24 taken up. (Almshouse stable repairs.)

Voted: That the sum of four hundred dollars ($400) be appropriated for the repair of the Almshouse stable, said amount to be expended under the direction of the Joint Board of Selectmen and the Board of Public Works.

Article 25 taken up. (Appropriation for hydrants, etc.)

Voted: That the sum of seven thousand dollars ($7,000) be appropriated

and paid to the Water Works Department, for water used for fire-hydrants, street watering and public buildings during the ensuing year.

Article 26 taken up. (Extension of water mains.)

Voted: By a two-thirds vote, that the sum of two thousand dollars ($2,000) and the unexpended balance of two hundred sixty-four dollars and forty-one cents ($264.41) be appropriated for the extension of water mains; and for the purpose of raising the two thousand dollars ($2,000) there be issued two notes or bonds, each for the sum of one thousand dollars ($1,000), the first payable in the year 1911, and the second in the year 1912; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Water Loan of 1907," and to bear interest at a rate not exceeding four per centum per annum payable semi-annually.

Article 27 taken up. (Permanent sidewalks.)

Voted: That the sum of three thousand dollars ($3,000) be appropriated for renewal and extension of permanent sidewalks, not less than fifteen hundred dollars ($1,500) of that amount to be used for extensions carried out under The Sidewalk Act, Section 43 of Chapter 49 of the Revised Laws.

Article 28 taken up. (Sewerage System appropriation.)

Voted: That the sum of fifteen hundred dollars ($1,500) be appropriated for the maintenance and short incidental extensions to the sewerage system for the ensuing year.

Article 29 taken up. (Highway Division appropriation.)

Article 20 was also taken up at this time in connection with Article 29.

Voted: That the sum of twenty-four thousand two hundred fifty dollars ($24,250) be appropriated for the maintenance and construction of highways during the ensuing year, and that the street railway tax now in the treasury amounting to nineteen thousand two hundred thirty-one dollars and thirty-two cents ($19,231.32) is hereby appropriated toward the payment thereof.

Article 30 taken up. (Steam roller appropriation.)

Voted: That the sum of two thousand seven hundred fifty dollars ($2,750) be appropriated for the purchase of a steam roller, said sum to be expended under the direction of the Board of Public Works.

Article 31 taken up. (Street watering.)

Voted: By a two-thirds vote, that in addition to such subscriptions as may be obtained for the purpose an appropriation of three thousand five hundred dollars ($3,500) be made for street watering, one thousand dollars ($1,000) of said sum to be raised by general tax, and such balance as may be necessary, not exceeding two thousand five hundred dollars ($2,500), to be raised by note of the Town for a term not exceeding one year, signed by the Treasurer and approved by the Selectmen, and the receipts from the street watering assessments for 1907 be hereby appropriated toward the payment of said note.

Article 32 taken up. (Street lighting.)

Voted: That the sum of eleven thousand dollars ($11,000) be appropriated for street lighting the ensuing year.

Article 34 taken up. (Surrender of tax deeds.)

Voted: That a sum not exceeding fifty dollars ($50) be appropriated to be expended by the Collector of Taxes, with the approval of the Town Counsel, for the purpose of obtaining the surrender and discharge from Julia E. Fuller and William Williams of various tax deeds given by the Collector, where by reason of error, omission or informality in the assessment or sale, the purchaser has no claim upon the property sold.

Article 35 taken up. (Rent of Union Hall.)

Voted: That the sum of twenty-five dollars ($25) be appropriated to pay bill for rent of Union Hall, Arlington Heights, for the years 1900, 1901, 1902, 1903, 1904 and 1905, said hall being used by the Registrars of Voters.

Article 36 taken up. (Anniversary appropriation.)

Voted: That the subject matter of this article be referred back to the Committee of Twenty-one for further investigation, said committee to report on the matter at the adjourned meeting March 26th.

Article 40 taken up. (Rescinding of vote on Wyman Street, etc.)

Voted: That the vote passed by the Town November 22, 1906, "that $2,050 of the sum appropriated for the construction of Palmer, Wyman and Tanager Streets and Avon Place be raised by general tax in 1907 and the balance, $5,000, be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding two years, bearing interest, signed by the Treasurer and countersigned by the Selectmen," be hereby rescinded.

Article 41 taken up. (Appropriation for Wyman Street and others.)

Voted: By a two-thirds vote, that of the sum of seven thousand fifty dollars ($7,050) appropriated for the construction of Palmer, Wyman and Tanager Streets and Avon Place, two thousand fifty dollars ($2,050) so appropriated be raised by general tax in 1907, and the balance of five thousand dollars ($5000) be borrowed, and in payment therefor there be issued five negotiable notes or bonds, each for the sum of one thousand dollars ($1,000), one payable in the year 1908, and one payable in each of the four succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Palmer, Wyman and Tanager Streets and Avon Place Loan," and to bear interest at a rate not exceeding four per cent per annum, payable semi-annually.

Article 8 taken up. (Town expenses, interest, debt and State aid.)

Voted: That the sum of fifteen thousand dollars ($15,000) be appropriated for the Sinking Fund, twelve thousand dollars ($12,000) to be taken from the income of the Water Works and three thousand dollars ($3,000) to be raised by general tax the current year, said amount to be paid to the Sinking Fund Commissioners, December 1st.

Voted: That thirteen thousand seven hundred sixty-five dollars and fifty-four cents ($13,765.54) of the unexpended balances and amounts in the treasury otherwise unappropriated, together with the sum of one thousand

two hundred thirty-four dollars and forty-six cents ($1,234.46) be appropriated for the payment of interest during the year 1907.

Voted: That the sum of one thousand seven hundred fifty dollars ($1,750) in addition to the income from boarders and sale of produce, be appropriated for the maintenance of the Almshouse during the year 1907.

Voted: That the sum of five thousand five hundred dollars ($5,500) be appropriated for the care of outside poor, in addition to such sums as the Town may receive from individuals reimbursing it for such care.

Voted: That the sum of one thousand three hundred firty-one dollars and sixty-four cents ($1,351.64) be appropriated to pay the following overdrafts paid during the year 1906.

Interest	$577 66
Fire Alarm	5 81
Health Department	100 95
Incidentals	122 23
Town House	9 99
Military Aid	366 00
Soldiers' Relief	169 00
	$1,351 64

Voted: That the sum of eleven thousand dollars ($11,000) be appropriated for the maintenance of the Fire Department for the year 1907.

Voted: That the sum of three hundred dollars ($300) be appropriated for the work of the Tree Warden during the year 1907 and that no part of said appropriation be expended for new trees.

Voted: That the sum of seven hundred twenty-five dollars ($725) be appropriated for the maintenance of the fire alarm system, said amount to include the cost of three indicators for the fire stations of the Town.

Voted: By a two-thirds vote, that there be appropriated from the income of the Water Department thirteen thousand forty dollars ($13,040) for interest on the water debt, twelve thousand dollars ($12,000), for the Sinking Fund and twenty-two thousand five hundred dollars ($22,500) for maintenance, renewal of main pipes, and Metropolitan Water Assessment.

Voted: By a two-thirds vote, that the sum of five thousand dollars ($5,000) be appropriated for the renewal of main pipes, and that said sum of five thousand dollars ($5,000) be borrowed, and in payment therefor there be issued five negotiable notes or bonds, one for the sum of one thousand dollars ($1,000), payable in the year 1911, and one in each of the four succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof as the "Water Pipe Renewal Loan of 1907," and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 42 taken up. (Rent of Lawrence Field.)

Voted: That the sum of one hundred sixty-five dollars ($165) be appropriated for the rental of Lawrence Field to be used by the school children for athletic purposes, under the direction of the School Committee.

Article 6 taken up. (School appropriation.)

Voted: That the sum of fifty-eight thousand five hundred dollars ($58,500) be appropriated for the maintenance of the schools for the year 1907, and in addition that the sum of two thousand five hundred dollars ($2,500) be appropriated for general repairs on school buildings, including the substitution of a larger boiler for the smaller boiler in the High School building, and the installation of an electric motor, said amounts to be expended under the direction of the School Committee.

Voted: That the following appropriations be made for the purposes indicated:—

Voted: That the report of the Committee of Twenty-one be laid on the table.

Article 23 taken up. (Wm. E. Wellington Gift.)

Voted: That

Whereas, William E. Wellington, of Dubuque, Iowa, has offered to donate the sum of eight hundred dollars ($800) to the Town of Arlington, for the purpose of the improvement of the area at the corner of Lowell Street and Massachusetts Avenue, under certain conditions more particularly set forth in the votes subjoined, be it

Voted: That the Town of Arlington, accept the gift of William E. Wellington of the sum of eight hundred dollars ($800), the same to be held by the Town and to constitute a separate fund to be styled "The William E. Wellington Fund" which shall be held and expended by the Selectmen of the Town and the Town Treasurer for the following purposes: In the improvement of the area at the intersection of Massachusetts Avenue and Lowell Street, including the erection thereon of a memorial tablet in bronze in memory of the parents of William E. Wellington, suitably inscribed. If any surplus remains after the aforesaid expenditures have been made, the balance is to be distributed by said Selectmen equally, share and share alike, to those widows living in the Town who are drawing State Aid at the time of said distribution.

And it is further voted that the aforesaid area be, and hereby is, dedicated to the aforesaid purposes.

Article 39 taken up. (Pertaining to educational interests.)

After a discussion of the subject by Messrs. Severy, Spurr and Mooers, a vote was taken and was declared by the Moderator as decided in the negative.

Article 38 taken up. (Discussion of school matters.)

Voted: That action under Article 38 be indefinitely postponed.

Article 9 taken up. (Selectmen, agents of the Town.)

Voted: That the Selectmen be appointed the agents of the Town to insti-

tute and prosecute actions in favor of the Town and appear and defend suits and legal proceedings against or involving the interests of the Town with power to employ counsel therein and, when necessary, in all other legal matters and business appertaining to Town affairs during the year commencing March 4, 1907.

Article 7 taken up. (Town ways, highways and bridges.)

Voted: That the town ways, highways, and bridges of the Town be repaired the ensuing year under the direction of the Board of Public Works.

Article 37 taken up. (Increase of Anniversary Committee.)

Voted: That the Committee heretofore appointed to arrange for the proper observance of the one hundredth anniversary of the incorporation of the Town be hereby authorized to increase its number.

Article 44 taken up. (New contract for street lighting.)

Voted: That a committee of nine (9) be appointed by the Moderator, to report to the Town at a special meeting, a form of contract or contracts for street lighting with prices for a period of years, or upon any other matters pertaining to any form of street lighting for the Town of Arlington.

Article 17 taken up. (Discontinue printing by-laws in Town reports.)

Voted: That the printing of the by-laws of the Town in the annual Town report be discontinued.

Article 15 taken up. (Action in relation to Town Meetings.)

Voted: That the question "Shall an act passed by the General Court in the year nineteen hundred and six, entitled 'An Act relative to Town Meetings in the Town of Arlington' and providing for the ratification of certain votes passed at such meetings be accepted by the Town" be submitted to the legal voters at the regular Town Meeting to be held for the State Election in November, 1907.

Article 12 taken up. (Revision of by-laws.)

Voted: That the subject matter of Article 12 be indefinitely postponed.

Article 4 taken up. (List of Jurors.)

Voted: That the names of Melvin L. Severy and Theodore P. Harding be stricken from the list of jurors.

Voted: That the list of jurors as revised by the Selectmen and amended at this meeting be accepted and adopted as follows:

Article 14 taken up. (To discontinue Town Insurance.)

Voted: That the subject matter of article 14 be indefinitely postponed.

Article 33 taken up. (Collection of Taxes for 1907.)

Voted: That the Collector of Taxes be and hereby is authorized to use all means of collecting taxes for the year 1907 which a Town Treasurer may use when appointed a Collector of Taxes.

Voted: That the meeting adjourn.

Meeting adjourned at twenty minutes after ten o'clock.

A True Record, Attest:

THOMAS J. ROBINSON,
Town Clerk.

Pursuant to adjournment the citizens of the Town of Arlington qualified to vote in elections and Town affairs, met in the Town Hall on Tuesday the twenty-sixth day of March, and were called to order at thirty minutes after seven o'clock in the evening by the Moderator John G. Brackett.

Voted: That Article 3 (Reports of Town Officers and Committees) be taken from the table.

The report of the Committee of twenty-one was then taken up.

Article 19 taken from the table. (New Vault room.)

Voted: That the sum of $1,300.00 be appropriated for the construction and equipment of a brick vault on the easterly side of the Town Hall Building, for the safe keeping of Town Records, papers and documents, said amount to be expended under the direction of the Selectmen.

Article 22 taken from the table. (Town Hall repairs.)

Voted: That the sum of $800.00 be appropriated for Town House repairs, said amount to include painting and decorating the interior of the building and repairs to the ladies' dressing room and the Selectmen's office.

Article 16 taken up. (Discontinuation of Almshouse.)

Voted: That the Almshouse be discontinued by the Overseers of the Poor on or before July 1, 1907, and that the same be appropriated to such other uses as the Selectmen may determine.

Under article 2, of the warrant, the following officers were nominated, and elected to the office and for the term stated:—

Fence Viewers for one year — Philip A. Hendrick., Henry S. Adams.

Field Drivers for one year—Thomas O. D. Urquhart, Garritt Barry, Daniel M. Hooley, Andrew Irwin, John Duffy, James E. Whitten, Thomas F. Priest and F. Joseph Cahalin.

Measurers of Wood and Bark for one year — Edward I. McKenzie, Patrick F. Brosnahan, Frank P. Dyer.

Fish Preserver for one year— Daniel Wyman.

Voted: That the reports of the various town officers, as presented in the Annual Town Reports for the year ending December 31, 1906, be accepted.

Article 36 taken from the table. (Centennial Celebration.)

Voted: By a two-thirds vote, that the sum of $600.00, in addition to the amount appropriated at the November meeting, be appropriated for the observance of the one-hundredth anniversary of the incorporation of the Town, said amount to be expended under the direction of the Committee appointed by the Town for that purpose.

Article 10 taken from the table. (Committee of 21.)

The report of the Committee appointed to select a committee of twenty-one, to serve during the ensuing year, made a report and said report was accepted and it was,

Voted: That the following named citizens, nominated by said committee, be declared elected as a committee of twenty-one to serve the Town for the ensuing year in accordance with the vote passed under article 10 of the warrant:—

Frederick A. Bisbee	Editor	107 Appleton St.
Theodore Everett	Printer	82 Wollaston Ave.
Henry K. Brown	Shoemaker	52 Westmoreland Ave.
Edward W. Nicoll	Clerk	10 Montague St.
Robert J. Kelly	Express Agent	15 Walnut St.
William H. Murray	Grocer	47 Mt. Vernon St.

Frank H. Hubbard	Salesman	361 Mass. Ave.
William A. Hill	Clergyman	13 Marathon St.
Max H. Meyer	Piano Maker	69 Henderson St.
Charles A. Parker	Foreman	128 Lake St.
John J. Lyons	Farmer	170 Lake St.

Article 43 taken up. (Town grant.)

Voted: That the several amounts appropriated at this meeting for the purposes indicated by the various votes, and not otherwise provided for, amounting to one hundred seventy-four thousand two hundred ninety-three dollars and twenty-eight cents ($174,293.28), together with the sum of nine thousand seven hundred twenty-six dollars and seventy-four cents ($9,726.74), appropriated at the November meeting of 1906, making a total of one hundred eighty-four thousand twenty dollars and two cents ($184,020.02), be raised by general tax the present year.

The Committee appointed to investigate the subject of making a new contract or contracts for street lighting are as follows: S. Frederick Hicks, Fred.

S. Mead, J. Howell Crosby, Peter Schwamb, William N. Winn, Henry W. Hayes, Henry Hornblower, Philip Eberhardt and Walter B. Douglass.

Voted: That this meeting adjourn. Meeting dissolved at forty-five minutes after eight o'clock.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

ARLINGTON, March 5, 1907.

I hereby certify that I have this day appointed Edna C. Pierce Assistant Town Clerk and that she has taken the oath required by Chapter 25, Section 62, of the Revised Laws, for the faithful performance of her duties.

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—MONDAY, JULY 1, 1907, AT 8.00 O'CLOCK P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX, ss.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and Town affairs, to assemble in the Town Hall, on Monday, the first day of July, next, at 8.00 o'clock P. M., then and there to act on the following articles, viz:—

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To hear and act on the report of the Committee appointed by the Moderator, March 19, 1907, "to report to the Town at a special meeting a form of contract or contracts for street lighting, with prices for a period of years, or upon any other matters pertaining to any form of street lighting for the Town of Arlington."

ART. 3. To see if the Town will made an appropriation to be expended during the year 1907, for the suppression of the gypsy and brown-tail moths, in accordance with the provisions of Chapter 381, Acts of 1905 and Acts in amendment thereto.

ART. 4. To see if the Town will make an additional appropriation for fire insurance.

ART. 5. To see if the Town will make an appropriation of $35 for painting cupola of Town Hall in September, 1906.

ART. 6. To see what action the Town will take relative to rescinding, either in whole or in part, its vote of March 19, 1907, whereby it voted to submit to the legal voters of the Town at the regular Town meeting to be held in November, 1907, the question as to whether an act passed by the general court in the year 1906, relative to Town meetings in the Town of Arlington, be accepted by the Town.

ART. 7. To see what action the Town will take in regard to the renewal of cement lined water mains and make any necessary appropriation.

(Inserted at request of Board of Public Works.)

ART. 8. To see if the Town will make an additional appropriation for the extension of the Sewerage System for the current year.

(Inserted at request of Board of Public Works.)

Hereof, fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this twentieth day of June, in the year of our Lord one thousand nine hundred and seven.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Selectmen of the Town of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

MIDDLESEX COUNTY. ARLINGTON, June 29, 1907.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed copy to be left at every dwelling house in the Town, and also by posting an attested copy on the doors of the Town Hall, seven days at least before the said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, in said Arlington, on Monday, the first day of July, in the year of our Lord nineteen hundred and seven and were called to order at eight o'clock in the evening, by the Town Clerk, who read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

Phillip A. Hendrick and Daniel F. Ahern were appointed tellers to receive, sort and count ballots for Moderator and were sworn to the faithful performance of their duties.

Three (3) ballots were cast all bearing the name of John G. Brackett and he was declared elected Moderator and sworn to the faithful performance of his duties.

The Committee of Twenty-One, to whom had been referred all articles in the Warrant calling for an appropriation, made their report in print which was distributed to the citizens assembled.

Article 7 taken up. (Renewal of cement lined water mains.)

Voted: By a two-thirds vote, that the sum of ten thousand dollars ($10,000)

be appropriated for the renewal of main pipes, and that said sum of ten thousand dollars ($10,000) be borrowed and in payment therefor there be issued ten negotiable notes or bonds, one for the sum of one thousand dollars ($1,000) payable in the year 1911, and one in each of the nine succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof as the "Water Pipe Renewal Loan of 1907," and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 3 taken up. (Gypsy and brown-tail moth suppression.)

Voted: By a two-thirds vote, that the sum of nine thousand seven hundred twenty-six dollars and thirty-four cents ($9,726.34) and the balance of the appropriation of November 22, 1906, remaining unexpended May 1, 1907, be appropriated to be expended from May 1, 1907, to November 30, 1907, under the direction and control of the Selectmen in suppressing the gypsy and brown-tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905, and amendments thereto. That three thousand five hundred ninety-eight dollars and thirty-four cents ($3,598.34) of said sum be raised by general tax in 1907, and the balance, six thousand one hundred twenty-eight dollars ($6,128), be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 6 taken up. (Rescinding of vote of March 19, 1907.)

Voted: That the vote of the Town passed March 19, 1907, whereby it was voted to submit to the legal voters of the Town at the regular Town meeting to be held in November, 1907, the question as to whether an Act passed by the General Court in the year 1906, relative to Town meetings in the Town of Arlington, be accepted by the Town, be rescinded.

On motion of Frank W. Hodgdon, the following resolution was adopted.

Resolved: That the Selectmen insert an article in the warrant for a Town meeting early in the fall, submitting to the Town the question whether the Town will accept Chapter 168 of the Acts of 1906, relative to Town meetings in the Town of Arlington.

Article 4 taken up. (Additional appropriation for fire insurance.)

Voted: That the sum of three hundred fifty dollars ($350) be appropriated for fire insurance and that said sum be raised by general tax in 1907.

Article 5 taken up. (Painting cupola of Town Hall.)

Voted: That the sum of thirty-five dollars ($35) be appropriated to pay a bill for painting the cupola of Town Hall in September, 1906, and that said sum be raised by general tax in 1907.

Article 8 taken up. (Extension of sewer system.)

Voted: By a two-thirds vote, that the sum of four thousand dollars ($4,000) be appropriated for the extension of the sewerage system, and for the purpose of raising the four thousand dollars ($4,000) there be issued four notes or bonds each for the sum of one thousand dollars ($1,000), the first payable in

the year 1912, and one in each of the three succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof as the "Sewer Loan of 1907," and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 2 taken up. (Report of committee on street lighting.)

S. Frederick Hicks, Chairman of the Committee appointed by the Moderator to investigate and report to the Town on the subject of street lighting, made the following report:

ARLINGTON, July 1, 1907.

To the Town of Arlington:

In accordance with the following vote passed by the Town March 19, 1907:

Voted: "That a committee of nine (9) be appointed by the Moderator to report to the Town at a special meeting a form of contract or contracts for street lighting with prices for a period of years, or upon any other matters pertaining to any form of street lighting for the Town of Arlington."

The Moderator appointed S. Frederick Hicks, Frederick S. Mead, J. Howell Crosby, Peter Schwamb, William N. Winn, Henry W. Hayes, Henry Hornblower, Philip Eberhardt and Walter B. Douglass as said Committee.

This Committee have attended to their duties and respectfully submit the following report:

May second, the committee met and organized in the choice of S. Frederick Hicks, Chairman, and Horace A. Freeman, Clerk.

Realizing that there are only two methods of satisfactorily lighting the streets of our Town, namely, by gas and electricity, the committee invited bids for doing this lighting from the Arlington Gas Light Company, and from the Edison Electric Illuminating Company, of Boston, and arranged for interviews with representatives of each company.

The Arlington Gas Light Company was represented before the committee by Mr. Edwin Garsia, District Manager of the Welsbach Street Lighting Company of America, through whom they tendered their bid. This company offered to furnish "one hundred (100) or as many more as may be required, of sixty (60) candle power Welsbach street gas lights, these to be where gas mains now exist, for the following prices:—

For a term of three (3) years, lights to burn every night from dusk to one (1) o'clock A. M., a total of not exceeding two thousand six hundred (2,600) hours in any one year, for the sum of twenty-six dollars and seventy-five cents ($26.75) each per light per annum."

For a term of five (5) years, under the same schedule, for the sum of twenty-six dollars and twenty-five cents ($26.25) each per light per annum.

The committee after concluding its investigation decided that on account of the price and the limited area of the Town that could be lighted by gas, it was inexpedient to adopt this method of street lighting.

The committee in taking up the matter of electric street lighting, invited representatives of The Edison Electric Illuminating Company, of Boston, before them, and were presented with the following prices for the same num-

ber of lights and the same number of hours for burning as are now in force, namely, eighty-one (81) arcs and two hundred twenty-nine incandescents burning every night to one (1) o'clock, or a total of two thousand four hundred and eight (2,408) hours per year:

For one year contract	.....	$11,091.09 per year
five " "	.....	10,536.54 " "
ten " "	.....	9,981.98 " "
twenty " "	.....	8,872.87 " "
Without contract	.....	12,388.36 " "

Upon receipt of this proposition the Committee requested the Edison Company to submit to the Committee a form of contract, which was done.

This form of contract was then submitted to our Town Counsel with a memoranda of certain changes and amendments for further protection of the Town's interests. After these memoranda were put into legal shape, the amended contract was submitted to representatives of the Edison Company, whom the committee had invited to appear before them, and after several conferences with them the contract was finally adjusted to the satisfaction of the Committee and the Edison Company.

A copy of this contract is herewith attached to this report.

The proposition submitted by the Edison Company contemplates a 5 per cent discount on a five year contract, a 10 per cent discount on a 10 year contract and a 20 per cent discount on a twenty year contract.

Under a 20 year contract the Town will save $1,663.67 per year as compared with a five year contract, or $33,273.40 in 20 years; including interest at 4 per cent the saving will be $49,540.89.

As compared with a one year contract the saving will be $2,218.22 per year, or $44,364.40 in 20 years; including interest at 4 per cent the saving will be $66,054.30.

Under a 20 year contract the cost for additional lights will be $64.83 for arcs and $12.99 for incandescents.

We are now paying $73.00 for arcs and $23.50 for incandescents or a total cost of $11,294.50 per year.

The Committee, after considering these prices, arrived at the conclusion that it was wise to recommend the Town's adopting the 20 year contract as per copy attached, and do so recommend.

The attention of the citizens is called especially to clauses in the contract as follows:

1. In Article 8, wherein it says " If, during the continuance of this contract the company's regular prices for arc or incandescent lights furnished to other municipalities are reduced, a like reduction shall be made in the prices of the arc and incandescent lights herein provided for.

2. Also in Article 8, wherein it provides for an appeal once in three years to the Gas and Electric Light Commissioners for a reduction in rates if the Town feel that the prices then paid are unreasonably high.

3. In Article 12, wherein it says " If, during the existence of this contract the Town of Arlington shall decide to establish a municipal electric lighting

plant in any manner authorized by law, this contract may thereafter be terminated by either party thereto on ninety days notice in writing to that effect.

4. In Article 6 for the provisions relative to underground construction.

It should be stated that the form of contract herewith appended applies in full to a twenty-year contract only, and that in the event of a one five or ten year contract the municipal lighting plantclause, and the clause relative to an appeal to the Gas and Electric Light Commissioners shall be stricken out.

Respectfully submitted,

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
PETER SCHWAMB,
H. W. HAYES,
HENRY HORNBLOWER,
PHILIP EBERHARDT,
W. B. DOUGLASS,
Committee.

Copy of contract file No. 478.

The report of the committee was accepted.

Voted: On motion of William G. Peck, that the Selectmen of the Town be authorized and empowered in the name and behalf of the Town, to enter into a contract with the Edison Electric Illuminating Company for lighting the streets of the Town for a term of twenty years, the terms of said contract to be substantially in accordance with the terms of the contract set forth and recommended in the report of the committee on street lighting accepted by the Town July 1, 1907.

Voted: That this meeting do now adjourn. Meeting dissolved at thirty minutes after nine o'clock.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—MONDAY, SEPTEMBER 30, 1907, AT 7.00 O'CLOCK P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX, ss.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and Town affairs, to assemble in the Town Hall, on Monday, the thirtieth day of September, current, at 7.00 o'clock A. M., then and there to act on the following articles, viz:

ARTCLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To vote by ballot "Yes" or "No" upon the question, "Shall an act passed by the General Court, in the year nineteen hundred and six, entitled, 'An act relative to Town Meetings in the Town of Arlington' and providing for the ratification of certain votes passed at such meetings, be accepted by the Town?" For this purpose the polls will be opened as soon as possible after the organization of the meeting and kept open until 4 o'clock P. M.

Hereof, fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this fourteenth day of September, in the year of our Lord one thousand nine hundred and seven.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Selectmen of the Town of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

CHAPTER 168, ACTS OF 1906.

AN ACT RELATIVE TO TOWN MEETINGS IN THE TOWN OF ARLINGTON

Be it enacted, etc., as follows:

SECTION 1. At all Town Meetings held in the Town of Arlington, the Town shall use a system of registering turnstiles for determining the number of persons admitted to each meeting. The Selectmen shall appoint officers to have charge of the turnstiles, and shall determine from them the number of persons admitted to each meeting, and at the adjournment thereof shall make a return to the Town Clerk under oath, which may be administered by him, of the number of persons who have been admitted to such meeting, as registered by such turnstiles. The Town Clerk shall immediately make a record of such return in the records of the meeting, which record shall have the same legal force and effect as the records of the proceedings of the meeting. All such returns shall be preserved by the Town Clerk until at least twenty days after the final adjournment or dissolution of the meeting to which they relate, and shall be open to public inspection.

SEC. 2. Any vote passed at an original or adjourned Town meeting to which four hundred or more persons shall have been admitted shall, upon petition, be submitted to the voters at large for ratification at a subsequent Town meeting, as hereinafter provided, except that votes for the moderator, or for any Town, county, state or national officer, or any proposition on which by any special or general law of the Commonwealth a yea or nay vote is required to be taken by ballot, shall be final. No vote subject to ratification under the provisions of this act shall take effect until the expiration of the time herein limited for filing a petition for ratification; nor, if such petition be filed, until after such vote shall be ratified in the manner hereinafter provided.

SEC. 3. If within five days after the final adjournment or dissolution of such Town meeting a petition addressed to the Selectmen shall be filed with the Town Clerk, signed by at least fifty legal voters of the Town, requesting that any vote or votes passed at such meeting, except the final votes before mentioned, be submitted to the voters of the Town for ratification, then the Selectmen shall, after the expiration of said five days, forthwith call a Town meeting for the sole purpose of so submitting such vote or votes. In case two or more votes passed at a Town meeting relate to one subject-matter, and a petition is filed as aforesaid for the ratification of one or more such votes, the Selectmen may in their discretion submit, in addition to those for which petitions are filed, any or all of the votes relating to the same subject-matter; and for this purpose a vote to borrow money shall be held to relate to the same subject-matter as the vote or votes to appropriate the money to be

borrowed. The polls shall be opened at two o'clock in the afternoon and shall be closed not earlier than nine o'clock in the evening, and a vote shall be taken by ballot upon the question, "Shall the following vote (or votes) passed at the Town meeting (or at the adjourned Town meeting) held on the day of 19 , be ratified? Vote: " Any vote or votes submitted for ratification, as aforesaid, receiving a majority of the votes cast thereon, shall be considered to be ratified, otherwise such vote or votes shall have no force or effect: *provided*, that if any vote required for its original passage more than a majority of the votes cast, then a like proportion shall be required for ratification.

SEC. 4. Every petition filed as aforesaid shall forwith be examined by the Town Clerk, who shall ascertain therefrom the number of legal voters whose signatures are attached thereto, and shall make a record thereof, and such record, together with a copy of the petition, exclusive of the names affixed thereto, shall be inserted in the records of the meeting for ratification of the vote or votes named in the petition, which record shall have the same legal force and effect as the record of the proceedings of such meeting. All such petitions shall be preserved by The Town Clerk until at least twenty days after the final adjournment or dissolution of said meeting, and during that period shall be open to public inspection.

SEC. 5. It shall be the duty of the Selectmen of the Town to prepare the ballots to be used at such Town meetings, and the conduct of such meetings shall be under their charge, subject to the laws relating to elections, so far as the same may be applicable.

SEC. 6. A meeting shall be held for the purpose of submitting the question of the acceptance of this Act to the legal voters of the Town at some time within two years after the passage hereof. At such meeting the polls shall be open not less than eight hours and the vote shall be taken by ballot as in the case of the annual Town election, in answer to the question, "Shall an Act passed by the General Court, in the year nineteen hundred and six, entitled 'An Act relative to Town meetings in the Town of Arlington,' and providing for the ratification of certain votes passed at such meetings, be accepted by the Town?" and the affirmative votes of a majority of the voters present and voting thereon shall be required for its acceptance. If at any meeting so held this act shall fail to be accepted, it may, at the expiration of three months after any such previous meeting, be submitted again for acceptance, but not after the period of two years from the passage of this Act.

SEC. 7. So much of this Act as authorizes the submission of the question of its acceptance to the legal voters of the Town shall take effect upon its passage, but it shall not take further effect unless accepted by the legal voters of the Town as herein prescribed. [*Approved March 16, 1906.*

MIDDLESEX COUNTY.

ARLINGTON, Sept. 28, 1907.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place and for the purpose herein named, by causing a printed attested copy of the same to be left at every dwelling house in Town, and also by posting an attested copy of said warrant on the door of the Town Hall in said Arlington, seven days at least, before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall in Arlington, on Monday, the thirtieth day of September, in the year of our Lord one thousand nine hundred and seven, and were called to order at seven o'clock in the morning, by the Town Clerk, who read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

Horace A. Freeman and James M. Mead who had previously been appointed tellers by the Selectmen, were sworn to the faithful performance of their duties and placed in charge of the check list and ballot box for the election of Moderator. Nine ballots were cast all bearing the name of John G. Brackett and he was declared elected Moderator and sworn to the faithful performance of his duties.

The following ballot clerks and tellers, previously appointed by the Selectmen, were sworn to the faithful performance of their duties and assigned as follows:

Ballot Clerks—Lindsay K. Foster and John J. Mahoney.

Tellers—Horace A. Freeman, George C. Tewksbury and James M. Mead.

A sealed package of ballots was then delivered to the Moderator who publicly broke the seal and delivered the ballots to the ballot clerks.

Cards of instructions and penalties on voters were posted in prominent places as were also specimen ballots in comformity to law.

All arrangements, required by law for the annual Town election, were complied with.

The ballot box was examined by the Moderator and Town Clerk, and found to be empty with the register set at zero.

The box was then locked and the keys delivered into the custody of Constable Charles F. Donahue, in whose possession they remained until the close of the polls.

A list of registered voters was supplied by the Registrars of Voters to the Ballot Clerks and Checkers at the ballot box.

The polls were then declared open for the reception of votes in answer to the question, "Shall an Act passed by the General Court in the year nineteen hundred and six, entitled 'An act relative to Town meetings in the Town of Arlington' and providing for the ratification of certain votes passed at such

meetings, be accepted by the Town?" under article two of the warrant and remained open until four (4) o'clock in the afternoon at which time, after due notice, they were declared closed.

At the close of the polls the ballot box registered fifty (50) votes.

The names checked at the ballot box and those checked by the Ballot Clerks were counted and found to agree with the number registered at the ballot box fifty (50) votes.

The ballots not used were enclosed in a package, sealed and delivered to the Town Clerk.

The ballots cast were then canvassed by the Moderator, Town Clerk and Tellers and declaration made thereof at eight (8) minutes after four (4) o'clock, as follows:

Whole number of votes cast fifty (50).

Votes cast in the affirmative, forty-four (44).

Votes cast in the negative, six (6) and declaration was made that the Town had accepted Chapter 168, Acts of 1906, entitled "An act relative to Town meetings in the Town of Arlington" and providing for the ratification of certain votes passed at such meetings, by a majority vote of the voters present and voting thereon.

The check list used at the entrance to the polling place together with the list used at the ballot box and the ballots cast were then sealed up in open meeting and indorsed by the election officers. They were then delivered into the custody of the Town Clerk.

The blank forms approved by the Secretary of the Commonwealth were used by the tellers in counting and tabulating the ballots cast.

Voted: That this meeting do now adjourn.

Meeting adjourned at fifteen (15) minutes after four (4) o'clock in the afternoon.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

ARLINGTON, Oct. 8, 1907.

I hereby certify that I have this day notified William M. Olin, Secretary of the Commonwealth, that the Town of Arlington had accepted Chapter 168, Acts of 1906, at a Town meeting held on September 30, 1907, duly called for that purpose, that the polls were kept open more than eight (8) hours, that the vote was taken by ballot as in the case of annual Town elections, that the Act was accepted by a majority of the voters present and voting thereon, and that said meeting was held within two (2) years from the passage of said Act.

THOMAS J. ROBINSON,
Town Clerk.

STATE ELECTION—TUESDAY, NOVEMBER 5, 1907, AT 6 O'CLOCK A. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX, ss.

To either of the Constables of the Town of Arlington, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified as the constitution requires, to vote in elections and Town affairs, to assemble in the Town Hall, in said Town, Tuesday, the fifth day of November next, it being the Tuesday next after the first Monday in said month at 6.00 o'clock, A. M., then and there to act on the following articles, viz:—

ARTICLE 1. To bring in their votes to the Selectmen for a Governor; a Lieutenant-Governor; a Secretary; a Treasurer and Receiver-General; an Auditor of Accounts; an Attorney-General for the Commonwealth; A Councillor for the Sixth Councillor District; a Senator for the Sixth Middlesex District; a Representative in the General Court for the twenty-ninth Representative District in the County of Middlesex; a District Attorney for the Northern District, Middlesex County for three years; a County Commissioner for three years; two Associate Commissioners for three years; a Sheriff for Middlesex County for three years. Also, to give in their votes, "yes" or "no," as to approving and ratifying the proposed amendment to the Constitution authorizing the Governor, with the consent of the Council, to remove Justices of the Peace and Notaries Public.

All the above to be voted for on one ballot. The polls will be opened immediately after the organization of the meeting and will be kept open until four o'clock and thirty minutes in the afternoon, and as much longer as the meeting directs, provided the time shall not be after the hour of sunset.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this nineteenth day of

October, in the year of our Lord one thousand nine hundred and seven.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Selectmen of the Town of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

MIDDLESEX COUNTY.

ARLINGTON, October 30, 1907.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs to meet at the time and place for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the Town, and also by posting an attested copy on the doors of the Town Hall, seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

A true copy of the warrant. Attest:

THOMAS J. ROBINSON,
Town Clerk.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, on Tuesday, the fifth day of November, in the year of our Lord one thousand nine hundred and seven, it being the next Tuesday after the first Monday in said month, and were called to order by S. Frederick Hicks, Chairman of the Board of Selectmen, at six o'clock in the forenoon. Mr. Hicks read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants. Mr. Hicks then took charge of the meeting and acted as Chairman.

The laws of the Commonwealth governing elections had been complied with, and the Town Hall was fitted up as a polling place, a space railed off and booths and shelves provided for the use of voters to examine and mark their ballots.

The following persons having been appointed by the Selectmen as Ballot Clerks, Tellers and Inspectors, were sworn to the faithful performance of their duties by the Town Clerk, and assigned as follows:

Ballot Clerks—Edgar Crosby and John J. Mahoney.

Tellers—Horace A. Freeman, George H. Peirce, George C. Tewksbury, Lindsay K. Foster, Arthur L. Bridgham, Frank B. Records, Jr., Howard I. Durgin, David T. Dale, William D. Grannan, Frank A. O'Brien, Maurice P. Ahern.

Inspectors—Arthur L. Marston and Frank F. Russell.

George H. Peirce and George C. Tewksbury were assigned as Checkers at the ballot box.

Horace A. Freeman was assigned to have charge of the ballot box.

A sealed package of ballots, containing two thousand two hundred (2,200) ballots, supplied by the Secretary of the Commonwealth, was then delivered by the Town Clerk to the presiding officer, who publicly broke the seal and delivered the ballots to the Ballot Clerks.

Specimen ballots and cards of instructions were posted in conformity to law as were cards of penalties on voters for violation of the law governing elections.

The ballot box was examined by the presiding officer and Town Clerk, and was found to be empty, and the register set at zero.

A list of registered voters was supplied to the Ballot Clerks and Tellers by the Registrars of Voters.

The keys of the ballot box were delivered into the custody of Constable Garritt Barry and remained in his possession until the close of the polls, when they were delivered to the Town Clerk.

The polls were then declared open for the reception of votes and were kept open until thirty (30) minutes after four (4) o'clock in the afternoon, when, after due notice, they were declared closed. By consent of the presiding officer and the Town Clerk, the ballot box was opened at 8.15 A. M., and at various times during the day for the purpose of removing the ballots to be counted.

At the close of the polls the ballot box registered eleven hundred and fifteen (1115) votes. By comparison this number was found to agree with the names checked by the Ballot Clerks and the Checkers at the ballot box.

The unused ballots were counted by the Ballot Clerks and found to number ten hundred and eighty-five (1085) and this number with the eleven hundred and fifteen (1115) cast made the total number twenty-two hundred (2200) as received from the Secretary of the Commonwealth.

The election officers canvassed the votes given in and the whole number was found to be eleven hundred and fifteen (1115), which were sorted, counted and declaration made thereof in open meeting, as required by law, at five o'clock as follows: —

GOVERNOR.

Charles W. Bartlett, of Newton, had twelve (12) votes.

Thomas F. Brennan, of Salem, had five (5) votes.

John W. Brown, of Worcester, had three (3) votes.

Hervey S. Cowell, of Ashburnham, had five (5) votes.

John Hall, Jr., of Chicopee, had eight (8) votes.
William M. Olin, of Boston, had seven hundred ninety-three (793) votes.
Arthur E. Reimer, of Boston, had two (2) votes.
Dennis J. Ring, of Lowell, had eighty-two (82) votes.
Blanks, sixty-eight (68); ballots cast, eleven hundred fifteen (1115).

TREASURER.

Albert Barnes, of Fall River, had four (4) votes.
Edward J. Cantwell, of Fall River, had seventy-nine (79) votes.
Arthur B. Chapin, of Holyoke, had seven hundred sixty-seven (767) votes.
William P. Connery, of Lynn, had three (3) votes.
Daniel F. Doherty, of Westfieid, had one hundred sixty-four (164) votes.
Charles C. Hitchcock, of Ware, had four (4) votes.
Edward Kendall, of Cambridge, had eighteen (18) votes.
Blanks, seventy-six (76) ballots cast eleven hundred fifteen (1115

AUDITOR.

Joao Claudino, of New Bedford, had five (5) votes.
Joseph A. Conry, of Boston, had one hundred sixty-five (165) votes.
Thomas E. Finnerty, of Clinton, had seventy-five (75) votes.
George G. Hall, of Boston, had eight (8) votes.
James F. Pease, of Merrimac, had seventeen (17) votes.
Henry E. Turner, of Malden, had seven hundred fifty-eight (758) votes.
Blanks, eighty-seven (87); ballots cast eleven hundred fifteen (1115).

ATTORNEY-GENERAL.

Allen Coffin, of Nantucket, had twelve (12) votes.
Dana Malone, of Greenfield, had seven hundred fifty-two (752) votes.
John McCarthy, of Abington, had eight (8) votes.
James E. McConnell, of Boston, had one hundred sixty-six (166) votes.
William N. Osgood, of Lowell, had eighty-five (85) votes.
Harvey H. Pratt, of Scituate, had two (2) votes.
Gilbert G. Smith, of Lawrence, had seven (7) votes.
Blanks, seventy-nine (79); ballots cast eleven hundred fifteen (1115).

COUNCILLOR.

Alvin S. Bennett, of Westford, had two hundred twenty-four (224) votes.
Seward W. Jones, of Newton, had seven hundred fifty-nine (759) votes.
William H. Partridge, of Newton, had twenty-five (25) votes.
Blanks, one hundred seven (107); ballots cast eleven hundred fifteen (1115).

SENATOR.

Herbert S. Riley, of Woburn, had seven hundred fifty-seven (757) votes.
Whitfield L. Tuck, of Winchester, had two hundred forty-seven (247) votes.
Blanks, one hundred eleven (111); ballots cast eleven hundred fifteen (1115).

REPRESENTATIVE IN GENERAL COURT.

Horace D. Hardy, of Arlington, had eight hundred ninety-seven (897) votes.
Blanks, two hundred eighteen (218); ballots cast eleven hundred fifteen (1115).

COUNTY COMMISSIONER.

Francis Bigelow, of Natick, had seven hundred forty-one (741) votes.
George A. DeLord, of Acton, had one hundred seventy-seven (177) votes.
Austin B. Rollins, of Cambridge, had twelve (12) votes.
George W. C. Smith, of Somerville, had seventy-six (76) votes.
Blanks, one hundred nine (109); ballots cast eleven hundred fifteen (1115).

ASSOCIATE COMMISSIONERS.

James H. Christie, of Newton, had one hundred one (101) votes.
George B. Glidden, of Waltham, had one hundred twenty-five (125) votes.
Matthew H. Quick, of Cambridge, had twenty-four (24) votes.
David T. Strange, of Stoneham, had six hundred fifty-four (654) votes.
Edward Everett Thompson, of Woburn, had five hundred sixty-six (566) votes.
Charles A. Ward, of Stoneham, had seventeen (17) votes.
Blanks, seven hundred forty-three (743); ballots cast eleven hundred fifteen (1115).

DISTRICT-ATTORNEY, NORTHERN DISTRICT.

John J. Higgins, of Somerville, had eight hundred twenty-five (825) votes.
John J. McClure, Jr., of Lowell, had one hundred ninety-three (193) votes.
Blanks, ninety-seven (97); ballots cast eleven hundred fifteen (1115).

SHERIFF, MIDDLESEX COUNTY.

John R. Fairbairn, of Cambridge, had eight hundred and two (802) votes.
Albion A. Weeks, of Cambridge, had thirty-four (34) votes.
George W. Wilkins, of Carlisle, had one hundred eighty-nine (189) votes.
Blanks, ninety (90); ballots cast eleven hundred fifteen (1115).

On the question "Shall the proposed amendment to the constitution authorizing the Governor, with the consent of the Council, to remove justices of the peace and notaries public be approved and ratified?" six hundred seventy six (676) voted "yes" and one hundred one (101) voted "no."

Blanks, three hundred thirty-eight (338); ballots cast eleven hundred fifteen (1115).

The election returns were then filled, signed by the Selectmen, countersigned by the Town Clerk, sealed up in open meeting and delivered to the Town Clerk to be forwarded to the several places of destination.

The presiding officer then declared the meeting dissolved, all business calling the meeting having been transacted at thirty-minutes after five o'clock.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

ARLINGTON, November 15, 1907.

Pursuant to the law the Town Clerks of Arlington and Lexington met in the office of the Town Clerk of Arlington, on Friday, the fifteenth day of November in the year of our Lord one thousand nine hundred and seven, at twelve o'clock noon, for the purpose of canvassing the votes cast on the fifth day of November, for a Representative to the General Court of the Commonwealth to represent the twenty-ninth Middlesex District.

The canvass showed the following result of the votes cast in Arlington and Lexington:

Horace Dexter Hardy had in Arlington eight hundred ninety-seven (897) votes and in Lexington four hundred eighty-two (482), making a total of thirteen hundred seventy-nine (1379) votes.

There being no other person receiving votes the total votes of both Towns showed that Horace Dexter Hardy, of Arlington, had a majority of all the votes cast by both Towns.

Two certificates were filled out, signed by the Clerks of both Towns, one sent to the Secretary of the Commonwealth, and the other delivered to Horace Dexter Hardy, of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk of Arlington.

GEORGE D. HARRINGTON,
Town Clerk of Lexington.

MIDDLESEX COUNTY.

ARLINGTON, November 15, 1907.

By virtue of my office as Constable of the Town of Arlington, I have this day served, by giving in hand, the certificate of election, as Representative to the General Court to be holden on the first Wednesday of January next, to Horace D. Hardy, of 48 Irving Street, Arlington.

CHARLES F. DONAHUE,
Constable of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING, NOVEMBER 18, 1907.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX ss.

To either of the Constables of the Town of Arlington, in said County,
GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified as the constitution requires, to vote in elections and Town affairs, to assemble in the Town Hall, in said Town, on Monday, the eighteenth day of November next, at 8.00 o'clock, P. M., then and there to act on the following articles, viz:—

ARTICLE 1. To bring in their votes to the Town Clerk for a moderator to preside for the transaction of Town business

ART. 2. To hear and act on the reports of committees heretofore appointed.

ART. 3. To see if the Town will make an appropriation to be expended from Nov. 30, 1907, and for the twelve months next ensuing, for suppressing the gypsy and brown tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 4. To see if the Town will make an appropriation for a new air compressor for Fire Alarm purposes.

ART. 5. To see if the Town will vote to grade and construct sidewalk with edgestone on both sides of Beacon street, the same to be done under Chapter 49 of the revised Laws relative to assessments, and make an appropriation for the same.

(Inserted at request of Joint Board.)

ART. 6. To see if the Town will make an additional appropriation for the Health Department.

(Inserted at request of Board of Health.)

ART. 7. To see if the Town will make an appropriation for the further extension of the Sewerage System, and determine in what manner the money shall be raised.

(Inserted at the request of the Board of Public Works.)

Art. 8. To see if the Town will vote to increase the salary of the Inspector of Plumbing, and make an appropriation for the same.

(Inserted at the request of the Board of Health.)

Art. 9. To see if the Town will vote to install a new heater in Highland Hose House No. 2, and make an appropriation for the same.

(Inserted at request of Engineers of Fire Department.)

Art. 10. To see if the Town will make an additional appropriation for the Fire Department.

(Inserted at request of Engineers of Fire Department.)

Art. 11. To see if the Town will appoint a committee to investigate the congested condition of the Locke School District and report at a future Town meeting a proper relief of the same, with recommendations.

(Inserted at request of School Committee.)

Art. 12. To see if the Town will make an additional appropriation for the Metropolitan Water Assessment and for the maintenance of the Water Works, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

Art. 13. To see what action the Town will take in regard to the further extension of water mains, and make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

Art. 14. To see if the Town will vote to accept the provisions of sections 21, 22, 23, 24 and 25 of Chapter 78 of the Revised Laws, said sections being relative to the Board of Cemetery Commissioners.

(Inserted at request of Trustees of Cemeteries.)

Art. 15. To see if the Town will make an additional appropriation for Incidental account.

Art. 16. To see if the Town will make an additional appropriation for Town House account.

Art. 17. To see if the Town will make an additional appropriation for care of Town House site.

Art. 18. To see if the Town will authorize the Overseers of the Poor to transfer from the Almshouse account, to the Outside Poor account, the balance remaining in said Almshouse account or any part of the same.

Art. 19. To see if the Town will make an appropriation for Millitary Aid.

Art. 20. To see if the Town will make an appropriation for Soldiers' Relief.

Art. 21. To see if the Town will make an additional appropriation for the abatement of Taxes.

(Inserted at request of Board of Assessors.)

ART. 22. To see if the Town will authorize and empower its Board of Public Works to purchase, in the name and behalf of the Town, a plot of land adjoining the northwesterly boundary of the gravel pit on Grove Street, not exceeding fourteen thousand square feet in area, for the purpose of utilizing the same as a gravel pit, and make an appropriation therefor, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 23. To see if the Town will authorize and empower its Board of Public Works to enter into a contract in the name and behalf of the Town for the purchase of gravel, and make an appropriation therefor, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 24. To see if the Town will authorize the Town Treasurer, under the direction of the Selectmen, to borrow money for any necessary purpose, in anticipation of the collection of taxes for the year 1908, the same to be repaid directly from the proceeds of said taxes.

(Inserted at the request of the Town Treasurer.)

ART. 25. To see if the Town will make an appropriation sufficient to meet the charges for filling deposited on the park lands adjoining Mt. Pleasant Cemetery, in accordance with the vote passed by the Town May 5, 1902.

ART. 26. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof, fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this twenty-eighth day of October, in the year of our Lord one thousand nine hundred and seven.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Selectmen of the Town of Arlington.

CHAPTER 78, REVISED LAWS.

BOARD OF CEMETERY COMMISSIONERS.

SECTION 21. A Town which accepts the provisions of this and the four following sections or has accepted the corresponding provisions of earlier laws may, at any Town meeting, elect by ballot a Board of Cemetery Commissioners consisting of three persons, a

majority of whom shall for at least one year previous to their election, have been owners of a lot in a cemetery or other public burial ground in said Town. If such board is first chosen at a meeting other than an annual Town meeting one member shall be elected for one year from the day following that fixed by law for the last preceeding annual Town meeting, one member for two years, and one member for three years, from said day; and annually thereafter one member so qualified shall, at the annual Town meeting, be elected by ballot for a term of three years. Such boards shall choose a chairman, and a clerk who may be a member of the board.

Sec. 22. Said board shall have the sole care, superintendence and management of all public burial grounds in its Town, may lay out any existing public burial grounds in its town or any land purchased and set apart by said Town for cemeteries and other public burial grounds in lots or other suitable subdivisions with proper paths and avenues, may plant, embellish, ornament and fence the same and erect therein such suitable edifices and conveniences and make such improvements as it considers convenient; and, subject to the approval of the Town, may make such regulations, not inconsistent with law, as it considers expedient.

Sec. 23. Said board may, by deed made and executed in such manner and form as it may prescribe, convey to any person the sole and exclusive right of burial in any lot in said cemetery and of erecting tombs, cenotaphs and other monuments or structures thereon upon such terms and conditions as its regulations prescribe. Such deeds and all subsequent deeds of such lots made by the owners thereof shall be recorded by said board in suitable books of record, which shall be open to the public at all reasonable times.

Sec. 24. A Town in which Cemetery Commissioners are chosen may receive gifts or bequests for maintaining cemeteries or cemetery lots, which shall be paid into the the Town treasury of said Town and, with the accounts thereof, shall be kept separate from the other money and accounts of said Town. The Town Treasurer shall invest all such funds in accordance with the stipulations, if any, accompanying them; otherwise he shall invest them as ordered by the Selectmen and said Commissioners and pay the income therefrom upon their order or with their approval. The proceeds of sales of lots or rights of burial in said cemetery, shall be paid into the Town treasury and shall be subject to said orders.

Sec. 25. Said board shall not incur debts or liabilities for purposes other than aforesaid nor to an amount exceeding the amount of the funds subject to their order; and it shall annually make a report in writing to said Town of its official acts, of the condition of said cemetery and burial grounds, and render an account of its receipts and expenditures for the same and of the funds subject to its order.

ARLINGTON, Nov. 14, 1907.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the Town, and also by posting an attested copy on the doors of the Town Hall, seven days at least, before said day of meeting.

GARRITT BARRY,
Constable.

A true record of the warrant. Attest:

THOMAS J. ROBINSON,
Town Clerk.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified, as the law requires, to vote in elections and Town affairs met in the Town Hall in said Arlington, on Monday, the eighteenth day of November, in the year of our Lord, one thousand nine hundred and seven, and were called to order at eight (8) o'clock in the evening, by the Town Clerk, who read Article 1 of the warrant calling said meeting and the return of the Constable who served the same upon the inhabitants. By unanimous consent the reading of the remaining articles in the warrant was dispensed with, each of the voters present being supplied with printed attested copies.

Article 1 taken up. (Election of Moderator.)

Charles A. Hardy and John J. Mahoney were appointed Tellers to receive, sort and count ballots for Moderator, and were sworn to the faithful discharge of their duties and placed in charge of the check list and ballot box. Three (3) ballots were cast, each bearing the name of John G. Brackett and he was declared elected Moderator and sworn to the faithful performance of his duties.

Article 2 taken up. (Reports of Committees.)

Frederick A. Bisbee, Chairman of the Committee of Twenty-one, to whom had been referred all articles in the warrant calling for an appropriation made the report of said Committee in print and said report was distributed to the voters present.

Voted: That the report of the Committee of Twenty-one as presented be accepted and that the same be acted upon in the order in which they appear in said report.

Article 2 was then laid on the table.

Article 3 taken up. (Suppressing of gypsy and brown-tail moths.)

Voted: By a two-thirds vote, that the sum of five thousand dollars ($5,000) be appropriated to be expended from November 30, 1907, to November 30, 1908, under the direction and control of the Selectmen in suppressing the gypsy and brown-tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905, and amendments thereto, That four thousand five hundred dollars ($4,500) of said sum be raised by

general tax in 1908, and the balance, five hundred dollars ($500) be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one (1) year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 4 taken up. (New air compressor.)

Voted: That this article be laid on the table.

Article 5 taken up. (Grading Bacon Street.)

Voted: That owing to an error in the warrant, Bacon Street being spelled Beacon Street, this article be laid on the table.

Article 6 taken up. (Additional appropriation for Health Department.)

Voted: That the sum of eight hundred dollars ($800) be appropriated for the Health Department, said sum to be taken from the Treasury accounts.

Article 7 taken up. (Sewerage system extension.)

Voted: That the sum of two hundred twenty-five dollars ($225) be appropriated for the extension of the sewer under the new playground and Lombard Terrace. Said sum to be taken from the Treasury accounts.

Article 8 taken up. (Salary of Inspector of Plumbing.)

Voted: That this article be laid on the table.

Article 9 taken up. (Heater in Highland Hose House No. 2.)

Voted: That the sum of three hundred seventy dollars ($370) be appropriated to pay for a new heater in Highland Hose House No. 2. Said sum to be taken from the Treasury accounts.

Article 10 taken up. (Additional appropriation for Fire Department.)

Voted: That the sum of three hundred fifty dollars ($350) additional be appropriated for the Fire Department, same to include eighty dollars ($80) for expenses already incurred for repairs to the heating apparatus in Hose House Nos. 1 and 3, and for repairs to the roof of Hose House No. 3. Said sum to be taken from the overlayings of the tax of 1907.

Article 12 taken up. (Additional appropriation for metropolitan water assessment.)

Voted: That the sum of two thousand six hundred dollars ($2,600) additional be appropriated for the metropolitan water assessment, and for the maintenance of the water works. Said sum to be taken from the Treasury accounts.

Article 13 taken up. (Extension of water mains.)

Voted: By a two-thirds vote, that the sum of one thousand dollars ($1,000) be appropriated for the extension of water mains; and for the purpose of raising the one thousand dollars ($1,000) there be issued one note or bond for the sum of one thousand dollars ($1,000), payable in the year 1913; said note or bond to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Water Loan of 1907," and to bear interest at a rate not exceeding four per centum per annum, payable semi-annually.

Article 15 taken up. (Additional appropriation for incidental account.)

Voted: That the sum of six hundred dollars ($600) additional be appropriated for the Incidental Account. Said sum to be taken from the treasury accounts.

Article 16 taken up. (Additional appropriation for Town House account.)

Voted: That the sum of two hundred dollars ($200) be appropriated to cover additional repairs made on the Town House. Said sum to be taken from the overlayings of the tax of 1907.

Article 17 taken up. (Additional appropriation for Town House site.)

Voted; That the sum of one hundred dollars ($100) be appropriated to pay the Town's share of the construction of a fence between the Town House site and the Robbins estate, also to cover a few minor expenses in connection with the site. Said sum to be taken from the treasury accounts.

Article 18 taken up. (Overseers of the Poor account.)

Voted: That the Town hereby authorizes the Overseers of the Poor to transfer the sum of five hundred dollars ($500) from the Almshouse account to the Outside Poor account.

Article 19 taken up. (Military Aid.)

Voted: That the sum of twenty-four dollars ($24) be appropriated for Military Aid. Said sum to be taken from the treasury accounts.

Article 20 taken up. (Soldiers' Relief.)

Voted: That the sum of one hundred sixty-four dollars ($164) be appropriated for Soldiers' Relief. Said sum to be taken from the treasury accounts.

Article 21 taken up. (Abatment of taxes.)

Voted: That the sum of three hundred dollars ($300) (in addition to the former appropriation of $1,500) be appropriated for the abatement of taxes. Said sum to be taken from the treasury accounts.

Articles 22, 23 and 25 taken up.

Voted: That these articles be laid on the table.

Article 14 taken up. (Acceptance of Revised Laws relative to cemeteries.)

Voted: That the Town accept Sections 21; 22, 23, 24 and 25 of Chapter 78 of the Revised Laws, said Sections being relative to the Board of Cemetery Commissioners.

Article 24 taken up. (Treasurer authorized to borrow.)

Voted: That for the purpose of procuring a temporary loan to and for the Town of Arlington, in anticipation of the taxes of the municipal year 1908, the Town Treasurer is hereby authorized and directed to borrow on and after January 1, 1908. from time to time, with the approval of the Board of Selectmen, a sum or sums in the aggregate not exceeding one hundred and fifty thousand dollars ($150,000) and to execute and deliver therefor the note or notes of the Town, payable within one year from the time the loan is made. Any debt or debts incurred by a loan or loans to the Town under this vote shall be paid from the taxes of said municipal year.

Article 26 taken up.

Voted: That this article be laid on the table.

Article 11 taken up. (Congested condition of Locke School District.)

Voted: That a committee of five, to be appointed by the Moderator, be appointed to investigate the congested condition of the Locke School District, said committee to report to the March Town meeting a proper relief of the same with recommendations.

The Moderator appointed the following citizens to serve on said committee:— Frederick A. Bisbee, Cyrus E. Dallin, Frank W. Hodgdon, Charles R. Fultz and Edward W. Goodwin.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3057 and the outgoing turnstile No. 3056, respectively, who made a return in writing at the adjournment of the meeting, showing that one hundred ten (110) voters had entered the hall through turnstile No. 3057 and eleven (11) voters had left the hall through turnstile No. 3056, showing that ninety-nine (99) registered voters attended the meeting.

All articles in the warrant calling the meeting having been acted upon it was

Voted: That this meeting be now dissolved.

Meeting dissolved at 9.10 P. M.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

REPORT OF THE BOARD OF SELECTMEN.

The Board of Selectmen submit the following report for the fiscal year ending December 31, 1907.

On March 5, 1907, the Board met and organized as follows: —

Chairman, S. Frederick Hicks.
Clerk, Horace A. Freeman.

STANDING COMMITTEES.

S. Frederick Hicks, Police Department and State Aid.
Frederick S. Mead, Fire Department, Almshouse and Public Lands.
J. Howell Crosby, Outside Poor, Town House and Public Buildings.

TOWN DEBT AND TAX RATE.

On December 31, 1906, the fixed debt was		$644,148 64
Paid during the year 1907	$11,450 00	
Increase during the year 1907	22,000 00	
Net increase during the year		10,550 00
On December 31, 1907, the fixed debt is		654,698 64
On December 31, 1906, the sinking fund was		99,528 18
On December 31, 1907, the sinking fund is		117,976 57
Increase during the year		$18,448 39

It will be noticed from the above that the fixed debt has increased $10,550, not taking the sinking fund into account. This was because of $3,000 spent for short extensions of water mains, $5,000 for new streets, namely, Tanager, Wyman, Palmer Streets and Avon Place; $4,000 for short extensions of our sewerage system, and $10,000 for the renewal of old cement-lined pipe.

All of this added indebtedness, as in the form of serial notes, none of it maturing later than 1920. A part of that spent for new streets will be returned in betterment assessments, and a part of that spent for sewerage system extension in sewer assessments.

The tax rate for 1907 was $18.80 on $1,000, which is seventy cents more than it was the year before.

Notwithstanding a net increase of $546,987 in the valuation of real and personal property on May 1, 1907, over that of May 1, 1906, our tax rate increased seventy cents This was because the Town grant for 1907 was $18,432 more than in 1906. While the increase in valuation would naturally lower the rate, the increased appropriations more than offset this and added seventy cents to the rate beside. It is evident, therefore, that the appropriations must be considered when a lower tax rate is desired.

The advisability of establishing a more uniform tax rate has been suggested, and the Board believes the question is worthy of consideration.

To this end the amount contributed annually to the sinking fund could vary from a minimum of $12,000 according to the amount of the Town grant.

Fire Department. For the first time in the history of the fire department, the Selectmen are called upon to register the death of its chief engineer while in active service.

After serving several years as an assistant engineer, Mr. Charles Gott was on March 16, 1878, elected chief engineer, to which position he has been consecutively elected up to the time of his death, November 26, 1907. He was an able and efficient officer, faithful, enthusiastic and brave in the discharge of his duties, and governed by high ideals of manhood and humanity. The efficient management of the department under his leadership for nearly thirty years places it among those of high rank.

The Board records its appreciation of his high character as a man and a citizen, and of his honorable and faithful services for so many years as an officer and expresses the deep sense of sorrow of the department and the community at his decease.

At a meeting of the Selectmen held December 9th, Mr. Frank P. Winn was appointed to fill the vacancy on the board of engineers. Mr. Winn is no stranger to the work, having been connected with the department for years, and once served as an engineer.

The board of engineers on December 11th elected Walter H. Peirce to the position of chief. Mr. Peirce has been connected with the fire department for many years, and for several years has been one of the engineers. It is believed the choice is a wise one; that Mr. Peirce will command the confidence of the department and maintain its present efficiency. The Board is glad to report harmony and good feeling throughout the department.

For details relative to the department reference is made to the report of the chief engineer.

Police Department. Under the same management as the previous year this department has sustained the same degree of efficiency as heretofore recorded. No change in the force has been

made, except the appointment of Edward T. Ryan to fill a vacancy caused by the resignation of James E. Whitten on June 8, 1907.

The force merits special mention in its work of capturing burglars, and in successfully raiding violators of the liquor law. There has been very little occasion for the latter, however, the excellent work of recent years having a somewhat permanent effect.

For details of work attention is called to the report of the chief.

ALMSHOUSE. In accordance with the vote of the Town passed in March, the almshouse was discontinued, being closed June 1st. Two of the inmates were transferred to the city home in Somerville, one boarded with a family in town, and one allowed to seek his own livelihood. The building was cleaned and fitted up for renting. It has been let since July 1st at the rate of $300 per year. In 1906 the net cost of maintaining the almshouse with four inmates was about $1,650. These same inmates are now more satisfactorily cared for at an expense of about $800. And when the receipts from the rent of building are taken into account the saving by the change is very evident.

FINANCIAL STATEMENT.

(Almshouse.)

Amount appropriated in March	$1,750 00
Receipts and reimbursements	513 24[1]
	$2,263 24
Paid out	1,297 04[2]
	$966 20
Transferred to Outside Poor Account	500 00
Balance unexpended	$466 20

OUTSIDE POOR. The net cost of maintaining this department the past year is somewhat larger than the year before. The reason of this is the discontinuance of the almshouse, thus placing the inmates as outside poor; the increased number of hospital cases; and the increase in the number of families and persons aided. The high cost of living has doubtless augmented the cost of maintenance somewhat. The policy of the Board is to render partial assistance only in order that the person or family aided may help themselves as far as possible. Reimbursement for aid rendered is obtained as far as possible.

---

[1] This includes $150 for rent since the almshouse was closed; $90.68 for sale of hens and cows; reimbursement of $121 for wood and labor thereon, and $156.51 for board.

[2] This includes $245.92 for labor on wood, and $287.52 for expenses in repairing and fitting up the house for renting.

FINANCIAL STATEMENT.

(Outside Poor.)

Appropriated in March, 1907			$5,500 00
Transfer in November from almshouse account			500 00
			$6,000 00

EXPENDITURES.

For aid to regular list	$4,129 25		
Less reimbursements	29 00		
		$4,100 25	
For aid to occasional list		31 20	
Aid here, but having settlement elsewhere	334 09		
Less reimbursement	234 42		
		99 67	
Aid here, but being State charges	339 42		
Less reimbursements (including $6.60 check returned)	75 21		
		264 21	
Aid elsewhere, but having settlement here		145 86	
For care of sick in hospital,		93 00	
For care of feeble minded		169 45	
For care of epileptics	310 14		
Less reimbursement	310 14		
For care of dipsomaniacs		44 57	
For clerk services		300 00	
For burials		68 00	
For miscellaneous		32 34	
Paid bills 1905 and 1906	271 96		
Reimbursements	236 55		
		35 41	
For care at out of town almshouse		177 00	
			5,560 96
Balance unexpended			$439 04

Suppression of Gypsy and Brown Tail Moths. The work of this department has been mainly on the same lines formerly pursued. Spraying has been carried to a greater extent than heretofore and has been very effective because of the favorable condition of the season, being dry. A new feature in the work has been the tinning and covering of holes or decayed places in trees to prevent breeding places whenever the value of the tree would warrant such work. This work has covered streets, parks and private estates.

Less work has been demanded on streets and public parks because of the diminished number of pests on these places. More time, therefore, has been given to the cleaning of private premises, practically all residential estates having been treated wherever the owner has not attended to the matter himself.

The policy of the department is to notify the owner before the local superintendent enters his premises to clean the same. This notice is sent out in circular form, usually in October, to the effect

that all owners are to clean their estates on or before a certain date, otherwise the local superintendent may enter and clean the same.

It has also been a new feature to clean the premises below the snow-line first and then on a second visit clean above the snow-line. The object of this is to have all ground work cleaned before the snow falls. This method of work has apparently worked well.

No attempt has yet been made by the Board in the treatment of large tracks of woodland. The policy of the Board at present is to treat only so much of the borders of such woodland as will protect adjacent residental or park lands.

There has been an appreciable decrease of gypsy moths the past year as compared with 1906. Brown tails, however, have increased, probably because in 1906 a disease was especially destructive to these pests.

Less men were needed to cover the Town this year, and therefore less expense incurred. It has been the policy of the Board to employ only as many men as can be profitably employed throughout the year, except at times when the character of the work requires a much larger number.

It is hoped that in a short time these pests will be so reduced that a comparatively small appropriation will be needed to maintain a satisfactory condition of the trees on both public and private estates.

The department keeps a card catalogue of all work done with expenses therefor. This information is available whenever desired.

The work begun in 1906 in Sucker Brook Valley was completed. This work was by special order of State authorities, and done to their satisfaction. A very serious breeding place has thus been removed.

William H. Bradley has continued as local superintendent and James F. Higgins as clerk.

In July a communication was received from Superintendent Kirkland to the effect that the State auditor rules: —

First. Against allowing towns any reimbursement from the Commonwealth for crops, livestock, etc., damaged by spraying.

Second. Against allowing towns any reimbursement from the Commonwealth for cost of liability insurance protecting the Town in case of injury to employees or the public.

The Board thinks such expenses necessary in prosecuting the work of exterminating gypsy and brown tail moths, and that the burden arising from damages by spraying and from liability insurance should not be thrown entirely on the town, but that the Commonwealth should share in the expense. If the law forbids this, then further legislation is needed.

In fact the Board have petitioned the Legislature for a change in the law, so that the State may participate in this expense.

During the past year the Town has expended $13,249.78 in exterminating the gypsy and brown tail moths. This is $2,418.32

less than was expended the year before. The financial statement attached shows the location and character of the work.

New Contract for Street Lighting. The five year contract with the Somerville Electric Light Company, afterward assumed by the Edison Electric Illuminating Company of Boston, under which our streets have of late been lighted, expired May 1, 1907.

At the annual March Town meeting a committee consisting of the Board of Selectmen, the Board of Public Works and Messrs. Henry Hornblower, Philip Eberhardt and Walter B. Douglass were appointed "to report to the Town at a special Town meeting a form of contractor contracts for street lighting, with prices for a period of years, or upon any other matters pertaining to any form of street lighting for the Town of Arlington."

This committee organized May 2d, held meetings through May and June, considered propositions from the Arlington Gas Light Company and the Edison Electric Illuminating Company, had conferences with representatives of each company relative to said propositions and on July 1st reported to the Town recommending a form of contract with the Edison Company for a term of twenty years.

This report was accepted, the recommendation adopted with hardly a dissenting vote and the selectmen authorized and empowered to execute said contract substantially in the terms recommended.

The report of this committee may be found printed in this volume as a part of the Town Records.

On the adjustment of several differences a satisfactory contract was executed on the evening of July 8th.

This contract is rather unusual in that it is probably the only case of a twenty year contract for street lighting in the commonwealth. It is believed, however, that it will prove to be a wise and economical move on the part of the Town.

The contract went into effect July 1, 1907, and is as follows:—

This contract, made this first day of July, A. D., 1907, by and between the Edison Electric Illuminating Company of Boston, a corporation duly organized under the laws of the Commonwealth of Massachusetts, hereinafter called the Company, its successors and assigns, of the first part, and the inhabitants of the Town of Arlington, a municipal corporation in said Commonwealth, hereinafter called the Town, of the second part.

Witnesseth:

Article 1. The Company agrees at its own expense for the considerations hereinafter recited to furnish, place and maintain such number of electric arc and incandescent lights as the Town may, from time to time, request, for lighting the streets and other public places in the Town, and keep the same lighted as hereinafter provided, so as to give a clear and reasonably steady light, the number at the beginning of this contract to be not less than eighty (80) arc

lights and two hundred and twenty-nine (229) incandescent lights or their equivalent.

ART. 2. At the beginning of this contract the lights shall be located where now placed, and any additional lights that may be required by the Town shall be located at such points as may be determined by the Town, provided that the Company shall not be required to extend its lines more than one hundred (100) feet in order to install one incandescent light, or more than five hundred (500) feet in order to install one arc light for each unexpired year of this contract, but no extensions of lines or additional lights shall be required during the last year of this contract; provided, however, that the Town may require extensions of lines or additional lights at any time during the period of this contract by paying the cost of the same or the cost of so much of the extension as exceeds that herein required to be made by the Company, such payments to apply as credits upon bills for the future supply of lights on such additional lines.

Whenever requested by the Town the Company will change the location of any light, and the Town will pay the cost of moving the same, such cost not to exceed five dollars for each arc light and three dollars for each incandescent light so moved, unless new lines or poles are required.

ART. 3. The arc lights shall be of the six and six-tenths ampere "Alternating Current Enclosed" pattern, requiring an electrical energy of four hundred twenty-two watts on an average, and no light shall average less than four hundred and ten watts, or such modification of the same as shall be practicable, provided the candle power of the lights shall not be reduced. The incandescent lights shall be the so-called thirty-two (32) candle power, and shall be promptly renewed by the Company whenever they become dim, broken or burned out.

ART. 4. The Company agrees to keep all said lights lighted during certain hours daily, according to the time schedules to be furnished by the Town; and the party or parties designated by the Board of Selectmen of said Town shall have authority to order said lights to be burned at any time.

ART. 5. All lights, when placed in service under this contract, shall continue to be furnished by the Company and paid for by the Town as herein provided until the termination of this contract. Said Town shall have the right to discontinue from time to time a reasonable number of lights for reasonable cause not exceeding in any one year twenty (20) incandescent lights or their equivalent. Upon the termination of this contract, or the discontinuance of any lights furnished by the Company under the terms hereof, payment shall be made by the Town pro rata up to the time of such termination or discontinuance.

ART. 6. The prices for the lights fixed herein are based upon the

understanding that said lights are to be furnished from what is known as the overhead system of wires, but if, during the continuance of this contract, the Company is obliged to place its wires underground, by reason of an act of the Legislature or otherwise, said Town shall annually thereafter, during the continuance of this contract, pay to said Company, in addition to the rates for lights hereinbefore fixed, amounts equal to six per cent. of the initial cost of that portion of the underground constructions of the Company in Arlington used exclusively for the service of said Town, including the expense of changing the wires giving exclusive service to said Town from overhead to underground. The underground construction in Broadway, from the Somerville line to Massachusetts Avenue, and from that point on Massachusetts Avenue to Mystic Street, and from that point on Mystic Street to the Winchester line, which is already provided for, and any other lines of underground construction for use exclusively or mainly for transmitting current through Arlington to other places, shall be constructed at the Company's expense without payment or contribution on the part of the Town. But if, during the term of this contract, the Company shall voluntarily place its wires underground in or along any of the streets of said Town, the Company shall do so at its own expense without payment or contribution on the part of the Town.

Art. 7. All lamps, poles, wires, fixtures, and other apparatus, appliances and materials used in carrying out this contract, and located in the streets and other public places in the Town, shall be furnished by the Company; shall be of suitable quality, shall be kept in good order and condition by the Company, and shall be immediately replaced when broken or otherwise defective.

Art. 8. The Town agrees for the considerations hereinbefore recited, subject to appropriations from year to year, to pay the Company for the lights furnished and kept lighted as aforesaid, provided the Company fully performs in every respect its part of this contract, at the following rates:—

For sixteen hundred hours' burning per year, at the rate of seventy-five dollars per year for each arc light furnished, and at the rate of fifteen dollars per year for each incandescent light furnished.

For such number of lights, counting one arc light as equivalent to five incandescent lights, as shall exceed four hundred incandescent lights, or their equivalent, the prices shall be at the rate of sixty-five dollars per arc light and thirteen dollars per incandescent light per year, instead of seventy-five dollars and fifteen dollars, respectively, as above provided.

When the burning varies from sixteen hundred hours per year, adjustment shall be made on the basis of four-tenths of a cent per hour for each incandescent light, and on the basis of two cents per hour for each arc light. This contract being drawn for a term of twenty years, a discount of twenty per cent shall be made by the Company from each monthly bill figured as aforesaid.

If, during the continuance of this contract, the Company's regular prices for arc or incandescent lights furnished to other municipalities are reduced, a like reduction shall be made in the prices of the arc or incandescent lights herein provided for.

If at any time during the continuance of this contract (but not before the lapse of three years from the date hereof, and thereafter not oftener than once in three years,) either the Town or the Company shall claim that the prices then being charged and paid hereunder are unreasonably high or low, as the case may be, said Company or said Town may apply to the Board of Gas and Electric Light Commissioners for an increase or reduction in said rate, and both parties hereto shall be bound by the order of said Board in that regard, unless the rates so fixed shall be in violation of any constitutional provision.

ART. 9. A deduction shall be made for every hour that any light or lights shall remain unlighted, or of less than the required power, during any of the hours specified for the same to be lighted, and at the same rate for any part of an hour, as follows:—

Five cents per hour for arcs and one cent per hour for incandescents.

The Town shall furnish to the Company each day during the continuance of this contract a list of lights unlighted or of less than the required power during the preceding night, giving times and locations, and shall furnish a summary of the same on or before the fifth day of each calendar month for the preceding month.

ART. 10. Payments shall be made to the Company on the regular pay day of the Town in each month for the lights furnished the Town during the preceding month.

ART. 11. The Company agrees to indemnify and save harmless the Town against any and all claims for damages, loss, cost and expense on account of injury to persons or property, arising in any way out of the erection, construction, maintenance or use of any of the lamps, poles, wires, fixtures and other apparatus and appliances furnished by the Company hereunder, except where such injury is the result in whole or in part of the fault or neglect of the Town, its officers, servants or agents while acting as agents of said Town; and against any and all claims for damages by reason of any alleged infringement of patent rights in the use of lamps, poles, wires, fixtures, machinery and other apparatus, appliances and material supplied by the Company hereunder, and agrees, at its own expense, to assume the defence of all actions at law or in equity which may be brought against the Town for any alleged infringement of patent rights as aforesaid, and also against all decrees, judgments and orders of any court in relation to such alleged infringements.

ART. 12. The Company agrees that the Town may at all times, with or without the Company's knowledge, employ a competent person to test the electrical currents and energy furnished to any or

all of said lights and to examine and test the street lights to ascertain whether or not the Company is complying with the terms of this contract, and for such purpose the Company agrees that such competent person may have access at all reasonable times to all said lamps, poles, wires, fixtures and other apparatus of the Company in the streets and other public places in the Town, and used in carrying out this contract. The Town agrees to idemnify and save harmless the Company against any and all claims for damages, loss, cost and expense on account of injury to persons or property arising in any way out of the employment, act or neglect of such person, except such as may arise in whole or in part from the fault or neglect of the Company, its agents or servants, while acting as agents of said Company.

In case two tests of any circuit shall be made separated by intervals of not less than one hour during any one night and both of said tests shall show that the Company is not furnishing for said lights the electrical current or energy required by this contract, the average of the results of such tests shall be taken and deemed to be the actual current and energy furnished for said circuit during the entire lighting time of said night and a proportionate part of the payment for the lights in said circuit, for said night, as determined by said average, shall be deducted from the next monthly payment.

ART. 13. Should the Town at any time find that the Company is not complying fully with all the terms and requirements of this contract, the Town shall immediately notify the Company of such fact, so that the Company may at once remedy the fault.

ART. 14. This contract shall begin on July 1, 1907, and shall continue until July 1, A. D. 1927, and thereafter, subject to appropriations, during successive periods of one year each until this agreement shall have been terminated by notice in writing given by either party to the other not less than thirty days' prior to the end of any such successive yearly period ; and in default of such thirty days' notice, this agreement shall without further notice or agreement, be deemed to be extended for an additional twelve months next succeeding the end of the yearly period then current.

ART. 15. If during the existence of this contract the Town of Arlington shall decide to establish a municipal electric lighting plant in any manner authorized by law, this contract may thereafter be terminated by either party thereto on ninety days' notice in writing to that effect.

(*Memo.* In agreeing to this provision, without a provision for a modification of the discount given in Article 8 in case of the establishment of a municipal plant before the end of the full term of this contract, the Company does so only because through inadvertence and mistake such modification was not brought to the attention of the committee of the Town having the making of this contract under

consideration until after said committee had publicly represented that the provision as above written would be embodied in the contract without change. The Company reserves the right in all future contracts to insist on such modifications.)

ART. 16. No laborer, workman or mechanic working within this Commonwealth in the employ of the contractor, sub-contractor or other person doing or contracting to do the whole or a part of the work contemplated by this contract shall be requested or required to work more than eight hours in any one calendar day.

IN WITNESS WHEREOF the said Company has caused these presents to be executed in duplicate by its general superintendent, thereunto duly authorized, and the said Town has caused these presents to be executed in duplicate by its Board of Selectmen, thereunto duly authorized, the day and the year first above written.

The Edison Electric Illuminating Company of Boston, by

WILLIAM H. ATKINS,
General Superintendent.

Town of Arlington, by

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Board of Selectmen.

THE EDISON ELECTRIC ILLUMINATING COMPANY OF BOSTON.

CERTIFICATE.

I, Fred G. Havlin, Clerk of the Executive Committee of the Directors of the Edison Electric Illuminating Company of Boston, hereby certify that the following is a true extract from the records of a meeting of said Committee, duly called, at which a quorum was present, held on July 25, 1907, namely:

"A contract with the Town of Arlington, dated July 1, 1907, and signed by the Selectmen of that Town, was presented; whereupon it was

Voted: That the general superintendent of the Company be authorized to execute for and in behalf of the corporation the contract with the Town of Arlington dated July 1, 1907."

I further certify that the following is a true extract from the by-laws of said Company:

"Article II. The stock, property and business of the Company shall be managed by a board of twelve directors, who shall be elected as provided in Article III.

"Article IV., Section 7. The board of directors shall designate four of their number as an executive committee, which committee shall have and exercise the powers of the board in the intervals between the meetings of the board."

FRED G. HAVLIN,
Clerk Executive Committee.

Boston, July 25, 1907.

Town Fire Insurance. The Selectmen continue in the opinion that it is a good policy for the Town to carry its own fire insurance and establish a fund for that purpose. The action of the Town last March, however, was to the effect that the time had not yet arrived when such a scheme should be carried into effect.

We are now carrying insurance to the amount of $313,000 on buildings, and $81,000 on contents, and are paying the rate of $1.35 on $100 for five years.

Having torn down the old buildings on Town House Site, occupied as stables, bakery, etc.; discontinued the maintenance of the Almshouse as such; having one of the best and most efficient fire departments in the State; most of our risks being of brick or stone construction, and all of our buildings scattered, the conditions seem favorable for a reduction of rates.

To this end, therefore, in August, the Board petitioned the New England Insurance Exchange for a substantial reduction in the Town of Arlington average rates. The matter is now under advisement by said Exchange.

Feeling that the property insured has been underestimated in value thus making the Town a co-insurer, which is undesirable, it was deemed advisable to have the property re-appraised, the work to be done by men commanding the confidence of all parties interested. Messrs. Ira G. Hersey and Arthur C. Whitney, eminent experts in such work, were engaged to revalue the buildings. Their report giving in detail the appraisal of twenty buildings has been received and it appears from their estimates the Town buildings alone have been undervalued about $37,862, besides $8,279, the estimate of two buildings on which no insurance was carried. This undervaluation ranges from six to fifty per cent. on the different buildings.

The appraisal of Messrs. Hersey and Whitney is made in duplicate, one copy to be given to the New England Insurance Exchange and the other filed with the Town Clerk.

As soon as the property denominated as contents has been revalued the fire insurance will be adjusted to the new basis. If the Town is to place its insurance outside of itself there seems to be no question as to the wsidom of basing it on full valuation of property.

Purification of Alewife Brook and Adjacent Areas. Soon after last year's report of the Selectmen relative to this matter, the

Metropolitan Park Commission had several conferences with the Mayors and Selectmen of cities and towns interested and it was the consensus of opinion that in order to carry out the purposes of Chapter 529 of the Acts of 1906, a larger appropriation was needed and the Act modified in other important particulars.

To this end amendments were submitted to the Legislature, resulting in the enactment of Chapter 529, Acts of 1907.

The Act as amended is as follows:

CHAPTER 529.

AN ACT RELATIVE TO THE PURIFICATION OF MYSTIC RIVER, ALEWIFE BROOK AND ADJACENT WATER COURSES, PONDS AND DRAINAGE AREAS.

Be it enacted etc., as follows:

SECTION 1. Section one of chapter five hundred and twenty-nine of the acts of the year nineteen hundred and six is hereby amended by inserting after the word "tributaries," in the fourth line, the words: — and Spy pond, — by striking out the word "and," at the end of the same line, by inserting after the word "tributaries," in the fifth line, the words: — and pond, — and by adding at the end thereof the words: — and shall, if any changes are made in the shores, bottom or outlet of Spy pond, leave the same in as good sanitary condition as at the present time. Such portions of the bottom of Spy pond as may be made dry land by the work contemplated by this act and not required for park or parkway purposes as herein below provided, shall, so far as owned by the Commonwealth, become the property of the owners of the adjoining upland, — so as to read as follows: — *Section 1.* The Metropolitan Park Commission shall, in connection with the construction of a dam in Mystic river, make improvements in and about Alewife brook and its tributaries and Spy pond and the drainage areas of said brook, tributaries and pond, substantially in accordance with the report of the State Board of Health under section two of chapter four hundred and forty-five of the acts of the year nineteen hundred and four, and shall, if any changes are made in the shores, bottom or outlet of Spy pond, leave the same in as good sanitary condition as at the present time. Such portions of the bottom of Spy pond as may be made dry land by the work contemplated by this act and not required for park or parkway purposes as herein below provided, shall, so far as owned by the Commonwealth, become the property of the owners of the adjoining upland.

SEC. 2. Section two of said chapter five hundred and twenty-nine is hereby amended by striking out the words "situated within five hundred feet", in the fifth and sixth lines, and inserting in place thereof the words: — necessary for the carrying out of the purposes

of this act, — and by adding at the end thereof the words : — Said commission shall do the work of construction under this act unless the detailed plans of construction have been disapproved by either of the Mayors of the Cities or by the Selectmen of either of the Towns interested, provided such disapproval is received by said commission within thirty days after the presentation of said plans by said commission to the mayors of said cities and to the Selectmen of said Towns. In the event of any such disapproval this act shall be void and of no effect, — so as to read as follows : — *Section 2.* For the purpose of carrying out the provisions of this act said commission may from time to time take in fee or otherwise, by purchase or otherwise, for the Commonwealth, lands, flats and lands covered with water, easements, rights and other property necessary for the carrying out of the purposes of this act on either side of the centre of the channel of said brook and tributaries, by filing in the registry of deeds for Middlesex county a description thereof sufficiently accurate for identification, signed by a majority of the commission. Said commission may construct and maintain under any public way or railroad location any drain or other structure in such manner as not unnecessarily to obstruct travel thereon and may change the location of said brook and any of said tributaries where the same crosses a public way or railroad location and elsewhere and shall have all other powers necessary to carry out the purpose of this act. Said commission shall do the work of construction under this act unless the detailed plans of construction have been disapproved by either of the mayors of the cities or by the selectmen of either of the towns interested, provided such disapproval is received by said commission within thirty days after the presentation of said plans by said commission to the mayors of said cities and to the selectmen of said towns. In the event of any such disapproval this act shall be void and of no effect.

Sec. 3. Section three of said chapter five hundred and twenty-nine is hereby amended by inserting after the word "hundred," in the fifth line, the words :—and twenty-five,—so as to read as follows : —*Section 3.* To meet the expenses incurred under this act the Treasurer and Receiver General is hereby authorized, with the approval of the Governor and Council, to issue scrip or certificates of indebtedness to an amount not exceeding one hundred and twenty-five thousand dollars, as an addition to the amounts already authorized under the provisions of chapter four hundred and seven of the acts of the year eighteen hundred and ninety-three and acts in addition thereto and in amendment thereof and as a part of the Metropolitan Parks Loan, and subject to the provisions thereof. Such scrip or certificates of indebtedness shall be issued as registered bonds, payable in not exceeding twenty years from date of issue, and shall bear interest at a rate not exceeding four per cent per annum, payable semi-annually on the first days of January and July of each year.

SEC. 4. Section four of said chapter five hundred and twenty-nine is hereby amended by inserting after the word "hundred" in the second line, the words :—and twenty-five,—and by striking out all after the word "manner," in the fourth and fifth lines, and inserting in place thereof the words :—forty-seven per cent thereof by the City of Cambridge, twelve per cent thereof by the City of Somerville, twenty-four per cent thereof by the Town of Arlington, and seventeen per cent thereof by the Town of Belmont,—so as to read as follows :—*Section 4.* The cost of such improvements shall not exceed the sum of one hundred and twenty-five thousand dollars, and shall be paid by the Cities of Cambridge and Somerville and the Towns of Arlington and Belmont, in the following manner :—forty-seven per cent thereof by the City of Cambridge, twelve per cent thereof by the City of Somerville, twenty-four per cent thereof by the Town of Arlington, and seventeen per cent thereof by the Town of Belmont.

SEC. 5. Section five of said chapter five hundred and twenty-nine is hereby amended by striking out the words "Upon the acceptance of said award," in the first line, and by striking out the words "said award," in the third and fourth lines, and inserting in place thereof the words :—the provisions of section four of this act,—so as to read as follows :—*Section 5.* The Treasurer and Receiver General of the Commonwealth shall determine the amount to be paid in accordance with the provisions of section four of this act by each of said Cities and Towns as their proportion of the cost of said improvements and shall collect the same, with interest at the current rates, in the sum charged to each of said Cities and Towns in the apportionment and assessments of its State tax for the succeeding twenty years until the final sum to be paid by each city and town has been fully paid. The assessments thus paid shall be credited and added to the Metropolitan Parks Loan Sinking Fund.

SEC. 6. This act shall take effect upon its passage. [*Approved June 19, 1907.*

It will be seen from the Act as amended :—

1. That Spy Pond is specifically mentioned as sharing in the proposed improvements and that it must be left in at least as good sanitary condition as at present.

The Selectmen have contended for this from the first and it appears now to be well assured.

2. That the cost of improvements shall not exceed $125,000, to be apportioned as follows :—

47 per cent to Cambridge.
12 per cent to Somerville.
24 per cent to Arlington.
17 per cent to Belmont.

3. That the detailed plans of construction must be submitted by the Metropolitan Park Commissioners to the Mayor of cities and

Selectmen of towns interested and that if said plans are disapproved by either Mayor or Selectmen of said cities and towns within thirty days after receiving the same, the Act shall be void and of no effect.

Since the passage of the above Act the Metropolitan Park Commission have been perfecting and completing plans and securing options on lands all for the purpose of submitting detailed plans to Mayors of cities and Selectmen of towns for their approval or disapproval. It is expected that said plans will be so submitted in the near future.

Order Relative to Hospitals. At a special meeting of the Selectmen held July 23, 1907, it was voted that the following order be adopted :—

Ordered, that no hospital for the treatment of diseases which are dangerous to public health shall be established within the limits of the Town of Arlington except in areas described as follows :—

> Beginning at the southwest corner of the boundary line of Belmont and Arlington and Lexington; thence by the boundary line between Arlington and Lexington 2,400 feet; thence by a straight line in a southerly direction to the boundary line of Belmont and Arlington at a point distant 2,400 feet from the point of beginning; thence by the boundary line between Arlington and Belmont in a westerly direction to the point of beginning.

And the occupation or use of any building for that purpose located in any part of the Town except as aforesaid, is hereby prohibited.

It did not seem advisable to your Board that a considerable portion of good residential territory at the Heights should be used for the location of a hospital for the treatment of diseases which are dangerous to public health; especially did the Board feel this when a strong and reasonable protest from resident citizens in that section of the Town was made. A hospital of such a nature would seriously depreciate the value of nearby property and hinder future development and growth of the Town. For these reasons the Board unanimously passed the above order.

Acceptance of Act Relative to Town Meetings. Chapter 168, Acts of 1906, being an Act relative to Town meetings in Arlington was accepted by the Town at a special Town meeting called for that purpose and held on September 13, 1907.

The act went into effect on its acceptance by the Town, therefore all Town meetings held thereafter must be managed in accordance with the requirements of said act.

The act itself is as follows :

CHAPTER 168, ACTS OF 1906.

AN ACT RELATIVE TO TOWN MEETINGS IN TOWN OF ARLINGTON.

Be it enacted, etc., as follows:

SECTION 1. At all Town meetings held in the Town of Arlington the Town shall use a system of registering turnstiles for determining the number of persons admitted to each meeting. The Selectmen shall appoint officers to have charge of the turnstiles, and shall determine from them the number of persons admitted to each meeting, and at the adjournment thereof shall make a return to the Town Clerk under oath, which may be administered by him, of the number of persons who have been admitted to such meeting, as registered by such turnstiles. The Town Clerk shall immediately make a record of such return in the records of the meeting, which record shall have the same legal force and effect as the records of the proceedings of the meeting. All such returns shall be preserved by the Town Clerk until at least twenty days after the final adjournment or dissolution of the meeting to which they relate, and shall be open to public inspection.

SEC. 2. Any vote passed at an original or adjourned Town meeting to which four hundred or more persons shall have been admitted shall, upon petition, be submitted to the voters at large for ratification at a subsequent Town meeting, as hereinafter provided, except that votes for Moderator, or for any Town, County, State or National officer, or any proposition on which by any special or general law of the Commonwealth a yea or nay vote is required to be taken by ballot, shall be final. No vote subject to ratification under the provisions of this act shall take effect until the expiration of the time herein limited for filing a petition for ratification; nor, if such petition be filed, until after such vote shall be ratified in the manner hereinafter provided.

SEC. 3. If within five days after the final adjournment or dissolution of such Town meeting a petition addressed to the Selectmen shall be filed with the Town Clerk, signed by at least fifty legal voters of the Town, requesting that any vote or votes passed at such meeting, except the final votes before mentioned, be submitted to the voters of the Town for ratification, then the Selectmen shall, after the expiration of said five days, forthwith call a Town meeting for the sole purpose of so submitting such vote or votes. In case two or more votes passed at a Town meeting relate to one subject-matter, and a petition is filed as aforesaid for the ratification of one or more such votes, the Selectmen may in their discretion submit, in addition to those for which petitions are filed, any or all of the votes relating to the same subject-matter; and for this purpose a vote to borrow money shall be held to relate to the same subject-matter as the vote or votes to appropriate the money to be borrowed. The polls shall be opened at two o'clock in the

afternoon and shall be closed not earlier than nine o'clock in the evening, and a vote shall be taken by ballot upon the question, "Shall the following vote (or votes) passed at the Town meeting (or at the adjourned Town meeting) held on the day of 19 , be ratified? Vote: " Any vote or votes submitted for ratification, as aforesaid, receiving a majority of the votes cast thereon, shall be considered to be ratified, otherwise such vote or votes shall have no force or effect: *provided*, that if any vote required for its original passage more than a majority of the votes cast, then a like proportion shall be required for ratification.

Sec. 4. Every petition filed as aforesaid shall forthwith be examined by the Town Clerk, who shall ascertain therefrom the number of legal voters whose signatures are attached thereto, and shall make a record thereof, and such record, together with a copy of the petition, exclusive of the names affixed thereto, shall be inserted in the records of the meeting for ratification of the vote or votes named in the petition, which record shall have the same legal force and effect as the record of the proceedings of such meeting. All such petitions shall be preserved by the Town Clerk until at least twenty days after the final adjournment or dissolution of said meeting, and during that period shall be open to public inspection.

Sec. 5. It shall be the duty of the Selectmen of the Town to prepare the ballots to be used at such Town meetings, and the conduct of such meetings shall be under their charge, subject to the laws relating to elections, so far as the same may be applicable.

Sec. 6. A meeting shall be held for the purpose of submitting the question of the acceptance of this act to the legal voters of the Town at some time within two years after the passage hereof. At such meeting the polls shall be open not less than eight hours, and the vote shall be taken by ballot as in the case of the annual Town election, in answer to the question, "Shall an act passed by the general court in the year nineteen hundred and six, entitled 'An Act relative to Town meetings in the Town of Arlington,' and providing for the ratification of certain votes passed at such meetings, be accepted by the Town?" and the affirmative votes of a majority of the voters present and voting thereon shall be required for its acceptance. If at any meeting so held this act shall fail to be accepted, it may, at the expiration of three months after any such previous meeting, be submitted again for acceptance, but not after the period of two years from the passage of this act.

Sec. 7. So much of this act as authorizes the submission of the question of its acceptance to the legal voters of the Town shall take effect upon its passage, but it shall not take further effect unless accepted by the legal voters of the Town as herein prescribed. [*Approved March 16, 1906.*

Board Cemetery Commissioners. Sections 21 to 25 inclusive, of Chapter 78 of the Revised Laws, relative to a Board of Cemetery Commissioners were accepted by the Town November 17, 1907.

This will necessitate the election of said Board at the regular March Town meeting of 1908. The Board is to consist of three members and must be elected in accordance with Section 21 of Chapter 78, which reads as follows :

CHAPTER 78, REVISED LAWS.

BOARD OF CEMETERY COMMISSIONERS.

SECTION 21. A Town which accepts the provisions of this and the four following sections or has accepted the corresponding provisions of earlier laws may, at any Town meeting, elect by ballot a Board of Cemetery Commissioners consisting of three persons, a majority of whom shall for at least one year previous to their election, have been owners of a lot in a cemetery or other public burial ground in said Town. If such Board is first chosen at a meeting other than an annual Town meeting one member shall be elected for one year from the day following that fixed by law for the last preceding annual Town meeting, one member for two years, and one member for three years from said day; and annually thereafter one member so qualified shall, at the annual Town meeting, be elected by ballot for a term of three years. Such Boards shall choose a Chairman and a Clerk who may be a member of the Board.

SEC. 22. Said Board shall have the sole care, superintendence and management of all public burial grounds in its town, may lay out any existing public burial grounds in its town or any land purchased and set apart by said town for cemeteries and other public burial grounds in lots or other suitable subdivisions with proper paths and avenues, may plant, embellish ornament and fence the same and erect therein such suitable edifices and conveniences and make such improvements as it considers convenient; and, subject to the approval of the town, may make such regulations, not inconsistent with law, as it considers expedient.

SEC. 23. Said Board may, by deed made and executed in such manner and form as it may prescribe, convey to any person the sole and exclusive right of burial in any lot in said cemetery and of erecting tombs, centaphs and other monuments or structures thereon upon such terms and conditions as its regulations prescribe. Such deeds and all subsequent deeds of such lots made by the owners thereof shall be recorded by said Board by suitable books of record, which shall be open to the public at all reasonable times.

SEC. 24. A town in which Cemetery Commissioners are chosen may receive gifts or bequests for maintaining cemeteries or cemetery lots, which shall be paid into the town treasury of said town and, with the accounts thereof, shall be kept separate from the other money and accounts of said town. The Town Treasurer shall invest

all such funds in accordance with the stipulations, if any, accompanying them; otherwise he shall invest them as ordered by the Selectmen and said Commissioners and pay the income therefrom upon their order or with their approval. The proceeds of sales of lots or rights of burial in said cemetery, shall be paid into the town treasury and shall be subject to said orders.

Sec. 25. Said Board shall not incur debts or liabilities for purposes other than aforesaid nor to an amount exceeding the amount of the funds subject to their order; and it shall annually make a report in writing to said town of its official acts, of the condition of said cemetery and burial grounds, and render an account of its receipts and expenditures for the same and of the funds subject to its order.

Public Buildings. The Robbins House and the Medford Street Estate have received special repairs, the former painted externally with minor repairs internally, including new range, and the latter repapering and repainting several rooms. A new fence has been built on the line of the Russell School Playground. These expenses have drawn largely on the income from these premises, but the property must be kept in good condition.

The Almshouse property has been repaired and redressed suitably for renting purposes. As an Almshouse it was discontinued and from July 1 has been rented as a dwelling.

Needed repairs have been made in the Town House in addition to those called for by the special appropriation referred to elsewhere.

In the basement the steam pipes were readjusted to afford more heat and the boiler was retubed as required by the boiler inspector.

The roof has also been repaired to some extent, but the work is of a temporary character, as the entire roof will need to be reslated in the near future.

Town House Repairs. Eight hundred dollars were appropriated for interior repairs and improvements of the Town House, to be expended under the direction of this Board. The walls and ceiling of the audience hall have been redecorated and the lights rearranged; the walls and ceiling of the corridors and stairways retinted; The Selectmen's room refloored and refurnished and the ladies' dressing-room refloored and retinted. The work was done under the special supervision of Mr. William Proctor, and probably the interior of the hall was never so satisfactory and artistic in appearance as at present.

Town Hall License. The Town Hall license was renewed for the year ending August 1, 1908. The following is a copy of said license:

COMMONWEALTH OF MASSACHUSETTS.

OFFICE OF THE CHIEF OF THE DISTRICT POLICE.
STATE HOUSE.

BOSTON, August 1, 1907.

PUBLIC HALL LICENSE.

In accordance with the provisions of Chapter 450 of the Acts of the year 1904, License is hereby granted to the inhabitants of the the Town of Arlington for a Public Hall, situated in the second story of the building known as Town Hall and situated on Massachusetts ave., in the Town of Arlington, County of Middlesex and Commonwealth of Massachusetts, from the first day of August 1907 to the first day of August 1908.

The conditions of this license are as follows, viz.:

The licensee shall comply with all the requirements of the laws of this Commonwealth governing Public Halls and places of assemblage.

No change in the means of exit, means of extinguishing fire, or any change in the use, or otherwise, shall be made upon said premises unless notice is given in writing to the Chief of the Massachusetts District Police and a new license issued.

That not more than the following number of persons shall be allowed at one time in said Public Hall, viz.:

In auditorium or main hall (including stage) 400; in balcony or gallery 30.

The means for extinguishing fire in all parts of said building must be kept in good order and ready for instant use.

All aisles, passage ways and exits to be kept free and unobstructed at all times when said hall is occupied.

All exits to be plainly marked and lighted when an audience is in the building.

This license must be posted in a conspicuous place near the main exit.

Any failure to comply with these requirements will be considered cause for the revocation of this license.

THIS LICENSE DOES NOT PERMIT ANY
THEATRICAL EXHIBITION.

JOPHANUS H. WHITNEY,
Chief of the Massachusetts District Police.

PUBLIC LANDS. The Town House Site is one of the beauty spots adjacent to the highway. Ornamental shrubbery has been set at

the four corners and the back part of the lot, a becoming fence erected on the line of the Robbins Estate, the grass mowed and the grounds otherwise cared for. A donation of $46.29 from the Arlington Heights Tree Protective Association was thankfully received and expended for shrubbery in accordance with the wish of said association.

The grass lot east of the Town House has received the same care as formerly, the grass being cut and the shrubbery cared for.

Wellington Park. At the annual March Town meeting a gift of $800 was received from William E. Wellington, of Dubuque, Iowa, to be expended by the Selectmen and the Town Treasurer in the improvement of the area at the intersection of Massachusetts Avenue and Lowell Street, including the erection thereon of a memorial tablet in bronze, suitably inscribed, in memory of the parents of Mr. Wellington. This amount with an additional sum of $400 given by the donor has been expended for the purposes intended. The area so improved, and now known as "Wellington Park," is a beautiful feature along the highway. The lay-out including the rockery, flag-pole, tablet, and grass plot all protected by edgestone is a credit both to the donor and the Town. It is a noble sentiment that prompts our sons to memorialize in permanent form their native hearth.

New Vault for the Deposit and Safekeeping of Town Records. In March last the Town appropriated $1300 for the construction of an additional and much needed vault for the safe deposit of Town Records, books, documents, etc., the same to be expended under the direction of the Selectmen. This vault has been completed and is now in commission. It is located on the easterly side of the Town Hall Building and nicely fitted with steel cabinet. The vault opens from the Town Clerk's office and is mainly for his accomodation, although space is allowed for the use of the Treasurer and Selectmen until required by the Town Clerk. The Commissioner of Public Records is very particular in the enforcement of the law relative to the safe deposit of public records and the Town is liable to considerable fine if obedience to that law is not followed. The Trustees of the Robbins Library have kindly given the use of a basement room in said library building for the deposit of books, papers, documents not in immediate use, and of duplicate plans, catalogues, etc. This room is now being fitted up and will afford needed protection to many books and documents otherwise exposed, beside greatly relieving the congestion in some of our present vault room. No doubt valuable papers and documents have been destroyed in the past because of lack of room for safekeeping.

In the equipment of the new vault the Town Clerk rendered valuable assistance.

The 100th Anniversary of the Incorporation of the Town of Arlington. The celebration of the 100th anniversary of the incorporation of the Town of Arlington took place June 1, 1907, under the direction of a special committee appointed by the Town. A full and detailed report of the proceedings of the celebration will be made by said committee, and the same published in pamphlet form for general distribution.

Tablet for Revolutionary Soldiers. In March, 1906, the Town voted $28 for a tablet to be inserted in the monument located in the old cemetery on Pleasant Street, and erected to soldiers killed April 19, 1775, the same to be expended under the direction of the Selectmen.

This work has been done. The tablet is of marble and the inscription as follows:

NINE AMERICAN SOLDIERS

Killed at Menotomy, April 19, 1775,

and buried here.

Lieut. John Bacon	Needham
Amos Mills	Needham
Elias Haven	Dedham
William Flint	Lynn
Thomas Hadley	Lynn
Abednego Ramsdell	Lynn
Benjamin Pierce	Salem
Jonathan Parker	Needham
Nathan Chamberlain	Needham

Pilgrim Memorial Monument. In accordance with the vote of the Town passed in March, 1907, that the Town contribute a memorial stone for the Pilgrim Memorial Monument now building at Provincetown, said stone to mark the date of settlement of Arlington, the Board report that such a stone has been furnished and in due time will become a part of said monument. The inscription on the stone reads as follows:

Menotomy,
West Cambridge, } 1630
Arlington,

Boiler Inspections. There are seventeen steam boilers owned by the Town and situated in the several school houses, Town Hall, Public Library, stone crusher, steam roller and steam drill. A liability insurance on all of these boilers is placed with the Hartford Steam Boiler Inspection and Insurance Company. The law

requires every boiler to be inspected internally and externally by proper authorities at least once in each year.

The Board sends copies of the Company's inspections report to the department interested in order that the requirements in said reports may be promptly carried out. The law is justly very exacting in its requirements toward safeguarding all persons in danger from boiler explosions.

Contract for Furnishing Coal to Town Departments. Ten different parties were invited to bid for furnishing coal to Town departments. Four proposals were received and the contract was awarded to the lowest bidder, namely, Peirce & Winn Company. The prices were $6.19 per ton for egg and stove; $4.73 for Georges Creek Cumberland; $7.00 for stove to be delivered in one-half ton lots; $6.70 for Honey Brook Lehigh, or $6.19 for Reading Lehigh egg. All to be delivered into bins according to specifications.

The total amount of coal furnished as above was 637 tons of hard and 315 tons of soft coal.

Contract for Printing Town Reports. In answer to invitation several proposals were received for printing the annual Town report. The contract was awarded to J. A. Cummings Printing Company who have printed said reports several times before, the work being very satisfactorily done.

Jury List. In a communication from Town Counsel Hardy, he says, "I wish to call the attention of your Board to the change in the law relative to juries and jury service by Chapter 348 of the Acts of the year 1907. The words "January and February," in Section 4, Chapter 176 of the Revised Laws are stricken out and the words "Before the first day of July" inserted. Section 5 of Chapter 178 of the Revised Laws, relative to the posting of lists and the submission of the same for revision and acceptance, to the Town meeting has been repealed and in place thereof there has been inserted Section 5 of Chapter 347 of the Acts of 1907, which reads as follows: Jury lists prepared as above provided shall, prior to the first day of August of each year, be printed with the address and occupation of each juror, and a copy thereof shall be delivered to the Mayor and Selectmen and to the Clerk of the City or Town to which such list relates, and to the clerks and sssistant clerks of the Supreme Judicial and Superior Courts in the county in which such City or Town is situated, to be by said clerks and assistant clerks kept for the use of said clerk."

Section 9 of Chapter 176 of the Revised Laws, providing that "the list with the occupation of each juror shall be printed in the annual report" is still in force.

Although it is not necessary for your Board to make up the list before July 1st, I should advise its being done at once and that the

list so made be published in the annual Town report which is now in the hands of the printer, otherwise the list cannot be published until the annual report of next year.

Mad Dogs. The order passed by the Selectmen Dec. 29, 1906 at the suggestion of Dr. Austin Peters, chief of the Cattle Bureau, and Dr. L. L. Peirce, our inspector of animals, to the effect that any and all dogs within the limits of the Town of Arlington shall be muzzled, or restrained from running at large, from said date to the first day of April, 1907, has been carried out. The occasion of this order was the extensive prevalence of rabies in the eastern part of the Commonwealth. On April 1st there appeared to be no necessity of extending the time covered by the order.

The return on the warrant issued showed that 19 dogs had been killed in accordance with said order.

Sealer of Weights and Measures. Chapter 534 of the Acts of 1907, provides for the appointment by the Governor of the Commonwealth of a Commissioner of Weights and Measures.

From circulars and pamphlets issued by said Commissioner it is evident that a more vigorous enforcement of the laws relating to the sealing of weights and measures, and the giving of false and insufficient weights and measures is to be carried out, and under the new regime this department of Sealer becomes more important than ever.

It behooves the Selectmen therefor to see that the local Sealer fully performs his duties in the premises.

The act relative to giving false weight, etc., is as follows:

CHAPTER 394 ACTS OF 1907.

An Act relative to the penalty for giving false weight or measure.

Be it enacted etc., as follows:

Section 1. Whoever, himself or by his servant or agent or as servant or agent of another person, is guilty of giving false or insufficient weight or measure shall for a first offence be punished by a fine of not more than fifty dollars, for a second offence by a fine of not more than two hundred dollars, and for a subsequent offence by a fine of fifty dollars and by imprisonment for not less than thirty nor more than ninety days.

Sec. 2. All acts and parts of acts inconsistent herewith are here by repealed. (*Approved May 8, 1907.*)

Railroad Crossings at Whittemore Street and Avon Place. At the request of the owner of a large tract of land south of the Boston & Maine Railroad tracks, and adjacent thereto, the Select-

men deeming it advisable, petitioned the Railroad Commissioners to abolish the crossings at the foot of Whittemore St. and Avon Place. The matter is under advisement by said Commissioners.

Miscellaneous. R. W. LeBaron, Inspector of Wires, has been designated by the Selectmen as the person authorized to cut wires in emergency cases, and in his absence Thomas O. D. Urquhart, chief of Police, has the same authority.

LICENSES.

Licenses were granted as follows:

Victuallers. C. LaBreque, 606 Massachusetts Avenue; Miss I. M. MacDonald, 1406 Massachusetts Avenue; A. O. Sprague, 5 Mystic Street; Catherine Brady and Rose Callaghan, 1410 and 1412 Massachusetts Avenue; Charles H. Kimball, 1385 Massachusetts Avenue; Charles F. Ford & Co.; N. J. Hardy, 657 Massachusetts Avenue; Elizabeth Welch, 1399 Massachusetts Avenue; Margaret L. O'Brien, 11 Mystic Street.

Junk. Max Rosenfeldt, 1303 Cambridge Street, Cambridge; Morris Backer, 4 Lake Street, Somerville.

Pool Table. Joseph W. Ronco, Post Office Building; Raphael D. Guarente, 612 Massachusetts Avenue.

Auctioneers. Philip A. Hendrick, 12 Draper Avenue; Frank Y. Wellington, 15 Wellington Street; James H. Shedd, 28 Draper Avenue; Frank V. Noyes, 244 Pleasant Street; George D. Moore, 133 Broadway; Wm. H. Butler, 9 Bartlett Avenue; F. Alfred Patterson, Arlington Heights, Arthur J. Hendrick, 99 Medford Street.

Intelligence Office. Arlington Exchange, Clara T. Blake, Manager, Associates Building; Dow & Giles, 633 Massachusetts Avenue.

To Transport Spirituous or Intoxicating Liquors Under Provisions of Chapter 421, Acts 1906. George W. McClellan, 7 Webster Street; Wood Bros. 1 Water Street; Arthur W. Curtin, 963 Massachusetts Avenue; William R. Stiles (Warner's Express), 161 Westminster Avenue; Jesse C. Fletcher, 32 Sawin Street; Johnsons' Express (J. J. Guiney, Manager), 450 Massachusetts Avenue; American Express Co., Railroad station, Arlington.

No sixth class liquor licenses were granted during the year.

Attention is called to the financial statements and comparative tables herewith appended. For further detail of expenditures see Auditor's report.

MISCELLANEOUS BUSINESS.

Accidents reported, 21; ambulance calls, 31; Board of Health notices served, 57; Board of Selectmen orders posted, 102; com-

plaints made and cases investigated, 226; dangerous places left unlighted at night reported, 7; danger signs posted on ponds, 12; dangerous trees reported, 10; dead bodies cared for, 4; dead animals cared for, 12; defects in streets reported and cared for, 16; defective electric poles reported, 3; defective electric wires burning trees reported, 20; demented persons assisted, 3; defective gas pipes reported, 1; defective water pipes reported, 17; detained on suspicion, 4; disturbances suppressed without arrest, 4; doors found unlocked and secured, 30; dogs killed, 41; escorts furnished, 3; electric wires reported down, 15; electric lights reported out (arc, 63, incandescent, 335) 398; fire alarms given, 7; fires extinguished, 4; fire alarm glasses in boxes reported broken, 25; fire alarms, officers attending fires, 49; horses found cast, 4; houses cared for, owners away, 38; injured persons assisted, 21; injured persons attended at station, 11; injured persons sent to hospitals, 14; inmates from institutions escaped and returned, 3; lost children returned, 15; lanterns furnished for dangerous places, 35; lanterns found extinguished and relighted, 51; lights found burning in buildings and owners notified, 3; notices served for out-of-town officers, 4; runaway boys returned to parents, 6; runaway horses secured, 2; sick persons assisted to homes and hospitals, 15; stray teams cared for and owners notified, 13; sidewalk obstructions removed, 17; street signs found and returned, 4; store windows found open, 10; stolen property, reported value, $500; stolen property, recovered value, $300; property reported lost, value, $200; property reported found, value, $125; wagon calls, 12; duty calls on police system, 23,064; telephone calls received on police system, 743.

The Police Signal System still continues to give the utmost satisfaction and to my mind is one of the most valuable adjuncts to this department.

There has been 23,064 duty calls and 743 telephone calls received during the year over this system.

During the year the department has maintained a high degree of efficiency as is shown by the work done by individual members.

With a serious epidemic of crime in all the cities and towns surrounding Arlington, we have been particularly fortunate and have captured (in almost every instance in the act) no less than eleven burgulars, thereby clearing up no less than sixteen mysterious burgularies committed in other places and recovering property of considerable value.

I cannot speak too highly of the services rendered by the patrolmen in the capture of these desperate characters and of the good judgment shown by the officers in the face of grave danger of bodily harm to themselves.

On June 1st. the town celebrated its 100th anniversary and I believe the citizens will be pleased to learn that on that day from 12 a.m. to 12 a m. with the thousands of strangers that gathered on

our streets not an arrest was necessary, not a complaint entered, no property was stolen and no accidents reported.

Our local force was augmented by 4 inspectors, 1 sergeant and 20 patrolmen from the Boston Police Department, and by a detachment kindly offered by the Metropolitan Park Commission.

I would recommend that the sum of $9000.00 be appropriated for the maintenance of this department for the year 1908.

In conclusion I wish to take this opportunity to thank the citizens of Arlington for the many courtesies rendered me in the enforcement of law and order.

To the Board of Selectmen, the Town Counsel, Horace D. Hardy, and the Town Clerk, Thomas J. Robinson, for valuable advice and services rendered I extend my hearty appreciation.

Respectfully Submitted,

THOMAS O. D. URQUHART,
Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen of the Town of Arlington:

GENTLEMEN:—I respectfully submit my annual report of the Fire Department, for the year ending Dec. 31, 1907, giving details, the force, apparatus, record of fires, and alarms, with the amount of loss, and insurance on property endangered, as near as possible to be ascertained; also the appropriation and expenditures together with recommendations and suggestions for the best interests of the department and the Town.

The department has met with a serious loss, a loss from which it will take some time to recover. On Nov. 23, our Chief, Chas. Gott, who has been at the head of the department for the past thirty years, passed away; he served the town faithfully and through his efforts the department has grown from a very primitive, to one of the best equipped of Towns of this size in the State. The interests of the department were always foremost in his thoughts; a born fireman, one who never shirked his duty or new what danger was, his loss will long be felt by his comrades left behind. A set of resolutions to his memory was adopted and placed on record and a copy of same sent to his family.

FIRES AND ALARMS. The department has answered 47 bell and 51 still alarms. The alarms were as follows:

Jan. 20. Still alarm 4.30 A. M. Mystic St.

Jan. 20. Box 28, 4.37 A. M. Off Mystic St. near lake. Wooden boat house, owned by Medford Boat Club. Value of building, $5000; Insurance on building, $2500; total loss. Value contents, $2000; insurance on contents, $1412; insurance paid on contents, $742.60; Loss on contents total.

Jan. 20. 9.30 A. M. S. A. purpose of looking for body of man lost in boat house fire.

Jan. 26. Box 46, 3.16 A. M. 42 Dudley Street. Heating plant in the hot house of Thos. Hills. Value of building, $600. Loss, $150. No insurance.

Feb. 4. Box 28, 7.14 A. M. Fairview Avenue. Dwelling house, needless, smoke from furnace.

Feb. 22. Box 512, 6.13 A. M. Electric Car of Boston Elevated R. R. No damage.

Feb. 23. Box 41, 12.47 P. M. 13 Schouler Court. Wooden dwelling owned by Mrs. John Fergerson. Value of building, $750. Loss on building, $50. No Insurance.

Mar. 10. Box 31, 5.18 P. M. 29 Brantwood Road. Wooden dwelling house owned by Est. of J. B. Henderson. Value of building, $7000. Insurance on building, $6000; loss on building, $2550. Value of contents, $2500; insurance on contents, $2400; loss on contents, $325.

Mar. 10. Box 31, 7.30 P. M. Previous fire broke out again.

Mar. 22. S. A., 3.30 P. M. 26 Walnut Street. Grass near house. No damage.

Mar. 23. S. A., 9.48 A. M. Tanager Street. Grass fire.

Dec. 27. S. A., 12.45 P. M. 110 Lake Street. Owners, Wyman Bros., lumber.
Dec. 28. Box 21, 4.35 A. M. False alarm.

The value on buildings was	$60,300 00
The insurance on buildings was	36,300 00
Loss on buildings was	12,408 50
Value on contents was	7,025 00
Insurance on contents was	5,512 00
Loss on contents was	1,736 40

The several companies have answered the alarms as follows:

Hose 1 answered 15 bell and 4 still alarms; covered in 30 times at Hose 2 house; laid 800 feet of hose, used 8 pony chemicals and traveled 42 miles.

Hose 2 and Chemical answered 47 bell and 27 still alarms; used 25 large and 19 small chemical tanks, laid 4,800 feet hose, traveled 136 1-2 miles.

The chemical engine was called once out of Town for aid at a fire in Winchester.

Hose 3 answered 42 bell and 20 still alarms; used 59 pony chemicals, laid 12,500 feet of hose and travelled 88 1-2 miles.

Hook and Ladder Truck answered 47 bell and 1 still alarms; used 560 feet of ladders and traveled 83 miles; used 5 pony chemicals.

Manual Force. The manual force now consists of a total 48 members, divided as follows:—one chief, two assistant chiefs, six permanent men, thirty-four call men and five substitutes.

Horses. We have eleven horses, ten of which are in first class condition, one pair of blacks having been purchased the past year and placed on the Ladder Truck, and the pair formerly on Ladder Truck placed in Hose 1 house, the pair from Hose 1, one was put where all good fire horses go, and the other has been used by the department for a spare horse, and also by the Police department, barring accident, the horses are good for a number of years to come. The horses have consumed 1123 bushels of grain; 53351 lbs. of Hay; 4457 lbs. straw, making a total cost of feed $1332.07; cost per horse $2.56 per week.

The coal for the department cost $204.95.

Apparatus. The apparatus are all in first class shape, having been thoroughly overhauled the past year, rubber tires been put on each piece; paint and varnish have done the rest to make the outfit second to none in this vicinity.

Building. The buildings are in same condition as last year with the exception of Hose 2 house in which a steam heater has been placed, the old furnace having given out, and past repair. The building at the Heights, Hose 1 house, needs a coat of paint badly; think it would be economy to paint it this year.

Fire Alarm. This is in the hands of the superintendent of Fire Alarm, who will report on same.

Hose. We have at present about 5,800 feet of hose. Through an accident we lost about 500 feet the last year by the breaking of a vitriol bottle, and the contents being spilled on hose. We also have a number of feet which are not fit for the high water pressure and are not safe to put on the wagons. I recommend the purchase of 1,000 feet of first class hose the coming season.

The vacancy on the Board of Engineers, caused by the death of Chief Gott, was filled by the appointment of Mr. F. P. Winn, captain of Hose Company No. 3, who was formerly a member of the Engineers and well able to fill the position.

Appropriation. The appropriation last year was $11,000 for maintenance; $1,150 special for repairs on apparatus, and at the Nov. meeting an additional appropriation of $350 for maintenance, and $370 for heater in Hose 2 House, making a total of $12,870.

I recommend the sum of $11,000 for running expenses and $750 special for the purchase of hose.

This amount is necessary to run the department, based on last year's figures. In the sum asked for maintenance I have included the cost of painting Hose 1 House.

Conclusion. In closing my report, I respectfully thank your honorable board for the courteous manner in which they have always received me in my official capacity. In omitting suggestions from my report, owing to our late loss of Chief Gott, and my appointment of about one month, I am not ready to offer any new suggestions beyond those which already have been offered by our late Chief. I wish to extend my thanks to Chief of Police for favors received. To my assistants, my thanks for manner in which they have assisted me in my duties, especially at the time of our late loss. To the permanent and call men, my sincere thanks for the manner in which they have answered all demands that they have been called upon to fulfil, thereby making the work of others so much lighter and reducing the fire loss. I cannot but help speak of the manner in which the members of department conducted themselves in the time of our late bereavement, it only shows the respect which they had for their late chief and a fitting finish of his long and successful career as a fire fighter.

Respectfully submitted,

WALTER H. PEIRCE,
Chief.

REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, MASS., December, 31, 1907.

To the Honorable Board of Selectmen, Town of Arlington, Mass:—

GENTLEMEN: — I herewith submit report of the Inspection of Buildings for the year 1907. Sixty-four permits were issued, classified as follows —

NEW BUILDINGS

		Estimated Cost.
Dwellings, one family	19	$72,000.00
two families	9	48,000.00
three families	6	35,000.00
Factories (additions to existing plants)	2	3,500.00
Stables	5	3,500.00
Temporary	7	4,500.00
Additions and alterations	16	14,500.00
		$181,000.00

I wish to again call attention to the need of amending the present Building By-Laws to conform with the standard maintained in adjoining towns and cities, also to meet the requirements of the growth of this Town, and I would earnestly request that the matter be given attention by the Committee on Town By-Laws as soon as practicable.

Respectfully submitted,

ROBERT W. POND,
Inspector of Buildings.

REPORT OF TOWN PHYSICIAN.

ARLINGTON, January 1, 1908.

To the Honorable Board of Selectmen of the Town of Arlington:—

GENTLEMEN,—I herewith respectfully submit report as Town Physician from April 1, 1907 to January 1, 1908.

As is shown by the record given below, the health of those receiving Town aid has been excellent. With the exception of one fracture and three operations no serious cases have been brought to my attention.

Number of office calls	34
Number of visits made	24
Emergency calls at police station	15

Of the emergency cases six were sent to hospitals for further treatment, two fractures were reduced and three wounds requiring stitches were properly dressed.

I would recommend that a small sterilizing apparatus for boiling instruments be installed at the police station.

Respectfully submitted,

G. E. SANGER,
Town Physician.

REPORT OF INSPECTOR OF MILK.

To the Board of Selectmen:

GENTLEMEN: — I submit the following report as Inspector of Milk in the Town of Arlington:

I have issued forty-six registration certificates and twenty-six licenses for selling milk and cream.

I have at different times collected fifty samples of milk, which I have tested and found them up to the State standard.

I would recommend that an Inspector of Milk be paid enough so he could give more time to look after the milk sold in Arlington, so that it would be as good as any milk sold in the State. It is something that should be looked after a great deal more than it has been in the past.

Respectfully submitted,

FRANK P. WINN,
Inspector of Milk.

REPORT OF SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selentmen: —

Gentlemen:—I have the honor to submit to you the following report for the year ending December 31, 1907.

I have inspected, tested and sealed one hundred and ten scales, ninety-one dry measures, seventy-two liquid measures, and three hundred and one weights. The incorrect scales were adjusted and made to register properly. The Town scales, with slight adjusting, were made to register properly.

Whole number of scales tested, outside of the Town scales..	110
" " " dry measures tested.....	91
" " " liquid measures tested.....	72
" " " weights tested.....	301
" " " milk jars tested.....	3,221
" " " milk jars condemned.....	22

Respectfully submitted,

CHARLES F. DONAHUE

Sealer of Weights and Measures.

December 31, 1907.

REPORT OF INSPECTOR OF ANIMALS.

ARLINGTON, MASS., Jan. 7, 1908.

To the Honorable Board of Selectmen of the Town of Arlington: —

GENTLEMEN: — I have the honor to submit my annual report as the Inspector of Animals for the year ending December 31, 1907.

For the first time in a long period of years there has not been a single case of glanders or farcy within the Town limits.

Rabies has become exceedingly prevalent in Eastern Massachusetts during the last two years and there have been eight (8) cases, seven (7) in dogs and one (1) in a cat in Arlington this year.

There have been four (4) cases of tuberculosis in cows which I have had destroyed by the State Authorities.

In making the regular fall inspection, I have inspected one hundred and fifty-seven (157) cows, five hundred and ninety-six (596) hogs, five (5) goats and sixty-eight (68) stables in which these animals were stabled. In all cases the proper papers were given to the owners.

Respectfully submitted,

LAURENCE L. PEIRCE. M. D. V.,
Inspector of Animals.

REPORT OF THE JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS.

The Joint Board of Selectmen and Board of Public Works respectfully present their fourth annual report for the year 1907.

Organization. The Board met March 11, 1907 and elected S. Frederick Hicks, Chairman, and Horace A. Freeman, Clerk. There are no standing committees. Regular meetings are held on the second and fourth Mondays of each month, and, special meetings whenever called by the Chairman. Twenty-six meetings have been held during the year.

Appointments. For appointments made by the Board see the list of appointive officers.

Street Watering. In answer to invitations, bids were received for watering the streets for the season from April 15th to Nov. 15th, a period of seven months. Contracts were awarded as follows :

Route 1. James Wilson
Route 2. A. W. Ganong
Route 3. P. J. Lennon
Route 4. Timothy Ryan
Route 5. William A. McDonald
Route 6. John Kelly

for $80. per month each.

The extension of street watering necessitated an additional route, making six instead of five as formerly.

The cost for the year has been $3,720.23, the same being met by an appropriation by the Town of $1000, a contribution of $200, a reimbursement $21.25, and the balance $2,498.98 assessed on abutters, the assessment being 2.7 cents per front foot. Last year it was 2.5 cents per front foot.

A standpipe has been installed on Marathon Street and one on Lowell Street.

Street Lighting. The contract under which the streets of the Town have been lighted for five years expired May 1, 1907. At the March Meeting the Town appointed a special committee to report to the Town a form for a new contract. This report was made and accepted by the Town July 1, 1907, and the Selectmen

authorized to execute the form of contract recommended. This duty was performed by the Selectmen and the new contract went into effect July 1, 1907. The contract is with the Edison Company for a term of twenty years. For detail of the above committee's report see the Town Records printed in this volume and for a copy of the contract see the report of the Selectmen.

The street lighting for the year has been satisfactory and the current is reported by Inspector LeBaron as having been always up to the required standard.

Few outs have been reported and the question has arisen whether all outs are reported. While it is the special duty of the police to observe the lamps nightly and report those not burning, the Board would thank any and all citizens to report to the police department either by telephone or otherwise any lamp noticed by them unlighted. The Town is reimbursed for all unlighted lamps one cent per hour for incandescents and five cents per hour for arcs. With full reports there will be better service by the company and less waste to the Town.

The number of lights in commission December 31, 1907, is shown by the following table : —

	1907	1906
Arcs	81	81
Incandescents	233	229

On the basis of 81 arcs and 229 incandescents and burned every night until one o'clock A. M., or 2,408 hours, our lights will cost $8,872.87, or an average of $68.38 for arcs, and $14.56 for incandescents. Every light in addition to the above will cost about $64.83 for arcs and $12.99 for incandescents.

Readjustment in the location of some of the lights has been made, resulting in a net increase of four incandescents. Further readjustments will be made and further additions will be necessary the ensuing year.

The Town of Belmont continues to pay for half the cost of the arc at the corner of Lake and Pleasant Streets, and the Arlington Boat Club for one-half the cost of arc at the foot of Whittemore Street. As heretofore, the lights are turned on in the early morning when needed by the Highway Department for snow ploughing.

Permanent Sidewalks. For permanent sidewalks installed during the year, and details of the same, attention is called to the reports of the Town Engineer and Board of Public Works. Assessments under Chapter 49 of the Revised Laws for sidewalk construction on Teele, Tanager and Medford Streets, Bartlett and Massachusetts Avenues, to the amount of $500.48, were committed to the Collector of Taxes.

Sidewalk assessments are a lien on abutting property and may be collected in the same manner as taxes on real estate. The lien is good for two years after the assessment is committed to the Collector.

All permanent sidewalk construction must be done in accordance with Town specifications and to the satisfaction of the Town Engineer.

March 25th the Board voted to make the following allowance to abutters relative to the cost of constructing permanent sidewalks :

For tar concrete, one-half the cost.
For brick, one-half the cost.
For granolithic, 55 cents per square yard.

The total amount expended for sidewalks was $3,139.61, being $2,027.81 for extensions and $1,111.80 for renewals.

Pole Locations. Thirteen petitions for pole locations have been granted to the Edison Electric Illuminating Company, mostly for reconstruction purposes, and one petition has been granted to the New England Telephone and Telegraph Company.

There has been some complaint as to the manner in which the work of setting poles is done by the various companies. These complaints are to the effect that the unfinished work is not properly lighted and not lighted early enough, thus being a menace to travel. The Board finds the complaints well grounded, and action will be taken to insure better care on the part of the companies.

Plans Approved : Plans contemplating the laying out or constructing of streets are required to be approved by the Board of Survey before said streets can be laid out by the Joint Board. Petitions for the approval of plans of this character have been received relative to Lombard Road, Washington, Norcross, Sylvia, and Harvard Streets. These plans were approved. Petitions relative to Windemere Park, Wildwood Avenue, Brattle Hill Terrace were considered and it was deemed inadvisible to approve plans of the same. Plans were drawn up by the Board of Survey relative to Sawin Street and the extension of Wollaston Avenue were approved in accordance with the requirements of Section 3 of the Board of Survey Act of 1897.

The Town Engineer has been instructed to make a special study of desirable street lay out relative to the Bacon premises on Pleasant Street and adjacent territory, and also of the Locke Farm on Massachusetts Avenue and territory adjacent thereto and report on the same.

There can be no proper lay out of streets that does not take into consideration territory adjacent to the land immediately concerned. The relocation of Laurel Street, so-called, on the premises of Vail Bros. on Brattle Street is under consideration.

New Streets Laid Out or Constructed: Summer Street from a certain point east of Grove Street to Pine Street was laid under the provisions of law authorizing the assessment of betterments.

The following streets have been constructed under the Betterment Act, as authorized by the Town, and appropriation made for that purpose, namely, Tanager, Palmer, Wyman Streets and Avon Place. The matter of betterments and assessments will be taken up early in 1908.

Spy Pond Brook. Complaints were made early in the year to the effect that Spy Pond Brook overflowed at certain seasons of the year, filling cellars and causing other damage to adjacent property. The matter was referred to Town Engineer Pond, who made a careful study of the situation and reported with recommendations to the Board.

In accordance with his recommendations an appropriation embodied in the appropriation for highways was made by the Town for improving said Brook, and preventing further damages. These improvements have been carried out in a satisfactory manner.

Tree on Medford Stret. The beautiful tree on Medford Street at the corner of Chestnut Street was in the highway and was a menace to public travel, thus rendering the Town liable to considerable damage in case of accident.

The matter was taken up, and after a hearing given by the Tree Warden as to removing the same, it was deemed advisable to extend the curbstone of the adjacent park, so as to surround the tree. The danger seems to have been eliminated.

About this time the falling of a large limb from the Whittemore Elm near Henderson Street, brought up the question as to the removal of that tree, being in the travelway on the sidewalk. The matter is in the hands of the Tree Warden and others as to strengthening the tree in such a way as to be entirely safe.

Shrubbery on Sidewalks. Permit was granted William A. Muller to plant ornamental shrubbery on the border of the sidewalk in front of his premises on Massachusetts Avenue, the width of the sidewalk allowing this to be done.

The Board think the idea a good one and worthy of emulation.

Extension of Henderson Street. The citizens of the eastern part of the Town feel the urgent necessity of easy and direct access to street cars at Clarendon Hill, Somerville. To do this it was necessary to make use of a temporary foot-bridge across Alewife Brook at the foot of Henderson Street. The possible discontinuance of this passage way brought the matter before this Board and it was deemed advisable to petition the County Commissioners for the lay out and construction of Henderson Street Extension to connect with

a proposed new street in Somerville. The County Commissioners will give in the near future a hearing on the matter.

Transportation. The Joint Board have continued their efforts in behalf of better car service for Arlington people in transit from Boston to Arlington, but no material improvement is yet apparent. The Arlington cars are still overcrowded, with consequent discomfort and menace to health, as existed a year ago, and the need of more rapid transit is as urgent now as then.

The Boston Elevated claim that they are giving the best service that their facilities will allow, and that no great relief from present conditions can be expected until the proposed changes and extensions of the company now in process of construction are completed.

The Board feel, however, that the best service obtainable from present facilities are far from being reached. The tabulations taken at Harvard Square by authority of this Board, and now on file, show this fact very conclusively.

At the close of 1906, as indicated by the report of the Joint Board for that year, a petition for free transfers at North Cambridge Car Station, Clarendon Hill and Medford Street, was sent to the Railroad Commissioners. A hearing was given on this petition by said Commissioners, Tuesday, Feb. 7, 1907. At this hearing the testimony was strong in evidence of the extreme overcrowding of Arlington cars in transit from Boston to Arlington by way of Harvard Square, while cars whose terminal was North Cambridge had abundant vacant seats. The hearing also showed that the overcrowding of Arlington cars from Sullivan Square could be relieved by transfers at Clarendon Hill.

After the hearing the Railroad Commissioners took this matter under advisement and soon after rendered the following decision:

COMMONWEALTH OF MASSACHUSETTS.

In Board of Railroad Commissioners.

March 16, 1907.

Petition of the selectmen and board of public works of Arlington relative to transfers on the Boston Elevated railway.

While other matters were touched upon at the hearing the principal grievance was that of passengers who ride upon the elevated system between Boston and Arlington Heights and who claim that they are discommoded by the rule which limits their transfer at Harvard Square to Arlington cars. They ask the right of transfer at that point to cars for North Cambridge, and at North Cambridge

to cars for Arlington Heights. It is claimed, that at busy hours the cars to which they are now obliged to transfer at Harvard Square are apt to be crowded, while cars running to North Cambridge have room to spare. The company answers that it is furnishing extra cars for the benefit of those who ride between Harvard Square and Arlington Heights.

It seems unnecessary to say more than that proper accommodation ought to be furnished either in one way or the other, either by granting the transfer which is desired or by providing at Harvard Square a sufficient number of extra cars, and that the company ought to be allowed its option as to which method it adopts.

For the Board,

(Signed) JAMES F. JACKSON,
Chairman.

A True Copy.
Attest:
CHARLES E. MANN,
Clerk.

A few days later the following letter was received: —

COMMONWEALTH OF MASSACHUSETTS.

Board of Railroad Commissioners.

Boston, March 20, 1907.

Hon. James A. Bailey,
Arlington, Mass.

Dear Sir: — Though the order of the Board in reference to the Arlington transfer matter is brief and general in character we expect good results from it. Should you or others fail to realize what you believe a reasonable service in the future I assume that you will call our attention to the fact.

Very truly yours,

JAMES F. JACKSON,
Chairman.

It will be seen by the above decision that the Railroad Commissioners recognize the necessity of relief and that this should be furnished by the Boston Elevated Railway Company, either by free transfers or by extra cars.

Recent count and tabulations taken at Harvard Square appear to show that conditions have not changed, namely, great over crowding

of Arlington cars, while cars for North Cambridge invariably have room to spare.

Now, while North Cambridge people fill up Arlington cars to overcrowding, and while our people are permitted to take North Cambridge cars and transfer at Brookline Street and Harvard Square for Arlington, why not grant them permit to transfer also at North Cambridge for Arlington. It is believed this will greatly relieve the situation without necessitating extra cars or additional expense to the Elevated. The only reason thus far given by the Boston Elevated why this is not allowed, is "there are too many transfer stations already."

The attention of the Boston Elevated has again been called to the matter, and if relief is not forthcoming another appeal will doubtless be made to the Railroad Commissioners.

The congestion of Medford Street by standing cars referred to in our last report has received special attention. After further correspondence and interview the very unsatisfactory situation has been relieved. Under the present arrangement the Medford Hillside cars come to the centre as far as Water Street and return immediately to Sullivan Square Station, as a terminal. By this plan no standing car is allowed on Medford Street, and only one standing car at the centre, namely, that of the Beacon Street line. The new arrangement appears thus far to work satisfactorily, and our streets are left free for public travel.

In regard to the matter of rapid transit, the Boston, Lowell and Lawrence Electric R. R. Co. (which is practically a reorganization of the Boston-Lowell Interurban Street Railway Company), under authority of the more recent legislation relative to interurban railroads, petitioned the Board of Railroad Commissioners for a certificate of public necessity and convenience relative to said proposed road.

On this petition the Railroad Commissioners gave a public hearing May 13, 1907, and their report, made in September, was a very strong and emphatic refusal to grant said petition.

The Joint Board having previously voted to disapprove of the proposed location of tracks of this company in Arlington, appeared with many of our citizens at said hearing and earnestly remonstrated against granting said petition.

The report of the Railroad Commissioners appears to justify the action of the Joint Board, as the following taken from their report shows :

> The Boston, Lowell and Lawrence electric railroad as planned would pass through Charlestown, Somerville, Medford and Arlington, connecting with the Boston Elevated System in Charlestown. Residents of these cities and towns earnestly remonstrate against the building of this railroad. Though these remonstrants cannot rightfully set up their local interests as an impassible barrier to all new facilities for travel between Boston and more distant cities and towns, they may reasonably ask that their interests shall not be heedlessly overridden.

It cannot be gainsaid that the railroad which is proposed would interefere with important extensions of the Boston Elevated system which have long been awaited as a public blessing in these suburban towns. Are prospective benefits from the new enterprise such as to justify the sacrifice of these other public interests?

New freight facilities and low fares were prominent features of the prospectus of the Boston, Lowell & Lawrence Electric Railroad. The suggestion of better freight accommodation was attractive in Lowell and would explain much of the interest in the enterprise at first aroused in that quarter; but all intention of carrying on a freight business has since been disavowed. A five-cent fare between any point in Arlington, Medford and Somerville to all parts of Boston was attractive in those communities and explains certain support secured in each; but it has since become evident that this assurance had no substantial basis.

The freedom with which stations have been promised and the manner in which methods of operation have been explained challenge faith in the fulfilment of prophecies regarding train service. In general it may be said that the method pursued in placing this project before the public at different times and in different places in the early days of its promotion, was notable for indifference to law and conditions and to the possibility that promises made might call for performance. Then, too, the structure which the company proposes in Sullivan Square is undesirable and unsightly and the selection of that connnection with the elevated system makes rapid transit improbable and aggravates conditions that already vex and menace the public at this terminal. Nor can the company build the structure which it has planned without special legislation, and such legislation has been expressly denied.

Stripped of all the glamour given it by unsubstantial proclamations, there is little in the enterprise to recommend it to the business judgment of investors or to give it standing with the public; too little to warrant the exercise of the right of eminent domain or the interference with other public works that the building of such a railway would involve. The standing and character of members of the temporary board of directors who were enlisted in the undertaking cannot be challenged and able counsel have endeavored to show substantial merit in what the company proposed to accomplish, but the more careful the study and the closer the scrutiny of the history and character of this transportation scheme, the less there is found in it to call for a certificate that public necessity and convenience require it.

Policy of the Board. The following votes indicating the policy of the Board have been passed during the year:

(*a*) *Width of Streets.* At a meeting held Oct. 14, 1907, it was

Voted, That it was the sense of the Board of Survey not to approve of plans for the laying out or constructing of streets less than forty feet wide.

(*b*) *Crosswalks.* At a meeting held Oct. 28, 1907, it was

Voted, That whenever a sidewalk is changed by the construction of a new street the sidewalk, including the new crosswalk, must be relaid in as good and permanent a form as before the change, the cost to be a charge against

the party constructing the street. In case the Town desires a higher cost walk than existed before the change was made the additional cost must be made by the Town in case of permanent sidewalks only.

(c) *Rough Grading of Private Streets.* At a meeting held Dec. 9, 1907, it was

Voted, That after Jan. 1, 1908, no water or sewer pipes shall be laid in streets approved by the Board of Survey until such streets, including sidewalks, have been brought to subgrade satisfactory to the Town Engineer.

S. Frederick Hicks,
Frederick S. Mead,
J. Howell Crosby,
Peter Schwamb,
William N. Winn,
Henry W. Hayes,
Joint Board of Selectmen and Board of Public Works.

REPORT OF THE TOWN COUNSEL.

Boston, January 9, 1908.

To the Joint Board of Selectmen and Board of Public Works, Arlington Mass.: —

Gentlemen, — In the case of Partridge against Arlington the reduced verdict of twenty-five dollars was paid by the Town, the Court having denied costs to the petitoner and the Town.

The suit of Grebenstein against Arlington for damages for injuries received in consequence of an alleged defect in the highway has been settled for fifty dollars.

The suit brought by the Town against Mrs. Berry for reimbursement for relief afforded by the Town to her father, Matthew Patterson, has been settled by the payment to the Town of fifty dollars.

A writ of entry against the Town is pending, brought by George Lothrop, alleging that he is the owner of a portion of the Great Meadows in East Lexington, and that the Town has disseized him and now holds him out of possession. This is a portion of the land taken by the Town in 1873 for water purposes.

The Board of Health passed an order on May 13th, 1907, forbidding the exercise of the trade or employment of keeping swine within the limits of the Town without a permit, except in certain areas on Turkey Hill and back of Arlington Heights, declaring therein, that, in their opinion such trade or employment was a nuisance, dangerous to the public health, attended by noisome and injurious odors and injurious to the estates of the inhabitants of the Town. This order was duly served on Warren W. Rawson, a citizen of the Town, who was exercising such trade or employment contrary to the terms of the order, and from this order Mr. Rawson appealed and claimed a trial by jury. The trial, held in November, lasted six days. The jury hearing the case annulled the order.

A petition by the selectmen for the abolition of the grade crossing at Whittemore Street and Avon Place has been entered in the Superior Court.

The claim of William Sweeney against the Town for damages for injuries received in consequence of a defect in the highway, after a thorough investigation and on advice of the Town Counsel, was settled for one hundred and fifty dollars.

The Town Counsel appeared, in behalf of the Town, before the Board of Railroad Commissioners at the hearings on free transfers, the interurban and the Cambridge Subway matters.

The legal work of the different departments of the Town has been attended to.

Respectfully submitted,

HORACE D. HARDY,
Town Counsel.

REPORT OF THE TOWN ENGINEER AND SUPRINTENDENT OF STREETS.

Arlington, Mass., Jan. 27, 1908.

To the Joint Board of Selectmen and Board of Public Works:—

Gentlemen,—Herewith is respectfully presented a report of work under my charge for the year 1907.

The organization and character of work done has been the same as last year.

All engineering expense is charged each week to the Department or Board for which the service has been rendered, and is classified for the year as follows, in the same form as heretofore, so that comparison from year to year can readily be made:

Highway Division: For marking all lines and grades, making plans, profiles, estimates, locations and records of work done and in contemplation by the division	$468 80
Sewer Division: For all surveys, plans, profiles, lines, grades and records, including superintendence on cleaning and flushing sewers	243 89
Superintendence and inspection on sewer construction	301 36
Superintendence and inspection on particular sewer construction	180 07
Water Division: For all lines for new mains and locations, and records of gates, hydrants, specials, service boxes, and work on registration data, office records and reading meters	506 25
Sidewalks: For all lines, grades and measurements of edgestone, concrete, brick and artificial stone walks	20 37
New Streets: For all engineering work and data required in the construction of new streets by the Highway Division, under special appropriations	52 00
Board of Survey: For all surveys, plans and profiles of streets laid out by the Board	12 67
Plans: Copying plans and deeds from Registry of Deeds at East Cambridge, and description of real estate for tax titles, street numbering plans, cemetery plans, Wellington Park and miscellaneous work for the various Boards and Committees	241 06
	$2,026 94

It should be noted from the above classification that a large part of the expense charged as engineering, is for superintendence in the Sewer Division and for office work in the Water and Highway Divisions.

Board of Public Works. For details of the work under the direction of the Board reference is made to their report.

Highway Division. It is the aim of the Highway Division to maintain the highways of the Town in as good a condition as the funds available will allow. Constantly increasing travel, and especially the increase in rapidly driven motor vehicles, makes the problem of satisfactory street maintenance more complicated and more expensive each year. Continued effort has been made, however, to keep the surface of the streets in a smooth and sanitary condition by filling up depressions, resurfacing where greatest necessity demanded, and removing mud and unsightly debris.

As mentioned in former reports, it must always be borne in mind, that on streets where the development of property is underway, the street surfaces cannot be maintained in an absolutely perfect condition, because of constant disturbance by the excavations of trenches for wire conduits, gas, water, sewer and storm drain pipes.

In recent years nearly every street in the Town has been disturbed for the laying of the water system, sewerage, or surface drainage, and the effect due to the settlement of the excavations will be noticed for a long time.

Many methods are being tried in our vicinity to find a form of construction for streets which will withstand the traffic of the present day, and at the same time fulfill all the requisites of a satisfactory street surface without prohibitive initial cost, and expense of maintenance. Progress is being made along these lines, and it would seem that in a short time some method or material will be found that will make possible the improvements so much desired in highways generally.

In accordance with this idea, the portion of Massachusetts Avenue from Pleasant Street to Academy Street was treated with Tarvia (an inexpensive coal tar preparation); while the result has not been all that was hoped for, sufficient improvement has been made to warrant the expense, and to prove that under certain conditions of application, the product can be used with success.

There are thirty-three miles of accepted streets in the Town, of which eleven miles are macadam, and the balance is either gravel surface or the natural soil. Effort should be made to macadamize the latter as soon as possible, for in their present condition in rainy and thawing weather they are almost impassible.

Three thousand eight hundred and ninety-one tons of stone were quarried and crushed during the season of 1907. It is probable that 7,000 or 8,000 tons will be required in 1908, and in consequence the ledge is being operated during the present winter so that the material will be available at the beginning of the next season. The stone from this ledge is hard trap rock and is first class road building material.

Storm Drainage. Storm drains were laid in Pleasant Street from Massachusetts Avenue to the brook; in Jason Street from Massachusetts Avenue to the brook; and in Warren Street from Franklin Street to Beacon Street.

In 1901 a storm drain was laid in Bartlett Avenue from Massachusetts Avenue to the brook. This drain in addition to the Pleasant Street and Jason Street drains, just mentioned, diverts the surface drainage from the streets that was formerly discharged into the brook at these points, so that throughout the length of the brook from Highland Avenue east, no surface water from accepted streets now enters this brook.

For many years residences along this brook have been seriously damaged by overflow during times of excessive rains, and while the flow of the brook has not been entirely cut off, or discharged into the storm drains, provision has been made to do so at any time should it be so desired.

In addittion to the above, catch basins were built in Summer Street, Old Mystic Street, Medford Street and Massachusetts Avenue.

There are now 6.81 miles of storm drains, and 209 catch basins in operation.

For 1908 construction, I recommend a drain on Academy Street from Massachusetts Avenue to Maple Street; a drain on Massachusetts Avenue from Barnes Lane to Tufts Street.

Additional catch basins on Massachusetts Avenue near Grand Army Hall; in Boston Elevated Ry. tracks, at the Boston & Maine R. R. crossing; and at Schouler Court.

Storm drains on Hutchinson Road; Wollaston Avenue; and Appleton Street, from Park Avenue to Hillside Avenue.

As I have heretofore called attention, in the case of Massachusetts Avenue west of Water Street, the travelways on either side of the car tracks are so narrow that it is impossible to keep the street free from mud during times of wet weather from lack of drainage. The only remedy is to raise the Boston Elevated Railway tracks so that sufficient grade may be obtained to carry the water and mud to the gutters.

Paved Gutters and Crosswalks. The paving of gutters on streets of 5% grade or over has been continued.

Crosswalks were laid on Massachusetts Avenue at Brattle Street; Massachusetts Avenue at Grove Street; and Gray Street at Jason Street.

Crosswalks were relaid on Massachusetts Avenue at Forest Street; Academy Street; Water Street; Pleasant Street; and near Medford Street.

I would recommend that gutters be paved on both sides of Mill Street from Bacon Street to Summer Street; also extensions made on Claremont Avenue and Hillside Avenue.

Crosswalks of tar concrete should be laid at several points over the Town, as they can be constructed of this material at less expense, are easier to drive over, cost less for maintenance, and are more readily freed from mud.

Edgestone. Two thousand three hundred and fifteen feet of edgestone was set in 1907, as follows: On Teele Street, both sides from Sawin Street to Cross Street, thus completing the work on both Henderson and Teele Streets which was begun four years ago; on Mystic Street, easterly side, extending around the corner of Chestnut Street; Bacon Street, both sides, but not completed; and short lengths on Medford Street, Warren Street, Pleasant Street and Massachusetts Avenue.

Edgestone is needed where gaps now exist on both sides of Massachusetts Avenue, from Bartlett Avenue to Park Avenue, and should be provided for in 1908.

Sidewalks. Practically all the old tar concrete sidewalks have been resurfaced during the last two years and are now in good condition.

Brick sidewalks were laid on Bartlett Avenue opposite estates Nos. 21, 34 and 38, and on Massachusetts Avenue between Palmer and Wyman Streets.

Permanent sidewalks of artificial construction are most urgently needed in many parts of the Town. But little attention has ever been given toward permanent sidewalks on a systematic basis—that is, by laying a certain amount each year and gradually developing a complete system.

I would reeommend that this matter be given consideration, for I believe that proper sidewalks are even more appreciated than good travelways for vehicles, as the majority of our citizens use the sidewalks. In many other towns permanent sidewalks of four feet in width, constructed of artificial stone give entire satisfaction, and if constructed along the line suggested, a few years would show great improvement in our streets, without noticeable expense.

Streets. Twenty-six thousand, sixty-six square yards of streets were resurfaced with macadam and gravel, — not including many places where minor repairs were made.

This work was principally on Massachusetts Avenue, Medford and Mystic Streets.

Effort has been made to keep all streets free from loose stone and debris. Fences have been repaired at numerous points, and on Lowell Street, Brattle Street, Dudley and Grove Streets entirely renewed.

The retaining walls on Lowell Street; south side of Pine street, Brattle Street and Grove Street have been concreted at sidewalk grade to render them safe for travel. Cross gutters of concrete on sidewalks and bars of gravel on travelways placed on streets of steep grade have been constructed within the last two years, which has resulted in reducing the cost of maintenance due to damage from rains to a minimum.

In 1908 a considerable amount of resurfacing of Macadam streets must be done, particularly parts of Massachusetts Avenue, Mystic Street, Pleasant Street, Water Street and Warren Street. Also parts of Franklin Street, Brattle Street, Summer Street, Palmer Street, Tufts Street, Hillside Avenue, Claremont Avenue and Appleton Street now of gravel construction should be Macadamized.

New Streets. In accordance with the special appropriation of $7,050, Avon Place, Palmer and Wyman Streets between Warren Street and Broadway, and Tanager Street—all accepted by the Town in 1906—were constructed.

On Avon Place edgestone was set on both sides, the travelway macadamized and the sidewalks covered with stone dust, with soft coal ashes for under drainage. Surface water is disposed of through two catch basins near the southerly end of the street.

On Palmer Street a storm drain was laid, discharging into the Warren Street drain. The travelway was ballasted with screenings from the gravel pit and surfaced with macadam, as was also the case with Wyman Street. Sidewalks were constructed in the same manner as on Avon Place. Edgestone was placed at the intersection of both Palmer and Wyman Streets, with Broadway and Warren Street, making the whole construction complete.

These streets as now constructed should last for years without further expense.

Tanager Street was graded to the accepted grade, necessitating the removal of about 600 cu. yds. of material. A storm drain was laid from Park Avenue to connect seven catch basins, and gutters were paved on both sides for a distance of about 800 feet where the grade required. Private property was regraded to conform to the sidewalk grade; retaining wall rebuilt and sidewalks covered with stone dust. Fencing was required for about 360 feet on the westerly side of the street. Edgestone was set at the southerly junction of Tanager Street and Wollaston Avenue; also at the northerly junction of the two streets, but in the latter case under the Sidewalk Act, which required a special assessment on the abutter. A brick crosswalk was also laid at the northerly junction of Wollaston Avenue and Tanager Street, across Tanager Street. It is intended to lay out a small grass plot at the southerly junction of Wollaston Avenue, around the location of the electric light pole, when Wollaston Avenue is constructed at this point. No macadamizing of the travelway was included in the appropriation for this street, so the work is not so complete as in the case of Avon Place, Palmer and Wyman Streets, but nevertheless the street as now built should be satisfactory for several years.

Owing to the lateness of the season when the work was finished, some minor adjustments will have to be made in the spring, due to settlement of filled areas, freezing weather, etc.

The cost of the entire construction of the four streets mentioned is within the appropriation.

Street Watering. The routes for street watering were revised in 1907, and arranged for six carts, for six months' service, and for four carts from October 15 to November 15. The routes are long, and although at times it is impossible to give satisfactory service, I would not recommend any increase in equipment at this time, for I am confident that new processes in the handling of the dust problem will require change of equipment.

Some of the carts will need painting before the season of 1908, and all will need overhauling, — which must be provided for by increased appropriation over last year. As suggested last year it would seem, if the charge to abutters on streets watered was reduced to two cents per lineal foot of frontage, and the balance of the cost paid from direct appropriation, the assessment would be more equitable, and more consistent to the benefit received, for in many cases large frontages exist where there is no development, and consequently, no direct benefit to the owner.

Sewer Division. The Park Avenue Sewer has been extended about three hundred feet to connect house No. 7 Park Circle. This work was done by contract with H. A Hanscom & Co.

A special appropriation of $4000 was made in July for sewers at Whittemore Park and Brattle Street, and in accordance therewith a sewer was built from Henderson Street across Massachusetts Avenue, and thence along the southerly side to Magnolia Street, and in Magnolia Street about five hundred feet. This sewer was to connect the houses now being built on Magnolia Street, and to provide an outlet for the Massachusetts Avenue end of Whittemore Park.

On Brattle Street the lowest point to be drained was about 20 feet below the Massachusetts Avenue sewer at the junction of Massachusetts Avenue and Brattle Street.

Sometime in the future a main or intercepting sewer will be built along Mill Brook (probably by the State) which will provide an outlet for all the area to the north and east of Massachusetts Avenue. As it was obviously impossible or impracticable to attempt the construction of the main sewer at this time, a small pumping plant was decided upon, consisting of a centrifugal pump, operated by an electric motor, to handle the sewerage from the section requiring immediate service until the main sewer is built. It is expected that the pump will be installed and in operation by February 15, 1908.

Sewers were laid in Brattle Street, from Massachusetts Avenue to Dudley Street, including a four inch force main from the pump-well located in the sidewalk near the brook.

Also sewers were laid in Laurel Street and in Dudley Street, from Brattle Street to the summit of the grade.

At the Town Meeting in November, 1907, an appropriation of $225 was made for laying a sewer in Private land adjoining the Boston & Lowell Railroad location from the main sewer near Whittemore Street to Lombard Terrace. This work was necessary at this time, so that the playground may be finished in the spring and will not thereafter be disturbed by sewer excavations, when sewers are required in Lombard Road and Lombard Terrace.

The sewerage system now comprises 27.22 miles. There are about 60 per cent of the total buildings on the lines of the sewers connected.

Collection of Offal and Ashes. The collection of both ashes and offal has cost more in 1907 than in any other year since the service was inaugurated. This was because of the late spring and consequent cold weather. Also to the increase in the number of people availing themselves of the privilege of the service and to increase of wages and shorter hours of work of employees.

The change recommended in offal equipment last year was adopted, and for 1908 I believe that another single-horse wagon should be built, and the area of the Town divided for collection of offal between two men, each using a single horse and wagon. By this means I am confident the best results can be obtained at the least expense.

Equipment. The Departments are well equipped with tools and appliances for their work.

A new 12-ton Buffalo Pitts steam roller was purchased, which has proven satisfactory in all respects.

The exchange of horses provided for in the 1907 appropriation has been made.

The exchange of two horses and the purchase of one additional will be needed for the 1908 work.

Under a special appropriation one shed at the Almshouse stable has been enlarged, and general repairs to the stalls, sheds, horse stalls, cellar drainage, etc., were made.

With the exception of one two-horse cart, steam drill, shovels and a few small tools no extraordinary expense for equipment is contemplated. It is hoped, however, that the Highway Division will be able to purchase a scarifier for loosening old macadam when repairing old surfaces. This machine is on the principal of a harrow and is drawn by the steam roller. The advantage over the present method of using the steam roller picks is that more work can be done in the same time and without injury to the foundation of the roadway.

Stone Crushing Plant. Since the installation of this plant in 1869 the local conditions have greatly changed, and now the build-

ings need a thorough overhauling and remodelling to make an economical plant. This is almost impossible with the present building. The plant is run by steam and the boiler can probably only be operated another season without extensive repairs.

The crusher now installed is not of the pattern or size to obtain the best results with the least cost of operation. It can readily be understood that with a crusher of larger size much of the expense in breaking stone by hand to a size suitable to feed the present crusher would not be necessary.

I recommend, therefore, that no change be made in the plant during 1908, but that next winter an entirely new plant be erected on a new location, and that a larger crusher be installed.

Parks. Plans for the development of the area at the junction of Massachusetts Avenue and Lowell Street (known for many years by the older residents of the Town as the "Foot of the Rocks") were prepargd early in the year.

The necessary funds to complete the improvement were contributed by William E. Wellington, of Dubuque, Iowa, a native of Arlington. The plans included the grading, curbing, erection of a flag pole, gravel paths, large rockery of great boulders, and shrubbery. It is the intention that ivy be grown over the rockery, and shrubs be planted at the westerly end of the grounds. The complete cost will be about $1250.

Arlington should appreciate this gift, for efforts made to beautify our streets certainly enhance the natural attractiveness of the Town.

At the Town House site lot a new iron fence has been erected, adjoining the Olney Robbins estate, of which the Town paid one-half the cost. Large beds of shrubbery were planted at the corners of the lot, on both Massachusetts Avenue and Academy Street, and at intervals along the southerly side. With top dressing this plot of ground will be in good condition next season. Effort was made to keep the grass cut and the lot in good order.

On Russell Park, permanent crosswalks of artificial stone or concrete should be laid, and small gutters for the flow of storm water formed. There is a large drainage of surface water across these walks, during severe rain storms, causing a considerable amount of damage, and resulting in a condition very unsightly, and oftentimes really dangerous to travel.

The permanent construction of these walks will greatly add to the appearance of the park.

Board of Survey. Plans have been examined on which hearings for approval of locations and grade were held by the Board. Owing to the amount of other work on hand at the close of 1907, not all the surveys and investigation of new territory ordered by the Board were made. This work will be completed early in 1908.

All the highway bridges have been examined. Some repairs are needed on the southerly side of the culvert over Alewife Brook, at Massachusetts Avenue, especially repairs to fencing.

River Street Bridge cannot remain in its present condition more than one year. The wooden girders should be replaced by steel, and the whole structure renewed. It is to be hoped that the Metropolitan Park Commission will bear part of the expense of reconstruction.

Respectfully submitted,

ROBERT W. POND,
Town Engineer and Superintendent of Streets.

REPORT OF INSPECTOR OF WIRES AND SUPERINTENDENT FIRE AND POLICE TELEGRAPH.

Arlington, Mass., Jan. 1, 1908.

To the Honorable Board of Selectmen and Board of Public Works:—

Gentlemen, — I respectfully submit my eighth annual report as Inspector of Wires and Superintendent of Fire and Police Telegraph for the year ending Dec. 31, 1907.

Inspection of Wires. This important branch of the Public Service has received careful attention during the past year and all new wiring and electrical fittings installed for electric lighting or power have been inspected. Many defects were found in new work installed not in accordance with the requirements of the "National Electrical Code," and changes were ordered before work would be accepted. A reinspection of all business places in the Town was made early in the summer in conjunction with an inspector of the New England Insurance Exchange. This inspection covered all electrical wiring and appliances in stores, factories and other business places throughout the Town. Many changes in old work were ordered to bring the electrical equipment up to present requirements. One of the most important requirements being the replacing of all cutouts of the open link fuse pattern, with approved cutouts of the plug or cartridge fuse type. As the cutout is the safety valve of an electrical system, the most up-to-date appliance is none too good, and all owners of buildings where the old class of cutouts are now in use should have the same replaced by approved fittings. The reinspection of old electrical installations in residences has been followed as fast as practicable, and I respectfully recommend that the Honorable Committee of Twenty-One provide this department with sufficient appropriation to make a thorough inspection of all old systems used for electric lighting in the buildings of this town. Such an inspection is necessary to determine the exact condition, of each particular installation, and will greatly add to the safety of occupants of these buildings from a fire standpoint, besides enabling this department to compile records as to exact condition, capacity, etc., of every wire and appliance in use in these buildings. The installation of certain electrical apparatus in one of our school buildings during the past

summer does not meet the approval of your inspector from a workmanship standpoint although passed as electrically safe. The workmanship displayed in this particular installation is not in keeping with the work of this class heretofore installed in our public buildings, and careful consideration should be given all estimates submitted before awarding contracts, especially when no specifications are furnished contractors to figure from. The lowest bid for work is not always the cheapest, and is in the end in most cases far from satisfactory from many standpoints. Your inspector wishes it had been within his power to condemn this particular piece of work, as the poor workmanship displayed will be an eyesore to all who are possessed of a knowledge of how work of this kind could have been done. Two Hundred Sixty-Three (263) inspections have been made of wiring and fittings installed for electric lighting, electric power, etc., in buildings. The total new work installed as per application blanks filed by contractors covered the installation of wiring two thousand eleven (2011) lights, thirteen (13) motors of a total of thirty and one half ($30\frac{1}{2}$) horse power, and one thirty (30) Ampere Mercury Arc Rectifier. Two hundred forty-four (244) permits were issued by this department to the Edison Electric Illuminating Co. of Boston to supply service to three thousand eighteen (3018) lights of an equivelent of 16 Candle Power each, thirteen (13) motors of a total of thirty and one-half ($30\frac{1}{2}$) Horse power, one thirty (30) Ampere Mercury Arc Rectifier, and one thirty (30) Ampere Stereoptican Arc Light.

Poles and Underground Conduits. One hundred thirty (130) poles were replaced in the Town during the past year as unsafe or not of sufficient size or strength to carry additional wires. One hundred eighteen (118) of these poles were replaced by the Edison Electric Illuminating Company of Boston and twelve (12) by the by the New England Tel. & Tel. Company of Massachusetts. The Edison Company have rebuilt their pole lines on Beacon Street, Tanager Street, Oakland Avenue, and on Mystic Street, from corner of Russell Street to Winchester Town line, also on Broadway from a point opposite Warren Street to the Somerville line. The Mystic Street and Broadway pole lines were rebuilt for the purpose of carrying the high tension transmission wires to be used to supply current to the Woburn Power Station of the Edison Company from their Main Power Station at South Boston. These wires being of large size and to carry a potential of 6900 Volts. The best class of construction is required for this class of wires and many conditions have to be thoroughly considered especially where wires of other systems are located on the same streets. The requirements of this department have been adhered to in doing this work and the construction installed up to December 31, has been satisfactory. Old and unsafe poles are replaced as soon as found in this condition, and many of the total poles replaced as specified above were in

streets in all parts of the Town. Twenty-nine (29) new poles were set in new locations by the Edison Company as granted by your Honorable Board. Careful attention is given to the location of all new poles before approving these locations. The proper location of a new pole when first set saves much trouble in the future. The Edison Company installed underground conduits on Warren Street from Broadway to Medford Street, from this point on Medford Street to Chestnut Street, and through Chestnut Street to Mystic Street, and on Mystic Street from Chestnut Street to corner of Russell Street. These conduits to be used for the purpose of carrying high tension wires specified above. The feet of conduit installed will be found in the records of the Town Engineer.

Fire Alarm Telegraph. All alarms for fire have been transmitted on this system correctly during the past year. Careful supervision has been given to keep system up to a high standard at all times. The usual amount of small trouble has been experienced in maintenance of system that is expected on an installation of this kind, bell strikers, gongs, etc., requiring occasional adjustment to meet weather conditions, etc. The most serious piece of trouble happening on Circuit No. 4, on the night of July 20th, at 9.40 p. m. A large limb breaking away from the old elm tree on Massachusetts Avenue, near Henderson Street, broke all the fire and police wires at this point, also all wires of the Edison and Boston Elevated Railway Company, and mixing up all wires in general. The cross arms were broken from poles for several hundred feet in this vicinity, owing to the great size and weight of this limb, also the piazza of one house and several fences were entirely demolished. The fire alarm wires became crossed with the live wires of the electric light circuits, burning out magnet coils on Bell Striker No. 4. No other burn-outs were experienced, the protective devices at Fire Alarm Headquarters protecting all other instruments on system. The wires of the fire alarm system were repaired, and circuit put in operation inside of two hours. A general rebuilding of all wires and pole fixtures was required in this vicinity which was attended to as quickly as possible. On December 28th, a serious piece of trouble developed on Circuit No. 2, which was finally located in the underground cable on Massachusetts Avenue, near Jason Street, being caused by wires corroding off inside of cable, which developed a high resistance at times and also causing occasional blows to be sounded on system. Owing to the peculiar nature of this trouble considerable time had to be given in the locating of same, as accurate instrument tests could not be made to determine exact location. Signal Boxes Nos. 24, 47 and 56 were placed on new poles, the old poles being replaced as unsafe. Keyless doors were placed on Boxes Nos. 25, 45 and 46. Key guards were placed on Boxes Nos. 24, 25, 61 and 71, and the citizens' keys were withdrawn. The roof of Bell Striker No. 1, on Peirce & Winn Building at Arlington Heights, was re-

tinned during the summer, as old tin was commencing to leak very badly.

Thirty-two new Type B Storage Batteries were added to office equipment to replace old batteries which were installed in 1900. Three Gamewell Indicators were purchased and placed in Fire Stations Nos. 1, 2 and 3. These instruments are a valuable addition to the fire alarm system and of great assistance to the drivers in verifying alarms received from gongs. Indicators were equipped with electric lights to properly illuminate the same at night. A stop clock was placed on switch board at Central Fire Station, which indicates the exact time an alarm is received.

All wire and pole fixtures have been inspected and repairs made as required. All fire alarm boxes were painted early in the summer.

The fire alarm wires on Beacon Street were replaced with covered wires and the entire line rebuilt on new poles. The electric air compressor has given more trouble this year from breakdowns than ever before, and your Superintendent begs to state that the cost of repairs on this compressor since the November Town meeting would have paid the interest on several new machines of this kind since that time. The present compressor is worn out; it is uureliable, and the continued policy of paying out on a patched-up machine is not in my judgment a good business policy for the Town to pursue any longer.

There has been considerable trouble experienced from the breakage of glasses in the key guards on fire alarm boxes, also several false alarms sounded by small boys. It is my opinion that most of the trouble in breaking of glasses can be stopped if proper measures are taken to suppress this nuisance.

Your superintendent was called upon to sound two important special signals on the Fire Alarm System this year, one of which was looked for with the greatest pleasure by all citizens, and the other which caused the greatest sorrow in the whole town. On June 1st., at 10 30 A. M., three blows were sounded, starting that splendid parade on Arlington's one hundredth anniversary. This signal indicated that the parade has started "On Time." On November 26, at 11.16 P. M, two blows were souuded "All out," telling the citizens that Arlington's honored fire chief, Charles Gott, had passed away. Never was there a signal sounded on the Fire Alarm that caused greater sorrow throughout the whole community. In the death of Chief Gott, Arlington's Fire Department lost a leader who was a peer in his profession. A born fire fighter of remarkable skill and endurance, and one who was a father to all members of his department. Never was there a head of a department who loved his calling more than Chief Gott, and his sole aim was to advance and keep the public service in his charge up to the highest efficiency possible. It will be a pleasure for all citizens who knew Chief Gott to look back on his memory as one who was the highest type of a man, one who was respected by all, a splendid citizen, a true friend

and a public official, capable, honest, and doing his duty to the best of his ability. To his associates his loss is most keenly felt, and to no one more so than your superintendent.

Police Signal. The Police Signal System has given good service during the past year. This system has cost but a small sum to maintain. The batteries installed with system July 1st, 1906, are at present in use, and have not been recharged since the system was put in commission, which gives eighteen months of service to December 31, 1907. Minor repairs have been made on signal boxes and receiving apparatus as required, and no serious trouble has been experienced to system. The Town has a valuable system in its Police Signal, and one that has been the greatest assistance to the Police Department, the system adding increasd efficiency to the department, and also giving additional protection to the citizens as a whole. A few more signal boxes should be added to the system and properly cover some sections of the Town not at present so equipped, and I most heartily endorse any such additions that may be recommended by the Chief of Police. All wires of system have been carefully inspected and repaired as necessary. The signal lines passing through Gray street from Jason to Pleasant streets were rebuilt on new poles on this street. Box No. 44 was placed on a new pole which was replaced. All signal boxes were painted early in the summer which should be done once a year.

Recommendations. I respectfully recommend that an appropriation be made for the purchase of a new air compressor for the fire alarm whistle, as such a machine is very much needed, and if some action is not soon taken on this matter the town will be without its fire whistle. As stated before in past reports it is the opinion of your superintendent that the town has spent already too much money on the present machine as it is worn out and it would be better to purchase a new compressor and hold the old one in reserve before it reaches a point that it will have to be sold for old junk. I furthermore recommend that ample appropriation be made to replace all bare wire now in use on poles with covered wire, also to continue the installation of underground wires both for fire and police signals on all streets where conduits exist as fast as practicable. I again recommend that an assistant be appointed to the Superintendent of Wires, as the duties of the wire department should not be entrusted wholly to one man. The very nature of this department with complicated electrical machinery, miles of wires underground and on poles, makes it imperative that the responsibilities of supervisor should be so guarded that the service should never be without someone who is thoroughly familiar with all details. Sickness, accidents, or other causes may at any time place this department without a supervisory head under the present arrangement, which should not be in a town like ours.

Conclusion. I wish to tender my thanks to your Honorable Board for the many courtesies received, also the members of the Police Department and the permanent drivers of the Fire Department for assistance rendered me in the discharge of my duties.

Respectfully Submitted,

R. W. LeBARON,
Inspector of Wires.
Superintendent Fire and Police Telegraph.

REPORT OF THE BOARD OF HEALTH.

The Board of Health respectfully submits the following report for the year ending Dec. 31, 1907 :

Organization. The Board, consisting of John S. Lamson, Dr. Charles F. Atwood and Dr. Laurence L. Peirce, the new member, met March 6th and organized, with John S. Lamson, Chairman, and Horace A. Freeman, Clerk.

The appointments for the year appear in the list of Town Officers.

Sanitary Condition. The Board considers the general sanitary condition of the Town to be of good standing. Many nuisances have been investigated during the year and abatement of the same have been required.

Charles T. Hartwell was appointed Sanitary Inspector and the detail of his work for the Board appears in his report.

The Board desires that all complaints be addressed to the Clerk in writing, who will see that they are given prompt attention.

Contagious Diseases. During the past year a comparatively small number of contagious diseases have been reported. The only large outbreak was of scarlet fever, which was epidemic at the eastern end of the Town in January and later in April and May. Isolated cases of typhoid fever occurred during the autumn, but they had no common origin.

Ashes and Offal. The Board has endeavored, through the assistance of Mr. Pond, Superintendent of Streets, to give the citizens efficient service in the collection of ashes and offal, and the very few complaints received show that the work has been satisfactory.

The work of the collection of ashes, waste paper, and rubbish has been exceptionally heavy this year. The late spring, the increase in the number of families, and the disuse by some of the people of the waste for filling upon private premises have all been factors of the increase.

It was considered advisable to discontinue the use of an old offal wagon as beyond repair and purchase a new one to use with a single horse. One was built by Charles Gott and has so far proved very satisfactory. There has been a large increase in the demand on the collection of offal service, which resulted from the increase of families, from the call from parties living near the borders of the

town, who were outside of the former routes, from the fact that some private collectors had given up their work, and also that waste at the preserving season was heavier.

At the Annual Town Meeting the Board requested an appropriation, which it considered would be sufficient to carry on the work of collection of the ashes and offal for the year.

In addition to the increased demands by the citizens upon both the ashes and offal department, the Board had to meet the increase of wages of teamsters and were also obliged to shorten the length of day of labor to eight hours as required by statute. In view of these facts it was found in the early fall that an increased appropriation would be needed, and at the November Meeting an amount of $800 was asked and voted for the work.

At some of the dumps it is necessary to do levelling and covering of paper and rubbish to prevent the scattering of such by children and a man is employed part of the time for this work.

The cost for the past two years is as follows:

	1906.			1907.		
	Labor.	Horses.	Total.	Labor.	Horses.	Total.
Offal	$1,335 99	$633 85	$1,969 84	$1,548 29	$549 45	$2,097 74
Ashes	1,769 73	572 51	2,342 24	2,186 36	689 31	2,875 67
Incidentals	.....	.....	73 87	.....	.....	*333 39
			$4,385 95			$5,306 80
					Unexpended	1 20
						$5,308 00

* This includes $220 paid for a new offal cart.

Appropriation in Mar.	$4,000 00	Appropriation in Mar.	$4,500 00
Appropriation in Nov. by transfer	250 00	Appropriation in Nov.	800 00
Receipts	35 00	Receipts	8 00
	$4,285 00		$5,308 00
Overdraft	100 95		
	$4,385 95		

Slaughtering Establishments. These places meet the requirements of the Board, and there have been no reports of annoyance.

New Plumbing Regulations. As far as has been brought to the attention of the Board these are satisfactory to the towns people. Applications for copies have been made by parties out of Town.

Swine. Owing to numerous complaints in regard to the keeping of swine and feeling that it was the desire of the citizens of the Town that action should be taken that such occupation should be restricted, the Board early in the year took up the matter, and after careful investigation passed the following order :

Ordered : That the exercise of the trade or employment of keeping swine, which is a nuisance dangerous to the public health, attended by noisome and injurious odors and is otherwise injurious to the estates of the inhabitants of Arlington, be and the same hereby is forbidden within the limits of the Town of Arlington, except in the places herein assigned, without a permit in writing first obtained from the Board of Health; in case any such permit shall be granted, the same may be revoked at any time when the keeping of swine shall in the opinion of the Board be prejudicial to the public safety and health; the following places are hereby assigned for the exercise of the aforesaid trade or employment of keeping swine : —

Beginning at the northwesterly corner of the Arlington boundary line adjoining Lexington and Winchester; thence, by the boundary line between Arlington and Winchester in an easterly direction to a point 1000 feet westerly from the westerly line of Mystic Street; thence, in a southerly direction on a line parallel with and distant 1000 feet from the said westerly line of Mystic Street to a line distant 1000 feet from and parallel to the base line of location of the Boston and Lowell Railroad; thence, in a westerly direction on a line parallel with and distant 1000 feet from said base line of the Boston and Lowell Railroad location to a line distant 1000 feet and parallel with the easterly line of Westminster Avenue; thence, in a northwesterly direction on the line parallel with and distant 1000 feet from the said easterly line of Westminster Avenue to the boundary line between Arlington and Lexington; thence by the said boundary line between Arlington and Lexington to the point of beginning.

Containing about 520 acres, more or less.

Also, beginning at the southwest corner of the boundary line of Belmont and Arlington and Lexington; thence, by the boundary line between Arlington and Lexington 3000 feet; thence, by straight line in a southeasterly direction to the boundary line of Belmont and Arlington on the westerly side of Park Avenue; thence, by the boundary line between Arlington and Belmont in a westerly direction to a point of beginning. Containing about 186 acres, more or less.

Section forty-five of the Regulations of this Board concerning swine is hereby rescinded.

It will be seen that this prohibited the keeping of swine in the settled portion of the Town without a permit. Permits were asked for by several and, with one exception, were granted.

The premises of all parties were visited previous to the granting of the permits. In August the Board visited the premises of W. W. Rawson and found that where permission had been granted for the keeping of six swine about five hundred were being kept. On August 9th Mr. Rawson's permit was revoked and the order of prohibition served upon him. From this order Mr. Rawson appealed. That no inconvenience to Mr. Rawson would result, and that no suit for damages could be brought against the Town, the Board specially authorized Mr. Rawson to exercise his keeping of swine pending the proceedings in the Supreme Court. The following letter was published that the citizens might understand the result of the trial :

To the Citizens of the Town of Arlington : —

On May 13, 1907, the Board of Health passed an order prohibiting the keeping of swine within the thickly-settled portions of the Town without a permit first obtained from the Board. This order declared such keeping of swine a nuisance, dangerous to public health, attended by noisome and injurious odors and injurious to the estates of the inhabitants of the Town of Arlington. On June 28th Warren W. Rawson was granted a permit by the Board to keep six swine on the premises at the corner of Warren and River Streets. On August 9th, on examination of the premises, it was found that Mr. Rawson was keeping about five hundred swine. The permit was revoked, and on August 17th the order of the Board was duly served on him. From this order Mr. Rawson appealed and claimed a trial by jury. A trial was had before a jury of the Superior Court at East Cambridge, and evidence was presented by both sides. The Court instructed the jury that if they found the keeping of swine was either a nuisance or dangerous to public health, or attended by noisome or injurious odors, or injurious to the estates of the inhabitants of the Town of Arlington, it must affirm the order; that if they found it to be none of the aforesaid it must annul the order. The jury annulled the order, thereby finding as a fact that the keeping of swine without a permit was not a nuisance, not dangerous to public health, not attended by noisome and injurious odors and not injurious to the estates of the inhabitants of the Town of Arlington.

JOHN S. LAMSON,
CHARLES F. ATWOOD, M.D.,
LAURENCE L. PEIRCE, M.D.V.,
Board of Health.

Nov. 26, 1907.

The decision of the Court leaves the Board without any regulation governing the keeping of swine. The advisability of issuing a new regulation is to be considered.

BURIAL AND TRANSPORTATION PERMITS. Forms of permits for burial and transportation are gotten up by the State Board of Registration in Embalming and are furnished to Local Boards of Health by the State. Rules and regulations have also been formulated by said Board of Registration governing the burial and transportation of dead bodies. According to these rules and regulations no permits for removal, burial or disinterment can be issued to any person or persons who have not been registered and received a certificate from the State Board of Registration in Embalming. The object of these requirements is to secure uniformity and to remove certain irregularities that had become prevalent.

Extension of Sewer Service. Several houses have been connected with the Town sewer this year, and the Board recommends the early extension of some main sewers, so that other houses where cesspool drainage is not adequate, may be connected.

Medical and Surgical Appliances. At a meeting held Nov. 29, 1907, the following list of medical and surgical appliances was approved, the same to be kept and maintained by factories and shops in Arlington in compliance with Chap. 164, Acts of Legislature of 1907.

2 Elastic tourniquets (minimum or inches).
2 Rolls ½ in. zinc ox. adhesive plaster.
2 Rolls 2 in. adhesive plaster.
4 Dozen gauze bandges, assorted sizes, from 1 to 4 inches. 10 yds.
1 lb. Absorbent cotton.
1 Yard Sterile gauze.
1 Dozen Emergency slings.
5 Yards Canton flannel (used with carron oil for burns).
1 Pair Surgical Scissors, straight (2½ in. blade).
200 Tablets 7 3-10 gr. corrosive sublimate and citric acid.
6 Whitewood strips, 40 x 4 x 3-16.
2 Pillows.
1 Package of Pins.
3 Dozen Safety pins.
8 Ounces Spt. Ammonia aromatic (rubber stopple).
1 Gallon Carron Oil.
1 Pint Brandy.
1 Basin.

Home Work for Factories. No home work for manufactories is allowed except by persons receiving a license from Dr. Charles E. Simpson, state inspector of health.

Several persons residing in Town have been granted such licenses, a list of which is on file with this board.

Health Districts. In accordance with Chapter 537, Acts of 1907, the State has been divided into health districts.

Arlington is in District No. 9, and Charles E. Simpson, M. D., of Lowell, has been appointed state inspector of the district.

The act establishing health districts is as follows:

CHAPTER 537. ACTS OF 1907.

An Act to provide for the establishment of heath districts and the Appointment of inspectors of health.

Be it enacted, etc., as follows: —

Section 1. The state board of health shall as soon as may be after the passage of this act, divide the Commonwealth into not more than fifteen districts, to be known as health districts, in such manner as it may deem necessary or proper for carrying out the purposes of this act.

Sec. 2. After the division aforesaid has been made, the governor, with the advice and consent of the council, shall appoint in each health district one practical and discreet person, learned in the science of medicine and

hygiene, to be state inspector of health in that district. Every nomination for such office shall be made at least seven days prior to the appointment. The said state inspectors of health shall hold their offices for a period of five years from the time of their respective appointments, but shall be liable to removal from office by the governor and council at any time.

SEC. 3. Every state inspector of health shall inform himself respecting the sanitary condition of his district and concerning all influences dangerous to the public health or threatening to affect the same; he shall gather all information possible concerning the prevalence of tuberculosis and other diseases dangerous to the public health within his district, shall disseminate knowledge as to the best methods of preventing the spread of such diseases, and shall take such steps as, after consultation with the state board of health and the local state authorities, shall be deemed advisable for their eradication; he shall inform himself concerning the health of all minors employed in factories within his district, and, whenever he may deem it advisable or necessary, he shall call the ill health or physical unfitnes of any minor to the attention of his or her parents or employers and of the state board of health.

SEC. 4. The state inspectors of health shall be under the general supervision of the state board of health and shall perform such duties other than those hereby imposed upon them as the said board from time to time shall determine. They shall keep a record of their proceedings and observations, shall annually make a report of the same to said board on or before the thirty-first day of October, shall from time to time furnish said board with such information as it may require touching circumstances affecting the public health in their respective districts, and shall in every instance where written suggestions are made by them to the local authorities send copies of such suggestions to said board.

SEC. 5. The state inspectors of health shall, under the direction of the state board of health and in place of the inspection department of the district police, enforce the provisions of section forty-one of chapter one hundred and four of the Revised Laws so far as said section provides that factories shall be well ventilated and kept clean, sections forty-one, forty-four and forty-seven to sixty-one, inclusive, of chapter one hundred and six of the Revised Laws, chapter three hundred and twenty-two of the acts of the year nineteen hundred and two, chapter four hundred and seventy-five of the acts of the year nineteen hundred and three, chapter two hundred and thirty-eight of the acts of the year nineteen hundred and five, and chapter two hundred and fifty of the acts of the year nineteen hundred and six; and the powers and duties heretofore conferred and imposed upon the members of said inspection department of the district police by section eight of chapter one hundred and eight of the Revised Laws in respect to the foregoing sections and acts, and in respect to all acts in amendment thereof or in addition thereto, and in respect to any other laws, are hereby conferred and imposed upon said state inspectors of health or such other officers as the state board of health may from time to time appoint: *provided, however*, that neither said board of health nor any inspector thereof shall have authority to require structural alterations to be made in buildings, but shall report the necessity therefor to the inspection department of the district police. Wherever in said provisions of law the words "inspector" or "inspectors of factories and public buildings", "inspection department of the district police", "inspector" or "inspectors of the district police", "district police", "factory inspector" or "inspectors", and "member" or "members of the district police" occur, they shall be taken to mean state inspector or inspectors of health. Wherever the words "chief of the district police" occur, they shall be taken to mean the state board of health.

SEC. 6. The governor, with the advice and consent of the council, shall establish the salaries of said state inspectors of health, having regard in each district to the extent of territory, the number of inhabitants, the character of the business there carried on, and the amount of time likely to be required for the proper discharge of the duties. The salaries thus established shall be paid from the treasury of the Commonwealth monthly.

SEC. 7. There may be expended out of the treasury of the Commonwealth annually, for the purposes specified in this act, for salaries, a sum not exceeding twenty-five thousand dollars, and for other expenses, a sum not exceeding five thousand dollars.

SEC. 8. For the purpose of carrying out the provisions of this act the state board of health may employ from time to time experts in sanitation.

SEC 9. This act shall take effect upon its passage. [*Approved June 19, 1907.*

Circulars of Information. Circulars of instruction for the general care of patients, suggesting means for preventing the spread of diphtheria, scarlet fever, typhoid fever, measles and consumption or tuberculosis have been printed, to be sent to families in which any of said diseases occur.

Fumigation. A more thorough system of fumigation has been adopted, and on the recovery or death of each case of diphtheria, scarlet fever, and tuberculosis the Board attends immediately to the fumigation of the premises. The expense is met by the Town, except where extra fumigation is requested.

Reportable Diseases. The Board has adjudged the diseases known as scarlet fever, measles, typhoid fever, diphtheria, small-pox, membraneous croup, cholera, yellow fever, typhus fever, cerebro-spinal meningitis, hydrophobia, malignant pustule, leprosy, trichinosis, tuberculosis, opthalmia of the newly born, actinomycosis, glanders, tetanus, varicella, whooping-cough as infectious or contagious, and dangerous to the public health and safety within the meaning of the Statutes. Physicians are required to report immediately to the Board every case of either of these diseases coming under their care, and postal cards conveniently printed and addressed are supplied to them for this purpose. On receipt of a card from a physician the Superintendent of Schools, Principle of High School, Trustees of Robbins Library, and School Physician are notified. Mr. Charles T. Hartwell acts as fumigator in behalf of the Board.

Culture Stations. Culture tubes for diphtheria, sputum bottles for suspected tuberculosis, and anti-toxin are provided by the State Board of Health and placed by this Board with H. A. Perham, druggist, for the use of physicians.

June 28, 1907, the Board passed the following vote.

Voted, that all physicians practicing in the Town of Arlington be notified that culture tubes for examination for release from quarantine in cases of diphtheria will be allowed at intervals of not less than four days until further notice from the Board of Health.

MISCELLANEOUS.

Board of Infants. The Board has given its approval to applications for licenses to board infants or children as follows: — Mrs. Helen Hatfields, 47 Massachusetts Avenue; Rosa Simmonds, 32 Appleton St.; Miss Annie C. Sullivan, 60 Mystic St., S. A. Gilpatrick, 14 Teele St. Place, Margaret Whelply, 81 Westminister Avenue.

Hospital Cases. Two cases of diphtheria have been committed to the Waltham Hospital for which the town has been reimbursed, and one case to the Somerville Hospital the same being a charge against the State.

Notices have been received from Cambridge, Revere, and Boston, the first being a case of consumption and the others diphtheria, all committed to hospitals. All having legal settlements in Arlington, the expenses are chargeable to the town.

Aid rendered by the Town to paupers usually comes under the jurisdiction of the Overseers of the Poor, but in cases of contagious diseases the Statutes place authority with the Boards of Health.

Reports of Officers of the Board. The reports of the several officers of the Board are appended, to which attention is called.

Financial. For detail as to expenditures reference is made to the report of the Auditor.

LICENSES.

Licenses hrve been granted as follows:

Stables. George Clark, 30 Mystic St.; John Lyons, Bucknam Court; Mary A Law, Mill St.

Undertakers. J. Henry Hartwell & Son, Medford St.; Daniel W. Grannan, and William D. Grannan, 378 Massachusetts Avenue; James P. Daley, 20 Franklin St.

Slaughtering. Frank Borman, 27 Broadway; Henry R. Borman, rear 27 Broadway; William Borman, rear 27 Broadway.

Plumbing. Joseph A. Tole, 30 Lewis Avenue; Andrew Bain, 49 Lowell St.; George M. Bruce, Frank E. Gallagher.

John S. Lamson,
Chas. F. Atwood, M.D.
Lawrence L. Peirce, M.D.V.
Board of Health.

Attention is called to the following regulations of the Board of Health and extracts from the Revised Laws:

DISEASES DANGEROUS TO THE PUBLIC HEALTH.

From Regulation of Board of Health.

At a meeting of the Board of Health, it was voted:

That actinomycosis, glanders, tetanus, varicella, and whooping cough be added to the list of dangerous diseases to be reported by physician.

Section. 3. Upon the outside of every house in which there is a person sick with small-pox, diphtheria, membraneous croup, measles or scarlet fever shall be placed a suitable placard with the name of the disease. The Board of Health may in special cases permit the placard to be placed upon interior

apartments only. This placard shall not be defaced or removed by any person without authority of the Board of Health.

SEC. 4. No person shall remove or permit to be removed from any house or apartment upon which a placard has been placed, as provided in Section 3, any clothing, books or other property without a permit from the Board of Health; nor after a house is established as a hospital, under provisions of Chapter 80 of the Public Statutes, shall any occupant of such house take up a residence elsewhere without such permit. No public or circulating library book shall be taken into any house or apartment whereon a placard has been placed, as provided in Section 3, before the authorized removal of said placard. All books, papers, toys and other articles in a room where there is a person sick with scarlet fever or diphtheria which cannot be thoroughly disinfected must be destroyed.

SEC. 5. No person living in a house or interior apartment upon which a placard has been placed, as provided in Section 3, shall attend or visit any school in the Town without a permit from the Board of Health.

SEC. 6. No person who has visited a house in which there was at the time a case of small-pox, diphtheria, membraneous croup, or scarlet fever, shall attend school until the expiration of two weeks from such visit.

SEC. 7. Danger of conveying small-pox, diphtheria and scarlet fever shall not be considered to have passed until two weeks have expired after the rooms occupied by a person who has been sick with either of said diseases, and the articles used by him have been disinfected to the satisfaction of the Board of Health.

SEC. 8. In case of the removal of a child from the house where a person is sick with any of the diseases mentioned in Section 11 of Chapter 496 of the Acts of the year 1898, two weeks must elapse before such child is allowed to attend school.

SEC. 9. No case of diphtheria shall be considered recovered until a negative culture has twice been obtained, at not less than three days' interval, from such patient.

SEC. 10. No case of scarlet fever shall be considered recovered until desquamation is complete on every part of the body.

SEC. 11. No child having chicken-pox or mumps shall be allowed to attend any school in this Town.

EXTRACTS FROM THE REVISED LAWS AS AMENDED.

CONTAGIOUS DISEASES.

[CHAPTER 480 ACTS OF 1907]

AN ACT TO PROVIDE FOR THE COMPULSORY NOTIFICATION AND REGISTRATION OF TUBERCULOSIS AND OTHER DISEASES DANGEROUS TO THE PUBLIC HEALTH.

Be it enacted, etc., as follows:

SEC. 1. Sections forty-nine and fifty of chapter seventy-five of the Revised Laws, as amended by chapter two hundred and fifty-one of the acts of the year nineteen hundred and five, and section fifty-two of said chapter seventy-five are hereby amended by inserting after the word "disease", wherever it may occur in said sections, the words:— declared by the state board of health to be, — so as to read as follows: — *Section 49.* A householder who knows that a person in his family or house is sick of smallpox, diphtheria, scarlet fever or any other infectious or contagious disease declared by the state board of health to be dangerous to the public health shall forthwith give notice thereof to the board of health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the board such rooms of his house and articles therein as, in the opinion of the board, have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the board of health of the city or town in which the parents of the infant reside, the fact

that such inflamation, swelling and redness of the eyes and unnatural discharge exist. On receipt of such report, or of notice of the same symptoms given by a physician as provided by the following section, the board of health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars. *Section 50.* If a physician knows that a person whom he is called to visit is infected with smallpox, diphtheria, scarlet fever or any other disease declared by the state board of health to be dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen and red, and show an unnatural discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the selectmen or board of health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty nor more than two hundred dollars for each offense. *Section 52.* If the board of health of a city or town has had notice of a case of small-pox, diphtheria, scarlet fever or of any other disease declared by the state board of health to be dangerous to the public health therein, it shall within twenty-four hours thereafter give notice thereof to the state board of health stating the name and location of the patient so afflicted, and the secretary thereof shall forthwith transmit a copy of such notice to the state board of charity.

SEC. 2. This act shall take effect upon its passage. [*Approved June 6, 1907.*

VACCINATION.

CHAP. 75, SEC. 136. A parent or guardian who neglects to cause his child or ward to be vaccinated before the child or ward attains the age of two years, except as provided in section one hundred and thirty-nine,* shall forfeit five dollars for every year during which such neglect continues.

CHAP. 75, SEC. 137. The Board of health of a city or town if in its opinion, it is necessary for the public health or safety, shall require and enforce the vaccination and re-vaccination of all the inhabitants thereof and shall provide them with the means of free vaccination. Whoever, being over twenty-one years of age and not under guardianship, refuses or neglects to comply with such requirement shall forfeit five dollars.

CHAP. 44, SECT. 6. [Revised Laws, as amended by Chap. 371, Acts of 1906.] A child who has not been vaccinated shall not be admitted to a public school except upon presentation of a certificate signed by a regular practicing physician that he is not a fit subject for vaccination. A child who is a member of a household in which a person is ill with small-pox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health of the city or town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

Note — Section 139, referred to above, exempts children who present a certificate signed by a registered physician that they are unfit subjects for vaccination. Application for free vaccination, by persons who are unable to pay for it, may be made to the Clerk or Agent of the Board of Health.

Nuisances.

Chap. 75, Sect. 65. The Board of Health shall examine into all nuisances, source of filth, and causes of sickness within its town, ... which may in its opinion be injurious to the public health, shall destroy, remove, or prevent the same as the case may require, and shall make regulations for the public health and safety relative thereto, and relative to articles which are capable of containing or conveying infection or contagion or of creating sickness which are brought into or conveyed from its town. . . . . Whoever violates any such regulation shall forfeit not more than one hundred dollars.

REPORT OF INSPECTOR OF SLAUGHTERING.

To the Board of Health:—

Gentlemen:— I submit the following report for 1907.

Three licenses were granted May 1st to Messrs. Frank, Henry and William Borman to slaughter animals in the town of Arlington. They have put their houses in good condition and have been very particular about keeping them neat and clean and in good condition at all times.

I have made 180 visits to the houses during the year and inspected 3765 veal, five cows, thirty-five hogs.

I would recommend that they be granted a license for 1908.

Respectfully submitted,

Frank P. Winn.
Inspector.

REPORT OF INSPECTOR OF PLUMBING.

Arlington, Mass., Jan. 15, 1908.

Board of Health, Town of Arlington:—

Gentlemen,— During the year 1907, eighty-seven applications were placed on file and plumbing permits issued therefor, including dwellings, apartment and tenement houses, churches, schools, stores, factories and other structures of new construction, or undergoing repairs and alterations.

Respectfully submitted,

Edwin Mills,
Inspector of Plumbing.

REPORT OF SANITARY INSPECTOR.

Arlington, Dec. 31, 1907.

To the Board of Health : —

Gentlemen : — I have the honor to submit my report as Sanitary Inspector for the year ending Dec. 31, 1907.

The work of this office has been the same as that of previous years, all complaints having been investigated and where actual nuisance or unhealthful conditions were found to exist they have been satisfactorily abated or adjusted in every instance.

Respectfully submitted,

Charles T. Hartwell,
Sanitary Inspector.

REPORT OF FUMIGATOR

Arlington, Mass., Dec. 31, 1907.

To the Board of Health : —

Gentlemen: — I have the honor to submit my report as Fumigator for the year ending Dec. 31, 1907. Whole number of cases fumigated seventy-six (76). Forty-four (44) cases of scarlet fever requiring the fumigation of seventy-four (74) rooms.

Twenty (20) cases of diphtheria requiring the fumigation of fifty (50) rooms.

Seven (7) cases of tuberculosis requiring the fumigation of ten (10) rooms.

One (1) case of typhoid fever requiring the fumigation of two (2) rooms.

Three (3) cases of cerebro spinal meningitis requiring the fumigation of fourteen (14) rooms.

Halls and stairways fumigated wherever necessary.

One (1) ambulance case after the removal of a patient sick with spinal meningitis.

Respectfully submitted,

Charles T. Hartwell,
Fumigator.

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS.

The Board of Examiners of Plumbers make the following report for the year 1907 :

In accordance with the requirements of Section 3, Chapter 103, of the Revised Laws, the Board of Health appointed John S. Lamson

and Alfred H. Knowles to serve on the Board of Examiners of Plumbers, of which the Inspector of Buildings is a member *ex officio*.

The Board organized on May 20, 1907, and during the year have examined two applicants and recommended to the Board of Health that licenses be issued in the grade of journeyman plumber in each case.

Robert W. Pond,
John S. Lamson,
Alfred H. Knowles,
Examiners of Plumbers.

REPORT OF BOARD OF PUBLIC WORKS.

The Board of Public Works herewith submit their annual report for the year ending December 31, 1907.

The first meeting of the Board was held on March 11, 1907, the organization resulting in the election of Peter Schwamb as chairman. Forty-six regular meetings were held during the year. The former policy of acting as a whole on all matters coming before the Board was continued, consequently no special committees were appointed.

Appointments. At a meeting held April 1, 1907, Thomas Roden was appointed Superintendent of the Water Division, Robert W. Pond, Superintendent of the Sewer Division, and Charles C. Lothrop was appointed Water Registrar and Clerk, all appointments holding for one year.

HIGHWAY DIVISION.

The same policy adopted in the care and repair of streets last year has been continued this year. For details of the work done reference is made to the report of the Superintendent of Streets with whose recommendations we concur as follows:

Raising grade of Boston Elevated Railway tracks west of Water Street.

Storm drains and extension of same as recommended.

Paved gutters, crosswalks and edgestones as stated.

Resurfacing of streets as recommended.

Repair and extension of permanent sidewalks on some systematic basis.

We further recommend that Sawin Street, between Teele and Henderson Streets, Summer Street from Grove Street to Pine Street, and Wollaston Avenue from Wachusett Avenue to Tanager Street be accepted and constructed under the betterment act.

That a careful study be made of the River Street bridge problem, as the present structure will probably not be safe for travel more than one year longer.

That such repairs be made on the present stone crusher plant as will enable the same to be used one year longer, and that meanwhile a careful study be made for a new plant having in view the reduction of the cost of crushed stone to a minimum.

It is also recommended that steps be taken to procure a better and more central location for town stables, paving, pipe and storage yards for the Highway, Water and Sewer Divisions.

Expenditures. A financial statement, showing a summary of all expenditures and costs is shown in Table I., while Table II. shows in detail the cost of constructing Palmer, Wyman and Tanager Streets and Avon Place at a total expense of $6,912.60, leaving an unexpended balance of $137.40 of the appropriations. Table III. shows location and details of cost of permanent sidewalks and renewal of permanent sidewalks. The total costs have been made to include all indirect expenses in the same manner as formerly.

The value of property controlled by this division Jan. 1, 1908, amounted to $14,843.53, classified as follows :

Crusher, roller, drill and buildings	$7,050 00
Horses and vehicles	4,822 75
Materials	476 80
Tools	2,493 95
Total	$14,843 50

* Not completed.

SEWER DIVISION.

During the year a short extension to the sewer in Park Avenue was made to connect the house at No. 7 Park Circle. Several contractors were asked to bid on the work and the contract was awarded to H. A. Hanscom, the lowest bidder.

At the Town Meeting held July 1, 1907, an appropriation of $4,000 was made for extension of the sewerage system in Massachusetts Avenue and Magnolia Street, also in the Brattle and Dudley Street District. This work was done by day labor at a cost of $3,758.13. The installation of a temporary pumping plant required on Brattle Street is not yet completed, due to delay in delivery of machinery, and it is recommended that the balance of the sewer appropriations be reappropriated for the work.

At the Town Meeting held in November, 1907, an appropriation of $225 was made for a sewer extension across private land near Lombard Terrace. The cost of this sewer was $217.17.

Fifty-four connections have been made with the main sewers at a total cost of $1,756.21

The necessary flushing and cleaning of the sewerage system has been done at a cost of $355.43.

A detailed statement giving cost of sewers built in 1907 by streets, including also particular sewers is shown in Table IV.

A financial statement giving distribution of expenditures is shown in Table V.

Table VI. gives a complete sewer statement to date.

The value of equipment and of materials on hand in the sewer division January 1, 1908, was as follows:

Materials	$302.31
Horses and vehicles	475.15
Tools, appliances and storehouse	1,274.01
Engineering instruments and supplies	591.65
Total	$2,643.12

It is recommended that the sewers be extended wherever it can be shown that they are necessary.

An appropriation of $1500 is recommended for general purposes including maintenance and operation of new pumping plant.

SUMMARY OF SEWERAGE STATISTICS.

(In form recommended by Sanitary Section of Boston Society Civil Engineers.)

FOR THE YEAR ENDING DECEMBER 31, 1907.

ARLINGTON, MASS.

GENERAL.

Population by census of 1905, 9,668.
Total area of city or town, 5.5 square miles.
Area served by sewerage system, 1.8 square miles.
Collection System { For sewage only, 27.25 miles.*
For sewage and surface water 0 miles.
For surface water only, 6.8 miles.
Method of disposal: Sewerage into Metropolitan Sewer, surface water into brooks.

* Includes 3.47 miles local Metropolitan Sewer.

Collection.

Mains. (Everything but house and catch basin connections).

		For Sewage only.	For Sewage and surface water.	For surface water only.

BOARD OF PUBLIC WORKS.

SEWER DIVISION STATEMENT, JANUARY 1, 1908.

	Cr.	*Dr.*
Total Assessment levied to January 1, 1908		$136,114 04
Assessmeets Abated	$1,373 53	
Assessments levied on cemeteries and Town property and deemed not collectable	2,900 32	
Assessments on church property, etc., deemed uncollectable	1,404 99	
Assessments levied on sewers built by Metropolitan Sewer Commission and to be paid to the Commonwealth	4,315 45	
Assessments not collectable by reason of expiration of liens	617 53	
	$10,611 82	10,611 82
Net assessments to January 1, 1908		$125,502 22
Appropriation for Henderson Street District Sewers		10,500 00
Bond issued 1896 for Sewer Construction		100,000 00
Sale of Main Sewer to Commonwealth of Massachusetts, less collectable assessments		42,406 13
Appropriation for construction, care and maintenance for years 1903, 1904, 1905, 1906, 1907		17,425 00
Amount expended for Sewer Construction and Maintenance (including Henderson Street District sewers) as per Town Treasurer's balance, January 1, 1908	$293,740 12	
Balance, January 1, 1908	2,087 23	
	$295,827 35	$295,827 35

This Balance is made up as follows:—

Balance from Bonds and Assessments	$907 22
Balance from 1904	1 07
Balance from 1905	266 13
Balance from 1906	47 74
Balance from Kensington Park District Appropriation	507 90
Balance from 1907 appropriation	357 17
	$2,087 23

WATER DIVISION.

Extension of Street Mains. In all there have been laid 215 feet of 8-inch and 2200 feet of 6-inch pipe, to extend the high and low service systems at a total cost of $2845.26. Funds were obtained by the issue of notes for $3000 by the Town Treasurer. There remains a balance of $154.74 available for extensions in 1908.

Renewal of Street Mains. In all 1522 feet of 10-inch, 5607 feet of 8-inch and 2063 feet of 6-inch cast iron pipe have been laid to replace cement-lined pipe. The work on Mystic Street was done in advance of resurfacing the street by the highway division. The total cost of this work was $14,054.05. Of this amount $10,000. was obtained through a special appropriation, and the balance $4,054.05 was taken from the revenue of the water division. The detailed costs of extensions and renewals are shown in Table VII, and the distribution of expenditures to construction, maintenance and stock is shown in Table VIII.

TABLE VII.

MAINS. The lengths and sizes of cement-lined and iron pipe in use January 1st, 1908, together with the number of hydrants and gates on the both high and low service systems are shown in the following table:

LOW SERVICE SYSTEM.

	Size, Inches.	Length, feet.		Hydrants.	Gates.
Cement-lined pipe	12	8,530			
" "	6	1,240			
" "	4	14,825			
Total			24,595	34	23
Iron pipe	12	6,771			
" "	10	6,977			
" "	8	15,355			
" "	6	30,608			
" "	4	11,794			
Total			71,505	142	120
Total both kinds			96,100 18.2 miles.	176	143

HIGH SERVICE SYSTEM.

	Size, Inches.	Length, feet.		Hydrants.	Gates.
Iron pipe	12	16,503			
" "	10	14,644			
" "	8	13,178			
" "	6	49,380			
" "	4	1,497			
Total			95,229 18.03 miles.	200	166

The total of both systems is 36.2 miles of pipe, 376 hydrants and 309 gates. In addition there are 4,448 feet of smaller pipes 2 inch to $1\frac{1}{4}$ inch laid in places where hydrants were not needed, and the amount of water required was small.

REPAIRS ON MAINS. There have been three leaks in the cast iron pipes, all on the high service, due mainly to the lead starting at the joints. The action of the pumps which discharge directly

into our high service has caused considerable fluctuation in pressure and some pounding and has been the main cause of the leaks above mentioned. The introduction of a force main from the pumping station to the standpipe has been suggested several times and the matter is now again being considered with the Metropolitan Water and Sewerage Board. There have been eight leaks on the low service due to the bursting of the cement-lined pipes. Six of these leaks occurred within a period of four days, due to a slight increase of about five pounds in the pressure. This increase of pressure was caused by connecting our low service system to the Spot Pond main, while the reservoir on College Hill which usually supplies us, was being cleaned. This change of supply, causing an increase of from five to ten pounds pressure, is liable to occur at any time, and, unfortunately also, an increase of pressure due to water hammer is always liable to occur when manipulating fire hydrants. Several breaks have in the past been traced to water hammer due to manipulating hydrants; fortunately, none of these have occured during fires, but with our weak cement-lined pipes breaks are extremely likely to happen at such times. The liberal appropriation of this year has made it possible to replace a considerable amount of the cement-lined pipe, the region including six of the eight breaks. It is still, however, very necessary that the work of renewal be pushed to include all of the 4 inch and 6 inch cement-lined pipes as soon as possible.

Services. Sixty-one new services have been added during the year. Thirty-eight on the high service, and twenty-three on the low service system. One service has been changed from the low to the high system. There are 1196 services on the high, and 733 on the low service system, and 65 in use by the sewer division for flushing sewers, also 27 services for street watering standpipes.

Repairs on Services. Many complaints have been received of insufficient pressure which, upon investigation, have been found to be due almost wholly to rusting of pipes on the premises of the consumer, which are often too small for the service required.

Reservoir. The nests of the brown-tail moths have been removed from the trees. Other work consisted of cleaning up underbrush and cleaning the brook.

The pumping station was rented to Mr. Frank G. Dort at $33.33 per month.

Hydrants. Three leaky hydrants have been replaced and all have been oiled and painted and are now in good condition.

METERS. The following table gives the number of the various sized meters in use during the year and the uses of the water:

WHERE USED.	SIZE.					Total.
	⅝ Inch.	¾ Inch.	1 Inch.	1½ Inch.	2 Inches.	
Church	1					1
Library		1				1
Domestic	628	46	15			689
Farms	7	18	23	8	10	66
Hose	5	1	1			7
Stables	8	3				11
Stores and offices	3	5	2			10
Factories	1	2	3			6
Hotels		5	1			6
R. R. stations		1	1	1		3
Milk rooms	1					1
Bakeries		1				1
Clubs	2			1		3
Restaurants	1					1
Miscellaneous	10	7	10	2		29
Total	667	90	56	12	10	835

According to an act passed by the Legislature, viz., Chap. 524 of the Acts of 1907, the department is obliged to meter all new services installed after Dec. 31, 1907, and during each year to meter at least 5 per cent of the unmetered services in use Dec. 31, 1907. There were in use Dec. 31, 1907, 1,094 unmetered services, thus making it necessary to install 55 meters per year in addition to those for new services. To make a fair minimum charge for *single faucet* takers a new minimum rate of $3.00 per six months for metered water has been essablished, exclusive of meter rental, which is $1.00 for six months.

The water supplied by the Metropolitan Water Board has been of good quality and the quantity used as measured and reported was as follows:

	GALLONS.	
	Daily Average.	Daily per capita.
January,	824,800	82
February,	970,400	97
March,	780,800	78
April,	775,800	78
May,	821,900	82
June,	1,007,700	101
July,	1,275,000	128
August,	1,520,000	152
September,	1,008,900	101
October,	861,300	86
November,	724,000	72
December,	718,700	72
Average for year,	940,775	94

The per capita consumption is arrived at on a basis of 10,000 consumers.

Recommendations. We urgently recommend that the renewal of cement lined pipes, in use since 1872, be concluded as soon as

possible and suggest that the pipes in Beacon, Franklin, Park and Medford Streets be renewed during the coming season. If possible, about 800 feet, in Lake Street near Cross Street, should also be renewed. We also recommend that the use of water meters be extended more rapidly than the 5 per cent basis now required by law on account of the saving in water consumption thus brought about.

Respectfully submitted,

PETER SCHWAMB,
WILLIAM N. WINN,
H. W. HAYES,
Board of Public Works.

Arlington, December 31, 1907.

To the Board of Public Works:

GENTLEMEN: — My report for the year ending December 31, 1907, is hereby respectfully submitted: —

EXTENSION OF MAINS. Mains have been extended on the high service system on Maple, Sylvia and Laurel Streets and on Florence Avenue, and on the low service on Magnolia Street, Norcross Street, and Lombard Road.

GATES AND HYDRANTS. One 6-inch gate and one 5-inch hydrant have been set on each of the above streets, except Florence Avenue, where one 8-inch gate was set.

RENEWAL OF MAINS. The 6-inch cement pipe on Pleasant Street has been replaced by an 8-inch cast-iron pipe from Lake Street to Gray Street and a 10-inch pipe from Gray Street to the northerly line of Lombard Road. Four gates and seven hydrants have been established, and two gates and six hydrants discontinued; 1200 feet of this pipe was laid in 1906, but was not connected until the present year.

Mystic Street from Summer Street to Massachusetts Avenue has been renewed by laying an 8-inch main; one gate and three hydrants have been set, and one gate and two hydrants discontinued. This street is now completed from Massachusetts Avenue to the Winchester line with cast-iron pipe.

The 6-inch and 4-inch cement pipe on Warren Street from Medford Street to River Street has been replaced by an 8-inch pipe, three gates, and four hydrants established and four gates and three hydrants discontinued. This street has now an 8-inch pipe laid its entire length.

The 4-inch cement pipe on Maple Street has been replaced by a 6-inch pipe, one gate set and one gate abandoned.

Medford Street from the Mystic River to Parallel Street has been renewed by a 6-inch pipe, one hydrant set and one hydrant removed.

RESERVOIR LOT. The brook on the southeasterly side of the reservoir has has been cleaned out and the brush cut off the banks and burned.

RECOMMENDATIONS. I would recommend that Medford, Beacon and Park Streets and Franklin Street between Warren Street and Broadway be relaid the ensuing year. There is nearly enough 8-inch pipe on hand to complete Beacon Street.

I am still of the opinion that a force main should be laid from the southerly end of Brattle Street direct to the standpipe, as there is

hardly a day but there are one or more complaints from residents on the line of pipe on Massachusetts Avenue, Robbins Road, and Arlington Heights, caused by the pounding in their water pipes when the pump is in operation.

There should be found some different way to supply the steam-roller with water rather than the present arrangement of opening hydrants wherever it is at work, in fact the opening of hydrants should be prohibited altogether, except by the employees of the water division and the firemen.

Respectfully submitted,

THOMAS RODEN.

SUMMARY OF STATISTICS.

For the Year Ending December 31, 1907.

In form recommended by the New England Water Works Association.

ARLINGTON WATER WORKS.

Arlington, Middlesex County, Mass.

Population by Census of 1905, 9,668.
Date of Construction, low service, 1872; high service, 1894.
By whom owned, Town of Arlington.
Source of supply, Metropolitan Water System.

Consumption.

1. Estimated total population at date 11,000.
2. Estimated population on lines of pipe 10,100.
3. Estimated population supplied, 10,000.
4. Total consumption for the year 343,382,875 gallons.
5. Passed through meters, 87,535,650 gallons.
6. Percentage of consumption metered, 25.5 per cent.
7. Average daily consumption, 940,775 gallons.
8. Gallons per day to each inhabitant, 86.
9. Gallons per day to each consumer, 94.
10. Gallons per day to each tap, 488.

Distribution.

MAINS.

1. Kind of pipe, cast-iron and cement.
2. Sizes, from 4-inch to 12-inch.
3. Extended 2,415 feet during the year.
4. Discontinued —— feet during year.
5. Total now in use, 36.2 miles.
6. Cost of repairs per mile, 3.31.
8. Length of pipe less than four inches diam., 4,448 feet.
9. Number of hydrants added during year (public), 12
10. Number of hydrants (public and private) now in use, 376.
11. Number of stop gates added during year, 7.
12. Number of stop gates now in use, 309.
15. Average pressure on mains at centre of Town, 90 lbs. high system; 50 lbs. low system.

SERVICES.

16. Kind of pipe, cement-lined, galvanized, cast-iron.
17. Sizes, ¾ inch to 6-inch.
21. Number of service taps added during year, 60.
22. Number now in use, 1,929.
24. Average cost of service for the year, $14.69.
25. Number of meters added, 183.
26. Number now in use, 835.
27. Percentage of services metered, 43 per cent.
28. Percentage of receipts from metered water (B÷C), 46.9 per cent.
30. Number of motors in use, 5.

BOARD OF PARK COMMISSIONERS.

ARLINGTON, MASS., Jan. 1, 1908.

The Park Commission submit the following report: —

Frequent meetings were held during the year to consider matters of any importance that had arisen.

At Menotomy Park the usual custom of planting flowers along the wall at the Jason Street entrance was followed this year. On Sundays and holidays a special police officer was employed for the whole season, as a regular care taker is not considered a necessity. In the fall the shrubbery near the entrance off Jason Street was rearranged and several new planting spaces laid out so as to make this entrance more attractive. Woodbine was also planted along the wall on the southerly side of the entrance.

The unsightly bank along the path near Hill's Reservoir was also graded and seeded.

If a narrow carriage path could be laid out through this park, following the present foot path, and similiar to the roads through the Fells, it would give a larger number of people a chance to enjoy the beauties of the woods. This Park is now practically free from the Gypsy and Browntail moth, but a large number of trees are dying every year, and are cut out during the winter months by the Selectmen, acting under the State Gypsy Moth Commissioner.

At Russell Park several plots have been planted with shrubs so as to take away some of the barrenness of the place. This Park is used every Summer as a baseball field, and as the boys are to have a playground near Spy Pond, through the generosity of Mr. Henry Hornblower, it is recommended that Russell Park be laid out with shrubs and trees, and that benches be located at convenient places so that this Park can be enjoyed by a larger number of people.

The wall along Mystic Street and Chestnut Street has been repointed and put in good condition. The sidewalk along Mystic Street has been decidedly improved by placing an edgestone along the entire length of the Park.

The usual amount of filling has been deposited in Meadow Brook Park and as the dam in the Mystic River at Craddock Bridge, Medford, is in progress of construction, it is only a question of a short time before the Town should carry to completion, the development of this locality. The triangles at Medford Street have received their usual care this year.

For detailed expenses see Auditor's Report.

Respectfully submitted,

C. H. GANNETT,
W. E. LLOYD,
BERT HOUGHTON,
Park Commissioners.

REPORT OF TREE WARDEN.

I have the honor to submit my fifth Annual Report as Tree Warden for the year 1907.

The name "Tree Warden" seems simple to the ordinary person, yet it means much when taken into consideration. There are certain acts and requirements which such an office must perform. On him devolves the custody of all public shade and ornamental trees within the limits of all the streets in any town. No other elective office has the jurisdiction in the respective premises that he has, though he cannot exceed his authority and is held by certain requirements. The law has made it such. I realized these responsibilities when I was chosen to the office and have endeavored to do my duty as I saw it. I may have failed to satisfy some, but they must realize that I must take a broad, yet conservative, view of all cases coming under my consideration and act on them reasonably for the general good of all concerned.

Tree Planting. There have been a number of trees removed in different parts of the town on account of fixing the grades for sidewalks. I should recommend that the sum of two hundred dollars ($200) be appropriated for these and others that may be removed.

Tree Trimming. I again call attention to this part of the work concerning the welfare of the trees. Owing to the yearly pruning of the trees in removing the brown-tail moths, there has developed a serious condition in the appearance of most of our large elm trees. Where the cut has been made decay has set in and it will not be long before the trees will be, in these upper parts, a menace to people passing. These decaying trees should be cut, the wounds smeared with tar and dead wood removed from all the trees in town. I would recommend that the sum of two hundred and fifty dollars ($250) be appropriated for this very necessary work.

Guards for Small Trees. There are guards required for a large number of small trees recently planted owing to the girdling of trees by horses.

Crowded Trees. Trees that are crowded should be thinned out in all parts of the Town to give room for others to grow and it would be a great benefit to the road beds of the street which are kept too wet and shady. I should recommend that a committee be appointed to serve with the Tree Warden in regard to removing the trees, as some of the people make objections.

The Tree Warden desires to testify to the apparent effort of the Telephone, Telegraph, Light and Street Railway Companies, whose wires pass through the town streets, to conform to the laws and to meet the wishes of the Tree Warden. It has, nevertheless, been necessary to keep constant watch of these wires to prevent injury to the trees and to make frequent complaints. I would recommend that when any locations for setting of poles or running of wires, such locations should be granted on the advice of the Tree Warden and under his direction.

The big historical elm tree at the end of the Town on Massachusetts Avenue met with a serious mishap on account of a heavy wind storm and damaged the fence and property nearby which the Town had to replace at considerable expense. Over half the tree blew down which left it in very bad shape. This tree has been decaying for a good many years and is now nothing but a shell and I consider it unsafe to the public welfare. I called a tree hearing and quite a large number attended from that end of the Town and all were opposed to removing the tree. Mr. Omar Whittemore volunteered his services with Tree Warden to investigate the condition of the tree and agreed with me for the safety of the Town that we trim the tree at the top so as to lessen the strain on the rest of the tree and to put iron bands and rods to strengthen it. I consider the tree to-day unsafe and would recommend that it either be removed altogether, as the beauty of the tree is gone, or else the stump left as a land mark. This is a serious matter and special attention is called to the matter.

The reappearance, during the past year, of the elm beetle in very large numbers and with no appropriation available with which to destroy them, resulted in the destruction of the foliage of a large number of our elm trees. These insects work on the elm tree only and an appropriation should be made to destroy them, as in failure so to do they will become as great a nuisance as either the gypsy or brown-tail moths.

For receipts and disbursements see Auditor's Report.

Respectfully submitted,

A. FOSTER BROOKS.

REPORT

OF THE

Committee on the Celebration of the 100th Anniversary of the Incorporation of the Town.

Arlington, January 20, 1908.

The committee appointed by the Town at the March meeting of 1906 to make arrangements for the proper observance of the One-Hundredth Anniversary of the Incorporation of the Town, herewith submits its report as to the appropriation made by the Town for the celebration and the amount expended by the committee.

The celebration was held June 1, 1907, and was an event long to be remembered by all who witnessed it. The details on which your committee had worked for over a year were carried out in a manner that seemed gratifying to the citizens generally.

In the judgment of your committee a full and complete report of the work of the committee and of the proceedings on the day of the celebration should be published in pamphlet form, space in the Town Report not permitting of a very extended or full report.

Accordingly your committee voted to appropriate the unexpended balance of the appropriation made by the Town, and now at the disposal of the committee, for the publication in pamphlet form of the proceedings of the celebration, the report to be distributed to the citizens at an early date. The cost of said report not to exceed the unexpended balance.

While your committee in it's first report to the Town outlined a celebration, the cost of which would be about $5000, and recommended the appropriation of that amount, the appropriation as made by the Town was $3,100.

Your committee is pleased, however, to report that through the generous subscriptions of the citizens of the Town and others, amounting to $1,566.75, they were enabled to provide the Town with a celebration in accordance with the plans as outlined in their first report.

The total amount of the appropriation of $3,100 expended by your committee was $2,853.10, leaving a balance of $246.90, which amount is to be applied to the payment of the publication of the proceedings now being compiled.

For detailed account of expenditures see Auditor's report.

For the committee.

JOHN Q. A. BBACKETT,
Chairman.

THOMAS J. ROBINSON,
Secretary.

THE ELBRIDGE FARMER FUND.

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington : —

The Trustees of the Robbins Library submit their annual report.

The circulation of books remains about the same, 44,504 for 1907 as against 45,253 for 1906, and 10,918 for the Children's Room as against 10,959 in 1906. But the withdrawal of the Booklovers Library doubtless accounts for the loss.

The average daily attendance in the Children's Room has risen from 19 to 22 ; that of the Reading Room remaining the same—59.

Thirty thousand seven hundred and fifty-three volumes have been distributed from the Central Library and 3,627 single numbers of periodicals as against 2,925 last year.

To make good in part the withdrawal of the Booklovers Library, a certain number of books has been kept at the Arlington Heights Reading Room during the past seven months and has been called for by 195 individuals.

Attention should be called to the excellent reference work done by Miss Baston, from her desk in the Reading Room, whereby the resources of the Library are made available to all who apply for her assistance.

The Library was represented on the first of June in the Centennial Celebration by a float containing two fine paintings of the old Adams house, which stood on the corner of the Avenue and Mystic Street. It was while the Library was located here that it became a Free Public Library. The building was opened in the afternoon and three hundred persons, including many guests of the Town, availed themselves of this opportunity to examine the Library.

In August, Miss Louise V. Marsh, who has had charge of the Children's Room since it was opened in 1900, withdrew from the Library after rendering very satisfactory service for fifteen years.

Miss Edith C. Rice was given her position and is well qualified for the work.

In April an assistant was provided each morning, except Sunday in the Book Room, and on the 8th of October Miss M. K. Leetch began work in the Reading Room for four evenings each week.

A special policeman has been secured for duty in the Library on Sunday afternoons when the attendance is large and outside help is sometimes needed to maintain order.

Exhibitions of photographs, etc., have been given in addition to those hitherto reported

February. No. 62. Photographs of Scotland, No. 2.

March. No. 63. Photographs of Greece, No. 3. The Parthenon.

April and May. No. 64. Photographs of Florence, No. 4.

May. No. 65. Photographs of Famous Pictures, No. 2.

June. No. 66. Photographs of Sicily.

June 1–10. No. 67. Exhibition of photographs of old houses and portraits, with articles of historic value, arranged by the Arlington Historical Society to celebrate the Town's Centennial Anniversary.

June and July. No. 68. Photographs of Milton, Framingham and Lancaster.

July. No. 69. Photographs of Famous Pictures, No. 4.

September. No. 70. Photographs illustrating the development of art in Italy. Part I.

September and October. No. 71. Photographs as above. Part II.

October and November. No. 72. Photographs of the National Gallery of London, No. 1. British School.

November. No. 73. Photographs of Yellowstone National Park. Part II. Lower and Upper Geyser Basins.

November and December. No. 74. Photographs of Siena.

December and January. No. 75. Photographs of Yachts.

The Library has been enriched by gifts of books and magazines from Winfield Robbins, Henry Dexter, Mrs. E. C. Turner, Charles S. Parker, Judge James P. Parmenter, E. P. Usher, Melvin L. Severy, Miss M. J. Jacques, Mrs. Marshall N. Rice, Mrs. H. G. Porter, and by the gift of a fine photograph of our esteemed townsman, Mr. J. T. Trowbridge.

The editors of the Advocate have continued to send us a file of that paper.

Respectfully submitted,

Arlington, December 31, 1907.

REPORT OF REGISTRARS OF VOTERS.

ARLINGTON, December 31, 1907.

The Board of Registrars of Voters herewith submit their report for the year ending December 31, 1907.

Mr. Franklin T. Anderson, a member of the Board since January 16, 1904, resigned on October 26, 1907, and on November 30, 1907, Mr. Eben F. Dewing was appointed to fill the vacancy thus caused.

The total number of registered voters as reported January 1, 1907, was, 1897.

Whole number male	1,782	
Whole number females	115	
		1,897

During the year one hundred thirty-nine (139) names were stricken from the list for death, removal or other causes.

At the various meetings held during the year the number added was as follows:

Town Hall	February 13th	2	
Union Hall	February 16th	8	
Town Hall	February 23d	13	
Town Hall	September 19th	18	
Town Hall	October 18th	24	
Union Hall	October 21st	17	
Town Hall	October 26th	49	
			131

Making a total registration for the year of 131.
Number of women registering during the year was 3.

The list as revised to January 1, 1908, is as follows:

Whole number registered	1,892	
Whole number males registered	1,774	
Whole number females registered	118	
		1,892

JOHN W. BAILEY,
WINTHROP PATTEE,
EBEN F. DEWING,
THOMAS J. ROBINSON,
Registrars of Voters.

REPORT OF THE SCHOOL COMMITTEE.

ARLINGTON, MASS., Dec. 31, 1907.

To the Town of Arlington : —

While several additions have been made to our corps of teachers during the past year, it is significant that but few other changes have been made.

At the High school the entering class was so large that three divisions had to be made of it instead of two as formerly. Miss Ella Somerby has been secured to teach this third division. Another new teacher in this school is Miss Florence S. Ames.

At the Russell school Miss Jennie S. Westcott's sad death made an unusually difficult situation to be met. Miss Westcott had really made a new school out of the old and had proved herself a teacher second to none in the Town. It seemed best under the circumstances to elect a male principal for the balance of the year and Mr. George T. Collingham was elected and served satisfactorily for that period. At the July meeting Miss Harriet P. Ryder of North Adams was elected to act as principal for the year and the Town is fortunate in securing her services, in that she has maintained the high standard established by Miss Westcott.

At the Locke school the great increase of pupils in that locality made necessary not only the finishing and furnishing a new room but also the engaging of two additional assistant teachers.

At the Parmenter school another room has been opened this fall and now all four of the rooms of this building are occupied. Miss Alice S. Rand has charge of the added grade.

The growth of our schools has been at the rate of nearly one hundred pupils annually for the past few years. This growth is most marked in the Locke district and at the November Town meeting a committee was named to look into the question of additional school accommodations for that section and to report its findings at the annual spring meeting.

The High school sub-committee on studying the needs of additional heating in that building found on consulting with Prof. Peter Schwamb that the installing of a new boiler was not the best solution of the problem. The smaller boiler was raised to the level of the larger one and the two were made to work together at low pressure. The engines running the blower and the manual training machinery were removed and electric motors installed in their places. The blower system had to be changed and more direct

radiation had to be installed in all the class rooms and in the physical and chemical laboratories; where there had been no direct radiation heretofore, new radiators were placed. On all the western windows of the building, outside windows were placed. We now hope that we have secured a fairly good solution of the heating of the whole building. The thanks of the committee and in fact of the whole Town are certainly due to Professor Schwamb for the expert advice and direction he gave freely to an effective and intelligent handling of so difficult a matter.

The Town is greatly indebted to the Arlington Woman's Club for the many additional art gifts that have been presented to the various schools during the year.

A course of study drawn up by Superintendent Scully for the elementary grades was adopted tentatively at the July meeting. The practical working of this course is being studied and corrected by the Superintendent and grade teachers jointly during the year, and the coming September this essential to the well-being of our school system will be established definitely.

In the early part of the year the committee suffered a severe loss in the death of Captain John H. Perry who had served on the board long and faithfully. His associates have most sincerely mourned his decease. Mr. William H. McLellan was later chosen by the joint boards to fill this vacancy.

In the latter part of the year, prolonged absence from Arlington compelled Miss Ida F. Robbins to resign from the board. Miss Robbins was a member of the committee whom we could ill afford to lose, because of her intense intelligent interest in the work, and further because of the strong bond she had formed between the teachers and the board which in these days of superintendents is usually missing. Thus far it has not been found possible to secure another member to fill her place but it is earnestly to be hoped that some public spirited woman may soon be selected.

In closing we will state that your committee is fully aware of the yearly increasing expense of the schools and is trying in all ways to keep out extravagances. The increase the coming year is caused not only by the fifty dollars increase in the grade teacher's maximum salaries voted by the Town at the Spring meeting but by the new teachers added in the grades and also in the High School which it is pleasing to state has grown rapidly in numbers and efficiency the past year. The one thing your committee is striving for is that the Town may feel that it is getting its money's worth.

Respectfully submitted,

WALTER MOOERS,
Chairman.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Arlington :—

I have the honor to present herewith my third annual report.

It has come to be a custom for Superintendents in their annual reports to give an account of the condition and progress of the schools and to discuss current educational topics to such an extent as will give a clear view of the field of popular education.

Course of Study. At the opening of schools in September, a new course of study in outline was put into the hands of the teachers. The course as presented is in line with the demands of the day and corresponds in a large measure to what is being attempted in the best school systems in the country. It is, however, understood by all teachers to be tentative, and we are constantly making changes as experience shows us that the demands of our schools are not entirely satisfied by the work as outlined.

Grade meetings have been held and are still being held, in which various points are carefully considered and discussed and our efforts directed toward making the course as practical as possible. These meetings are in the nature of "round table conference," at which everyone expresses his opinion freely.

For many years, our common school curriculum has been growing more extensive and complex as new studies have been added from time to time. The old system group—reading, writing and arithmetic—was first enlarged by adding grammar, geography and history. Later on, music, drawing and gymnastics were introduced. Spelling, composition and language lessons very naturally followed. Physiology, hygiene, temperance and the effect of alcoholic drinks were added and afterwards made obligatory by State law. Later, Latin, algebra, geometry, English history and current events were added. Beeides these, manual training has been given its place, and is now crying for more time. There are thus more than twenty studies, which hold a more or less independent place in our course of study. Besides these, many of the older studies, as reading (literature), geography and history have been greatly enlarged in their scope and quantity of material. American history, for example, was principally taught only in the last year of the grammar school; now it extends through four years (from the fifth to eighth grade) and includes a greatly increased quantity of historical matter. The literary materials used in the primary grades and in the reading of classics in the higher grades have had a broad exten-

sion. Music, fine art and physical education are likely to receive more attention as time goes on. Many educators believe, and with good reason, that Latin should begin in the sixth or seventh grade rather than in the High school or ninth grades. Supplementary readers in geography, history and natural science go much beyond the text books in presenting a large assortment of additional knowledge for reference work.

When it is remembered that many children have outside of school music lessons, gymnastic work, and dancing school, it seems evident that they have enough to keep them busy both physically and mentally. It is only fair to add that children in homes where there is a family library, are expected to extend the boundaries of school instruction into the rich fields of history, literature, science, biography and fiction.

As a result of this brief survey, it may be said that our present elementary course, if carried out, seems overcrowded by the quantity and variety of materials. There seem to be more studies than children can learn well and more than teachers can teach well.

Regret is often expressed that we have wandered so far from the "three R's" and the wish is expressed that we should return to them. Very few teachers can be found who would think this in any way desirable. It has been conclusively proven in Arlington and in many other places, as I stated in my last report, that the "three R's" have not suffered because of the broadening and enrichment of the course of study. We must admit that simplicity and thoroughness are essentials to right education. The enrichment of child life through such modern studies as literature, history, science, and physical and manual training are equally essential. There can be no return of the "three R's" alone — to the primitive course of our grandfathers. Boys and girls trained in the narrow curriculum of the old-fashioned studies would not be qualified for the new and complex conditions of modern life. Each age must have an education suited to its own needs.

Our present course of study is not a thing of caprice which we can change and modify at will. It is no mere invention of the school master. It is rather a world product, the result from some centuries of steady development along educational lines. It has taken more than three centuries of European and American history to bring together the materials and to give them a merely temporary arrangement. Every addition to the list of studies has been strongly contested at every step by the forces of conservatism and reaction. Only those ideas have survived which have a strength and vitality born of true worth.

Having these accumulated materials, our present task is to organize them into a consistent course of study. The present apparent overloading of the curriculum is in an inevitable stage in the evolution of studies. In France and in Germany, they are still struggling with the same problem. It is only fair to say then, that our

present course of study is due to large influences over which the school master has no control. The great problem of the present day is how may we simplify and organize these studies so as to secure thoroughness of knowledge and discipline and leave out no essential things, and how to meet the needs of growing children and the demands of the public. That is the problem with which we are struggling in working out our course of study. It means a selection and adaptation of knowledge materials according to the needs of children; it means a lopping off of all inessentials and a careful correlation of all the studies.

The growth in the curriculum has been along the line of the child's interests and needs. An examination of the new historical material that has found admission to the fourth, fifth and sixth grades will show a preference for biographical and descriptive episodes, which children easily and naturally enjoy. The manual arts as they are working their way into the schools are a direct response to the children's own demands for congenial activities. Good music is one of the greatest delights from earliest years. Well selected poems and stories from the best authors are now read and memorized with hearty appreciation in all grades. The games and physical exercises which have become an important part in the daily program serve to give a cheerful and healthy tone to the whole school life.

It would be worth much if we could establish a safe standard of proficiency; that is, determine definitely the degree of excellence which should properly characterize knowledge acquired in school. We cannot say at present that there is any commonly recognized standard among the schools of the country. We are disposed to set up as a standard of thoroughness and proficiency in knowledge the ability to make application of it as the need arises. In writing, for example, a child should write so plainly and legibly that his work can be easily read; he should speak and use English so correctly that he may be understood on all occasions where he has need to speak and write; he should spell correctly all words that he has occasion to use; he should know the simple fundamental operations in arithmetic because he has frequent chances to employ these.

The advantage of this recognized standard is the economy it brings in cutting off those unnecessary and showy excellencies in which school teachers sometimes take pride. The remarkable penmanship of younger children gained at such an expense of nerve and strain, the remarkable work in arithmetic, the perfectly executed maps and drawings which exhibit such a waste of time, the swift reciting of topics which show that the children have memorized what was never intended for memorizing, the spelling of all sorts of rare and freakish words without knowing the meanings, the smooth recital of rules and definitions in all sorts of lessons — all these hobbies of the old school by which teachers deceived themselves and others into the belief that they were giving first class training must be all cut out. We shall still have left the subtsantial part of school work which

serves the real purposes of life. In working on this course of study, we are keeping in mind at all times the importance of the "three R's" and they are forming the basis for the training which we hope to give the children of the town.

Promotion. The success of a school system may be measured in no small degree by the progress made by the pupils, as shown by their advancement from grade to grade. In my annual report of a year ago, I spoke of the large number of pupils who were being kept back in Arlington, and stated that efforts were being made to remedy this.

Several causes must contribute to successful advancement from grade to grade. There must be earnest, wide-awake teachers trained in the best methods of instruction, who are heartily in sympathy with children and with child life and who have a keen insight into the individual needs and difficulties of each child under their charge. Teachers, however, cannot do it all; parents must be alive to the educational interests of their children, see that their attendance is punctual and regular; visit the schools and confer with the teachers and principal as to the progress of the children, and frankly inform them of any weakness or defect which the children may have, that the teacher may perform her work intelligently with every individual child. There must be a sufficient equipment of books, apparatus and supplies. There must be cheerful, healthful schoolrooms in which not too many pupils are brought together for daily work. It can be fairly said that Arlington does her part in furnishing these conditions for success.

We demand longer and more effective training of teachers than was required a few years ago. A closer relationship between the home and school is being fostered, with the result, on the part of the parent, of a better knowledge and understanding of the schools and of what they are trying to accomplish. Most of our teachers are doing much to encourage the co-operation of the parents by seeking interviews and discussing with them the needs of the individual children. The School Committee furnishes the schools a liberal supply of carefully selected books, apparatus and supplies. Our school-rooms are well lighted and ventilated, and while there are a few rooms in Town overcrowded, in the majority of schools the number of pupils is not unreasonably large.

I pointed out a year ago the fact that individual instruction is necessary to the successful advancement of the lower third of the class. The advisability of giving part of the school time to individual work with backward children was urged upon the teachers. From careful observation of the work in the schools during the year and conversations with the teachers, I was convinced that a larger percentage of the pupils than usual would be promoted in June. During the month of June I discussed the matter of promotions

with many of the teachers, taking up individual cases and considering them carefully. I found the attitude of the teachers was to consider what was the best thing to do in the light of the child's future advancement. In some of the schools I took up with each teacher the cases of all pupils whose chances of promotion were in doubt. As a result I obtained a knowledge of the reasons for the non-promotion of the children. As is usual, absence from school for periods varying from fifteen to one hundred twenty days was the most common reason. An examination of the promotion sheets shows the following per cents: Grade I. promotes 84.9 per cent of the total membership; Grade II. promotes 92.7; Grade III., 92.5 per cent; Grade IV., 90 per cent; Grade V., 89.5 per cent; Grade VI., 86 per cent; Grade VII, 87.6 per cent; Grade VIII., 85.7 per cent.

One thousand four hundred and ninety-six children were enrolled in the primary and grammar schools below the ninth grade at the close of the year. Of this, 1,325 or 88.6% were promoted to succeeding grades. I have considered the ninth grade as a part of the High School because the change to High School methods comes in that grade. From a report recently made covering various sections of the country, it was shown that the average percentage of pupils who annually fail of promotion in New England cities and towns where nine-grade systems prevail is 10.6%. In places where the eight-grade systems prevail, the average of non-promoted pupils is about three and one-half per cent higher. In the states outside of New England where eight-grade systems are almost universal, the percentage of children, who annually fail of promotion, is yet a little higher. While our average per cent is still a little higher than the average in New England, teachers are working faithfully to reduce the number of children held back to a minimum. It is fair to say in this connection that our standard of achievement necessary to success in the succeeding grade is higher than in many places. This is proven by children who come from other cities and towns where they have been able to maintain a creditable standard in the grade to which they were assigned, in our schools frequently fail utterly to maintain a passable standard in the corresponding grade. The college sets the standard for our High School which in turn sets a high standard for the grades. The influence of this is felt throughout the school system and is on the whole a stimulus to pupils and teachers.

Many children who are obliged to repeat a year might be saved the loss of that year if parents would watch more carefully the progress of their children in school. In all grades above the third, reports are sent home at the end of every eight-week's period. These reports show the standing of the pupil in the various subjects. These reports indicate as accurately as is possible with any system of marking the progress made during the two months. If his work

has been below the standard because of absence or lack of proper application to his school duties during the greater part of the year, it can not be reasonably expected that renewed efforts during the last few weeks of the year will secure his promotion.

I especially urge the members of the School Committee to use their influence to have parents visit the schools as often as they can to observe the work and discuss with the teachers the standing and needs of their children.

Teaching Force. During the year, as stated in your chairman's report, there have been seven changes of teachers, two teachers have been added to the force and an additional assistant employed.

Because of the necessity of using the fourth room in the Parmenter school, Miss Alice S. Rand has been added as a third grade teacher in that school.

There are now four assistants working in the schools of the Town. Three of these assistants have no responsibility for the care of a room but assist the teachers in overcrowded rooms. Miss Ellen E. Sweeney the assistant in the Crosby school, besides the assistance that she gives the first grade teacher, has charge of a special class of Italian children who have entered school without any knowledge of the English language and are too old to enter the first grade. In the Locke school, Miss Bessie M. Hartshorne assists the teacher in the first grade only, there being fifty-eight children enrolled in that grade, and Miss Annie M. Craig assists the teachers in the second, third and fourth grades. In the Cutter school, Miss Florence M. Jepson assists the teachers in grades two, three and five.

Salaries of Teachers. In September an increase of $50 a year in the maximum salary of grade teachers went into effect. During the recent years, the ratio of increase in the necessary expenses of living has been greater than the ratio of increase in wages or salaries. While there is a general consciousness of this fact on the part of all earners of wages or salaries, perhaps no class has felt the inconvenience and hardship to a greater degree than have teachers. During the last two years, several investigations have been undertaken because of that feeling of the teachers. In 1905, the Indiana State Teachers Association made a report of one hundred and twenty-six pages on taxation and teachers' salaries. In 1905, a committee of the National Educational Association submitted a report of four hundred and fifty-eight pages on salaries, pensions and tenure of office. About a year ago, a committee appointed by the Middlesex County Teachers Association presented a brief but comprehensive report on the conditions in our county.

From this report I quote as follows:

Teachers' Salaries in Middlesex County.

The investigation sought to determine:

First. — Whether or not during the last ten years the prevailing

tendency in the salaries of the grade teachers in the county has been upward.

Second. — Whether or not during the same period the necessary living expenses of teachers in the county have advanced.

Third. — Whether or not, if the living expenses of teachers have advanced, salaries have advanced correspondingly.

Data bearing upon these points have been secured from 22 communities in all, including the 11 cities of the county and a corresponding number of typical towns.

The following facts were determined by the inquiry:

Average increase in salary maxima for the 11 cities during the last ten years	9.6%
Average increase in cost of living for teachers for the 11 cities during the last ten years	19.6%
Average increase in salary maxima for the 11 towns during the last ten years	12.3%
Average increase in cost of living for teachers for the 11 towns during the last ten years	18 9%
Average increase in salary maxima for the 22 communities during the last ten years	10.8%
Average increase in cost of living for teachers for the 22 communities during the last ten years	19.3%

On these facts the committee comments as follows:

It appears to be established from the foregoing data: (1) that the prevailing tendency in respect to the salaries of grade teachers during the past ten years in the county has been upward; (2) that the same is true with respect to the living expenses of teachers; and (3) that the rate of advance in salaries has not kept pace with the increase in cost of living.

In studying the figures given in the foregoing table, it should be borne in mind that, as a rule, the maximum salaries are not reached until a teacher has served in the city for a period covering from three to six years; and that consequently many teachers, perhaps the majority, are not now receiving the salaries here indicated. In one city at least the maximum can be received only after the teacher has pursued a course of professional study approved by the superintendent of schools, and has thoroughly demonstrated her superior skill as a teacher. It would be misleading, therefore, to assume that all teachers in the communities mentioned, are actually receiving salaries as high as the indicated maxima.

In view of the fact that the average cost of living for teachers in the communities studied has increased 19.3 per cent. during the last ten years, while the increase in salaries has been only 10.8 per cent., the inadequacy of the present compensation of teachers becomes painfully apparent.

The committee offers certain considerations pertinent to the subject : —

1. The Relation of the Teacher's Salary to the Requirements of Her Position.

To compare the pay of teachers with the remuneration in other fields of labor hardly affords a satisfactory basis for judgment on this question ; nevertheless, for the benefit of those who are interested in such comparison, it may be said that useful data may be found in the nineteenth annual report of the Commissioner of Labor in the United States, in which it is shown, by statistics from 48 cities in different parts of the country, that, if 50 weeks be assumed as the basis of a year's work, the earnings of unskilled laborers on streets and sewers in all except Chicago, Ill., Columbus, Ga., Meridian, Miss., and Washington, D. C., exceeded the minimum yearly salary of grade teachers in those cities.

In spite of the difficulties in the way of securing reliable data for comparison upon this point, your committee believes that the prevailing salaries of grade teachers today are not commensurate with the requirements made upon them in the way of professional equipment and standards of living.

The better class of positions at the present time, at least in the area covered by this report, are open only to those who have had reasonably broad academic preparation, supplemented by a full course in the normal school and some successful experience in teaching. Not only are the higher standards that are justly being set by school officials in these respects compelling the would-be teachers to a larger expenditure of time and money than formerly was required in preparation, but also they are compelling those who now are in the ranks to take up special courses of study in order to be eligible for advancement.

Again, the advancement in the social standards of living in general during recent years, as the natural result of the great prosperity in the business world, has operated to put upon teachers the necessity for greater expenditure in the way of dress and social requirements. This comes about because, necessarily, from the social sphere in which teachers are expected to move, and in which they should move, they must be governed in their expenditures to a greater or less extent by the example of those whose incomes in a great many cases are not only more generous, but also respond more quickly to more prosperous business conditions.

2. The Relation of Salaries to the Character of the Teaching Corps.

The importance of a high standard of personality and professional efficiency in the public school teaching corps is so well understood that it needs no discussion.

In this connection, however, it should be noted that, owing to the

increasing opportunities for women to earn in other lines of effort as much, if not more, with less expenditure of energy than they can in teaching, there is grave danger that ultimately the character of the teaching force in our schools will suffer unless a higher standard of salaries can be secured for teachers.

Low salaries for teachers, if maintained in face of general prosperity in the business world, mean certain inevitable results:—

First.—Although school boards may require complete professional training on the part of those whom they employ, the character of those who take up the work of teaching will gradually deteriorate, because many of the brightest and strongest personalities will prefer other fields of labor in which the remuneration is greater. Already complaint is being made quite generally that it is becoming increasingly more difficult to secure the type of teacher wanted for the average salary paid.

Second.—Low salaries mean shorter periods of service by first-class teachers.

Third.—A prevailing low rate of wage means less ambition on the part of the teachers and less opportunity for professional growth while in service,—a fact that operates distinctly against the best results in our schools.

A reasonably high standard of salaries, therefore, is even more important to the public than it is to teachers themselves.

You may ask how this concerns us, who have just made an increase of fifty dollars in the maximum salaries of the grades. It is a matter of history and in this connection I would say, that while our condition is much improved because of the increase, relatively our condition is not so greatly improved as we could wish. This is owing to the fact that many of the surrounding Towns have already advanced their maximum salary to a point of, from fifty to one hundred dollars a year in advance of ours, so that we are still a prey in their search for teachers. Again, in investigating the matter of janitor's salaries at the request of the committee, I inquired the maximum salary paid to women teachers in the High schools. In looking that schedule over carefully, as I know you have, you have discovered that none of the Towns whose conditions can be fairly compared with ours, pays a smaller maximum salary to the women teachers, that four have the same maximum and that all others pay a larger salary than we pay to our teachers.

Our present schedule of salaries is as follows: in the grades, usual initial salary $550, with an increase of $50 a year to the maximum $650; special teachers in the eighth grade, teaching in more than one building, $700; ninth grade teachers, maximum $700; principals of eight-room buildings, $900; principal of four-room building, $700; High school teachers, initial salary $700, with an increase of $50 a year to the maximum of $800. Beginning January 1, 1908, one teacher in the High school is now receiving a salary of $900 by special vote of the committee.

I respectfully recommend a consideration of the salaries of the principals of the eight-room and four-room buildings.

Public Days. In May, all of the schools with the exception of the Russell School had a public day. At the unanimous request of the teachers of the Russell School, public day was omitted in that school owing to the sad loss of the principal, which occurred the month previous.

These days have proved directly helpful to teachers, supervisors and superintendent. In this busy world of work and social duties, parents find little time for visiting and therefore something must be done to attract them. No one supposes for a moment that the exhibition of work in the various rooms on these special days is a complete representation of what the school is doing. The intercourse and relation between pupil and teacher, the broad bases of school management, the cleanliness and order of the rooms, the general surroundings, the ventillating and heating, the individual work with backward children, the direct teaching and character building and the host of little things that conduce to the atmosphere of the school cannot be exhibited. Nevertheless, the broadness of the present school curriculum, the development of work from grade to grade, the display of means and methods of fixing subjects taught, a certain degree of the correlation of the several subjects, the training and placing on paper with exactness and neatness the matter in mind and the variety of work of the special subjects are in evidence. Parents must justly infer that good writing, drawing and industrial work can not be produced in rooms that are not well-governed and well-taught.

It is only fair to the teachers and pupils to say that these parents days are not in the large part formed from work especially prepared for the occasion. A few exercises are especially prepared but they are simple type exercises of a kind used at various times during the year in the regular school work.

Most of the work is not and can not be specially prepared, for there is so much of it that this is impossible. In addition to the opportunity of getting a general idea of what is being done in the schools, the parents days are helpful because they are an excellent incentive to teachers and pupils to do better work than ever before. The knowledge that the parents, members of the School Committee, and many other visitors will inspect and appreciate their productions encourages all to greater effort. After school on the public day at each building, most of the teachers from the other schools visited the buildings and inspected the work. They were thus able to see how the work of their own grades compared with the corresponding grades in other schools. This was by no means the least valuable feature of these occasions. It is not desirable that all teachers should do their work in just the same way but it is well to have a general uniformity in method and progress.

In some towns, these days are called "appreciation days," because

of the number of visitors and the expressions of pleasure and appreciation which are so general. The attendance at these days was very gratifying in all schools except the High School. Parents visit the High School but very little. There seems to be no good reason for this so far as I can learn, except that it has never been a custom to do so and the result is that pupils are opposed to having their parents visit the School, because their friends' parents do not come. A better understanding and appreciation of the High School would certainly follow if parents more frequently visited the school when it is in session.

School Conditions. A year ago, I spoke of the action of the school committee in changing the district lines between the Cutter and Locke Schools, thereby relieving the Locke School of the unreasonably large numbers that were enrolled in some of the grades during the preceding year. The change worked very well during the last school year. In September of this year, however, it was found that the numbers in the Locke School had again increased to almost alarming proportions and no further relief by a change of district lines was possible. The committee brought this matter to the attention of the Town at the November Town meeting and a committee was appointed to investigate conditions in the Locke and Cutter districts. It seems probable that action will be taken by the Town to furnish larger accomodation in the Locke district. In investigating the conditions, certain facts became evident which, as a matter of school history, I will briefly mention.

AVERAGE MEMBERSHIP ARLINGTON PUBLIC SCHOOLS, YEAR ENDING JUNE.

	Russell and Parmenter.	Crosby.	Cutter.	Locke.	Total Grammar.	High Building.
1895	433.0	103.0	179.0	136.0	851.0	165.0
1896	457.8	216.3	162.7	155.6	992.4	183.3
1897	431.7	256.8	174.6	184.5	1,047.6	177.5
1898	426.7	256.7	186.2	194.3	1,063.9	196.0
1899	476.9	267.6	187.2	209.5	1,141.2	206.0
1900	470.4	263.9	189.1	207.5	1,130.9	206.1
1901	504.9	250.2	201.4	237.1	1,193.6	200.8
1902	527.3	279.0	219.5	278.7	1,304.5	222.2
1903	507.3	298.3	241.8	307.2	1,354.6	232.1
1904	505.2	287.1	260.6	308.1	1,361.0	250.5
1905	563.9	260.1	270.1	315.1	1,409.2	252.8
1906	562.6	255.5	293.6	353.6	1,465.3	253.9
1907	579.8	267.3	324.4	313.2	1,484.7	293.7
December.						
1907	630.4	289.3	333.0	354.8	1,607.5	337.3

NOTE.—For much of the above statistics as well as for some statistics in the appended tables I am indebted to Mr. Frank Hodgdon who has kept statistics of the Town for a long period of years.

From the accompanying table giving the average membership in each district for the years 1895 to 1907 it may be seen that the increase in the average membership is quite regular. This is especially true from the year 1900 to the present time. If the same ratio of increase continues, as it is reasonable to suppose, it seems almost certain that within the next four years additional accommodations will have to be furnished in the Cutter district by at least two rooms and in the Russell-Parmenter district by one room in addition to whatever increase it seems wise to make in the Locke district. This estimate is made on the assumption that an average membership of forty pupils to a room is maintained.

Another necessity which must be faced immediately is additional accommodations in the High School. At the present time there are 208 pupils in the High School and 130 in the ninth grade. The arrangement by classes is as follows: Post graduates, 2; seniors, 33; juniors, 37; sophomores, 56; freshman, 80.

Each class consists of at least three sections brought about by the three courses pursued. Because of the number of classes reciting at the same time, an additional recitation room must be furnished. It is possible to use the hall for a recitation room temporarily, but it is very poorly fitted for recitation work and would necessitate the heating of that auditorium at all times to sixty-eight degrees, which would be an additional strain on the heating plant. It is possible in the present building to fit up at least one recitation room, possibly two, and I respectfully recommend that the committee investigate the matter with the idea of having a room prepared during the next summer vacation. That something will have to be done in the way of substantial additional accommodations in the High School within a few years is apparent.

Writing. Last September Arlington changed from the vertical penmanship to the medial slant. Excellent progress was made during the year in the new system. A good feature of the new writing is the fact that with it comes an excellent system of arm movement exercises which will later develop into better form and greater speed, but for a time will yield poorly formed letters. I have not urged that teachers insist on children writing with the forearm movement in all their work, but we do urge the children to try to master the arm movement, and we find at the present time many children who are doing all their writing with the fore-arm movement and accomplishing very satisfactory results. It seems to me that no feature of the year's work has been more satisfactory than the improvement in writing. It is too much to expect that the new system be mastered in one or two years. The writing of many children, especially in the higher grades, where they have been for years trained in the vertical system, still retains some of the form of the vertical, but the manner of doing the work, the pen holding, sitting positions and the form of movement are vastly improved. I have a firm belief

that with a few years' work with the Whitehouse System we shall produce better writers than ever before.

Tardiness. Principals and teachers are making a strenuous fight against tardiness. They realize the loss from the school work and the demoralizing effect on school management; but more than that, they feel that the habit of carelessness and indifference is worse than all other evils. It is a difficult matter to handle because of the fact that in many cases of tardiness the children themselves are not to blame but the fault lies with the parents. To punish a child for the fault of his parents seems unjust, but unless the matter is dealt with most strenuously, tardiness will continue.

In the years 1905 and 1906, the number of tardinesses averaged 1.27 tardinesses for every pupil in the average enrollment; during the school year of 1906 and 1907, the number was reduced to 1.03 for every pupil enrolled in June. For the four months of school up to to the present time, the number is much less than for the corresponding period of a year ago. From the record of twenty different and widely separated cities and towns in New England, an examination of attendance shows that the average tardiness for a pupil is a small fraction more than one. Through the efforts of principals and teachers a spirit of strong disapproval of tardiness and of tardy pupils is being developed in the children. This spirit is sure to bring about the desired result.

The High School. As stated before there are at present in the High school 338 pupils, including 130 ninth grade pupils under three teachers. By our arrangement, the ninth grades are to all intents and purposes a part of the High school. This is a very satisfactory arrangement and one which I hope will permanently endure. The school in its discipline, in the character of the work being done, and in the standard of scholarship is in excellent condition. A greater spirit of freedom and initiative is being encouraged and developed which tends to make a good atmosphere in the school.

Our High school has an enviable reputation in the colleges to which graduates have been sent either on certificate or examination. During the last ten years, the school has graduated 212 pupils, 94 of whom entered higher institutions of learning. The school has the right of certification form the College Certification Board and pupils have been admitted on certificate to the following colleges: Boston University, Mount Holyoke, Smith, Vassar, Wellseley, Amherst, Bowdoin, Dartmonth, Tufts, and University of Michigan. From none of these has any unfavorable criticism been received, while many have sent commendatory reports. By far the larger number of graduates, however, enter Harvard, Radcliffe and the Institute of Technology, which do not admit on certificate. In all of these institutions our students have made satisfactory and often

distinguished success. It may be seen from this that one of the important duties of the High school is to prepare pupils for college. This, however, is not the main object of the High school.

High schools are frequently referred to as the "people's college," and this title is more appropriate now than ever before. Most high schools furnish a curriculum equivalent to that of the average college not many decades ago. This condition of affairs should be a matter of civic pride, especially at the time when there is a strong feeling that the New England States, like those of the West, should furnish still higher education at the public expense. A good curriculum must appeal to a variety of interests, but when it is broad, and at the same time permits a choice of subjects, the number of classes is increased, the program is complicated and a larger corps of teachers is demanded.

The commercial course is proving to be an excellent means of keeping in school many children bent upon a commercial career who would otherwise leave school to go to work. It is always difficult to secure from a boy who is attending school because his parents insist on it, a high standard of accuracy in spelling or arithmetic, or any strong interest in English composition. When such a boy enters upon a business course, there is immediately a new conception of the necessity for learning to spell, to compute quickly and accurately, and to express himself correctly, for he knows that the business world sets high value upon these things and if he is to succeed there, he must set himself earnestly to work to acquire these things. A commercial course should prove of material service in raising the standard of work in pupils, who are not preparing to enter college. The course, as its name indicates, is to do what is possible in a High School, without sacrificing the general knowledge and culture so essential to future activities, toward fitting pupils for entering upon business life. The question is sometimes asked why we do not make a business course of two years. This has been tried in many places and in most of those places discarded. The work that applies particularly to business can be done in two years, but a knowledge and practice in the use of English such as is needed in the commercial world can not be acquired in two years. There are now a large number of stenographers and typewritists whose knowledge of English is so meagre as to render them undesirable, if not unserviceable. They occupy the least remunerative position in the commercial world. Our aim is to fit pupils for the best position and this can not be done in less than four years.

A revision of the High school course of study with the hope of permitting a greater choice of subjects is now under way, and will be presented for your consideration at the February meeting.

Our most conspicuous failure seems to lie in our seeming inability to induce a larger proportion of the pupils entering our High school to continue for graduation. This is a fault common, in a greater or less degree, to high schools. It is a fact greatly to be regretted.

There are several reasons for it. 1. Some children enter the High school intending to remain only a year or two before going to work. 2. Children who are not physically strong find the amount of home work required of them too much of a strain and so leave school. 3. Some who do not learn easily, finding themselves gradually dropping behind their classmates. get discouraged and drop out. 4 Sometimes pupils of good ability have not acquired studious habits and at the end of the year are so far behind in their work that, rather than make up the failures, they prefer to go to work. 5. Some pupils have an almost entire lack of ability along some particular line of required work. 6. Children who are endeavoring to make a serious study of music and at the same time carry on the work of the school find they must drop either one or the other interest.

If some of the children who are not strong or who are slow to learn or have not formed good habits of study would make up their minds to take five years to complete the course they could do the work with comparative ease. No disgrace or discredit would attach to such a course. It is quite common for young men to take five years to complete the course in the Institute of Technology and some of these have turned out to be among the most successful graduates. For pupils lacking ability in some branch the most liberal arrangement for substitution of studies should be made. If a girl cannot master geometry let her take an additional course in history or English instead.

The number of pupils who possess great musical talent and wish to pursue the study of music, while not large, there are yet enough of them to justify an attempt to reconcile the conflicting claims of school and special study.

A year ago our supervisor of music in her report quoted the following from the report of the Music conference held under the auspices of the New England Educational League,—"A frequent example of the neglect of a serious consideration of music in public education : A youth reaches the High School age desiring to study music with a serious purpose, which desire is approved by parents and teachers. He is met by these school conditions ; first, he must add music to his High School course as an out of school study and thus run the peril of over-crowding, a condition which occasions much parental complaint, and may result in permanent injury to the pupil, or, second, he must drop music, which, in the deliberate opinion of his advisors, may be to him one of the most valuable studies of the High School period ; or, third, he must leave the High School ; for the present school system neither teaches, credits nor favors the serious study of music. These conditions make it difficult for parents to carry forward the musical education of their children, and at the same time secure the general High School advantages. They curtail the opportunity of the musical element of society for literary and general training."

In order to correct this evil Harvard University and Tufts College

already accept work done in music, giving points on entrance examinations, other colleges are considering it. A number of our High Schools, accordingly, allow credit for work done on piano, organ violin, cornet or harmony out of school (if the High School course cannot offer it) to count toward a diploma.

I quote a part of the plan now used in Brookline to meet conditions similar to ours with the hope that you will give some such plan consideration.

A PLAN FOR CREDITING OUTSIDE STUDY IN MUSIC UNDER PRIVATE INSTRUCTION.

FOR STUDENTS OF VOICE, PIANOFORTE, ORGAN, OR INSTRUMENTS OF THE SYMPHONIC ORCHESTRA.

A pupil of the Brookline High School who is taking regular instruction in music, voice, pianoforte, organ, or some instrument of the symphonic orchestra, may, by complying with the following conditions, secure credit from the school for work done, and such credit will be entered upon the pupil's report card and upon the school records.

I. There must be an application from the parent or guardian requesting the recognition of such instruction and agreeing to the conditions stated below.

II. There must accompany this application a recommendation from the private teacher giving such details as to present musical status of pupil as are called for, and agreeing to furnish such information regarding the proficiency of the pupil and the character of the work as shall be necessary for purposes of examination and record.

III. The pupil must present himself or herself for examination before examiners recommended by the New England Education League and approved by the School Committee of Brookline. For such examination a fee will be charged.

For each lesson of one hour a week, requiring an hour's practice each day, school credit to the amount of two hours a week is given.

While this seems a radical departure from former customs, we must admit that the serious study of music is distinctly educational and, as such, is deserving of consideration.

Industrial Education. The most important educational problem now agitating the public mind is the matter of Industrial Education. The state is taking active steps to establish independent Trade or Vocational schools in cities or districts in the state.

The first Commission on Industrial and Technical Education, appointed for one year by Governor Douglas more than two years

ago, made an important report (in April, 1906) on the need of industrial education and industrial conditions in Massachusetts.

Secretary Martin of this Commission made a most comprehensive report on the character and force of educational tradition derived from the problems and ideals which inspired the founders of public education in early New England. He traces admirably the way in which the defects in her generally excellent system of education have come about in the changes in social and industrial conditions. To any one interested in this matter of school history, I recommend the careful reading of this report.

Governor Guild's Commission on Industrial Education, consisting of five persons, was appointed on Aug. 1, 1906, to serve for three years. This commission was organized in September, and it has been at work since then in the endeavour to carry out the provisions of the statute under which it was appointed.

The commission has worked out a provisional plan, together with the principles on which it is based. These are briefly set forth by Professor Hanus as follows : —

" The progressive development of all high-grade industries requires skilled workmen, possessing ' industrial intelligence,' — that is, comprehensive insight into and intelligent interest in their several trades, — as well as skill. The present conditions of productions are usually unfavorable to the training of such workmen in the shop or factory, and sometimes render such training impossible. All industries, whatever their grade, need more men than are now obtainable, who are capable of acting as foremen, superintendents or managers,— men possessing the comprehensive insight, interest and skill necessary for the organization and direction of a department or a shop. In general, such men, whether workers, foremen or superintendents, are now developed only by chance, and they are then self-made men, possessing the merits but also the shortcomings of their training.

" Meanwhile boys (and girls) are not only not directed toward the trades in our existing schools, but are actually often directed away from them by their academic traditions. On account of the youth of the children up to the end of the grammar school period and because of the general education which the existing schools supply, the schools have not concerned themselves with the development of a vocational purpose, nor with the training which points toward the realization of that purpose. Up to the age of fourteen the whole of a pupil's time is required for the general education on which his vocational training should be based.

" In every democratic society the schools provided by the public should meet the needs of all classes. The existing public high schools serve to give a general education to those pupils whose circumstances permit them to devote several years more to such education, and at the same time those schools offer preparation for admission to college or some higher technical school. The manual training high schools — or so-called technical high school — intended

originally to train recruits for the trades — are really in most cases institutions for general education, like the academic high schools; but, unlike them they serve to give a certain class of pupils a general high school education with the help of manual training, or, like them, to prepare their pupils for higher training in some college or engineering school.

"Boys are not wanted in most of the skilled industries until they are sixteen years of age. The total result is a great number of boys and girls from fourteen to sixteen years of age, who are at work in various kinds of juvenile occupations in which they learn no trade, are subject to little if any beneficial general education, and often to much harmful education from shifting experience and environment. Large numbers of these children would be in school if the school promised preparation for some life pursuit. These years are of little economic value to such children, and there is little increase in the economic value of most of them as time goes on.

"These years and the subsequent years are, however, valuable for industrial education; but there is at present no agency whereby this education is provided, save here and there to a limited extent, and then chiefly by philanthropy.

"The need of industrial schools to supplement the existing school system and to meet a new educational need which has developed with the evolution of our industries and commerce, is therefore clear. Such schools would receive pupils fourteen or fifteen years of age who declare their intention to learn a trade, and would, therefore, be parallel to the existing public high schools, but independent of them."

Having worked out a general plan, the commission has devoted much time to explaining it to the citizens of the State. Many meetings have been held in towns and cities for that purpose, and more are to follow. At these meetings much interest in the subject has been developed; and several communities are now taking active steps to see what can be done for the establishment and maintenance of the industrial schools proposed.

My object in bringing this matter to your attention is that we may be considering in what manner, if any, Arlington shall take part in this movement in the future. The only feasible plan that presents itself at the present time is in the formation of a union school with some of the neighboring Towns in which industrial conditions are similar to ours, for the teaching of the mechanics arts and agriculture. The State offers to pay one half the expense of maintenance of these schools in towns which appropriate five dollars or more for every thousand dollars of valuation for the support of schools.

Industrial training differs from manual Training in that it looks toward immediate and direct application to the affairs of life. Cooking and sewing are forms of industrial education. Wood working and pattern making as pursued in manual training courses

are forms of work pursued for their educational value only. It is safe to predict as a result of the work of the Industrial Commission the establishment of a large number of special trade schools similar in character to the State Textile Schools. The effect of this movement is bound to be felt in our elementary schools and it is quite within the bounds of reason to predict that a strong demand will soon come for a lengthening of the daily school session with at least one hour a day devoted to manual work for every pupil.

It is greatly to be hoped that the pendulum will not swing too far in this matter and the public get the impression that the main purpose of school life is the ability to earn a living. The chief aim of schools is to train good citizens and prepare for life in the broadest sense.

In closing I wish to say a word of commendation for the teachers who are using their utmost endeavors to make our schools among the best. We have many true teachers in our corps. The true teacher is a lady born and bred; she is a cultivated lady whose culture has cost her a deal of time and money. She has great skill in the management of children which means that she loves children down deep in her heart. Children look to her as their leader and friend and feel that they have her sympathy when they try but fail. She has common sense in abundance. It governs all her actions; it tempers both her rewards and punishments. In her immediate presence, under her guidance, through her inspiration, all school victories are won. She prepares her daily work with care and study. She is loyal and faithful to the directions of her superiors and gives herself without reserve to her work.

To this high ideal I believe your teachers heartily subscribe, and in their behalf I promise you the best that it is within their power to give.

Respectully submitted,

JOHN F. SCULLY,
Superintendent.

REPORT OF THE SCHOOL PHYSICIAN.

Mr. John F. Scully, Superintendent of Schools:

I herewith present my report as School Physician for the year ending December 31, 1907.

The total number of pupils examined is 1,382, a considerable increase over last year. Of these 269 were examined as to vaccination. A satisfactory scar was found in all but 10 cases. These were required to be vaccinated.

Forty children were temporarily excluded from school. Five each were suffering from tonsilitis, sore throat and pediculi; three each from headache, mumps, scabies and impetigo contageosa; two

each from conjunctivitis, chicken-pox and scarlet fever; one each from epilepsy, diphtheria aud fracture of the upper arm. Two were sent home for neglecting to be vaccinated, and two who were known to have been exposed to scarlet fever were excluded till there was no possibility of their developing the disease.

The fumigation of a school room has been necessary in two cases, both in January. The provisional diagnosis of diphtheria having been made in a child at the Cutter school, the pupils were at once dismissed and a thorough fumigation carried out. A case of scarlet fever having appeared in the Russell school all pupils in the room were carefully examined, then dismissed for the rest of the week. The room was meantime fumigated.

Special examination of the eyes and ears of every pupil by the teachers as required by a recent statute is proving valuable in detecting unsuspected cases of defective vision and hearing. Many cases have been referred for treatment. Another defect which is so common and evident that it requires only the most superficial examination to demonstrate is neglected teeth. More than sixty per cent of the children examined by me have been found to have poor teeth. It is to be deplored that parents do not realize to what an extent the health and development of the child depends on proper food, good teeth and thorough mastication.

The health conditions in the schools at the present time are good, and by the exercise of judicious care we hope to secure their continuance.

Respectfully submitted,

CHARLES F. ATWOOD, M. D.

REPORT OF THE TRUANT OFFICER.

Mr. John F. Scully, Superintendent of Schools :

Dear Sir :—

I herein present my second annual report as truant officer, of the Town of Arlington, Mass., the year ending December 31, 1907.

Number of calls	327
Number of truants	32
Kept home by parents	138
Kept home by sickness	137
Kept home for lack of clothes	18
Kept home on account of bad weather	4
Taken to school	10

Respectfully submitted,

WM. T. CANNIFF,
Truant Officer.

REPORT OF TOWN CLERK.

ARLINGTON, Dec. 31, 1907.

I herewith submit the report of this department for the year ending Dec. 31, 1907.

In my last report I called the attention of the citizens to the urgent need of more adequate vault room for the preservation of Town Records, etc.

An appropriation of $1,300 was made for this purpose at the March meeting of 1907, and a new vault was built and equipped with all steel fittings, making the safe keeping of valuable records, papers, etc., an absolute certainty.

A fuller report of the vault will be found in the Selectmen's Report, under whose supervision the vault was built.

BIRTHS AND MARRIAGES REGISTERED DURING THE YEAR 1907.

Total number of births registered	223
Females	109
Males	114
Born in Arlington	196
Born in other places	27

The parentage of the children born was as follows :

Born in United States, both parties	179
Born in Foreign Countries, both parties	177
Born in United States, one parent	49
Born in Foreign Countries, one parent	47
Born in Arlington, both parties	19
Born in Arlington, one party	45

MARRIAGES.

Whole number of couples recorded	117
Residents of Arlington	142
Residents of other places	92
Solemnized in Arlington	61
Solemnized in other places	56
Groom, first marriage of	105
Groom, second marriage of	8
Groom, third marriage of	4
Bride, first marriage of	112
Bride, second marriage of	5
Age of oldest groom	54
Age of youngest groom	18
Age of oldest bride	45
Age of youngest bride	15

DOGS REGISTERED.

Whole number		308
Males	265	
Females	43	
		308
Paid to County Treasurer		$683 40

I have examined the Town Clerk's record of Dog Licenses and found the same correct with the receipts from the county Treasurer for the above amount.

ELBERT L. CHURCHILL,
Auditor.

THOMAS J. ROBINSON,
Town Clerk.

ARLINGTON, Dec. 31, 1907.

I have examined the accounts of William A. Muller, Treasurer of the Town of Arlington, and find the same correct, agreeing with the Auditor's books.

Amount of cash on hand Dec. 31, 1907, is $9,116.34 as stated.

ELBERT L. CHURCHILL,
Auditor.

HARVEY S. SEARS,
Collector.

December 31, 1907.

AUDITOR'S REPORT.

The Auditor, in accordance with the provisions of Article 16 of the Town's By-Laws, adopted in March, 1903, presents his report for the financial year 1907.

The Auditor has examined the securities and accounts of the following trust funds, and finds the securities on hand as stated, and the accounts, as printed elsewhere, correct :

Elbridge Farmer Fund.
Commissioners of Sinking Fund.
Pratt Fund.
High School Income Fund.
E. Nelson Blake, Jr., Memorial Fund.
Martha M. W. Russell School Fund.
Martha M. W. Russell Poor Widows' Fund.
William Cutter School Fund.
Poor Widows' Fund.
Military Fund.
Citizens Soldiers' Fund.
Henry Mott Library Fund.
Timothy Wellington Fund.
Julia Fillebrown Fund.
Perpetual Care Fund.
Robbins Fund.
Samuel C. Buckman Cemetery Fund.
Soldiers' Monument Fund.

The following deficits are shown in the Auditor's balances : —

(a)	Interest on Town Debt	$357 95
(b)	Abatement of Taxes	300 37
(c)	Incidentals	1,075 19
(d)	Almshouse Stable Repairs	31 90
(e)	Tax and Sewer Assessment Suspense Acc't.	4 03

a. Owing to the high rate charged for money, the latter part of the year, the Treasurer was obliged to pay more on temporary loans than was anticipated when the appropriation for this account was made, resulting in a deficit in this account which must be provided for by

An appropriation of	$357 95

b. A large number of abatements were made by the Assessors during the year,

Amounting in all to	$2,532 89
Less re-assessments	432 52
Net abatements	$2,100 37

The appropriations for this account

Amounted to	1,800 00
Leaving a balance of	$300 37

to be appropriated to make good this deficiency.

c. Incidentals. Extraordinary legal expenses have been charged to this account in defending suits against the Town. These were not contemplated nor provided for when the appropriations were made.

Instead of opening an account for Claims and Awards, the Auditor deemed it best to approve this overdraft of $1,075.19 against the Incidental Account; therefore the Town is asked to appropriate this amount to close this account.

d. Almshouse Stable Repairs. This overdraft was approved by the Auditor with the understanding that a sufficient credit would come from the Highway Department to make good the deficiency, but when the books were closed that department was unable to provide for this charge, therefore the Auditor requests

An appropriation of	$31 90

to close the account.

e. Tax and Sewer Assessment Suspense Account. The entry in this account explains itself, and it is necessary, in order to close the account,

To make the appropriation of	$4 03

The Town authorized the following Loans, which the Treasurer found it was not necessary to make :

Street Watering	$2,500 00
Gypsy and Brown Tail Moth	6,128 00

This authorization constituted a contingent asset which ceases to be such after the 31st day of December, 1907.

The Auditor notices with great satisfaction the gradual introduction of a system of numbered orders used in ordering supplies.

This is a useful check in reducing the possibility of approving a second bill for the same item. This custom should be adopted by all departments at the earliest possible date.

The Auditor wishes to call the attention of the departments to the undesirability of making outlays and contracting bills the latter part of the year, for which they may not have a sufficient appropriation, necessitating thereby, either a special appropriation or imposing upon an incoming board the burden of an account, for which the new board were not responsible, and which they might not approve.

The following unpaid bills are reported to the Auditor by the several departments, in accordance to a vote of the Town April 7, 1904.

Department.	To whom due.	For what due.	Amount.
Schools	N. E. T. & Tel. Co	Telephones	$2 45
	T. H. Magee	Repairs	1 00
	G. W. McClellan	Expressing	1 50
	Edison E. Ill. Co	Lighting	2 25
	R. W. Shattuck	Repairs	5 10
	O. B. Marston	Repairs	17 33
			$29 63
Incidentals	I. G. Hersey	Appraising Buildings	$300 00
	A. C. Whitney	Appraising Buildings	300 00
	L. L. Pierce	Expenses	2 07
	J. G. Lamson	Expenses	2 20
	C. F. Atwood	Expenses	2 25
			$606 52
Highway Division	Mark Sullivan	Shoeing	$7 60

	G. W. Blanchard & Co.	Lumber	35 01
			$932 90
Wellington Park	Nursery Exchange	Shrubs	$15 50
	Lex'gton Flag Pole Co.	Bal. Flag Pole	50 00
			$65 50
Board of Health	Town of Revere	Hospital Service	$41 00
	City of Boston	Hospital Service	115 71
	City of Somerville	Hospital Service	22 14
	H. A. Perham	Culture Tubes	9 25
	Holy Ghost Hospital	Hospital Service	120 00
			$308 10
Police Signal System	R. W. LeBaron	Labor	4 50
Fire Alarm Department	R. W. LeBaron	Labor	$6 00

Department.	To whom Due.	For what Due.	Amount.
Police Department	O. B. Marston Co.	Door	$1 25
Police Department	Dwight T. Curtis	Gas Water Heater	15 00
			$16 25
Celebration of 100th Anniversary of the Incorporation of the Town.	Caleb P. Buckman Co.	Rosettes	$3 00
Outside poor	D. Hourty	Milk	$2 17
	J. J. Mulkerin	Milk	3 72
	City of Boston	Temporary Aid	79 88
	Com. of Mass.	Hospital Service, Est.	69 11
	City of Somerville	Board, Est.	92 00
	Town of Winchester	Temporary Aid, Est.	50 00
	City of Cambridge	Temporary Aid, Est.	25 00
			$321 88

DUE TOWN OF ARLINGTON.

Outside Poor	City of Boston	Temporary Aid	$158 67
	Com. of Mass.	Temporary Aid	322 17
			$480 84
Sidewalks	S. & R. J. Lombard	Edgestones	$372 94

A list of unpaid taxes is in the Auditor's office and agrees with his books.

The Collector's and Treasurer's books have been examined, and agree with the Auditor's books.

The Cemetery account and Dog Tax Account, kept by the Town Clerk, have been examined and found correct.

In conclusion I wish to express my appreciation of the uniform courtesy and good will manifested by each and every one of the officials and their subordinates toward the Auditor during his term of office.

ELBERT LAWRENCE CHURCHILL,
Auditor.

ARLINGTON TOWN RECORDS FOR THE MUNICIPAL YEAR 1908.

TOWN MEETING, FEBRUARY 20, 1908.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX, ss.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Thursday, the twentieth day of February, at 8.00 o'clock P. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To see if the Town will authorize and empower its Board of Public Works, in the name and behalf of the Town, to enter into a contract with the Lexington Peat Company, granting to said Company the privilege of excavating peat from that portion of its water supply area known as The Great Meadows in East Lexington for the purpose of the improvement of said area as a reserve water supply basin for a term of fifteen years on such terms and under such restrictions as the said Board of Public Works may in its discretion impose.

(Inserted at the request of the Board of Public Works.)

Hereof fail not, and make due return of this Warrant, with your

doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this fifth day of February, in the year of our Lord one thousand nine hundred and eight.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Selectmen of the Town of Arlington.

MIDDLESEX ss. Arlington, Feb. 18, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the town, and also by posting an attested copy on the doors of the Town Hall seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

Pursuant to the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, on Thursday, the twentieth day of February in the year of our Lord one thousand nine hundred and eight, and were called to order at eight (8) o'clock in the evening by the Town Clerk, who read the warrant calling the meeting and the return thereon of the constable who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

The meeting nominated and chose as Moderator John G. Brackett, who was sworn by the Town Clerk to the faithful performance of his duties.

Article 2 taken up. (Peat from Great Meadows.)

Voted: That the Town authorize and empower its Board of Public Works, in the name and behalf of the Town, to enter into a contract with the Lexington Peat Company, granting to said Company the privilege of excavating peat from that portion of its water supply area known as the Great Meadows in East Lexington, for the purpose of the improvement of said area as a reserve water supply basin, for a term of fifteen years, on such terms and under such restrictions as the said Board of Public Works may in its discretion impose.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3057 and outgoing turnstile No. 3056 respectively, who made a return in writing at the adjournment of the meeting showing that twenty-seven (27) voters

had entered the hall through turnstile No. 3057 and one (1) voter had left the hall through turnstile No. 3056, showing that twenty-six (26) registered voters attended the meeting.

All articles in the warrant calling the meeting having been acted upon it was

Voted: That this meeting be now dissolved.

Meeting dissolved at 8:45 P. M.

A True Record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—MONDAY, MARCH 2, 1908, AT 6.00 O'CLOCK, A. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX ss.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Monday, the second day of March, at 6.00 o'clock A. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To elect by ballot the following town officers—A Town Clerk, for one year; a Town Treasurer, for one year; a Town Collector, for one year; an Auditor, for one year; three Selectmen, for one year; one Assessor, for three years; three members of the School Committee, for three years; one member of the Board of Trustees of the Pratt Fund, for five years; one member of the Board of Commissioners of the Sinking Fund for three years; two Trustees of the Robbins Library, for three years; three Cemetery Commissioners, one being for one year, one for two years, and one for three years; five Constables, for one year; one Park Commissioner, for three years; one member of the Board of Health, for three years; one Tree Warden, for one year; three members of the Board of Public Works, for one year. Also to choose or appoint all the other usual Town Officers, in such a manner as the Town may determine. Also, upon the same ballot to vote "Yes" or "No" upon the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" For these purposes the polls will be opened as soon as possible after the organization of the meeting and kept open until five o'clock, P. M.

ART. 3. To hear and act on the reports of the Selectmen and other Town Officers and Committees heretofore appointed.

ART. 4. To make an appropriation for the Robbins Library for the ensuing year.

ART. 5. To make an appropriation for the Public Schools for the ensuing year, and determine in what manner the same shall be expended.

ART. 6. To determine in what manner the Town ways, highways and bridges shall be repaired the ensuing year.

ART. 7. To determine what sum of money the Town will raise by general tax, to defray Town expenses, interest, debt, and State Aid, and make an appropriation for the same.

ART. 8. To see if the Town will appoint the Selectmen agents of the Town, to institute and prosecute in favor of the Town and appear and defend suits and legal proceedings against or involving the interests of the Town, with power to employ counsel therein, and when necessary, in all other legal matters and business appertaining to Town affairs during the year commencing March 2, 1908.

ART. 9 To see what action the Town will take in relation to the appointment of a Committee of Twenty-one for the ensuing year.

ART. 10. To see if the Town will appropriate the sum of $275.00 for the proper observance of Memorial Day, the same to be expended under the direction of Francis Gould Post 36, G. A. R.

(Inserted at request of Henry Bradley and others.)

ART. 11. To see if the Town will make an appropriation for suppressing leaf eating insects, other than gypsy and brown-tail moths, or take any action relative thereto.

ART. 12. To see if the Town will appropriate $7000, in accordance with the vote passed December 6, 1904, for water used for fire hydrants, street watering and public buildings for the ensuing year.

ART. 13. To see what action the town will take in regard to the extension of water mains, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART 14. To see if the Town will make an appropriation for the construction and repair of permanent sidewalks.

(Inserted at request of Board of Public Works.)

ART. 15. To see if the Town will make an appropriation for

the maintenance and extension of the Sewerage System for the ensuing year, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 16. To see if the Town will make an appropriation for the use of the Highway Division.

ART. 17. To see if the Town will make an appropriation for street watering, and determine in what manner the money shall be raised.

(Inserted at request of Joint Board.)

ART. 18. To see if the Town will make an appropriation for street lighting.

(Inserted at request of Joint Board.)

ART. 19. To see if the Town vill vote to authorize its Collector of Taxes to use all means of collecting taxes for the year 1908 which a town treasurer may use when appointed a collector of taxes.

(Inserted at request of Collector of Taxes.)

ART. 20. To see if the Town will appropriate the sum of $165 rental of Lawrence Field, to be used by the school children for athletic purposes, under the direction of the School Committee.

(Inserted at request of School Committee.)

ART. 21. To see what action the Town will take to provide additional school accomodations in the Locke School District; to make an appropriation therefor and to decide in what manner the money for said appropriation shall be raised.

(Inserted at request of School Committee.)

ART. 22. To see if the Town will authorize and empower its Board of Public Works, in the name and behalf of the Town, to release to Frederick R. and George M. Vail all the right, title and interest acquired by the said town by virtue of the taking of land for sewer purposes, in a strip or parcel of land 2 feet in width on Laurel Street, so-called, described as follows:

> Beginning at a point on the northerly line of Brattle Street, 223 feet from the easterly line of Massachusetts Avenue, thence at an angle of 90 degrees in a northwesterly direction 173.33 feet to land owned, or supposed to be owned, by Mary R. Dolloff; thence, by land of said Mary R. Dolloff in a northeasterly direction 2 feet; thence, in a southeasterly direction 173.33 feet

to the northerly line of said Brattle Street; thence by said northerly line of said Brattle Street, 2 feet in a southwesterly direction to point of beginning.

The above described strip or parcel of land is shown on plan filed in the office of the Town Clerk, entitled "Plan of House Lots belonging to M. H. Wellington, Arlington, Mass., July, 1901, and approved by the Board of Survey, Sept. 9, 1901.

ART. 23. To see if the Town will accept and establish as a town way the private way known as Sawin Street, extending from Teele Street to Henderson Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning on the southeasterly line of Teele Street at a point 553.75 feet from the northerly line of Massachusetts Avenue; thence at an angle of 90 degrees a distance of 215 feet to the northwesterly line of Henderson Street at a point 580.75 feet from the said northerly line of Massachusetts Avenue.

The above described line is the southerly side line of Sawin Street and the northerly side line is parallel with and distant 40 feet therefrom, as shown on plan approved by the Board of Survey, December 23, 1907, and filed in the office of the Town Clerk, December 30, 1907.

ART. 24. To see if the Town will accept and establish as a town way the private way known as Summer Street, extending from a certain point east of Grove Street to Pine Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way, as laid out, is described as follows:

Beginning at a point at the westerly end of the curve in the northerly line of Summer Street, as shown on plan approved by the Board of Survey, February 17, 1900, said point being marked "M" on said plan and defined on the ground by a granite monument; thence, north 45 degrees, 40 minutes west by a line shown in red on plan above referred to 605.06 feet to the beginning of a curve on said plan; thence, continuing in a northerly direction by a curved line of 303.11 feet radius a distance of 204.13 feet to a point in the centre of Brattle Street; thence, continuing north 2 degrees, 9 minutes and 55

seconds W. 198.01 feet to an intersection with the southerly line of Pine Street as now accepted by the Town. The above described line is the southerly line of said Summer Street and the northerly line is parallel with and distant therefrom 50 feet. The said street is laid out in accordance with the plan above referred to and said plan is made a part of this laying out.

Further description is shown on plan and profile made by H. S. Adams, C.E., entitled "Plan and Profile of Summer Street, November, 1899," approved by the Board of Survey, February 17, 1900, now on file in the Town Clerk's office.

ART. 25. To see if the Town will accept and establish as a town way the private way known as Wollaston Avenue, extending from Wachusett Avenue to Tanager Street, as laid out by the Joint Board of Selectmen and Board of Public Works under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning at the southeast corner of Wachusett Avenue and Wollaston Avenue as accepted Nov. 13, 1894; thence along the southerly line of said Wollaston Avenue extended 304 feet to a stone bound at the southeast corner of said Wollaston Avenue extended and West Street, so-called, thence by a diagonal line in a northerly direction 60.95 feet to a stone bound on the northerly line of Wollaston Avenue extended and at the end of the northerly line of Tanager Street; thence, in an easterly direction on the northerly line of Wollaston Avenue extended, 325.65 feet to the end of the acceptance of Wollaston Avenue, November 13, 1894; thence by a diagonal line across Wollaston Avenue 60.6 feet to point of beginning; said Wollaston Avenue Extension, as above described, is 60 feet in width, and is in accordance with the plan approved by the Board of Survey, December 23, 1907, filed in the office of the Town Clerk, December, 30, 1907.

ART. 26. To see if the Town will authorize and empower its Board of Cemetery Commissioners, in the name and behalf of the Town, to convey lot 271 in Mt. Pleasant Cemetery to Mrs. Harriet M. Marston, of Somerville, on such terms as the said Board may deem proper.

(Inserted at the request of the Cemetery Trustees)

ART. 27. To see if the Town will make an appropriation for the renewal of cement lined water mains, make an appropriation therefor, and determine in what manner the money shall be raised.

ART. 28. To see if the town will make an additional appropriation, to be expended from Nov. 30, 1907, and for the twelve months next ensuing, for suppressing the gypsy and brown-tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 29. To appropriate and raise, by borrowing or otherwise, such sum or sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this eighteenth day of February, in the year of our Lord one thousand nine hundred and eight.

S. FREDERICK HICKS,
FREDERICK S. MEAD,
J. HOWELL CROSBY,
Selectmen of the Town of Arlington.

Middlesex County. Arlington, February 29, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place, and for the purposes herein named by causing a printed attested copy of the same to be left at every dwelling house in Town, and also by posting an attested copy of said warrant on the door of the Town Hall in said Arlington, seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, in said Arlington, on Monday, the second day of March, in the year of our Lord one thousand nine hundred and eight and were called to order at six (6) o'clock in the morning by the Town Clerk, who read articles one and two of the warrant calling the meeting and the return of the constable who served the same upon the inhabitants.

By unanimous consent the reading of the remaining articles was postponed until the adjourned meeting.

Article 1 taken up. (Choice of Moderator.)

John G. Brackett received three (3) votes and was declared elected Moderator and was sworn to the faithful performance of his duties.

The following ballot clerks and tellers who had previously been appointed by the Selectmen, were sworn to the faithful discharge of their duties and assigned as follows:

Ballot Clerks—Frank Y. Wellington and John J. Mahoney.
Inspectors—George W. Perkins and Frank F. Russell.
At Ballot Box—Horace A. Freeman.
Checkers at Ballot Box—Edgar Crosby and George C. Tewksbury.
Counters—Charles P. Ladd, Jr., Lindsey K. Foster, Arthur L. Bridgham, Frank A. O'Brien, James M. Mead, Maurice P. Ahern, William D. Grannan.

A sealed package of ballots was then delivered to the Moderator who publicly broke the seal and delivered the ballots to the ballot clerks.

A package of women's ballots was also delivered to the ballot clerks.

Cards of instructions and penalties on voters were posted in prominent places as were also specimen ballots in conformity to law. The ballot box was examined by the Moderator and Town Clerk and was found to be empty with the register set at zero. The box was then locked and the keys delivered into the custody of Constable John Duffy and remained in his custody until the close of the polls.

A list of registered voters, both men and women, was supplied by the Registrars of Voters to the ballot clerks and checkers at the ballot box.

The polls were then declared open for the reception of votes for Town officers under Article 2 of the warrant and remained open until five (5) o'clock in the afternoon, at which time after due notice, they were declared closed.

By unanimous consent the ballot box was opened at various times during the day for the purpose of removing ballots to be counted.

At the close of the polls the ballot box registered five hundred fifty-six (556) votes.

The names checked at the ballot box and those checked by the ballot clerks were counted and found to agree with the number registered by the ballot box, five hundred fifty-six (556).

The ballots not used were enclosed in a package, sealed and delivered to the Town Clerk.

The ballots cast were then canvassed by the Moderator, Town Clerk and Tellers and declaration made thereof at twenty minutes after five o'clock, as follows:

Whole number of men's ballots cast five hundred forty-nine (549). Whole number of women's ballots cast seven (7). Total number of ballots cast five hundred fifty-six (556).

Town Clerk for one year—Thomas J. Robinson had four hundred sixty-two (462) votes and was declared elected. Sworn by the Moderator in open meeting. Blanks 87.

Selectmen for one year—J. Howell Crosby had five hundred six (506) votes and was declared elected. (Sworn March 2, 1908.) Walter B. Douglass had four hundred ninety-seven (497) votes and was declared elected. (Sworn March 2, 1908.) Frederick S. Mead had four hundred ninety-eight (498) votes and was declared elected. (Sworn March 2, 1908.) Blanks one hundred fifty-five (155).

Assessor for three years—Alexander H. Seaver had four hundred seventy-three (473) votes and was declared elected. (Sworn March 3, 1908.) Blanks sventy-six (76).

Treasurer for one year—Myron Taylor had four hundred sixty-four (464) votes and was declared elected. (Sworn March 4, 1908.) Blanks eighty-five (85).

Collector of taxes for one year—Harvey S. Sears had four hundred seventy-nine (479) votes and was declared elected. (Sworn March 5, 1908.) Blanks seventy (70).

Auditor for one year—George McK. Richardson had four hundred seventy-nine (479) votes and was declared elected. (Sworn March 6, 1908.)

Board of Public Works for one year—Henry W. Hayes had four hundred eighty-six (486) votes and was declared elected. (Sworn March 2, 1908.) William N. Winn had four hundred seventy-eight (478) votes and was declared elected. (Sworn March 2, 1908.) Peter Schwab had four hundred sixty-two (462) votes and was declared elected. (Sworn March 2, 1908.) Blanks two hundred twenty-one (221).

School Committee for three years—Frederick A. Bisbee had four hundred fifty-nine (459) votes and was declared elected. (Sworn March 6, 1908.) Othilie Lawson had four hundred forty-six (446) votes and was declared elected. (Sworn March 10, 1908). Mary C. Hardy had four hundred sixty-five (465) votes and was declared elected. (Sworn March 11, 1908.) Blanks two hundred eighty-four (284).

Board of Health for three years—Alfred H. Knowles had three hundred forty-one (341) votes and was declared elected. (Sworn March 3, 1908.) John S. Lamson had one hundred thirty-eight (138) votes. Blanks seventy (70).

Cemetery Commissioners—Warren A. Peirce for three years had four hundred sixty (460) votes and was declared elected. (Sworn March 9.) George G. Allen for two years had four hundred forty-nine (449) votes and was declared elected. (Sworn March 9.) J. Edwin Kimball for one year had four hundred fifty (450) votes and was declared elected. (Sworn March 9.) Blanks two hundred eighty-eight (288).

Trustees of Robbins Library for three years—Samuel C. Bushnell had four hundred sixty-one (461) votes and was declared elected. (Sworn March 9.) Charles A. Keegan had four hundred fifty-five (455) votes and was declared elected. (Sworn March 9.) Blanks one hundred eighty-two (182).

Commissioner of Sinking Fund for three years—William G. Peck had four hundred forty-four (444) votes and was declared elected. (Sworn March 10.) Blanks one hundred and five (105).

Trustee of Pratt Fund for five years—William G. Peck had four hundred forty-three (443) votes and was declared elected. (Sworn March 10.) Blanks one hundred six (106).

Park Commissioner for three years—William E. Lloyd had four hundred thirty (430) votes and was declared elected. (Sworn March 10.) Blanks one hundred nineteen (119).

Tree Warden for one year—A. Foster Brooks had four hundred sixty-one (461) votes and was declared elected. (Sworn March 5.) Blanks eighty-eight (88).

Constables for one year—Garritt Barry had four hundred forty-one (441) votes and was declared elected. (Sworn March 5.) John Duffy had four hundred twenty-four (424) votes and was declared elected. (Sworn March 5.) Daniel M. Hooley had four hundred fifty-eight (458) votes and was declared elected. (Sworn March 5.) Thomas O. D. Urquhart had three hundred ninety (390) votes and was declared elected. (Sworn March 5.) Thomas F. Priest had fifty-one (51) votes and was declared elected. (Sworn March 5.) Blanks nine hundred eighty-one (981).

On the question "Shall licenses be granted for the sale of intoxicating liquors in this Town?" ninety-seven (97) voted "yes" and three hundred ninety-one (391) voted "no," and declaration was made

that the Town had voted that no licenses be granted for the sale of intoxicating liquors during the ensuing year. Blanks sixty-one (61).

The following officers were then nominated and elected to the office and for the term stated, viz:—

Fence Viewers for one year—Philip A. Hendrick, Henry S. Adams.

Field Drivers for one year—Thomas O. D. Urquhart, Garritt Barry, John Duffy, Daniel M. Hooley, Andrew Irwin, F. Joseph Cahalin, Thomas F. Priest and Edward T. Ryan. (Sworn March 5.)

Measurers of Wood and Bark for one year—Edward I. McKenzie, (sworn March 16); Frank P. Dyer, Patrick F. Brosnahan.

Fish Preserver for one year—Daniel Wyman.

Voted: That when this meeting adjourns it adjourn to meet in Town Hall, Monday evening March 16, 1908, at thirty minutes after seven o'clock.

Voted: That this meeting adjourn.

Meeting adjourned at thirty minutes after five o'clock.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

Arlington, March 3, 1908.

I hereby certify that I have this day appointed Edna C. Pierce Assistant Town Clerk and that she has taken the oath required by Chap. 25, Section 62 of the Revised Laws for the faithful performance of her duties.

THOMAS J. ROBINSON,
Town Clerk.

ADJOURNED MEETING.

ARLINGTON, March 16, 1908.

Pursuant to adjournment the citizens of the Town of Arlington, qualified to vote in elections and Town affairs, met in the Town Hall, on Thursday evening, March 16, 1908, and were called to order at thirty minutes after seven o'clock by the Moderator, John G. Brackett.

The reading of the articles in the warrant not read at the meeting, March 2, was dispensed with, as the voters were supplied with printed copies.

Article 3 taken up. (Reports of Town Officers and Committees.)

Frederick A. Bisbee presented the report of the special committee to investigate the conditions in the Locke School District in printed form.

Voted: That the report of the special committee appointed to investigate the conditions in the Locke School District be accepted.

George A. Kimball, chairman of the Committee of Twenty-One, to whom had been referred all articles in the warrant calling for an appropriation made a report of said committee in print which had been distributed to the citizens of the Town and said report was accepted.

Voted: That the various articles in the warrant calling for appropriations be taken up, and that the recommendations made by the Committee of Twenty-One in their report under these articles be considered as now before the meeting, to be voted on without further motion, and to be voted on separately and in the order in which they appear in said report.

Article 4 taken up. (Appropriation for Robbins Library.)

Voted: That there be appropriated the sum of three thousand (3,000) dollars, in addition to the dog tax and the receipts for fines and the sale of catalogues, for the maintenance of the Robbins Library for the year 1908, the same to be expended under the direction of its Trustees.

Article 5 taken up. (Appropriation for Schools.)

Voted: That the sum of sixty-three thousand (63,000) dollars be appropriated for the maintenance of the Public Schools for the year 1908 and for the payment of unpaid bills and in addition that the sum of one thousand (1,000) dollars be appropriated for general repairs on school buildings. Said appropriations to be expended under the direction of the School Committee.

Article 10 taken up. (Memorial Day Appropriation.)

Voted: That the sum of two hundred seventy-five (275) dollars be appropriated for the proper observance of Memorial Day, the same to be paid to the Quartermaster of Francis Gould Post 36, G. A. R., to be expended under the direction of the officers of said post.

Article 11 taken up. (Suppressing leaf-eating insects.)

Voted: That the sum of two hundred (200) dollars be appropriated for suppressing leaf-eating insects, other than gypsy and brown tail moths, during the year 1908; said amount to be expended under the direction of the Selectmen.

Article 12 taken up. (Appropriation for use of water for public purposes.)

Voted: That the sum of seven thousand (7,000) dollars be appropriated and paid to the Water Works Department, for water used for fire hydrants, street watering and public buildings during the year 1908.

Article 13 taken up. (Extension of water mains.)

Voted, by a two-thirds vote: That the sum of two thousand (2,000) dollars and the unexpended balance of four hundred nineteen dollars and fifteen cents ($419.15) be appropriated for the extension of water mains; and for the purpose of raising the $2,000, there be issued two notes or bonds, each for the sum of $1,000, the first payable in the year 1913 and the second in the year 1914; said notes or bonds to be signed by the Treasurer and counter-signed by the Selectmen, and to be designated on the face thereof "Water Loan of 1908" and to bear interest at a rate not exceeding four (4) per centum per annum, payable semi-annually.

Article 14 taken up. (Permanent sidewalks.)

Voted: That the sum of three thousand (3,000) dollars be appropriated for renewal and extension of permanent sidewalks and for the payment of unpaid bills, not less than one thousand five hundred (1,500) dollars of that amount to be used for extensions carried out under the sidewalk act, Section 43, Chapter 49, of the Revised Laws.

Article 15 taken up. (Maintenance of Sewerage System.)

Voted: That the sum of one thousand five hundred (1,500) dollars and the unexpended balance of $352.89 be appropriated for the maintenance and extension of the Sewerage system for the ensuing year.

Article 16 taken up. (Appropriation for Highway Division.)

Voted: That the sum of $24,178.51 be appropriated for the maintenance and construction of highways during the ensuing year and for payment of unpaid bills of the highway department—that the street railway tax now in the Treasury amounting to $16,678.51 be applied towards the payment thereof and that the balance, $7500, be raised by general tax.

Article 17 taken up. (Street Watering.)

Voted, by a two-thirds vote; That in addition to such subscriptions as may be obtained for the purpose, an appropriation of $3500 be made for street watering, $1000 of said sum to be raised by general tax, and such balance as may be necessary not exceeding $2,500, to be raised by note of the Town for a term not exceeding one year, signed by the Treasurer and approved by the Selectmen, and the receipts from the street watering assessments for 1908, be hereby appropriated toward the payment of said note.

Article 18 taken up. (Street Lighting.)

Voted: That the sum of nine thousand six hundred (9,600) dollars be appropriated for street lighting the ensuing year.

Article 20 taken up. (Rent of Lawrence Field.)

Voted: That the sum of $165 be appropriated for the rental of Lawrence Field, to be used by the school children for athletic purposes, under the direction of the School Committee.

Article 21 taken up. (Additional accommodations in Locke School District.)

Voted: That a committee of five members, with full powers to fill all vacancies, be appointed by the Moderator to report to an adjourned or special Town Meeting regarding a new schoolhouse for the Locke District; and that $500 be appropriated for plans, specifica-

tions and estimates for such a building, said sum to be expended under the direction of said committee.

Article 23 taken up. (Acceptance and construction of Sawin Street.)

Voted, by a two-thirds vote: that The Town accept and establish as a Town Way the private way known as Sawin Street, extending from Teele Street to Henderson Street as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, and appropriate for the construction of the same the sum of one thausand (1,000) dollars, the same to be borrowed and in payment therefor there be issued a negotiable note or bond for the sum of $1,000 payable in 1913; said note or bond to be signed by the Treasurer and countersigned by the Selectmen and to be designated on the face thereof "Sawin Street Loan," and to bear interest at a rate not to exceed four per centum per annum payable semi-annually.

Article 24 taken up. (Acceptance and construction of Summer Street.)

Voted, by a two-thirds vote: That the Town accept and establish as a Town Way the private way known as Summer Street, extending from a certain point east of Grove Street to Pine Street as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, and appropriate for the construction of the same the sum of three thousand (3,000) dollars, one thousand (1,000) dollars so appropriated to be raised by general tax in 1908 and two thousand (2,000) dollars to be borrowed and in payment therefor there be issued two negotiable notes or bonds for the sum of one thousand (1,000) dollars each, one payable in 1914 and one payable in 1915; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen and to be designed on the face thereof "Summer Street Loan," and to bear interest at a rate not to exceed four per centum per annum payable semi-annually.

Article 25 taken up. (Acceptance and construction of Wollaston Avenue.)

Voted, by a two-thirds vote: That the Town accept and establish as a Town Way the private way known as Wollaston Avenue, extending from Wachusett Avenue to Tanager Street, as laid out by the Joint Board of Selectmen and Board of Public Works under the provisions of law authorizing the assessment of betterments, and appropriate for the construction of the same the sum of five hundred (500) dollars to be raised by general tax in 1908.

Article 27 taken up. (Renewal of cement lined water mains.)

Voted, by a two-thirds vote: That the sum of seven thousand (7,000) dollars be appropriated for the renewal of main pipes, and that said sum of seven thousand dollars be borrowed, and in payment therefor there be issued seven negotiable notes or bonds, each for the sum of $1,000, one payable in the year 1913, and one in each of the six succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof as the "Water Pipe Renewal Loan of 1908" and to bear interest at a rate not to exceed four per centum per annum, payable semi-annually.

Article 28 taken up. (Suppressing gypsy and brown tail moths.)

Voted, by a two-thirds vote: That the sum of seven thousand (7,000) dollars be appropriated to be expended during the year ending November 30, 1908, under the direction and control of the Selectmen, in suppressing the gypsy and brown tail moths in the Town of

Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905, and amendments thereto. That $1,000 of said sum be raised by general tax in 1908, and the balance, $6,000, be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 7 taken up. (Town expenses, interest, debt and State Aid.)

Voted: That the sum of $15,000 be appropriated for the Sinking Fund, $12,000 to be taken from the income of the water works, and $3,000 to be raised by general tax, the current year, said amounts to be paid to the Sinking Fund Commissioners December first.

Voted: That the sum of $11,450 be appropriated to meet the notes due in 1908.

Voted: That the sum of $6,000 (to include payment of unpaid bills) be appropriated for the care of outside poor, in addition to such sums as the Town may receive from individuals reimbursing it for such care.

Voted: That $11,033.69 of the unexpended balances and amounts in the Treasury otherwise unappropriated, together with the sum of $3,966.31 be appropriated for the payment of interest during the year 1908.

Voted: That the sum of $11,479 be appropriated for the maintenance of the Fire Department for the year 1908.

Voted: That the sum of $300 be appropriated for the work of the Tree Warden during the year 1908.

Voted: That the sum of $1,768.44 be appropriated to pay the following overdrafts during the year 1907:

Interest	$356 95

Voted: That there be appropriated from the income of the Water Department $13,560 for interest on the Water Debt, $12,000 for the Sinking Fund, and $19,500 for maintenance and the Metropolitan water assessments.

Article 3 taken from the table. (Reports of Town Officers.)

Voted: That the reports of the various town officers as presented in their annual reports, with the addition of tables of statistics of the Assessors, be accepted.

Article 6 taken up. (Repairing of Highways.)

Voted: That the Town ways, highways and bridges be repaired during the ensuing year under the direction of the Board of Public Works.

Article 8 taken up. (Selectmen Agents of the Town.)

Voted: That the Selectmen be appointed agents of the Town to institute and prosecute actions in favor of the Town and appear and defend suits and legal proceedings against or involving the interests

of the Town, with power to employ Counsel therein, and when necessary in all other legal matters and business appertaining to Town affairs during the year commencing March 2, 1908.

Article 19 taken up. (Powers of Collector of Taxes.)

Voted: That the Collector of Taxes be authorized to use all means of collecting taxes for the year 1908 which a Town Treasurer may use when appointed a Collector of Taxes.

Article 22 taken up. (Board of Public Works to convey to F. R. & G. M. Vail.)

Voted: That the Town authorize and empower its Board of Public Works, in the name and behalf of the Town, to release to Frederick R. and George M. Vail all the right, title and interest acquired by the said Town by virtue of the taking of land for sewer purposes in a strip or parcel of land 2 feet in width on Laurel Street, so-called, as described in Article 22 of the warrant.

Article 9 taken up. (Appointment of Committee of Twenty-one.)

Voted: That a Committee be appointed consisting of 21 citizens, other than Town officers elected by ballot, to serve throughout the ensuing year and until the end of the annual meeting of 1909. The members of said committee to be selected as follows: Nine from the residents of the Russell School District, four from the residents of the Locke School District, four from the residents of the Cutter School District, four from the residents of the Crosby School District.

To this Committee, when appointed, are hereby referred all articles calling for an appropriation of money in any town warrant issued during its term of office.

Said committee shall, after due consideration of the subject matter of said articles, report thereon in print or otherwise such recommendations as it shall deem best.

Said Committee shall choose its own officers and have power to fill vacancies.

The following citizens were nominated and elected to serve on said committee of twenty-one:

Edward W. Nicoll	Clerk	10 Montague St.
Bert S. Currier	Salesman	82 Claremont Ave.
Frank B. Records, Jr.	Architect	179 Westminster Ave.
James F. Tilden	Asst. Treasurer	101 Hillside Ave.

Article 29 taken up. (Town Grant.)

Voted: That the several amounts appropriated at this meeting for

the purposes indicated by the various votes, and not otherwise provided for, amounting to $182,354.27, together with the sum of $4,500 appropriated at the November meeting of 1907, making a total of $186,854.27, be raised by general tax the present year.

Article 26 taken up. (Lot in Mt. Pleasant to George W. Marston.)

Voted: That the Town authorize and empower its Board of Cemetery Commissioners, in the name and behalf of the Town, to convey lot No. 271 in Mt. Pleasant Cemetery to George W. Marston of Somerville, on such terms as the said Board may deem proper.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3,057 and the outgoing turnstile No. 3,056, respectively, who made a return in writing at the adjournment of the meeting showing that 179 voters had entered the hall through turnstile No. 3,057 and 53 voters had left the hall through turnstile No. 3,056, showing that 126 registered voters attended the meeting.

All articles in the warrant calling the meeting having been acted upon it was announced by the Moderator.

In accordance with the vote passed under article 21 of the warrant, the Moderator appointed the following citizens to serve on the committee to procure plans, specifications and estimates for a new school building in the Locke School District, and to report at a future adjourned or special meeting:

Frank W. Hodgdon, Frederick A. Bisbee, Joseph C. Holmes, Jacob R. Estabrook and Peter Schwamb.

Voted: That this meeting be now dissolved.

Meeting dissolved at 9.20 P. M.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—WEDNESDAY, APRIL 29, 1908, AT 8 O'CLOCK, P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX, ss.

To Garritt Barry, a Constable of the Town of Arlington, in said County. GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, who are qualified to vote in elections and town affairs, to assemble in the Town Hall, on Wednesday, the twenty-ninth day of April, current, at 8 o'clock P. M., then and there to act on the following articles, viz:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ART. 2. To hear and act on the reports of any Town officers or committees heretofore appointed.

ART. 3. To see if the town will erect an addition to the Locke School building substantially in accordance with the plans submitted by the committee appointed March 16, 1908, make an appropriation for the purpose and determine in what manner the same shall be raised and expended.

(Inserted at request of Committee on New School House.

ART. 4. To see if the Town will vote to enlarge the Locke School House lot by purchasing land on the northerly side of the present building and between Park Avenue and the present playground, make an appropriation therefor and determine the manner in which the same shall be raised and expended, or take any other action thereon.

(Inserted at request of Committee on New School House.)

ART. 5. To see if the Town will appropriate forty-four dollars and three cents to meet an unpaid bill contracted in 1906 for drain pipe laid on Town House Site, or take any action thereon.

ART. 6. To see if the Town will appropriate nine dollars and

twenty-five cents to meet an unpaid bill contracted in 1907 for plants and labor in the care of Town House Lot, or take any action thereon.

ART. 7. To see if the Town will vote to carry liability insurance covering the work of any departments of the Town, and make an appropriation therefor, the same to be extended under the direction of the Selectmen, or take any action thereon.

ART. 8. To appropriate and raise by borrowing or otherwise such sum or sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof, fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this fourteenth day of April in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWEEL CROSBY,
WALTER B. DOUGLASS,
Selectmen of the Town of Arlington.

Middlesex County. Arlington, April 28, 1908.

By virtue of this warrant, I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and Town affairs, to meet at the time and place and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the Town, and also by posting an attested copy on the doors of the Town Hall, seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs met in the Town Hall in said Arlington on Wednesday, the twenty-ninth day of April, in the year of our Lord one thousand nine hundred and eight, and were called to order at eight o'clock in the evening by the Town Clerk, who read the warrant calling the meeting and the return thereon of the Constable, who served the same upon the inhabitants.

Article 1 taken up. (Choice of Moderator.)

Frank A. O'Brien and Edwin A. Bailey were appointed tellers to receive, sort and count ballots for Moderator and were sworn to the faithful performance of their duties.

Two (2) ballots were cast, each bearing the name of John G. Brackett, and he was declared elected Moderator and sworn by the Town Clerk.

Article 2 taken up. (Reports of Officers ond Committees.)

Frank W. Hodgdon, chairman of the committee appointed March 16, 1908, regarding a new schoolhouse for the Locke School District, presented the report of said committee in print and illustrated the proposed changes to the present building and the additional land proposed to be purchased for playground purposes by means of stereopticon views.

The report of the committee was accepted.

George A. Kimball, chairman of the Committee of Twenty-One, presented the report of said committee in print, and on his motion it was,

Voted: That the recommendations of the Committee of Twenty-One under the various articles in the warrant calling for appropriations be considered as now before the meeting without further motion, to be voted on in their order and to be voted on separately.

Article 2 was then laid on the table.

Article 3 taken up. (New Locke School Building.)

Voted, by a two-thirds vote: That the sum of forty-eight thousand (48,000) dollars be appropriated for the erection and furnishing of an addition to the Locke School Building, substantially in accordance with the plans of the committee appointed by the Town, March 16, 1908, and that the town borrow forty-five thousand (45,000) dollars of said sum, and in payment therefor issue eighteen negotiable notes or bonds, for the sum of two thousand five hundred (2,500) dollars each, one payable in the year 1909, and one in each of the seventeen succeeding years, said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof, "Locke School Addition Loan," and to bear interest semi-annually at a rate not exceeding four per centum per annum; also that the remaining three thousand (3,000) dollars be raised by general tax, and that the committee appointed March 16, 1908, be authorized and empowered to supervise and direct the work of the erection and furnishing of said building, and the expenditure of the sum hereby appropriated.

Article 4 taken up. (Enlargement of Locke School House Lot.)

Voted by a two-thirds vote: That the Selectmen be authorized and empowered, in the name and behalf of the Town, to purchase for the purpose of the enlargement of the Locke Schoolhouse Lot, a certain lot of land bounded and described as follows: Southwesterly by the present Locke Schoolhouse Lot, about 195 feet; northwesterly on Park Avenue about 70 feet; northeasterly on other land of Elizabeth J. Gleason about 183 feet, and southeasterly on a portion of the present playground about 137 feet, and containing about 19,250 square feet; and to pay therefor the sum of $4,250; that the sum of $4,250 be appropriated for the purchase of said lot, and that the Town borrow $4,000 of said sum, and in payment therefor issue eight (8) negotiable notes or bonds, for the sum of $500 each, one payable in the year 1909, and one in each of the seven succeeding years; said notes or bonds to be signed by the Treasurer and countersigned by the Selectmen, and to be designated on the face thereof "Enlargement of Locke School Lot Loan," and to bear interest, semi-annually at a rate not exceeding four per centum per annum; also that the remaining $250 be raised by general tax.

Article 5 taken up. (Unpaid bill of 1906 for drain pipe on Town House Site.)

Voted: That the sum of $44.03 be appropriated to meet an unpaid bill contracted in 1906 for drain pipe laid on Town House site, and that said sum be raised by general tax in 1908.

Article 6 taken up. (Unpaid bill for plants, etc., for Town House Site.)

Voted: That the sum of $9.25 be appropriated to meet an unpaid bill contracted in 1907 for plants and labor in the care of Town House lot, and that said sum be raised by general tax in 1908.

Article 7 taken up. (Liability insurance.)

Voted: That the sum of $400 be appropriated to pay for liability insurance covering the work of certain departments of the Town, to be designated by the Selectmen, and that the said sum be raised by General tax in 1908, and be expended under the direction of the Selectmen.

Article 8 taken up. (Amount appropriated and how raised.)

Voted: That the several amounts appropriated at this meeting for the purposes indicated by the various votes and not otherwise provided for, amounting to $3,703.28, be raised by general tax the present year.

The Selectmen appointed Constables John Duffy and Charles F. Donahue to have charge of the incoming turnstile No. 3,057 and the outgoing turnstile No. 3,056, respectively, who made a return in writing at the close of the meeting showing that 117 voters had entered the hall through turnstile No. 3,057 and that 1 voter had left the hall through turnstile No. 3,056, showing that 116 registered voters attended the meeting.

Voted: That this meeting be now dissolved.

Meeting dissolved at 8.35 P. M.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

TOWN MEETING—TUESDAY, NOVEMBER 3, 1908, AT 6.00 O'CLOCK, A. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX SS.

To either of the Constables of the Town of Arlington, GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified, as the constitution requires, to vote in elections and town affairs, to assemble in the Town Hall in said Town, Tuesday, the third day of November next, it being the Tuesday next after the first Monday in said month, at 6.00 o'clock, A. M , then and there to act on the following articles, viz :

ARTICLE 1. To bring in their votes to the Selectmen for sixteen Electors of President and Vice President of the United States, to wit : Two electors at large and one elector for each Congressional District in the Commonwealth ; a Governor ; a Lieutenant Governor ; a Secretary ; a Treasurer and Receiver General ; an Auditor of Accounts ; an Attorney General for the Commonwealth ; a Representative of the Commonwealth in the Congress of the United States for District Number Eight ; a Councillor for the Sixth Councillor District ; a Senator for the Sixth Middlesex District ; a Representative in the General Court for the Twenty-ninth Representative District in the County of Middlesex ; a County Commissioner for three years ; a Register of Probate and Insolvency for five years ; a County Commissioner for two years to fill vacancy ; an Associate Commissioner for two years to fill vacancy.

All the above to be voted for on one ballot. The polls will be opened immediately after the organization of the meeting and will be kept open until four o'clock and thirty minutes in the afternoon, and as much longer as the meeting directs, provided the time shall not be after the hour of sunset.

Hereof fail not, and make due return of this Warrant, with your

doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this twentieth day of October, in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS,
Selectmen of the Town of Arlington.

Middlesex County. Arlington, October 30, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs to meet at the time and place and for the purpose named, by causing a printed attested copy to be left at every dwelling house in the Town and also by posting an attested copy on the doors of the Town Hall, seven days at least before said day of meeting.

GARRITT BARRY,
Constable of Arlington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, met in the Town Hall in said Arlington on Tuesday, the third day of November, in the year of our Lord nineteen hundred and eight, it being the Tuesday next after the first Monday in said month, and were called to order by Frederick S. Mead, Chairman of the Board of Selectmen of Arlington, at six o'clock in the forenoon. The presiding officer read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants.

Selectman Frederick S. Mead took charge of the meeting and acted as presiding officer. In conformity to the laws of the Commonwealth in relation to elections the Town Hall, was fitted up as a polling place, a space railed off and booths or shelves provided for the use of voters to examine and mark their ballots. Each booth was supplied with suitable facilities for the purpose and with cards of instructions.

The following persons had been appointed by the Selectmen as ballot clerks, tellers and inspectors and were sworn by the Town Clerk to the faithful discharge of their duties, and assigned as follows:

Ballot Clerks, Edgar Crosby and John J. Mahoney.

Tellers, Arthur L. Marston and George C. Tewksbury.

Inspectors, George W. Perkins and Frank F. Russell.

At Ballot Box, Horace A. Freeman and George M. Richardson.

Counters, Frank Y. Wellington, John W. Power, Thomas A. Smith, William D. Grannan, Arthur L. Bridgham, Daniel W. O'Brien, Henry K. Brown, Edward B. Mead, William E. Bunton, Frank A. O'Brien, Frank B. Records, Jr., Charles B. Hurley.

A sealed package containing 2250 ballots supplied by the Secretary of the Commonwealth was then delivered by the Town Clerk to the

presiding officer, who publicly broke the seal and delivered the ballots to the ballot clerks.

Specimen ballots and cards of instructions were posted in conformity to law as were also cards of penalties to voters for violation of the law.

The ballot box was examined by the presiding officer and the Town Clerk and was found to be empty and the register set at zero.

A list of registered voters was supplied to the Ballot Clerks and Tellers by the Registrars of Voters.

At five minutes after six o'clock the polls were declared open for the reception of votes, and were kept open until thirty minutes after four o'clock in the afternoon, at which time, after due notice, they were declared closed.

By unanimous consent the ballot box was opened at 7 o'clock in the morning and at the following periods during the day for the purpose of removing the ballots to be counted:

At 7 o'clock	the	ballot	box	registered	226 votes.
" 8	"	"	"	500	"
" 9	"	"	"	793	"
" 10.30	"	"	"	1000	"
" 12	"	"	"	1200	"
" 2	"	"	"	1400	"
" 3.45	"	"	"	1582	"

At the close of the polls the ballot box registered sixteen hundred forty-eight (1,648) votes.

The keys of the ballot box were delivered by the presiding officer into the custody of Constable Garritt Barry and remained in his possession until the polls closed.

The names checked by the Ballot Clerks and the names checked by the Checkers at the ballot box were counted and found to agree with the number registered by the ballot box, sixteen hundred and forty-eight (1,648).

The unused ballots were enclosed in a package, sealed and delivered to the Town Clerk after being counted and endorsed by the Ballot Clerks. The number was found to be 602, which added to the number cast made the total 2,250, which corresponded with the number received from the Secretary of the Commonwealth.

The election officers canvassed the votes given in and the whole number was found to be sixteen hundred forty-eight (1,648), which were sorted, counted and declaration thereof made in open meeting as required by law at ten minutes after five o'clock by the Town Clerk as follows:

Blanks, 239.

The election returns were then filled in, to be signed by the Selectmen and countersigned by the Town Clerk, and were delivered to the Town Clerk to be forwarded by him to the several places of destination.

All business calling the meeting having been transacted, the presiding officer, at twenty minutes after five o'clock, declared the meeting dissolved.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk.

Arlington, November 13, 1908.

Pursuant to law, the Town Clerks of Arlington and Lexington met in the office of the Town Clerk of Arlington on Friday, the 13th day

of November, in the year of our Lord one thousand nine hundred and eight, at twelve o'clock noon, for the purpose of canvassing the votes cast on the 3d day of November for a Representative to the General Court of the Commonwealth, to represent the Twenty-ninth Middlesex District.

The canvass showed the following result of the votes cast in Arlington and Lexington:

In Arlington Edwin A. Bayley had eight hundred six (806) votes.

In Lexington Edwin A. Bayley had six hundred three (603) votes. Total in Arlington and Lexigton, 1,409.

In Arlington Philip A. Hendrick had seven hundred fifty (750) votes.

In Lexington Philip A. Hendrick had one hundred seventy-seven (177) votes. Total in Arlington and Lexington, 927.

Total votes cast in Arlington, 1,648. Blanks, 92.

Total votes cast in Lexington, 843. Blanks, 63.

The canvass showed that Edwin A. Bayley had a majority of the votes cast in both towns.

Two certificates were filled out, signed by the Clerks of both Towns, one sent to the Secretary of the Commonwealth and one to be delivered to Edwin A. Bayley of Lexington.

A true record. Attest:

THOMAS J. ROBINSON,
Town Clerk of Arlington.

GEORGE D. HARRINGTON,
Town Clerk of Lexington.

TOWN MEETING—MONDAY, NOVEMBER 16, 1908, AT 7.30 O'CLOCK, P. M.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX SS.

To either of the Constables of the Town of Arlington, in said County,
GREETING:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Arlington, qualified as the constitution requires, to vote in elections and town affairs, to assemble in the Town Hall, in said Town, on Monday, the sixteenth day of November, current, at 7.30 o'clock P. M., then and there to act on the following articles, viz:

ARTICLE 1. To bring in their votes to the Town Clerk for a Moderator to preside for the transaction of Town business.

ART. 2. To hear and act on the reports of committees heretofore appointed.

ART. 3. To see if the Town will make an appropriation to be expended from November 30, 1908, and for the twelve months next ensuing, for suppressing the gypsy and brown tail moths, in accordance with the provisions of Chapter 381, Acts of 1905, and amendments thereto, and determine in what manner the money shall be raised.

ART. 4. To see if the Town will make an additional appropriation for Town House Account.

ART. 5. To see if the Town will make an appropriation for Military Aid.

ART. 6. To see if the Town will make an appropriation for Soldiers' Relief.

ART. 7. To see if the Town will make an additional appropriation for the Police Department.

ART. 8. To see what action the Town will take towards providing more adequate office and cell conveniences for the Police

Department, make an appropriation for the same and determine in what manner the money shall be raised.

ART. 9. To see what action the Town will take in reference to building an addition to the High School Building, make an appropriation therefor, and determine in what manner the money shall be raised.

(Inserted at request of the School Committee.)

ART. 10. To see if the Town will make an additional appropriation for the Town Clerk's Incidentals.

(Inserted at request of the Town Clerk.)

ART. 11. To see what disposition the Town will make of any sums of money now or hereafter received from the Lexington Peat Company on account of its contract with the Town.

(Inserted at the request of the Board of Public Works.)

ART. 12. To see what action the Town will take in regard to the extension of sewerage mains, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 13. To see what action the Town will take in regard to the purchase of paving stone, make an appropriation for the same, and determine in what manner the money shall be raised.

(Inserted at request of Board of Public Works.)

ART. 14. To see what action the Town will take in relation to the purchase of land for the use of the Town Departments, make an appropriation for the same and determine in what manner the money shall be raised.

(Inserted at request of the Joint Board.)

ART. 15. To see what action the Town will take relative to the amendment, alteration, repeal or revision of existing by-laws.

(Inserted at request of the Joint Board.)

ART. 16. To see what action the Town will take relative to the enactment of new by-laws.

(Inserted at request of the Joint Board.)

ART. 17. To see if the Town will vote to increase the salary of the Inspector of Plumbing from $300 to $500, the same to date from January 1, 1909.

(Inserted at request of Board of Health.)

ART. 18. To see if the Town will make an additional appropriation for the Board of Health.

(Inserted at request of Board of Health.)

ART. 19. To see if the Town will widen Tufts Street from Massachusetts Avenue to Warren Street, make an appropriation for the same, and determine in what manner the money shall be raised, or take any action thereon.

(Inserted at request of the Joint Board.)

ART. 20. To see if the Town will accept and establish as a town way the private way known as Woodland Street, extending from Jason Street to Bartlett Avenue, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

> Beginning at a point on the northerly line of Jason Street 490.22 feet from the westerly line of Gray Street; thence, at an angle of 97 degrees and 9 minutes in a northerly direction 282.23 feet to the northerly line of Bartlett Avenue at a point 408.77 feet distant from the westerly line of Gray Street, measured on the said northerly line of Bartlett Avenue. The above described line is the easterly line of said Woodland Street and the westerly line is parallel with and distant therefrom 40 feet, as shown on plan entitled "Plan and Profile of Woodland Street, August, 1902, Robert W. Pond, Eng.," approved by the Board of Survey, October 23, 1902, on file in the office of the Town Clerk.

(Inserted at request of the Joint Board.)

ART. 21. To see if the Town will accept and establish as a town way the private way known as Bartlett Avenue, extending from Gray Street to Woodland Street, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

> Beginning at a stone bound on the westerly line of Gray Street 304 feet from a stone bound at the northwesterly corner of said Gray Street and Jason Street; thence, at an angle of 90 degrees with the westerly line of Gray Street 122.63 feet to a stone bound; thence, by a curved line of 142.44 feet radius 56.25 feet to a stone bound; thence, continuing in a westerly direction 229.89 feet to a stone bound on the easterly line of Woodland Street, so-called, at a point 282.23 feet from the northerly line of Jason Street. The above described line is the northerly line of said Bartlett Avenue, and the southerly line is parallel with and distant therefrom 40 feet, as shown on plan

entitled "Plan and Profile of Bartlett Avenue, August, 1902, R. W. Pond, Eng.," approved by the Board of Survey, October, 23, 1902, on file in the office of the Town Clerk.

(Inserted at request of the Joint Board.)

ART. 22. To see if the Town will accept and establish as a town way, to be known as Gray street, the private way extending from Walnut street to Robbins road, as laid out by the Joint Board of Selectmen and Board of Public Works, under the provisions of law authorizing the assessment of betterments, make an appropriation for constructing the same and determine in what manner the money shall be raised. Said way as laid out is described as follows:

Beginning at a point on the easterly line of Walnut street 1354½ feet more or less from the southerly line of Mass. ave., said point being the intersection of said easterly line of Walnut street and the northerly line of Gray street, as shown on plan entitled "Plan and Profile of Gray street extension, Arlington, Mass., December, 1899, H. S. Adams, C. E.," approved by the Board of Survey June 16, 1900, on file in the office of the Town Clerk. Thence northerly 43° 25′ west 1006.7 feet to a stone bound on the westerly line of Robbins road 1366.44 feet from the southerly line of Mass. ave. Said described line is the northerly line of said Gray street, and the southerly line is parallel with and distant therefrom 50 feet, as shown on the plan above referred to, also on plan entitled "Plan of Atwood avenue, Arlington, Mass., owned by Robbins Spring Water and Land Associates, H. S. Adams, C. E., March, 1898," approved by the Board of Survey May 28, 1898, on file in the office of the Town Clerk.

(Inserted at request of the Joint Board.)

ART. 23. To see if the Town will authorize the Town Treasurer, under the direction of the Selectmen, to borrow money for any necessary purpose, in anticipation of the collection of taxes for the year 1909, the same to be repaid directly from the proceeds of said taxes.

ART. 24. To see if the Town will make an appropriation sufficient to meet the charges for filling deposited on the park lands adjoining Mt. Pleasant Cemetery, in accordance with the vote passed by the Town, May 5, 1902.

ART. 25. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this second day of November, in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS
Selectmen of the Town of Arlington.

MIDDLESEX COUNTY. Arlington, Nov. 10, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the town, and also by posting an attested copy on the doors of the Town Hall seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, met in the Town Hall in said Arlington on Monday, the sixteenth day of November, in the year of our Lord one thousand nine hundred and eight, and were called to order at seven thirty o'clock in the evening by the Town Clerk, who read article 1 of the warrant calling said meeting, and the return thereon of the Constable who served the same upon the inhabitants. By unanimous consent the reading of the remaining articles in the warrant was dispensed with, each of the voters present being supplied with printed attested copies.

Article 1 taken up. (Election of Moderator.)

Horace A. Freeman and George A. Smith were appointed Tellers to receive, sort and count ballots for Moderator, and were sworn to the faithful performance of their duties and placed in charge of the check list and ballot box. Five ballots were cast, each bearing the name of John G. Brackett, and he was declared elected Moderator, and was sworn to the faithful performance of his duties.

Article 2 taken up. (Reports of committees.)

George A. Kimball, chairman of the Committee of Twenty-one, to whom has been referred all articles in the warrant calling for an appropriation, presented the report of said committee in printed form and said report was distributed to the voters present.

Voted: That the various articles in the warrant calling for appro-

priations be now taken up, and that the recommendations made by the Committee of Twenty-one in their printed report under those articles be now considered as before the meeting, to be voted on without further motion, separately and in the order in which they appear in said report.

Article 2 was then laid on the table.

Article 3 taken up. (Gypsy and brown tail moth appropriation.)

Voted, by a two-thirds vote: That the sum of five thousand (5,000) dollars be appropriated to be expended from November 30th, 1908, to November 30, 1909, under the direction and control of the Selectmen in suppressing the gypsy and brown tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905 and Amendments thereto.

That forty-five hundred (4,500) dollars of said sum be raised by general tax in 1909, and the balance of five hundred (500) dollars be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 4 taken up. (Additional appropriation for Town House Account.)

Voted: That the sum of two hundred forty (240) dollars additional be appropriated for Town House account, said sum to be taken from the Treasury accounts.

Article 5 taken up. (Appropriation for Military Aid.)

Voted: That the sum of ninety (90) dollars be appropriated for Military Aid, said sum to be taken from the Treasury Accounts.

Article 6 taken up. (Appropriation for Soldiers' Relief.)

Voted: That the sum of three hundred and forty-three (343) dollars be appropriated for Soldiers' Relief, said sum to be taken from the Treasury Accounts.

Article 7 taken up. (Additional appropriation for Police Department.)

Voted: That the sum of six hundred (600) dollars additional be appropriated for the Police Department, said sum to be taken from the Treasury Accounts.

Article 8 taken up. (Police office and cell conveniences.)

Voted: That a Committee of Five be appointed by the Moderator to consider the question of providing more adequate office and cell conveniences for the Police Department and report to the next March meeting. The Moderator appointed the following citizens to serve on said committee: Philip Eberhardt, Rodney T. Hardy, George D. Moore, Deane S. Reynolds and James R. Mann.

Article 9 taken up. (Addition to High School Building.)

Voted: That a Committee of Five be appointed by the Moderator to consider the need for additional High School Accommodations and report to the next March meeting. The Moderator appointed the following citizens to serve on said committee: Theodore Everett, Henry Hornblower, Arthur W. Wood, John W. Bailey, Warren P. Swett.

Article 10 taken up. (Town Clerk's Incidentals.)

Voted: That the sum of fifty (50) dollars additional be appropriated for the Town Clerk's Incidental Account, said sum to be taken from the Treasury Accounts.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands at said Arlington, this second day of November, in the year of our Lord one thousand nine hundred and eight.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS
Selectmen of the Town of Arlington.

MIDDLESEX COUNTY. Arlington, Nov. 10, 1908.

By virtue of this warrant I have notified and warned the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy to be left at every dwelling house in the town, and also by posting an attested copy on the doors of the Town Hall seven days at least before said day of meeting.

GARRITT BARRY,
Constable.

In pursuance of the foregoing warrant the inhabitants of the Town of Arlington, qualified to vote in elections and town affairs, met in the Town Hall in said Arlington on Monday, the sixteenth day of November, in the year of our Lord one thousand nine hundred and eight, and were called to order at seven thirty o'clock in the evening by the Town Clerk, who read article 1 of the warrant calling said meeting, and the return thereon of the Constable who served the same upon the inhabitants. priations be now taken up, and that the recommendations made by the Committee of Twenty-one in their printed report under those articles be now considered as before the meeting, to be voted on without further motion, separately and in the order in which they appear in said report.

Article 2 was then laid on the table.

Article 3 taken up. (Gypsy and brown tail moth appropriation.)

Voted, by a two-thirds vote: That the sum of five thousand (5,000) dollars be appropriated to be expended from November 30th, 1908, to November 30, 1909, under the direction and control of the Selectmen in suppressing the gypsy and brown tail moths in the Town of Arlington, in accordance with the provisions of Chapter 381 of the Acts of 1905 and Amendments thereto.

That forty-five hundred (4,500) dollars of said sum be raised by general tax in 1909, and the balance of five hundred (500) dollars be borrowed, and the Town Treasurer be authorized to give the Town's note therefor, payable in not exceeding one year, bearing interest, signed by the Treasurer and countersigned by the Selectmen.

Article 4 taken up. (Additional appropriation for Town House Account.)

Voted: That the sum of two hundred forty (240) dollars additional be appropriated for Town House account, said sum to be taken from the Treasury accounts.

Article 5 taken up. (Appropriation for Military Aid.)

Voted: That the sum of ninety (90) dollars be appropriated for Military Aid, said sum to be taken from the Treasury Accounts.

Article 6 taken up. (Appropriation for Soldiers' Relief.)

Voted: That the sum of three hundred and forty-three (343) dollars be appropriated for Soldiers' Relief, said sum to be taken from the Treasury Accounts.

Article 7 taken up. (Additional appropriation for Police Department.)

Voted: That the sum of six hundred (600) dollars additional be appropriated for the Police Department, said sum to be taken from the Treasury Accounts.

Article 8 taken up. (Police office and cell conveniences.)

Voted: That a Committee of Five be appointed by the Moderator to consider the question of providing more adequate office and cell conveniences for the Police Department and report to the next March meeting. The Moderator appointed the following citizens to serve on said committee: Philip Eberhardt, Rodney T. Hardy, George D. Moore, Deane S. Reynolds and James R. Mann.

Article 9 taken up. (Addition to High School Building.)

Voted: That a Committee of Five be appointed by the Moderator to consider the need for additional High School Accommodations and report to the next March meeting. The Moderator appointed the following citizens to serve on said committee: Theodore Everett, Henry Hornblower, Arthur W. Wood, John W. Bailey, Warren P. Swett.

Article 10 taken up. (Town Clerk's Incidentals.)

Voted: That the sum of fifty (50) dollars additional be appropriated for the Town Clerk's Incidental Account, said sum to be taken from the Treasury Accounts.

REPORT OF THE BOARD OF SELECTMEN.

The Selectmen submit the following report for the fiscal year ending December 31, 1908.

On March 2, 1908, the Board met and organized as follows:

Chairman, Frederick S. Mead.
Clerk, Horace A. Freeman.

STANDING COMMITTEES.

Frederick S. Mead, Fire Department and Public Lands.
J. Howell Crosby, Police Department and State Aid.
Walter B. Douglass, Outside Poor, Town House and Public Buildings.

In view of the Town's prospective indebtedness, the Board considers it advisable to call the attention of the Town at this time to the condition of our fixed debt, the means provided for its payment at maturity, and the necessity of exercising careful discrimination and restraint in making appropriations whether for maintenance, construction, or extension of whatever character, that tend to add to said indebtedness.

It is much easier to spend money than to save it, to wipe out a surplus than to establish one, and to create debts rather than pay them off.

While the Board do not desire lowering the high grade of efficiency which the Town has attained in its various departments, or retard the growth of the Town, it may be the part of wisdom to take a breathing spell and thus give opportunity for the Town to catch up. The future should not be too heavily mortgaged.

TOWN DEBT AND TAX RATE.

On December 31, 1907, the fixed debt was		$654,698.64
Added during the year 1908	$61,000.00	
Paid during the year 1908	11,450.00	
Net increase during the year		49,550.00
On Dec. 31, 1908, the fixed debt is		704,248.64
On Dec. 31, 1907, the sinking fund was	117,976.57	
On Dec. 31, 1908, the sinking fund is	139,698.06	
Increase during the year	$21,721.49	

From the above it appears that the amount added to the fixed debt during the year is $61,000. This is made up of $45,000 for the addition to the Locke School, $7,000 for renewal of cement lined pipe, $3,000 for new streets, namely, Sawin Street, Summer Street and Wollaston Avenue, $2,000 for extension of water mains and $4,000 for additional playground for Locke School.

All of this added indebtedness is in the form of serial notes maturing from 1909 to 1926 inclusive. A part of that spent for new streets will be returned in betterment assessments.

The amount of fixed debt maturing during the year and paid is $11,450, which subtracted from the amount added during the year leaves a net increase of $49,550, or a total indebtedness Dec. 31, 1908 of $704,248.64. If the sinking fund is taken into account, as should be, the net debt will be $564,550.58.

The tax rate for 1908 is $19.30 on $1,000, which is 50 cents greater than it was in 1907.

STATE, COUNTY AND METROPOLITAN TAXES.

	1907	1908	Increase
State Tax	$12,120.00	$16,665.00	$4,545.00
County Tax	10,692.58	10,508.38	184.20*
Metropolitan Sewer Tax	6,101.25	9,507.36	3,406.11
Metropolitan Water Tax	14,738.41	16,552.50	1,814.09
Metropolitan Park Tax	4,682.75	5,129.49	446.64
	$48,334.99	$58,362.73	$10,027.64

*Decrease.

From the above it will be seen that the state, county and metropolitan taxes play considerable part in fixing the amount of our tax rate. The increase in these taxes in 1908 over those of 1907 is $10,027.64. This increase makes a difference of a dollar or more to the tax rate.

State Tax. In 1907 the total state tax for the entire state was $4,000,000. This year it is $5,500,000., or an increase of $1,500,000. This increase was occasioned largely by the increased cost in the maintenance of the various state departments, the purchase of armories, and expenditures for new public buildings, mostly for charitable and hospital purposes. The tax is made up by the Tax Commissioner, and is based largely on the number of polls and property valuation.

Arlington is one of the 33 cities and 321 towns in the Commonwealth called upon to pay this tax. This year the Town's

share is $16,665 and equals $3.03 for every $1,000 of the total state tax.

The State Tax having grown to such proportion and destined to still further increase, special attention is being given to the matter of a more equitable distribution, in order that the burden may fall upon those cities and towns best able to bear it.

Various propositions have been suggested, one of which is to take the corporation taxes now distributed to cities and towns.

A tabulation by the State Treasurer shows that if this had been done in 1907 the result would have been a gain to 256 cities and towns over the present plan and a loss to 98 cities and towns. The gain to Arlington would have been $4,308.27

The solution of the problem will be somewhat in the hands of our representatives to the General Court, hence, the representatives from this district may be called upon to pass judgment.

County Tax. The total county tax for the county of Middlesex for the year 1907 was $615,300. This year it is $604,700, being a decrease of $10,600. The tax is made up by the Tax Commissioner and is apportioned among the 9 cities and 8 towns of the county, on a similar basis as that of the State Tax.

Arlington's share this year is $10,508.38, or $184.20 less than it was last year. During the last three years this tax has been about the same and we know of no special reason for further increase at present.

Metropolitan Water Tax. The Metropolitan Water District comprises 9 cities and 10 towns, of which Arlington is one, having joined the district in 1898. The total tax for the entire district in 1907 was $2,195,406.71. This year it is $2,271,151.53, an increase of $75,744.82 over last year. This increase is occasioned mostly by new construction and extension. The tax is based on property valuation and consumption of water.

Arlington's share this year is $16,552.50, or an increase of $1,814.09 over last year.

As the tax is based one-third on valuation and two-thirds on consumption of water it behooves cities and towns to check waste and stop leaks.

The unnecessary and wasteful consumption of water in the district is estimated from one-third to one-half the amount supplied by the water works.

The average daily consumption of water in Arlington in 1907 was 940,775 gallons. This year it is 971,408 gallons.

METROPOLITAN SEWER TAX. Arlington in one of the 9 cities and 8 towns embraced in the North Metropolitan Sewerage District and has been such from the organization of the district. The total tax for the district in 1907 was $270,448.12. This year it is $426,267.84, an increase of $115,819.72. This unusual increase is because of new construction and extension and to some extent is apparent only, as the assessment for 1907 was unusually small owing to certain readjustments in book-keeping accounts made by the State Treasurer. The apportionment of this tax is based on property valuation and population.

Arlington's share this year is $9,507.36, an increase of $3,406.11 or 50 per cent. more than it was in 1907, but as is stated above, part of this increase is apparent only.

METROPOLITAN PARK TAX. The Metropolitan Park District embraces 13 cities and 26 towns, of which Arlington is one. Thus far, however, the town appears to have received very little, if any, direct benefit, although the Town has contributed for the district to date about $33,766.92. In 1907 the total tax for the entire system was $974,297.81. This year it is $1,068,100.03, an increase of $93,902.22 occasioned by additional cost in care and maintenance, and by extension and construction.

Arlington's share this year is $5,129.49, an increase of $446.64 over that of 1907.

While the benefit to the Town derived from both the Metropolitan Water and Sewer Taxes is direct and positive, the benefit from the Metropolitan Park Tax is indirect and indefinite, there being until recently no Metropolitan parks or parkways within the borders of the Town, the short stretch along Mystic River now being under construction.

The Alewife Brook improvements, however, anticipate parkways along said brook and adjacent territory, from which the Town is expected to receive considerable direct benefit.

WHEN WILL THE METROPOLITAN TAXES BE LESS? Our Metropolitan Water, Sewer and Park taxes have been gradually increasing and the question naturally arises,—"when will they begin to decrease?"

The gross Metropolitan Water debt May 1, 1908 was $40,500,000, none of which matures until July 1, 1935.

The gross North Metropolitan Sewer debt May 1, 1908 was $6,150,000, none of which becomes due until Jan. 1, 1930.

The gross Metropolitan Park debt May 1, 1908, including

boulevards was $11,957,500, none of which matures until Jan. 1, 1934.

As the larger part of these metropolitan taxes is to meet interest and sinking fund requirements, and as interest and sinking fund charges will continue until the bonds are paid, it appears from the above that no material decrease can be expected until the bonded indebtedness begins to mature, which will not be for many years,—say from twenty-one to twenty-six years.

Pending the maturity of the above indebtedness additional construction and extension will doubtless be demanded and this with probable increased cost in maintenance will still further increase these taxes.

The following shows what part of these taxes paid by Arlington for 1908 was to meet interest, sinking fund and maintenance.

	For Interest	For Sinking Fund	Maintenance
Met. Water Tax	$10,447.70	$3,786.79	$2,318.01
Met. Sewer Tax	4,534.76	1,293.30	3,679.30
Met. Park Tax	1,952.66	696.04	2,480.79

Sinking Fund. $546,600 of our fixed debt is on the sinking fund basis. This includes water, sewer, park, high school and town house site loans.

All of these loans were authorized by special Acts of Legislature, and all of these Acts contained provision requiring the establishment of a sinking fund, in each case, sufficient with accumulation to extinguish the debt at maturity, and which funds could not be used for any other purpose.

These provisions, however, were never carried out.

In 1875 a law was passed by the Legislature practically obliging towns to establish sinking funds for municipal indebtedness especially for loans running over 10 years.

In 1878 the Town appropriated $5,497.97 for the purpose of establishing a sinking fund, and elected three Sinking Fund Commissioners.

At that time the Town debt consisted of about $300,000 for water and $140,000 for miscellaneous notes amounting in all to about $440,000.

Since that time annual appropriations differing in amount have been made to the sinking fund, but not until the last few years have they been sufficient with accumulation to meet the debts at maturity.

Our sinking fund has always been general in character

rather than specific, never having been classified or made up, in full compliance with statute requirements. For this reason when $217,000 of water bonds became due in 1892 there was only about $42,000 in the sinking fund to meet said bonds. The result was that $34,000 only of the bonds were paid and the balance, $183,000, was refunded as authorized by special Legislative enactment on a basis of 30 years extension, thus putting off to later generations what perhaps properly belonged to a former one to pay.

It ought to be said, however, that the great and unexpected increase in the water debt occasioned especially by claims against the Town for land and mill damages made it hardly possible for the Town to meet all of its liabilities at maturity without unreasonable hardship. The situation, therefore, required relief, which was afforded by the refunding scheme referred to above.

Up to Jan. 1, 1908, nearly $370,000 have been contributed to the sinking fund and over $280,000 paid out.

Of the amount paid out $117,000 was for water debt and $163,000 to meet debts of a miscellaneous character, which the general character of the sinking fund appeared to allow.

In 1883 nearly all of the sinking fund was drawn out to pay miscellaneous debts.

In 1898 all of the sinking fund was drawn upon to meet water debt then maturing.

At the time the sinking fund was entirely empty the indebtedness of the Town that was on a sinking fund basis amounted to about $493,100.

On Dec. 31, 1908, the sinking fund amounts to $139,698.06, and if classified would be apportioned to water, sewer, park, town house site, and high school loans.

This amount is what has accumulated since the fund was empty in 1898 over and above $25,000 or more paid out for miscellaneous notes not properly on the sinking fund basis.

From 1900 inclusive the Town has followed the policy of contributing to the sinking fund at least $15,000 annually and this policy is to be commended—for to it is due the excellent condition of the fund to-day. If this policy is continued it will liquidate all present fixed indebtedness of the Town at maturity, except what is provided for by serial notes.

$91,000 of the water debt becomes due in 1912 and $64,600, the high school debt, in 1913, both of which will be paid from the sinking fund. From 1922 to 1928, $224,000 of water debt becomes due which the sinking fund must meet. Later the sewer, town house site and park loans, amounting to $167,000, mature, all of which are to be paid from the sinking fund.

All departments in whose behalf a loan has been contracted should feel special interest in and contribute, if possible, towards the payment of said loan.

Most departments, having no income, are unable to do this. The water department, however, is an exception and possibly the sewer department.

From 1873 to 1901, a period of 28 years, the water department contributed nothing to the sinking fund. Since and including the latter date, however, the department has been self-supporting, that is to say, it's income has been sufficient to pay for maintenance, interest and sinking fund requirements and the metropolitan water tax. This is what should be and doubtless would have been at an earlier date had it not been for extraordinary expenditures.

Section 21 of the Metropolitan Water Act anticipates this self-support and reads as follows:

APPLICATION OF INCOME.

Section 21. The income received in each city or town from the water works under the charge of its water board, water commissioners or superintendent, shall be applied to the payment of the expenses of maintenance and operation incurred by said water board, water commissioners or superintendent; the interest and sinking fund requirements of all bonds, notes or scrip of the city or town issued on account of the water works of such city or town; the assessment of the city or town to be paid to the treasurer of the Commonwealth as hereinbefore provided; the expenses of the extension of the works; and the balance, if any, as the city or town may determine. If such income in any year shall not be sufficient for said payments the balance required therefor shall be raised by taxation or by loan, as the city or town may determine; and the city or town is hereby authorized to assess such taxes and make such loans without further authority from the Legislature.

During the last eight years the department has contributed $70,000 to the fund. This speaks well and it is hoped the department will be able in the future to contribute more largely in view of the fact that the water debt is nearly half of our entire indebtedness, and that previous to 1901 no contribution was made by the water department.

Serial Notes. At the present time, Dec. 31, 1908, $157,-648.64 of our fixed debt is on the serial note basis. The loans on the serial note basis are school house except the high school, part of the water and sewer loans, suspense, police signal system and street loans. No part of the serial notes now existing mature later than 1926.

Some of our serial notes cover rather short periods when fully maturing, and the question arises as to the advisability of having all serial notes hereafter issued cover the full period allowed by law; especially should this be the case with loans for water, sewer and school house purposes, etc. This policy will make the annual payments the minimum in amount.

The periods allowed by law for various purposes for which loans may be issued are indicated as follows:

Water loans, 30 years; sewer loans, 30 years; school house and other public buildings and for land, 20 years; parks, 30 years; public playgrounds, 30 years; municipal lighting plant, 30 years; other loans, 10 years.

These periods indicate that future generations should share in the expense of work whose life is co-existant with said generations. This fact should be considered in apportioning payments on the serial note basis.

Section 13 of chapter 27 of the Revised Laws was amended by chapter 341, Acts of 1908 so as to read as follows:

Section 13. A city or town, instead of establishing a sinking fund, may vote to provide for the payments of any debt by such proportionate or other annual payments as will extinguish the same at maturity, so that the amount of such annual payment in any year and the whole interest of such debt payable in the same year shall not altogether be less than the aggregate amount of principal and interest payable in any subsequent year, and thereupon such annual amount shall, without further vote, be assessed under the provisions of section thirty-seven of chapter twelve until such debt is extinguished.

Looking Ahead. A wise administration of town affairs keeps in mind the fixed indebtedness of the Town, the ways and means provided for meeting the same at maturity, and exercises reasonable restraint and discrimination relative to expenditures that tend to increase said indebtedness. The fixed indebtedness of the Town as it stands December 31, 1908, is divided as follows:

Water Loans	$348,000.00
Sewer Loans	119,000.00
Park Loans	15,000.00
School Loans	157,248.64
Town House Site Loan	52,000.00
Suspense Loan	3,000.00
Police Signal System Loan	3,000.00
New Streets Loan	7,000.00
Total fixed debt	$704,248.64

While we paid $11,450 of the debt this year and also put in the Sinking Fund $17,000, making $28,450 towards the liquidation of the debt we added $61,000 making a net increase to the debt (counting the Sinking Fund appropriation) of $32,550 for the year.

It thus appears that our fixed debt is increasing, notwithstanding our liberal payments towards it's reduction.

Furthermore, by looking ahead it will be seen that additional demands will need to be met tending to still further increase the debt.

Among these prospective demands may be mentioned the following:

1. Renewal of old cement lined pipe. 20287 feet of this pipe remains to be replaced, the estimated cost of which is from $30,000 to $35,000. This money will doubtless be borrowed as heretofore. The renewal of this pipe has been going on for some years although the original pipe has not yet been paid for.

2. Extension of water-pipe. Short extensions will frequently be called for as dwellings extend, and longer extensions needed as new streets open up. These extensions have been met by borrowing.

3. Extension of sewerage system. The same remarks concerning water pipe extension apply to sewer pipe extension.

4. New streets. Considerable development of territory for residential purposes is likely in the near future. This will cause extensive laying out of new streets which when accepted by the Town will require considerable borrowing for construction purposes.

5. School buildings. Additional school facilities will be demanded in the near future. Statistics appear to show that the number of school children in town increases at a much greater rate than population or valuation. To meet these additional accomodations considerable borrowing will be necessary.

6. Alewife Brook Improvements. The Alewife Brook Improvements now in process of construction under the direction of the Metropolitan Park Commission sooner or later will require an annual tax to meet the cost of said improvements. This tax must be sufficient to meet interest and sinking fund requirements on a bonded indebtedness of $125,000 due in 20 years. Arlington's share is 24 per cent. This tax, however, affects our debt only indirectly as the tax will doubtless be raised by taxation, the same as our Park Tax.

7. Renewal of cast iron water pipe. We have 76,061 feet

of this pipe on the low service and 96,791 feet on the high service. While there is no necessity for immediate renewal of this pipe, it is well to have the matter in mind, so that when renewal takes place, it may be done under such a system and so distributed, as to enable the Town to meet the expense by not overburdening any one year. Some of the pipe has been laid for twenty-five or thirty years, and the life of the pipe is said to be fifty years or more.

UNEXPENDED BALANCES. Appropriations made at the March Meeting are expected to meet the expenses of the current year. This expectation is reasonable because the appropriations are based on the various estimates of departments and the recommendations of the Committee of Twenty-One.

To such an extent of late years have the several departments kept within the March appropriation, the question has arisen as to the advisability of doing away entirely with the November town meeting except for the election of State Officers.

The Board is of the opinion that no town meeting for town business should be held other than the March Meeting, except in case of urgent necessity.

We are glad to report that all departments during the year, with few exceptions, have kept within the March appropriations and report unexpended balances. Those that did not were apparently justified in asking for and receiving additional appropriations in November.

The net unexpended balances available for transfer amount to $11,430.36, a sum quite material in holding down the tax rate.

The policy of the Town has been to take these unexpended balances for the Sinking Fund, thus encouraging all departments to contribute in a way to this fund.

As suggested elsewhere every department should feel interest in the liquidation of our fixed debt.

The sooner our fixed debt is extinguished, the sooner will larger appropriations be available for department expenditure.

CLASSIFICATION OF EXPENSES. There is necessity of a systematic classification, or summary of expenditures, somewhat uniform in character, for all departments.

An intelligent comparison of one department with another and of one year with another cannot well be made without a clear, definite and somewhat uniform arrangement of expenses. It aids, too, in tracing leaks and waste.

This classification should show clearly what has been expended for straight maintenance, what for construction and

what for extension, and should especially mention items of unusual character in each.

Whether a department is managed with reasonable economy is more easily determined by such a classification.

Estimates for future appropriations are more intelligently made up and more intelligently considered.

The Board are of the opinion that such a classification or summary is businesslike and of advantage both to departments and the town.

It is hoped that the various departments will take this matter under consideration.

Possibly it may come within the jurisdiction of the auditor either to require the same or make the classification himself.

Fire Department. Nothing unusual has transpired in this department during the year. The high standing of the department heretofore recorded has been sustained and harmony and good-feeling have existed through the year.

Walter H. Peirce has shown that no mistake was made in his election as Chief, and that the confidence the department had in him was not misplaced.

For detail of work during the year attention is called to the Chief's report.

Police Department. This department has been under the same force as the year previous, and the high degree of efficiency in its work has been maintained. Cases of murder, or attempt to murder, have demanded much time and labor from the department during the year, and the expenses therefrom called for an extra appropriation of $600 at the November Town Meeting.

On account of the excellent services of Patrolman Daniel W. Hooley in the past, and especially during the year, he was promoted to the position of Inspector with the rank of Lieutenant, with increase of pay, services beginning May 16, 1908, the date of promotion.

The lack of proper cell room and the unsanitary condition of the same, together with the inconvenient quarters of the present police office, prompted the Board to call the attention of the Town to the matter at the November meeting. At this meeting the matter was referred to a special committee of five appointed by the Moderator, said committee to investigate and report at the next March Meeting with recommendations.

The advisability of using the Robbins House for police quarters should be considered. This will not only provide

ample room for lock-up and office facilities, but will give room in the Town Hall for other departments now somewhat cramped.

The Chief's report gives detail of work to which attention is called.

Outside Poor. The work of this department differs little from year to year.

While the regular list has required less expense than the year before, and while several families on this list were helped a part of the year from the income of the poor widows fund, the net cost of maintaining the department is larger than the year previous.

This is owing principally to the increased number of sick poor at city and state hospitals, the increased number of families aided elsewhere, but having settlement here, and the care of inmates formerly at the almshouse, but now on the outside poor account.

The number of applications for aid has been larger than heretofore owing doubtless to the recent business depression.

Had it not been for receipts from unpaid bills due the Town from old accounts being in excess of unpaid bills against the town on old accounts and paid, the net cost of maintenance would have been somewhat larger.

It is not always easy to tell when and where to bestow the most effective aid when applicants apply for assistance, although each case is investigated. Recipients are not all equally appreciative of the aid rendered and some are rather inclined to abuse the same, still it is perhaps best for the Town to err on the liberal rather than the penurious side. It is the children who are to be especially considered.

Appearances indicate at present that in 1909 there will be increased application for Town aid.

After Dec. 1, 1908, the State will assume the care and expense of feeble minded and the epileptic.

The financial statement attached gives further detail.

Suppression of Gypsy and Brown-Tail Moths. The work of this department this year has differed little in character from that of the year previous. Tanglefooting, burlaping, spraying, treating nests and cutting and burning have all been applied as conditions required.

The gypsy moth has been less in evidence during the year as is indicated from the fact that comparatively little creosote was necessary in treating their nests. Two gallons only were needed for the street trees.

The brown-tail moth, however, has largely increased and

much of the time during the fall was taken in cutting off and burning their nests. Swarms of these moths were blown into the Town in August by favorable winds from adjacent or nearby territory that was badly infested. This is likely to happen as long as said territory remains uncleaned.

The satisfactory condition of streets, public lands and private residential estates afford more time and expense for thinning out woodland regions. The region between Eastern Avenue and the Belmont line and the woodland near Robbins Road and Oakland Avenue have received special attention. Another year this work will be continued in other parts of the Heights section, and woodlands in the eastern portion of the town will also receive special consideration.

With the woodlands properly thinned out and cleaned it would appear that spraying would be the mainstay in holding our town in satisfactory condition.

The additional allotment by the State of $1,000, made in November, enabled the Board to purchase from the Frost Insecticide Company one of their best and most powerful Woodland Sprayers, the two Olds Sprayers on hand being included in part payment.

From the many returns from notices sent out by Supt. Bradley, we are glad to record the general confidence of private owners in the character of the work done by this department. The complimentary references made by State Officials as to the work is also very gratifying.

Occasionally an owner feels aggrieved, if charged for work done on his premises by the Town, after the owner has had said premises cleaned.

It must be remembered, however, that whoever does the work, it must be done to the saisfaction of the Local Superintendent; and that if, on inspection, the work is not satisfactory some one must go over the premises again. If this is not attended to by the owner then the Town is obliged to do it. This is where the additional charge comes in.

No charge is made for the inspection of the premises made by the Local Superintendent.

The Board regrets occasion for duplicating the work and causing extra expense, but it is the duty of the department to see that the premises are properly cleaned.

It must be remembered, too, that an inexperienced person may clean premises and believe the work thoroughly done while in reality it may be rather poorly done. An expert in the business knows just where to look for nests and how to treat them most effectively.

The policy of the Board in reducing the number of men to the minimum and adding to the number as occasion requires has been continued. The result is, our employees are generally experienced men, most of them having worked for the Town three years or more.

At this writing the fall and winter work on the streets is completed, and the work on the public lands completed, with the exception of finishing in Menotomy Rocks Park. The fall and winter work on private premises both below and above the snow line is well advanced.

The amount of tanglefooting and burlaping needed in the spring is to be decided. Spraying, however, will be extended and emphasized.

In suppressing gypsy and brown-tail moths this year, $13,467.26 has been expended, being $217.48 more than last year. For detail see the financial statement attached, giving location and character of the work.

Since May 8, 1905, when the present law went into effect, over $52,000 have been expended, of which about $27,700 have been reimbursed by the State.

Supt. Wm. H. Bradley has continued as Local Superintendent, and James F. Higgins as clerk.

The Town is to be congratulated on having a Local Superintendent so able and efficient. The Town holds high rank in the work of suppressing gypsy and brown-tail moths.

The barren appearance of many of our hills and valleys is a sad reminder of the additional cost in the extermination of these pests.

It is hoped a new growth of trees and shrubbery will follow at an early date, and the former beauties of our Town be at least partially restored.

The liability insurance, heretofore carried by the Town in the work of suppressing moths, was discontinued, as in the opinion of the Attorney General, the Town is not liable for damages caused by work in this department.

Town Fire Insurance. As was stated in last year's report the Selectmen petitioned the New England Insurance Exchange for a reduction in the rate of fire insurance. The matter is still pending, as the revaluation of property has not yet been completed. The reapprisal of buildings has been filed, but that of contents only partially taken. The insurance carried, therefore, at the present time is the same as the year previous, namely, $313,000 on buildings and $81,000 on contents. This does not include insurance on the addition to the Locke Schoolhouse, as insurance on said addition was placed

by the building committee, neither does it include liability or boiler insurance.

Liability Insurance. At the Town Meeting, held April 29, 1908, the Town appropriated $400 to pay for liability insurance covering work in departments to be designated by the Selectmen.

The insurance was placed with the Maryland Casualty Company, covering public and employers liability policies. As the appropriation was not sufficient to cover all the departments desired, it was placed on certain work in highway, sewer, and water divisions. The policies expire May 23, 1909.

Boiler Insurance. The three years policy, covering $50,000 on 17 boilers, expires Feb. 1, 1909. This insurance is with the Hartford Steam Boiler Inspection and Insurance Company.

The boilers are located in the several schoolhouses, town hall, library, stone crusher, steam roller and steam drill.

Purification of Alewife Brook and Adjacent Areas. At the close of the year, 1907, the Metropolitan Park Commissioners were perfecting and completing plans and securing options and examining titles on lands for the purpose of submitting detailed plans to Mayors of cities and Selectmen of towns for their approval or disapproval.

On February 20, 1908, the authorities of Cambridge, Somerville, Arlington, and Belmont met the Metropolitan Park Commissioners for conference, relative to plans and work in connection with the Alewife Brook region, as contemplated under Chap. 529, Acts of 1907, and conferences and correspondence already held.

On February 24, 1908, the Board of Selectmen approved of said plans, and a formal letter to this effect was signed by the full Board and forwarded to the Metropolitan Park Commissioners.

On October 27, 1908, at a special meeting of the Selectmen, the Board concurred in a taking, under Chap. 288, Sect. 1, Acts of 1894, for Alewife Brook Parkway, and made in connection with the Alewife Brook improvements, said taking being for the purpose of acquiring the land necessary to carry out said improvements.

This concurrence was subscribed to by the Board within the time limit from the taking.

Copies of said takings and plans relative to the the same, and of the concurrence by cities and towns interested, are on file at this office.

Dredging and construction work has already begun, and an-

other year will doubtless see great activity towards carrying out the purposes for which $125,000 has already been appropriated. This work is under the direction of the Metropolitan Park Commisioners who will install parkway construction in connection with the purification of the brook and adjacent areas contemplated by the State Board of Health.

The Board has reason to believe that when this work is completed the Town will be greatly pleased with the benefits accruing therefrom.

Public Buildings. The torch-like fixtures with lights on the front, the railings on the steps, the insetting of the front doors, and the necessary repairs and additions to the heating plant in the Town House, together with repair of the roof, called for the extra appropriation granted in the November town meeting.

Some of these changes were required by statute, to which attention was called by the Hartford Steam Boiler Inspection and Insurance Company in their inspection report in July.

The heater in the Robbins House received necessary and thorough repairs, drawing somewhat heavily on the income. Repairs on the heating plant and on the plumbing, together with the renewal of concrete gutters on both sides of the roadway, drew very largely on the income of the Summer Street estate.

Very little expense seemed necessary for the Medford Street estate.

All of these buildings at present appear to be in fair condition, requiring nothing more than ordinary repair.

Contracts for Furnishing Coal to Town Departments. Proposals for furnishing the several departments with coal were invited, and five were received.

The contract was awarded to the lowest bidder, namely Peirce & Winn Co. Their prices were as follows:

Lackawana D. & H., egg, stove and furnace	$6.24	per ton
Honey Brook egg, or its equivalent	6.74	" "
Lackawana D. & H., stove in ½-ton lots	7.10	" "
Georges Creek Cumberland (best quality)	4.43	" "

The several departments furnished were the schools, library, water department, highway department, fire department, and outside poor department.

The total amount of coal covered 536 tons egg, 15 tons furnace, 123 tons stove, and 215 tons bituminous,—total, 889 tons.

No complaints have as yet been made as to the quality, and it is assumed that it is satisfactory.

PRINTING THE ANNUAL TOWN REPORT. The contract for printing the annual town report for the year 1908 was awarded John F. Biggs & Co., of Boston. Mr. Biggs is a resident of the town, and was with J. A. Cummings' Printing Co. for many years, which company printed our annual reports for several years with very good satisfaction.

It is hoped that the annual report will be ready for distribution at an earlier date than heretofore, and special efforts are being made to this end.

JURY LIST. This list was made up in accordance with the law as amended by Chap. 348 of the Acts of 1907, and copies thereof delivered to the Town Clerk and clerks and assistant clerks of the Supreme, Judicial and Superior Courts. While it was not necessary to make up the list before July 1st, the Board made it up in season to be printed in the annual report for 1907. If the same policy is pursued, the list for 1909 will appear in the annual report for 1908.

MISCELLANEOUS. 1. It reflects very creditably on the Collector's Department, and the Board is glad to mention the fact:—

(a) That all taxes on property and polls have been collected up to Jan. 1, 1908.
(b) That all water taxes up to Jan. 1, 1909 have been collected.
(c) That all unapportioned sewer, sidewalk, and betterment assessments that were due up to Jan. 1, 1909, have been collected.

No previous year appears to have so good a record as the above.

The tax levy committed to the Collector of Taxes for 1908, including additional commitments and reassessments, was $222,748.95, of which only $62,657.58 remains unpaid.

2. R. W. LeBaron, Inspector of Wires, is still authorized to cut wires in emergency cases, and in his absence, Thomas O. D. Urquhart, Chief of Police, has the same authority.

3. To know what it cost the Town to administer all of its affairs in full one must look beyond the mere tax levy, or tax rate:—

For instance, the tax levy committed to the Collector of Taxes, this year, was $219,838.97, while over $350,000 was expended.

Some of the sources from which the money was taken to meet this expenditure, over and above what was contributed by tax levy, appears to have been as follows:

$16,176.10 from street railway taxes for Highway Department.
14,497.57 from corporation and bank taxes.
11,033.69 from unexpended balances of 1907.
635.56 from dog tax, for the use of the library.
5,000.00 (approximately) from the various trust funds.

If it were not for such receipts the tax rate would be very much higher.

The $350,000 above, includes expenditures in Water Department, and for extension and construction purposes, for which money borrowed was available.

4. The borrowing capacity of the Town is $91,902.74, which is less than it has been since 1905. These figures, however, take no account of the amount in the sinking fund.

Sealer of Weights and Measures. Chapter 534 of the Acts of 1907, provides for the appointment by the Governor of the Commonwealth of a Commissioner of Weights and Measures.

From circulars and pamphlets issued by said Commissioner it is evident that a more vigorous enforcement of the laws relating to the sealing of weights and measures, and the giving of false and insufficient weights and measures is to be carried out, and under the new regime this department of Sealer becomes more important than ever.

It behooves the Selectmen therefore to see that the local Sealer fully performs his duties in the premises.

The act relative to giving false weight, etc., is as follows:

CHAPTER 394 ACTS OF 1907.

An Act relative to the penalty for giving false weight or measure.

Be it enacted etc., as follows:

Section 1. Whoever, himself or by his servant or agent or as servant or agent of another person, is guilty of giving false or insufficient weight or measure shall for a first offence be punished by a fine of not more than fifty dollars, for a second offence by a fine of not more than two hundred dollars, and for a subsequent offence by a fine of fifty dollars and by imprisonment for not less than thirty nor more than ninety days.

Sec. 2. All acts and parts of acts inconsistent herewith are hereby repealed. (*Approved May* 8, 1907.)

LICENSES.

Licenses were granted as follows:

Victuallers. C. LaBreque, 606 Massachusetts Avenue; Miss Isabella M. MacDonald, 1406 Massachusetts Avenue; A. O. Sprague, 5 Mystic Street; Charles H. Kimball, 1385 Massachusetts Avenue; N. J. Hardy, 657 Massachusetts Avenue; Elizabeth M. Walsh, 1399 Massachusetts Avenue; Margaret L. O'Brien, 472 Massachusetts Avenue; Thomas F. Lally, Massachusetts Avenue; William J. McGowen, 458 Massachusetts Avenue.

Junk. Max Rosenfeldt, 1306 Cambridge Street, Cambridge; Joseph Berkman, 319 Elm Street, Cambridge.

Pool Table. Joseph W. Ronco, Post Office Building; Raphae D. Guarente, 612 Massachusetts Avenue; Tony Spadaro, 945 Massachusetts Avenue.

Auctioneers. Philip A. Hendrick, 12 Draper Avenue; Frank Y. Wellington, 15 Wellington Street; James H. Shedd, 28 Draper Avenue; Frank V. Noyes, 244 Pleasant Street; George D. Moore, 133 Broadway; F. Alfred Patterson, Arlington Heights; D. W. O'Callaghan, 36 Dundee Road, Winthrop Pattes.

Intelligence Office. Arlington Exchange, Clara T. Blake, Manager, Associates Building; Dow & Giles, 633 Massachusetts Avenue.

To Transport Spirituous or Intoxicating Liquors Under Provisions of Chapter 421, Acts 1906. George W. McClellan, 7 Webster Street; Wood Bros., 1 Water Street; Arthur M. Curtin, 963 Massachusetts Avenue; Jesse C. Fletcher, 32 Sawin Street; American Express Co., railroad station, Arlington; Joseph Forest, 303 Broadway; Francis E. Horne, 23 Henderson Street; John J. Preston, 319 Massachusetts Avenue.

No sixth class liquor licenses were granted during the year.

Attention is called to the financial statements and comparative tables herewith appended. For further detail of expenditures see Auditor's report.

FREDERICK S. MEAD,
J. HOWELL CROSBY,
WALTER B. DOUGLASS,
Selectmen.

REPORT OF THE CHIEF OF POLICE.

ARLINGTON, MASS., Jan. 1, 1909.

To the Honorable Board of Selectmen of Arlington:—

GENTLEMEN:—I herein submit a report of the doings of the Police Department for the year ending December 31, 1908:

Number of arrests during the year, 300.

Americans	173	Non-Residents	191
Foreigners	127	Females	8
Juveniles	34	Negroes	6
Residents	109	Warrants served	37
Summons served	56		
Officers attended court	288 days		
Amount of fines imposed by the courts	$1132		

Never in the history of the town have there been so many arrests necessary for offences of a highly serious character.

The nature of the offences committed, divided into three classes, are as follows:—

OFFENCES AGAINST THE PERSON.

Accessory before the fact (in case of assault to murder)	1
Accessory after the fact (in case of assault to murder)	1
Assault and battery	13
Assault with intent to murder	4
Assault and robbery	2
Total	21

The above cases were disposed of as follows:—

Two for being accessories before and after the fact were discharged; of the 13 cases of assault and battery, one was committed to the House of Correction, six were fined, one was

placed under bonds to keep the peace, two were placed on probation, one was placed on file, one was defaulted, and one was discharged on account of the complainant withdrawing the charges at court.

Of the four cases of assault with intent to murder, two were arrested and turned over to the officers of a neighboring city and were sentenced to not less than 18 years in State Prison.

Two were local offenders living in the Italian colony, and owing to extenuating circumstances, one was sentenced to serve a year and the other nine months in the House of Correction.

Two cases of assault and robbery were tried and each found guilty and sentenced to serve four years in the House of Correction.

FOR OFFENCES AGAINST PROPERTY.

Attempted larceny (pickpocket)	1
Breaking and entering and larceny	7
Larceny	31
Malicious injury to personal property	2
Receiving stolen property	1
Trespass and larceny	4
Total	46

The above were disposed of as follows:—

In the case of attempted larceny, a fine of $300 was imposed and paid at the last term of the Superior Court.

Of the seven cases of breaking and entering, one was sentenced to not less than two nor more than five, years in the Massachusetts Reformatory, one was sentenced to two years in the House of Correction, one to one year in the House of Correction, three were placed on probation, and one was discharged on account of the withdrawal of the complaint.

Of the 31 larceny cases, five were fined $10 each, two were fined $10 each and appealed, one was fined $20, one was fined $25, two were delivered to officers of other cities, two were sentenced to the Lyman School, nine were placed on probation, three were discharged, one was sentenced to the Massachusetts Reformatory, one sentenced to three months in the House of Correction, one sentenced to two months in the House of Correction, one case was placed on file, one complaint was withdrawn, and one was defaulted.

OFFENCES AGAINST GOOD ORDER, CHASTITY AND DECENCY.

Adultery	1
Bastardy	1
Carrying a loaded revolver without license	2
Contempt of court	10
Cruelty to animals	2
Defacing a public building	2
Disorderly conduct	1
Disturbance of the peace	20
Disturbance on a street car	2
Discharging firearms in the street	4
Drunkenness	141
Having bob-veal with intent to sell	1
Indecent exposure	1
Lewd and lascivious conduct	2
Non-support	6
Safekeeping	6
Selling obscene pictures	1
Slaughtering without a license	1
Suspicion	1
Vagrancy	2
Violation of the automobile laws	12
" " the Board of Health rules	1
" " probation	3
" " the school regulations	1
" " the town by-laws	9
Total	233

The above cases were disposed of in the following manner:—

In the case of adultery, arrest was made, and prisoner turned over to officers of another town.

The case of bastardy was bound over to the Superior Court.

Two cases of carrying a revolver without license were fined $25 each.

In 10 contempt cases, one was fined $1 and placed under bonds to keep the peace for six months, three were placed on probation, two were placed on file, one was fined $15 and the fine suspended, one was fined $10, one $5, and one $20.

In two cases of cruelty to animals, one was fined $20 and the other $10.

For defacing a public building, one was placed on probation and the other on file.

For disorderly conduct, a fine of $10 was imposed and an appeal taken; case now pending.

For disturbance of the peace, three cases were placed on file, two discharged, three fined $5 each, three fined $10 each, one sentenced to two months in the House of Correction, one was placed on probation, and seven were placed on probation by payment of $15 each, as costs.

For creating a disturbance in a street car, two were fined $20 each.

For discharging firearms in the street, one was placed on probation, two were fined $10 each, and one was fined $5.

The cases of drunkenness were disposed of by 67 cases being placed on file; 31 were released from the station without being taken to court, four were placed on probation, six were sentenced to the State Farm, one was sentenced to the State Farm and appealed, two were fined $10 each, one was fined $10 and appealed, 15 were fined $5 each, one was fined $3, three were fined $1, two were sentenced to three months each in the House of Correction, one was sentenced to 30 days in the House of Correction and appealed, four were sentenced to 10 days, and one to 8 days in the House of Correction, one case was defaulted, and one case continued.

For having bob-veal in possession with intent to sell the same, case pending.

One case of indecent exposure was sentenced to two months in the House of Correction.

Four persons were held for safekeeping and released in the custody of friends.

In one case of selling obscene pictures, a fine of $100 and six months' imprisonment was imposed.

In case of slaughtering without a license, trial is pending.

For non-support, two cases were continued, two were placed on probation, one was discharged, and one was defaulted.

One case of arrest on suspicion was discharged.

For vagrancy one was placed on probation and one sentenced to two months in the House of Correction.

For violation of the automobile laws, one was fined $20, three $10 each, three $5 each, three were defaulted, five were arrested for officers of other places, and one case was placed on file.

For violation of the rules of the Board of Health, one defendant was defaulted.

For violation of their probation, three defendants had their probation continued.

One case of violation of the school regulations was placed on file.

For violation of the town by-laws, six were placed on file and three discharged.

Persons arrested gave as their residence the following places:—

Arlington	109	Lincoln	1
Boston	45	Lowell	3
Boxboro	1	Medford	20
Brockton	2	Malden	2
Belmont	6	No Home	9
Burlington	1	Newton	1
Braintree	1	New Hampshire	4
Cambridge	41	Quincy	2
Chelsea	1	Somerville	18
Carlisle	1	Stoneham	2
Concord	1	Woburn	5
Everett	1	Winchester	6
Lexington	13	Worcester	1
		Watertown	2
		Wakefield	1
		Total	300

MISCELLANEOUS BUSINESS.

Search warrants served for obscene pictures	1
" " " " bob-veal	1
" " " " stolen property	1
Property stolen, value	$703.50
Property recovered	272.60
Patrol wagon calls	11

On the morning of March 28th the body of a woman was found in what is known as Squire's field with her head almost severed from her body.

It afterward proving to be that of Annie Mullins, a domestic employed in a Cambridge family.

On receipt of the news that her body had been found District Attorney Higgins and Deputy Chief Neil of the State police, together with Chief Pullen of Cambridge, offered the services of their respective offices which were accepted.

The case is still under investigation; the members of this department have worked faithfully and conscientiously in the matter and your honorable board have been kept in close touch with all matters pertaining to the case.

At an inquest held at the 3rd District Court, conducted by District Attorney Higgins and presided over by Judge Stone, numerous witnesses were heard and I herein quote the following from the finding of the honorable court at that time:

"At an inquest duly holden before the justice of the 3rd Middlesex court of eastern Middlesex, at Cambridge, in the county of Middlesex, on the 3rd and 29th days of April in the year of our Lord 1908, to inquire into the cause and manner of the death of Annie Mullins, whose dead body has been found lying in Arlington within the judicial district of said court.

"The justice of said court, having been duly notified of the death of the said Annie Mullins and of the circumstances attending the same, by William D. Swan, one of the medical examiners of said county of Middlesex, after hearing the testimony relating to the cause and manner of said death, finds that the said Annie Mullins came to her death at said Arlington on the 27th day of March in the year of our Lord 1908

in consequence of a hemorrhage resulting from incised wounds in the throat.

"The said Annie Mullins was an unmarried woman, about 27 years of age, and at the time of her death was employed at No. 113 Walker Street, Cambridge, by Prof. Hans Carl Guenther von Jagemann as a house servant. She was a native of the province of Newfoundland, but had lived in Cambridge for some time, and was a woman of good character and virtuous life, and so reputed in the community in which she lived.

"She was last seen by her employer's wife in the kitchen of the house on Walker Street at about 7 o'clock on the evening of March 27, 1908. She left the house hurriedly some minutes after this time, without informing anybody of her intention so to do, and in direct contradiction to an intention expressed not more than half an hour previous of not leaving the house upon that evening. Her dead body was found the next morning at about 9 o'clock by two boys, Louis M, Chever and Walter M. Cook, in what is commonly known as Squire's field, in Arlington.

"The body was lying at or near the edge of a depression or ravine in the field which had been formed some years previous by gravel or dirt being taken out in comparatively large quantities.

Although the boys who found the body, and more particularly one John Murphy, an adult whom they summoned to their assistance, showed commendable intelligence in dealing with the situation, the news of its discovery soon caused many people to assemble at the spot, whose curiosity is largely responsible for the difficulty which confronted the police at the outset of an official investigation.

"No knife or other weapon was found either on or near the body. There was evidence that tended to show that the said Annie Mullins had come to this place with some other person, presumably a man. From the medical testimony it appears probable that death took place between the hours of 8 and 10 P. M. on the evening of March 27.

"The position and character of the wounds in the throat indicate that they were inflicted with some sharp instrument by means of slashing blows or cuts, and there is nothing in their position or character to show whether or not they were self inflicted.

From the other evidence in the case, however, including the absence of any weapon at or near the body, the absence of any motive for suicide, the appearance of the deceased. the condition of the ground around where the body was found, and other facts that appeared at the inquest, I do not think

it probable that this was a case of suicide. The inquest occupied two days, 28 witnesses being summoned and examined by John J. Higgins, district attorney for the northern district, who represented the government.

"From all the evidence thus presented to me, I am unable to form an opinion to the identity of the person who is responsible for the death of the said Annie Mullins. I am also unable to form an opinion as to the way and manner in which her death was affected other than is stated above.

"I, therefore, find that the said Annie Mullins came to her death on Friday, March 27, A. D. 1908, at Arlington, through a hemorrhage resulting from her throat being cut by a sharp instrument in the hands of some person or persons to me unknown."

In regard to the illegal sale of intoxicating liquors I can only reiterate what has been said in other years, that no complaint has been left unattended.

The Police Signal System still continues to give unbounded satisfaction; by its use the officer in charge of the station is in constant touch with the officers on their routes and during the year it has been put to some severe tests.

There have been 25,245 duty calls rung in by the officers during the year and 986 telephone calls sent it.

The boxes of the system are located as follows:

Box No.	12	at the junction of Mass. Ave. and Henderson St.
	14	at the junction of No. Union and Broadway.
	15	at the junction of Tufts St. and Mass. Ave.
	141	on Mass. Ave., near the Monument.
	21	on Medford St., near the cemetery gate.
	23	on Mystic St., near Fairview Ave.
	31	at the junction of Mass. Ave. and Mill St.
	32	at the junction of Gray St. and Bartlett Ave.
	34	on Pleasant St., near Kensington Road.
	41	on Mass. Ave., near Grove St.
	44	at the junction of Forest St. and Mass. Ave.
	412	near the Arlington Heights car barn.
	413	on Westminister Ave.

The Lockup. On numerous occasions during the year we have been obliged to put two persons in a single cell, in which there is hardly standing room for one, and in which the ventilation and plumbing is something beyong description.

At the last special town meeting an article was inserted in the warrant to see what action the Town would take in the matter.

A committee of five was appointed to investigate and report at the annual town meeting.

I wish that every citizen of the town would constitute himself a committee of one and personally look into this matter.

I sincerely believe that no intelligent person after so doing can remain unconvinced that common decency demands some of the changes asked for.

This department consists of a Chief, one Inspector with rank of Lieutenant, and six patrolmen.

The year just closed has been a trying one for the members of this department and I take this opportunity to thank them for their earnest effort to enforce the laws and maintain order.

I would recommend that the same amount as last year, namely the sum of $9,250 be appropriated for the maintenance of this department for the ensuing year.

In closing I wish to thank the citizens who have in any way assisted this department in their arduous duties.

To your honorable board I can but express my deep appreciation for the many timely suggestions made and assistance rendered.

Respectfully Submitted,

THOMAS O. D. URQUHART,

Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

ARLINGTON, MASS., Jan. 1, 1909.

To The Honorable Board of Selectmen of the Town of Arlington:

Gentlemen:—I respectfully submit my annual report of the Arlington Fire Department for the year ending Dec. 31, 1908, giving details of the force, apparatus, record of fires and alarms, with amount of loss and insurance on property endangered, as near as possible to be ascertained, also appropriations and expenditures together with recommendations and suggestions for the best interests of the department and town.

ORGANIZATION. The number of companies are as follows: one ladder company, three hose companies and one chemical engine company which is run in connection with hase company No. 2.

MANUAL FORCE. The force consists of 48 men.

1 Chief Engineer .....1 1st. Asst. Engineer
1 2nd Asst. Engineer and clerk 5 permanent drivers
1 Permanent Captain and driver....3 Call Captains
4 Call Lieutenants .....28 Privates
4 Substitutes.

The department has been unfortunate in the loss of one of its oldest members, Mr. A. F. Brooks who passed away Dec. 5 a man who gave the best part of his life to the department and who could always be counted upon to do his duty. We can ill afford to lose such men, but must abide by the will of the Almighty.

SALARIES PAID THE DEPARTMENT.

Chief per year	$300.00
1st Asst. Chief	100.00
2nd Asst. Chief and clerk	125.00

Permanent Captain and Driver per year	962.00
Permanent Drivers	936.00
Call Captains	85.00
Call Lieutenant	80.00
Private	75.00

Apparatus. The department has three Hose Wagons, one Relief Wagon, one ladder truck, one Chemical Engine and two Exercise Wagons. There are eight Hand Chemicals distributed on the different pieces of apparatus. The Relief Wagon has been added the past year being a discarded Hose Wagon from the City of Boston Dept. which was purchased for twenty-five dollars ($25.00) thoroughly overhauled and painted and now used by Hose Co. No. 3 and Ladder Co. No. 1 as Exercise Wagon. The exercise Wagon which has been used by Hose Co. No. 3, sent to Hose Co. No. 1 at Heights, which has always had to use their regular wagon for exercise purposes. Hose 2 and 3, Chemical and ladder truck are all in good order. I recommend that Hose No. 1 Wagon be put in shop and painted this coming year; this Wagon has been used for exercising purposes and therefore is not in as good condition as others and I believe it is good policy to have one wagon painted every year and not have them all come in one year as they did before.

Hose. There are 7,850 ft. of 2½ in. cotton rubber lined hose in the Dept., 1,300 feet having been purchased the past year. Most of the rest is in good condition excepting a few lengths which are old and therefore more liable to give out. Barring any accident will not need any more this coming year. Six hundred feet of hose which was not fit for use in Dept. was sold to Sewer Dept. and proceeds used for purcase of new hose.

Horses. There are eleven (11). Horses in the Dept. ten are in active service and one is used as spare horse. They are all in good condition and except for accident will last for a number of years. The Horses have consumed 1,031 bushels Grain, 56,500 lbs. Hay, 4,807 lbs. Straw; at a cost of $1,300.54 which makes the cost per week of each horse $2.39.

Houses. Outside of ordinary repairs to the buildings except Hose 2 house, in which bath-room has been installed and Hose 1 house, which has been painted, the buildings are in the same condition as last year. The building at the Heights, Hose 1, is in very bad condition, the sills are all decayed and building is settling fast. Do not think it advisable to lay out

any money there but recommend that the town take in consideration the purchase of a new location and erection of building for use of Fire Dept. The building of Hose 3, Broadway, is in fair condition but it is not large enough for the needs of the Dept. Additional room has to be hired at present time. A central Fire Station in the centre of the Town is needed and some movement to that effect should be started; owing to the size of present lot and the inability to purchase additional land, it is not advisable to make any extended repairs on building.

The fuel for Dept. cost $256.34.

APPROPRIATIONS.

The appropriations for the year ending Dec. 31, 1908.

General appropriations	$11,479.00
Special appropriation for purchase of Hose	625.00
Received for sale of old Hose	133.25
Received for sale of old Junk	7.50
Received for sale of old Manure	12.00
Received for sale of old Harness	15.00
	$12,271.75

EXPENDITURES.

Permanent men pay-roll	$5,539.97	
Call men and Engineers	3,168.75	
Hay and Grain	1,300.54	
Fuel	256.34	
Laundry	62.29	
Light	36.58	
New Hose	755.50	
Rent	35.00	
Repair on Apparatus	212.15	
Blacksmith work	186.58	
Repair on Buildings	313.37	
Incidentals For details see Auditor's report	400.63	12,267.70
Unexpended Balance		4.05

Fire Alarm. There have been 31 Bell Alarms, 40 Still Alarms and 1 Out of Town Call for help at Chelsea, April 12. The several companies have performed the following Fire Duty: Hose 1 has answered 31 Bell Alarms, 13 of these

covering in at Hose 2; 9 Still Alarms; traveled 74 miles, on duty 29½ hours, laid 1,000 ft. of Hose, used 13 Hand Chemicals.

Hose 2 has answered 31 Bell Alarms, 22 Still Alarms, traveled 95 miles, on duty 40 hours, laid 2350 ft. Hose, used 42 Hand Chemicals, used 935 gal. tanks, used 45 ft. of Ladder, also covered in at Hose 3 during absence at Chelsea fire.

Hose 3 has answered 24 Bell Alarms, 18 Still Alarms, also were sent to Chelsea, April 12, in answer to call for help, on duty there 12 hours, used 700 ft. of Hose (Hose 2 covered in while Hose 3 were away), traveled 69½ miles, on duty 40 5-6 hours, laid 7150 ft. of Hose, used 41 Hand Chemicals. Ladder Company has answered 31 Bell Alarms, 1 Still Alarm, traveled 69½ miles, on duty 26 hours, used 11 Hand Chemicals, used 340 ft. of Ladder, used 100 ft. of lin. Hose.

The alarms were as follows:

Jan. 14. Box 71, 6.03 A. M. Sylvia Street. Wooden dwelling owned by H. Glugeth. Value of building, $3,250. Insurance on building, $2,200. Value of contents, $600. Insurance on contents, $500. No loss.

Jan. 19. Still alarm, 6.15 P. M. Menotomy Rocks Park. Grass fire. No damage.

Jan. 19. Still alarm, 12.26 P. M. Menotomy Rocks Park. Grass fire. No damage.

Jan. 20. Box 4, 11.27 A. M. On vacant lot near 56 Gray Street. No damage.

Jan. 22. Still alarm, 11.20 A. M. Harvard Street, land of T. E. Blanchard. Grass fire. No damage.

Jan. 22. Still alarm, 4.40 P. M. Summer Street Extension, land of H. P.McManus. Brush. No damage.

Jan. 23. Still alarm, 9.48 P. M. Medford, land of W. H. Jones. Grass and fence. No damage.

Jan. 26. Box 36, 12.15 A. M. Post Office Building, owned by estate of Warren Sherburn. Fire in rooms of I. Candib. Value of building, $24,000. Insurance on building, $20,000. Loss on building, $290. Value of contents, $28,210. Insurance on contents, $20,800. Loss on contents, $750.

Jan. 31. Box 61, 5.15 P. M. 49 Claremont Avenue. Wooden dwelling owned by Jas. L. Dow. Value of building, $2,200. Insurance on building, $2,000. Value of contents, $600. No damage.

Feb. 5. Box 54, 7.23 A. M. 1 Park Avenue. Wooden dwelling owned by estate of John Brady. Value of building, $3,000. Insurance on building, $3,000. Loss on building, $35.

Mar. 11. Box 21, 9.39 A. M. 88 Decater Street. Wooden dwelling owned by John W. Dacey. Value of building, $550. Insurance on building, $600. Loss on building, $197. Value of contents, $800. Insurance on contents, $300. No loss.

Mar. 16. Box 39, 1.12 P. M. 751 Massachusetts Avenue, on property owned by Mrs. H. Y. Hill. Ash barrel outside of house. No loss.

Mar. 17. Box 25, 12.11 A. M. Near Franklin Street. Wooden storehouse owned by W. W. Rawson. Value of building, $800. Insurance on building, $500. Loss on building, $200. Value of contents, $500. Insurance on contents, $500. Loss on contents, $240.

Mar. 21. Box 56, 12.07 P. M. 123 Claremont Avenue. Wooden barn owned by E. H. Bartol. Value of building, $200. Insurance on building, $200. Loss on building, $200. Value of contents, ——. No insurance on contents; total loss.

Mar. 24. Box 32, 1.34 P. M. 232 Pleasant Street. Wooden dwelling owned by J. S. Pray. Value of building, $4,500. Insurance on building, $3,500. Insurance paid, $210. Value of contents, $1,500. No insurance. Loss on contents, $100.

Mar. 30. Still alarm, 7.04 P. M. Washington Avenue. Grass fire. No damage.

Apr. 1. Still alarm, 3.15 P. M. In wood off Sumner Street. Owned by Symes Hospital. No damage.

Apr. 1. Still alarm, 9.37 P. M. Off Robbin Road. No damage. Grass fire.

Apr. 7. Still alarm, 8.10 A. M. Off Robbins Road. Grass fire. No damage.

Apr. 7. Still alarm, 1.15 P. M. Rubbish pile near Parmenter School. No damage.

Apr. 10. Still alarm, 8.20 A. M. Grass fire on land of Lucy A. Whitney on Park Avenue. No damage.

Apr. 10. Box 71, 4.19 P. M. 1520 Massachusetts Avenue. Wooden dwelling owned by Julia A. Leahy. Value of building, $1,200. Insurance on building, $1,000. Loss on building, $25. Value of contents, $500. Insurance on, $500. Loss on contents, $77.

Apr. 12. 5.25 P. M., 10 blows. Out of town call for help. Hose 3 sent to Chelsea. On duty 12 hours.

Apr. 13. Box 35, 8.43 P. M. 13 Addison Street. Wooden dwelling owned by H. S. Adams. Needless. No fire.

Apr. 15. Still alarm. Brush fire. No damage.

Apr. 24. Still alarm, 2.25 A. M. Off Chestnut Street, on town dump. Rubbish. No damage.

May 4. Box 27, 10.33 A. M. Wooden shed on Mystic Street owned by Arlington Gas Light Co. Fire on roof. No damage.

May 15. Box 35, 1.55 P. M. Arlington Boat Club House on shore of Spy Pond. Value of building, $7,000. Insurance on building, $6,000. Loss on building, $25. Value of contents, $4,000. Insurance on contents, $3,000. Loss on contents, $10.

May 19. Box 14, 1.48 P. M. 72 Henderson Street. Wooden dwelling owned by Patrick Cashman. Value of building, $1,000. Insurance on building, $1,000. Loss on building, $560. Value of contents, $500. No insurance. Loss on contents, $150.

June 7. Still alarm, 3.25 P. M. Old lumber near ice houses, Linwood Street. No damage.

June 12. Box 13, 5.21 P. M. Cottage Avenue. Wooden dwelling owned by Geo. D. Lexson. Value of building, $1,500. Insurance on building, $1,200. Loss on building, $25. Value of contents, $800. Loss on contents, $25.

June 11. Still alarm, 3.30 P. M. Lowell Street, corner Bow. Wooden barn owned by estate of John Brady. No damage.

June 13. Still alarm, 3.30 P. M. 1351 Massachusetts Avenue. Wooden store owned by J. E. Duncan. Value of building, $3,500. Insurance on building, $2,600. Loss on building, $35. Value of contents, $2,500. Insurance on contents, $2,500. Loss on contents, $17.

June 20. Still alarm, 5.30 P. M. Linwood Street. Grass fire. No damage.

June 21. Box 47, 10.40 A. M. 23 Forest Street. Wooden dwelling owned by Mrs. Bruce Young. Value of building, $3,500. Iisurance on building, $2,500. Loss on building, $40. Value of contents, $700. No insurance. No loss on contents.

June 23. Box 27, 9.10 A. M. Wooden drug mill owned by Gould & Bros. Value of building, $8,000. Insurance on building, $5,000. Loss on building, $600. Value of contents, $5,000. Insurance on contents, $5,000. Loss on contents, $1,219.

June 25. Still alarm, 4.12 P. M. Medford Street. Grass fire. No damage.

July 3. Box 27, 1.02 P. M. Corner Russell and Mystic Streets. Grass fire. No damage.

July 3. Still alarm, 10.13. Corner Tufts and Massachusetts Avenue. Rubbish. No damage.

July 3. Still alarm, 8.30 P. M. Dump at Schouler Court. No damage.

July 4. Box 46, 1.34 A. M. Corner Brattle and Summer Streets. Wood shed owned by Mrs. A. Sullivan. Value of building, $50. Insurance on building, $50. Loss on building, $25.

July 4. Box 50, 5.24 P. M. 160 Westminster Avenue. Wooden dwelling owned by Mrs. A. Swadkins. Value of building, $1,600. Insurance on building, $1,600. Loss on building $125. Value of contents, $1,000. Insurance on contents, $1,000. Loss on contents, $40.

July 8. Still alarm, 5.03 P. M. Lake Street. Hay stack owned by J. J. Lyons. Small damage.

July 11. Still alarm, 10.33 A. M. Draper Avenue. Grass fire. No damage.

July 16. Box 14, 2.35 A. M. J. P. Squire estate, Massachusetts Avenue. Grass fire. No damage.

Aug. 4. Still alarm, 8.15 P. M. Lowell Street, on land owned by A. Bain. Rubbish. No damage.

Sept. 16. Box 52, 10.37. False alarm.

Oct. 3. Still alarm, 4.20 P. M. 1025 Massachusetts Avenue. Chimney fire. Dwelling house owned by Miss Woods. No damage.

Oct. 17. Box 46, 10.51 A. M. Off Brattle Lane. Wooden barn owned by Geo. H. Hill. No damage.

Oct. 19. Still alarm, 6.05 P. M. Mill Street. Rubbish on dump of H. L. Frost Co. No damage.

Oct. 21. Still alarm, 3.00 Park Avenue. Grass fire.

Oct. 24. Box 23, 9.17 P. M. Broadway. Hay stack owned by M. E. Moore. Loss on hay, $20.

Oct. 27. Still alarm, 5.25 P. M. On estate of Mrs. Peck, off Lombard Road. Henhouse. Small damage.

Oct. 31. Box 43, 1.57 P. M. Summer Street Extension. Grass fire. No damage.

Nov. 2. Still alarm, 7.12 P. M. Medford Street. Grass fire on land of W. H. Jones. No damage.
Nov. 7. Still alarm, 10.10. Forest Street. Brush fire. No damage.
Nov. 7. Still alarm, 12.16 P. M. Oak Street. Brush fire. No damage.
Nov. 7. Still alarm, 6.50 P. M. Boston & Maine R.R., near the Centre. Railroad ties. No damage.
Nov. 17. Box 36, 7.48 A. M. Wooden dwelling. Swan Place. Owned by Mrs. N. H. Knickerbocker. Value of building, $4,000. Insurance on building, $4,000. No loss. Value of contents, $600. Insured, $500. Loss on contents, $6.
Nov. 21. Still alarm, 10.25 P. M. 59 Winter Street. Wood dwelling owned by Thos. Coughlin. Needless.
Nov. 23. Box 25, 12.43 A. M. Wooden boilerhouse on estate of W. W. Rawson, off Franklin Street. Value of building, $2,000. Insurance on building, $1,200. Loss on building, $350.
Nov. 28. Still alarm, 12.14 P. M. Medford Street, in rear of St. Agnes' School. Grass fire. No damage.
Nov. 28. Box 47, 2.37 P. M. False alarm.
Dec. Still alarm, 9.45 P. M. Bartlett Avenue, on land of Hill estate. Brush fire. No damage.
Dec. 1. Still alarm, 7.20 P. M. Summer Street Extension. Brush fire. No damage.
Dec. 3. Still alarm, 7.30 P. M. Bow Street Grass fire. No damage.
Dec. 4. Still alarm, 10.00 A. M. Massachusetts Avenue, on land of Mrs. G. H. Sprague. Grass fire. No damage.
Dec. 9. Still alarm, 5.53 P. M. Pond Lane. Grass fire. No damage.
Dec. 11. Box 23, 5.07 P. M. 106 Broadway. Wooden dwelling owned by estate J. P. Squire. Value of building, $5,000. Insurance on building, $4,500. Loss on building, $50. Value of contents, $2,500. No insurance. Loss, $10.
Dec. 11. Still alarm, 3.40 P. M. Fire in chimney of house owned by W. B. Douglass. No damage.
Dec. 18. Box 39, 5.21 P. M. 24 Central Street. Wooden dwelling owned by F. S. Breen. Value of building, $2,200. Insurance on building, $2,000. No loss. Value of contents, $1,200. Insurance on contents, $1,000. No damage.
Dec. 28. Still alarm, 8.20 P. M. 28 Draper Avenue. Wooden dwelling. Burning lamp. No damage.

Value of buildings endangered	$79,550 00
Insurance on buildings endangered	65,450 00
Loss on buildings endangered	2,992 00
Value of contents	53,110 00
Insurance on contents	36,800 00
Loss on contents	2,844 00

Recommendations. I recommend the appropriation of $11,627.00 for the maintenance of the Fire Department for the ensuing year. This sum is necessary in order to maintain the department on its present basis and keep it there.

I recommend the extension of the high water service on Massachusetts avenue, below the present ending. There are quite a number of buildings in this section which, if a fire ever starts, we will need high pressure. I believe it is cheaper for the town to lay pipe and have plenty of hydrants than to buy

a steamer, and by having hydrants well located it also saves in use of hose.

I recommend that some action be taken toward a new building at the Heights. The present building is all out of repair and I do not believe it good policy to spend any amount on present structure. There are a few repairs which must be attended to, regardless.

There has been, of late, a movement started to form a Metropolitan Fire District, which will include Arlington. Nothing definite has been suggested yet. This movement is for the better fire protection in case of a conflagration, and means that a large fire-fighting force can be centered at the desired place in short space of time. It may mean the outlay of a sum of money in the near future, for a fire alarm system connecting the several cities and towns into one large fire district. All that we can do at present is to await developments. I think that it is a move in the right direction and will mean better fire protection in the near future.

Conclusion. In closing my report, I respectfully thank your honorable board for the courteous manner in which they have always received me in my official capacity. I also wish to thank all other officials of the town, who have so willingly given their services when called upon. To my assistant, and members of the department, my thanks for the able manner in which they answered all demands made upon them, making the work of the Chief a task of pleasure and great benefit to the town.

Respectfully submitted,

WALTER H. PEIRCE,
Chief.

REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, Mass., December 31, 1908.

To the Honorable Board of Selectmen, Arlington, Mass: —

I herewith submit report of the inspection of buildings for the year 1908. Eighty-four permits were issued covering work classified as follows —

		Estimated Cost
Dwellings, one family	29	$104,700
two families	13	60,000
three families	7	35,000
Additions and alterations	11	10,525
Stables and sheds	17	12,250
Storage Warehouse	1	8,500
Temporary	5	1,550
	83	$232,525

One permit transferred on building moved to new location.

The increase in valuation of the Town is indicated, in part, by a comparison of estimated costs of new buildings, additions and alterations for the past five years.

1904	1905	1906	1907	1908
$112,500	$212,550	$279,075	$181,000	$232,525

Total for the period, $1,017,650.

The Revision of the Building Laws in the near future will, I trust, bring about a better understanding of the Regulations both by the builders and the Inspection Department.

Respectfully submitted,

ROBERT W. POND,

Inspector of Buildings.

REPORT OF TOWN PHYSICIAN.

ARLINGTON, MASS., December 31, 1908.

To the Honorable Board of Selectmen : —

GENTLEMEN—I herewith respectfully submit report as Town Physician for the year 1908.

Number of office calls	42
Number of visits made	30
Emergency calls at police station	16

Fortunately, but minor troubles have claimed my attention. Only four serious cases stand out among the others, pneumonia, fracture at the elbow, advanced pulmonary tuberculosis, diphtheria (sent to Somerville Contagious Hospital), also two children were operated for adenoids and enlarged tonsils.

Among the emergency cases treated at the police station there was one death from fracture of the skull. A similar case was referred to the Massachusetts General Hospital. Two gun shot wounds were transferred to hospital for operation.

Respectfully submitted,

G. E. SANGER,

Town Physician.

REPORT OF INSPECTOR OF MILK.

To the Board of Selectmen : —

Gentlemen—I submit the following report for the year ending December 31, 1908. I have issued fifty registration certificates and twenty-two licenses for selling milk and cream. I have collected this year thirty-six dollars and paid the same to the collector.

I have collected this year seventy-five samples of milk and cream and tested the same and found them up to the state standard.

I have had three complaints reported to me on quality of milk and after testing the same found them of good quality and up to standard. The milk dealers of Arlington are trying to give the Town a good quality of milk.

Respectfully submitted,

FRANK P. WINN,

Inspector of Milk.

REPORT OF SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selectmen : —

Gentlemen—I have the honor to submit to you the following report for the year ending December 31, 1908.

The sealer of weights and measures has visited all the places of business in the town and sealed all scales and measures and the work is steadily increasing.

The laws that have been passed during the past year places more work and responsibility on the sealer. In the month of November, he must make a report to the state sealer. He is obliged to visit all stores and make a weighing test; also to inspect all milk teams to see that the bottles are sealed; also weigh some of the coal transported through the town and keep a record of the same. The following work has been done during the past year.

Number of weights and measures sealed :

Platform scales that will weigh over 5,000 lbs.	9
" " " " " under 5,000 lbs.	34
Computing scales	15
Slot weighing scales	3
All other scales	201
Weights	508
Dry measures	197
Liquid measures other than milk jars	103
Milk jars	11,880
Linear measures	6
Cloth and other measuring machines	21
Number of test weighing of coal in transit	17
Number of test weighing in stores	31
Number of inspections of milk jars in use on milk teams	21
Number of inspections of scales and measures used by junk collectors, hawkers and peddlers	34

Number of scales condemned weighing under 5,000 lbs.	7
Number of computing scales condemned	4
Number of all other scales condemned	16
Number of weights condemned	21
Number of dry measures condemned	23
Number of liquid measures condemned	8
Number of milk jars condemned	331

Respectfully submitted,

CHARLES F. DONAHUE,

Sealer of Weights and Measures.

December 31, 1908.

REPORT OF INSPECTOR OF ANIMALS.

To the Honorable Board of Selectmen of the Town of Arlington:—

GENTLEMEN—I have the honor to submit my annual report as Inspector of Animals for the year ending December 31, 1908.

There have been only two cases of glanders in horses and three cases of rabies in dogs.

In making the regular fall inspection, I have inspected one hundred and fifty one cows, five hundred and seventy-nine hogs, two goats and sixty-two stables in which these animals were stabled. In all cases the proper papers were given to the owners.

Respectfully submitted,

LAURENCE L. PEIRCE, M. D. V.

Inspector of Animals.

REPORT OF THE SCHOOL COMMITTEE.

ARLINGTON, Dec. 31, 1908.

To the Town of Arlington:—

Provided that the schools of a town are running in good order perhaps one of the best tests of the stability and effectiveness of its educational system is a study of the changes in its teaching force during a fixed period. The changes in our schools during the past year were as follows: High School: Arthur Delano, Fannie Myerson, Clara M. Trask, Ruth Tenney and Mary A. Weaver took the places respectively of Alfred L. Morgan, Myrtle C. Dickson, Angelina S. Weeks, Mabel E. Bowker and Ella Somerby.

Ninth Grade: Jennie B. Allyn took the place of Isabella H. Howe.

Russell School: Gertrude A. Woolner took the place of Mae Blackmar.

Cutter School: Charlotte Haliburton in the place of Josephine Davidson.

Crosby School: Ina J. Pearson in the place of Esther G. Hatch.

Locke School: Alice M. Connor, Lillian M. Tinkham and Bessie M. Hartshorn were engaged to take the places respectively of Lura P. Fitch, Philena A. Parker, and Mabel Darrah.

Special teacher in drawing, Fannie E. Fish, now has the position formerly held by Evelyn F. Cross.

From an examination of the above it will be seen that the number of changes among the grade teachers was normal and we are able to say that in nearly every case the change was caused by a final withdrawal from teaching. However, that in the High School was unusually large, and caused because other towns and cities were willing to pay more than we could afford. Because other resignations were about to be handed in by reason of such outbidding, it was found necessary to raise the maximum yearly salary to nine hundred dollars in order to retain some of the re-

maining teachers. It is pleasing to state that in spite of the resignations of these most excellent instructors that the school work has gone on smoothly and well.

William Finlay, who has acted as Janitor of the High School so faithfully for so many years, resigned his position in October. Richard Robbins, who has been appointed in his place, is, however, doing the work most acceptably.

In the spring the schoolhouse fire disaster of the Middle West stirred up the parents of Arlington pupils equally with those of other towns and cities. In order to comply with the expressed feelings of the townspeople as to the safety of our school buildings in the event of a fire, the State Board having this matter in charge was asked in to inspect all of our school property. The inspector of the above Board reported that in the main our buildings complied with the laws. He demanded some minor changes in regard to double bolts on a few outside doors, the painting of exit signs, etc. The only extensive protective measures asked for were the putting in of systems of fire gongs with pull attachments, instead of electric wiring, in all the buildings, and in the Russell School the placing of ground glass partitions with central swinging doors through the centers of the three hallways and the placing of glass panels in all the recitation room doors. After the opening of the schools in the fall, our Secretary was able to report that these demands had been fully attended to.

In passing, note might well be made of the strong sentiment against the Russell School Building among the parents who send their children there. It is not, of course, a modern building and has recitation rooms on three floors, but it will compare very favorably with many of the school buildings in nearby towns and cities, and it has recently been renovated and repaired at a considerable expense. Your Superintendent of Schools has both his own children attending there at the present time, and says that he has no fears whatever for their safety.

At the new Parmenter School a dry rot started in the partitions in the basement, which condition demanded attention during the summer vacation. Dampness and a lack of circulation of air are the causes of such rotting. The former was looked after by concreting outside the foundations and studying the action of the dry wells, and the latter by tearing down partitions. It is too early to state just how effective this work has been, and it may be necessary to under drain the whole building, as it seems the land on which the building was erected is of a springy nature.

Under a most excellent committee's charge the addition to the Locke School is now well under way, and will be ready for occupancy at the opening of the schools the coming September. The

building contains four recitation rooms each on the first and second floors, and there is a very good sized hall on the third floor. The heating plant is placed separately between the old and the new parts.

The new course of study along commercial lines added to the High School courses some four years ago, and the natural growth of the town have at last filled that building to over-flowing. At the last Fall town meeting a committee was named to consider the housing of the ninth grade and to return its findings at the March meeting of 1909. It is well that this committee is a strong one, because the problem that they have to solve for the town is an extremely difficult one. When they bring in their report to the town it should be studied most carefully, for it will probably cover needs for the future as well as for the immediate present.

The new course of study for the grades spoken of in our last report was put into operation September last, and it seems that our Superintendent and grade teachers have done their work most admirably.

The Superintendent is now working out a new course for the High School, which will broaden the electives most fully, and we hope will remove from parents' minds the impression that the classical course of study is being looked after more carefully than the others.

The sub-committee having in charge the course of the Pratt Fund free lectures at Cotting Hall has secured some excellent lecturers during this year, and the parents are especially invited to attend these not only to hear the lectures but also to meet the teachers, as it is well known that there is not as strong a bond between parents and teachers in the High School as there is in the grades. A school can do its best only when there is intelligent and cordial co-operation between teacher, parent and pupil.

The merchants of the town will please take notice that a new order system for supplies has been established by the Secretary of the Board and they should supply nothing to the schools, unless it be in the case of an emergency, without a written order therefor.

Mr. Herbert W. Rawson, because of increased business responsibilities was compelled to resign his position on the Board in the early fall. As yet no one has been found to take his place. This failure to procure a new member is not the fault of the members having the selection in charge. The several men who have been approached on the subject have not been willing to enter upon the work. In addition to this vacancy, other new members must be chosen for another year because of the retiring of present

members. The committee does not like to make the selections, because then the charge is rightfully brought that they are attempting to be a self-perpetuating body, but if they do not act, the selecting may go by default. There must be more attention paid to the choosing of new members for this body and that attention must be given by the whole town.

This present committee stands in the same position in regard to the desirability of establishing small primary school buildings throughout the town as former committees have stood, but it has found that the cost of such is too great per pupil, and the town is not wealthy enough to stand such a burden.

Arlington is facing a most serious school problem at the present time because of the overcrowding of the neighboring cities of Somerville and Cambridge. Apartment houses are being built here and will continue to be built here more than any other style of dwelling, and this will cause the school population to increase far in excess of the taxable property added. There is no doubt that the Crosby School will soon be overcrowded. Further than this the problem of industrial education will soon play a large part in the American educational world, and all new buildings must be built with rooms for those additional courses in view. It has seemed wise at this time to point out some of these larger questions in order that the people may not be taken too much by surprise when they are presented to them for immediate action.

The expense of running the schools the coming year will advance a little more than normally because a male principal and four new teachers must be added to the Locke School force in the Fall and one more male teacher to the High School corps. In addition to this expense must be added the extra outlay for new supplies for the rooms, viz., books of reference, maps, etc., a larger amount of coal than before, and an increase of pay for the janitor. At this time we estimate that the amount to be called for will be about $66,000.

The Board feels and knows that many people of the town are seriously interested in its work because its leading citizens when called on for advice and help, always seem willing to give such aid most unselfishly. We are searching at all times for intelligent criticisms of our doings whether such criticism be favorable or adverse. No Board does its best when its work meets neither approbation nor censure.

We desire especially to thank the gentlemen of the two committees who are at the present time giving their assistance to the town on the subject of the future housing of its pupils.

We also wish to thank most sincerely the Arlington Woman's Club, which has been doubly generous this year in the amount it

has voted for school decoration. People who do not visit our schools should do so at least to see how beautiful the school-rooms have been made by this excellent organization.

We have tried to be economical but not niggardly in our handling of the appropriation which you have so generously placed in our hands, and hope that for the larger part you may have viewed our work favorably.

Respectfully submitted,

WALTER MOOERS,

Chairman.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Committee of Arlington:—

The rules of the School Committee require that the Superintendent shall prepare and present in January to the Board for publication an annual report of the condition of the schools for the year preceding, together with such suggestions and statistics as he may deem worthy of consideration. In compliance with these rules, I present to the Board the following report for the school year 1907-1908.

Our schools have made commendable progress during the year. The discipline is good in every school, and in general children are well taught. The new course of study of which your chairman has spoken meets with the warm approval of principals and teachers, and is giving a uniformity of effort that is sure to produce good results. New teachers find it a definite guide and old teachers find in its suggestions an inspiration to renewed effort.

This course of study as printed is the result of an outline furnished by the Superintendent as a guide for school work during the year. With this as a basis, grade meetings and conferences to the number of thirty-three were held during the year. In these meetings various phases of the work were considered and fully discussed. Enlarged outlines embodying the points decided upon, including a time schedule, were finished in June. To lay out the work in all subjects in one year proved a serious and difficult task, and I desire to express here my appreciation of the hearty co-operation given by the teachers of the town in this work. That the course is a practical one for our schools was made certain by the trial given it during the year.

To make a good course of study requires a knowledge of the education needed by a child to take its place as an individual and as a useful and happy member of the social world; of the child's environment; of the laws governing child growth and development; of the various branches of knowledge which should be taught; of the principles which should govern the selection of material for the different periods in the child's life; of the relative amount of time which should be devoted to each subject; and of the amount of ground that should be covered in the school year.

A course of study is never complete. It needs constant revision to keep it in harmony with sound educational thought and practice, and with educational progress.

A change which must come in our course of study for the grades is along the line of industrial training. Many boys and girls come to a point in our elementary schools where they fail to find genuine opportunity. They fall short in intellectual processes, and because the school offers no substitute, drop out at fourteen and enter, once for all, low-grade industrial pursuits and lives of social, moral and financial uncertainty. It is industrial education that has brought real opportunity to the negro and the Indian, to our own mentally, morally and physically defective, and especially to our juvenile delinquents and youthful criminals.

Here is the problem which confronts the twentieth century authorities. The school has taken over responsibility for education which it formally shared with the home and the farm. The school has taken over most of the responsibility of preparing the rank and file for the society in which they are to live, but as yet we have not discovered how to supply the important elements of education that, in other days, were provided through activities outside of the school. There is a chasm between our educational systems and our modern industrial life. On the one hand, discouraged boys and girls, abnormals, delinquents, dullards and truants find themselves unable—mentally, socially and physically unable—to continue with credit in our cultural programs. On the other hand science, invention and specialization continue to draw them from the old-time chores, the light jobs, from the fireside, farm and work-shop, and transplant them behind the closed doors of our factories. The schools so isolate themselves from the industrial world, and receive so little inspiration from the industrial age in which we live, that thousands of boys and girls leave the elementary schools year after year with only the rudiments of book learning, to soon find themselves helpless in the whirl of industrial socity, and so drift about from one low-grade pursuit to another, or else become corner loafers.

The time is not far distant when we shall be obliged to introduce into the daily program of the primary and grammar schools a comprehensive system of industrial training, whose graduated activities may be pressed to the highest point of interest and usefulness, but never to routine and drudgery. I believe this will not be accomplished in a school day of five hours, but that added time will be given to the school day, that this may be accomplished without depriving the child of the proper amount of time devoted to the essentials.

There are people who still believe that the course of study contains unnecessary branches which they are pleased to call fads

and frills, but, as I stated in my report one year ago, every addition to the list of studies has been strongly contested at every step by the forces of conservatism and reaction. Only those things have survived which have the strength and vitality born of true worth. Many people seem to think that what has been should continue to be, and that the ways of their fathers are necessarily the best ways. When this course of reasoning is applied to present-day business, it always leads to failure. Some appear not to know that the education of children is receiving, and for some years has received, more careful study and scientific investigation than almost any other field of human activity. Natural development of the child and the best means of training his unfolding powers are better understood today than ever before. Education is much more of a science, and teaching much more of an art, than at any time in the world's history. Many people in Arlington appreciate these facts; most do not.

The special studies, Drawing, Music, Sewing and Physical Training, have never been so efficiently taught in our schools as at present. This is the natural result of the increased training and experience of our teachers. There are many who look upon these special studies as interlopers in our course of study which have gained no right to be there. A century ago the same objections were made to reading, geography and history. The idea seems to possess many critics of our schools that these studies are in the course by the dictum of the school-master rather than as a response to a public demand. But this does not appear to be borne out by the evidence. This matter was under discussion in New York City not long ago, and an attempt was made to get an expression of opinion from parents. One of the newspapers sent out postal cards to parents in one of the sections of New York in which people of the better class live, asking them to state whether, in their opinion, it was desirable to retain the special studies or to drop them from the course. The vote was as follows:

	For	Against
Physical Training	6656	841
Music	6341	1080
Drawing	6267	1068
Sewing	5336	1720

The vote of parents interested was taken under similar conditions in Providence. Postal cards were sent to all parents having children in the grammar grades. Nearly all responded. The results were as follows:

	For	Against
Music	4726	173
Drawing	4663	222
Physical Training	4652	231
Physiology	4117	757
Nature Study	3844	1004
Manual Training	3360	1047

Parents who wish to have Music retained are 96.5 per cent. of the whole number; Drawing, 95.5 per cent.; Gymnastics, 95.3 per cent. If our schools are to be the people's schools, these studies are evidently in the schools to stay. A very common delusion that holds sway in the minds of many people is that the attention given to these studies detracts from the efficiency and thoroughness of the work done in the old-time studies. As I showed in my report of two years ago, this is certainly not true of the schools of Arlington. The enriching of the course of study has been accomplished not only by introducing these new subjects but also by a more scientific teaching of the old subjects.

High School. At the present time, High Schools all over the country are under fire. The practical success of our present-day schools is being seriously questioned. The trend of opinion seems to be that outside of the college preparatory work, our schools fail to prepare boys and girls to do work of any kind, especially of the practical kind. Our High School is doing excellent work in the preparation of pupils for college. Last June, 11 took examinations, either preliminary or final, for Harvard or Radcliffe. In all, subjects aggregating 129 points were taken. Every pupil passed every examination taken. Other students entered Dartmouth, Tufts, Institute of Technology, and Wellesley, also well prepared.

This year we shall graduate our first class taking the full Commercial Course, and, unless our experience is different from that of neighboring High Schools which have graduated classes, the graduates will be in immediate demand. At present there are 90 different pupils taking the Commercial Course, arranged as follows: Seniors 10, Juniors 14, Sophomores 21, Freshmen 45. The course has proved to be popular and is keeping many pupils in school who would otherwise have gone to work.

The High School course of study needs revising, and by the end of the school year a new course of study will be presented for your consideration. English, to my mind the most important study in the curriculum, is not placed on the same footing as other subjects. Experience is making it more and more evident that thoroughly adequate work in English, both composition and literature, as well as technical language, means a time allowance

equal to the highest time allowance given to any subject. Latin, in our program, offers twenty periods to pupils taking the college and classical courses, while English in all the courses offers but eleven periods. Students of Latin and Greek get a very valuable incidental training in English, and can therefore get along with less formal English than pupils in other courses. The small number of periods, however, make very long assignments necessary. I believe that five periods a week in English should be prescribed for each year in the Commercial and English Courses, and that the time allowance in the College and Classical Courses should be increased. All of this need not be prepared work; one or two periods may well be done in school under the immediate direction and supervision of the teachers. The State Superintendent of New Hampshire has lately refused to give his approval to a course of instruction in High Schools in which English is not given an amount of time equal to, or greater than, the time given to any other subject.

Two years does not seem to be sufficient time to do thoroughly the amount of German that is now required for college entrance examinations. A course of commercial correspondence in both French and German should prove valuable as an elective in the Commercial Course. Algebra should continue through the first year of the course and geometry be given in the second year. Less required work and more electives should be arranged for the first two years. Various other changes and additions are under consideration.

The modern way of expressing requirements for graduation is by points. One recitation per week for one year counts as one point. A system of credits based on points will be presented for your consideration.

In providing increased accommodations for the High School any plan will be incomplete which does not take into consideration the demand for industrial education. In my last report I spoke at some length on the growth of a popular demand for some forms of industrial training to be grafted on to our present school courses. The Governor of the Commonwealth of Massachusetts, in his inaugural address of a few days ago, spoke of the crying need in this direction. The Boston Herald characterizes the part of his address on industrial education as "the most important feature of a practical inaugural address." The Governor speaks from experience as a manufacturer and an employer, and bases his opinions on actual contact with the problems of unskilled labor. On the part of the individual the demand for an extension of educational facilities along industrial lines is based on the plea that the State's duty to the child is to furnish him with a reasonable educational equipment for life, whether his

vocation is to be along academic or industrial lines. The public school system of the present is devised to meet the academic requirements, however far short of that purpose the results may be. The youth in pursuit of industrial equipment finds comparatively little advantage in the academic courses of the higher grades. Excepting where special industrial courses have been established, he is inclined to drop out of the public school before the course is finished, because of the lack of attraction and incentive to continue. The result is a constantly increasing product of uninstructed labor from which industry suffers.

The Governor is of the opinion that the method of education in the Grammar and High Schools can be shaped in such a way as to possess an attractive value for pupils whose life work is destined to be in the trades.

On the other hand, he recognizes the fact that the success of industry demands specialized training, which cannot be provided by incidental courses of manual instruction in connection with existing academic schools. He is firmly convinced of the necessity of special industrial schools, maintained, in part at least, by the State, and providing for the higher industrial education which will furnish the technical workmen needed in industry.

Promotions. For the last two years, special efforts have been made by most of our teachers to help the slow and immature children along by giving as much time as possible to individual instruction. The number held back has been gradually reduced each year. In 1905-1906, 14.4 per cent. were repeaters. Last year in the elementary grades 13.4 per cent. of the pupils were obliged to repeat the year. In June, of this year, it was found ncessary to keep back 12.5 per cent. in the grades, while many were allowed to go into the next grade on trial. The wisdom of promoting on probation is shown by the fact that of 208 children who were given a trial, only 11 failed and were obliged to go back.

It is inevitable that some shall have to repeat the work for the following reasons: Prolonged absence because of sickness, physical defects of sight, hearing, nerves, adenoid growths, etc., abnormal mental ability, natural slowness in all mental operations, outside interests, indifference to school that teachers cannot overcome, studies that fail to attract or interest, lack of ability in some one subject, a curriculum too full for the unscholarly, classes too large to allow individual instruction, and the natural tendencies of teachers to work along lines of least resistance.

No complete remedy can be found for this state of things, but surely everything possible should be attempted by way of relief. A physical examination will show how certain defects may be

remedied by parental action. Outside interests that distract may be controlled by the same authority. In all our classes we should emphasize the essentials and ignore details that now absorb too much attention; teach the fundamental principles without attempting to present every remote application of them. The accepted psychological law that the dull and slow of intellect are stimulated and helped by motor activities can be applied; uniform attainments should not be insisted upon; superiority in one study should be allowed to make up for deficiency in another.

The chief obstacle on the part of the pupils is the natural indifference to all purely mental school interests. The chief obstacle on the part of the system is large classes which are necessary because of conditions. We have many classes with an average of nearly 50 pupils, and at the present time five classes of over 50 pupils. It is evident that mass instruction becomes imperative, and individual instruction well-nigh impossible. Teachers must have time to study the individual child, find his weaknesses, and "get next to him" in order to awaken and develop his latent powers. In the Cutter School, where we have an extra teacher because the fourth grade has 56 pupils, we are this year having the assistant help backward pupils in several of the other classes. It is working admirably, and it would be a great help if other school buildings had a floating teacher whose work would be to assist backward children in any grade. Such a teacher should be a woman of experience and skill, kind and sympathetic, to awaken the ambition of these backward pupils. Such instruction would save many a child the wasteful prolongation of his school course. The two hundred children who are this year repeating at a cost of $30 each, are costing the town $6000, enough to pay ten extra teachers.

If every member of the present ninth grade should graduate in June, the statistics of the class will be as follows: Two will have finished the course in seven years, nineteen in eight years, forty-seven in nine years, forty-seven in ten years, eight in eleven years, and one in thirteen years. This means that 17 per cent. will have finished the course in less than the regular nine years, 38 per cent. will have taken one extra year to complete the course, while 6 per cent. will have taken two extra years to complete the course. In all 45 per cent. will have taken more than the regular time for the elementary school work. The average time per pupil amounts to nine years, four months, and the average age is fifteen years. Isn't this too long to spend on purely elementary education? Should we honestly expect the majority of a class of this average age to continue through the High School? Should they not enter the High School at an average age of nearly a year less? These conditions are not peculiar to Arlington, nor is our

experience unusual in this regard. In Somerville last year, the average time was nine years, three months, and the age at graduation was fifteen years. Cambridge has had for years an excellent skipping system which gives every advantage to the brighter pupils, and yet, for the last five years, the time taken by graduates, as a whole, to complete the course averages nine years, one month.

It is coming to be generally recognized that nine years is too long to spend on the elementary school work. Outside of New England an eight-year course is practically universal. Boston, Providence, New Haven, Bridgeport, Portsmouth, Quincy, Milton, and Reading are among the places in New England which have adopted an eight-year elementary course. I have communicated with the Superintendents of all of these places, and without exception they give a hearty endorsement of the plan and its result. I will quote a few of the replies I have received which were included in the answers to a questioniare which I sent recently to Superintendents and leading educators in New England.

The questions were as follows:

Superintendent ————————, ————————.

In the schools under your charge, how many grades are there below the High School? (Not including the kindergarten.)

Have you kindergartens?

Has any change in the number of grades below the High School been made in the last ten years?

Are you contemplating any such change?

If you have changed from a nine-grade to an eight-grade system, what were the principal reasons for the change? (Kindly answer on the back of the page.)

Has the eight-grade system proved satisfactory?

If you have nine grades, do you think a change desirable?

Why?

Is your highest grammar grade working in the High School building under High School conditions?

Do you think such an arrangement desirable?

What so-called High School subjects are taught in your upper Grammar grades?

Have you a sub-freshman class in your High School?

In your High School, how many years are given to the following courses: English or General ——; Commercial ——; Scientific ——; Classical ——; College ——.

What is your opinion of the following arrangement: Eight-year course for Grammar and Primary Schools; High School course comprising four years in the English and Commercial courses, and five years in the college and technical courses?

"I am inclined to favor an eight-year course for the elementary schools. In fact, I argued for it in a Boston report several years ago. They have just come around to it.

"I am not so sure about a five-year course in a Classical High School course. It has seemed to me that a student who ought to go to college ought to be able to prepare in four years."

GEORGE H. MARTIN.

"We changed from nine to eight grades because we believed that the kind of work necessary to be done in the Grammar grades could be done in eight years.

"It is not a fair statement to say that we are trying to do nine years' work in eight years. That is not the problem. Can the pupil of ordinary ability do the necessary work of the elementary grades in eight years and prepare himself thereby to do the required work of the High School? I know he can do it, if he is fortunate enough to have the right kind of teachers."

"Nearly all the Maine cities and towns have nine grades below the High School. A few of the larger towns and cities have separate kindergarten systems. In others, efforts are made to combine the kindergarten work with the lowest primary grade. I do not note any general tendency in the State toward an eight-grade system and, at present, I should not consider a change of that kind to be desirable, save possibly in a few of the most highly organized school systems.

"In a large number of towns and cities the highest Grammar grade carries on its work in connection with that of the High Schools. This arrangement is usually made through necessity rather than because of any educational advantage. It is my opinion, however, that such an arrangement has many advantages. I think we should welcome any change which will tend to emphasize the unity of the school system.

"In nearly all our High Schools four years are given to the several High School courses. With regard to the last question you raise I would say that, under present conditions in Maine, I am not inclined to favor the eight-year course for Primary and Grammar Schools, but I think I might do so provided the school year should be brought to a more nearly uniform length."

"Most of your program seems clear enough. The five years for the college and technical courses would depend on the student. The trouble is that our children get into the High School too late, anyway, and consequently too late in life. This is a serious matter and is a recognized problem. Nobody seems to solve it very

well. Would not a simple solution be to do simply as Dr. Butler recommends and cut down the admissions to the college, making the college work simpler?"

"Essential preparation can be given as well in eight as nine years—often better. Duplication of work is wasteful. The chasm yawns, no matter where the break comes between Grammar and High Schools. Better let the shock come early enough to be eased somewhat before that youthful period arrives when all have a tendency to leave school.

"The wasted money and time are too valuable a loss. School officials need the money cost of that extra year; the pupil is entitled to the time; both often need the room.

"I believe that the six-year elementary course and six-year High School course is ideal. Under such arrangement the whole curriculum would be arranged much to the advantage of the pupil. Our situation, however, is not that. Our eighth grades are in the High School building because there alone have we room for them.

"The colleges must and will get reasonable soon. Sixteen years is enough time to give to a college education. Better give five years to general courses and four to college preparation if any difference is to be made.

"I do not favor the five-year idea. Good schools have no trouble in preparing pupils for college and scientific schools in four years. Why dawdle in this work? Eight years for elementary schools, four for High Schools, and four for college is enough time for a boy to spend in preparing for life."

"We changed from a nine-year to an eight-year system principally for the following reason:

"Our pupils are admitted from the kindergarten into the elementary schools at the age of five years. Approximately fifty per cent. of the pupils have entered grade one in previous years at an average age of five years, while the remaining fifty per cent. averaged about six years. Under the old system the work of grade one was too advanced for many of the former and too simple for the majority of the latter. Undue forcing in some cases and dawdling in others, among other things, were natural. The average child entering school at five years of age has neither the mental development nor the power to do the average work that the child has who enters at six. Under the new system the work of the sub-primary grade will largely consist of extended kindergarten work and will be adapted to those who have not the ability to do the work of grade one in one year, while those who are able

to do the work without injury to themselves will not unnecessarily be held back.

"In general, it may be said that the change provides better opportunities for completing the course of study without dawdling or overworking, and, in the majority of cases, in less time than formerly. Besides, it will make it possible to compare our work, grade by grade, with the large majority of cities and towns in the United States which are working under eight-grade systems, and whose pupils are admitted at the age of six years."

"Some pupils can do the work accepted as elementary in eight years, some require nine, the school is better organized on the basis of the abler pupils. The younger pupils also do better High School work."

In our ninth grades the only purely grammar school work now done is included in a sixteen weeks' review of arithmetic, and the continuation of the work in language and grammar. The High School subjects pursued are: Latin (elective), Algebra (24 weeks), and English History. A half-year's High School work, at the least reckoning, is covered in Grade IX. Why not give pupils High School credit for this work?

The additional work to be done in the first eight grades to complete the grammar school course is small, and may be provided for without additional strain upon the children. This has been anticipated in part by eliminating from the courses in arithmetic and grammar subjects that are not essential in practice, or of great value for mental development. Further eliminations are possible without sacrificing the practical or cultural value of the course. The plan is economically sound. If this change were made, it would mean that the majority of the pupils would complete the work of the elementary schools on an average of a little more than eight years instead of more than nine years as at present, and the Town would thereby save a year's tuition for every child completing the grammar school course. It would bring a still more valuable result in that the boy who is to go to work after completing the High School course may begin his business career a year sooner. This fact should result in keeping many more boys coming from homes of moderate means in the High School until they are graduated.

Moreover, it is the general belief among medical men and students of education that we force children too early into the routine of school life; that, at the age of five, it would be better for them to play about their homes and in the open air than to be subjected to the confinement of the school room. Many people in Arlington have hesitated about sending their children to school

at the age of five, and have done so only because of the feeling that, if they did not do so, they would continue through school a year older than the average of the class. The susceptibility to contagious diseases decreases rapidly as the child grows older, and hence the advisability in many cases of postponing the school life until the balance of advantage is clearly in favor of his going to school. If advisable, the age of entering our schools might be raised to five and one-half or even six years.

The report of the Commissioner of Education of the United States contains, among other statistics, the enrollment in the kindergartens and elementary schools in certain cities of 8,000 population and over for the year 1906-1907. This table records 386 cities, and it is interesting to note that of that number 80 have ninth grades, and that of that 80, 31 are in Massachusetts, and that practically the only places having ninth grades are in New England, New York, and Pennsylvania. Time and money can be saved, I am sure, if our school system is changed from a thirteen to a twelve-years' course. I therefore recommend such action as will give us a system that is in line with the best educational thought of the day.

School Attendance. Special efforts are being made this year to keep pupils from leaving school before graduation. Teachers and principals are doing what they can to prevail upon parents to allow their children to remain in school. Immediate notice is sent to the Superintendent when any child leaves school for other reasons than removal to some other town. The pupil who is poor in his work, who learns slowly, who gets discouraged, or who does not behave himself, is the particular one who needs help to lead him into better ways. The school should give help and encouragement if it would accomplish the work for which it is fashioned. It is perfectly natural for the teacher to wish to be rid of those pupils who are slow or stupid, or badly behaved, but it is almost a crime to encourage such children to withdraw from school and so go out into life handicapped by lack of knowledge and mental development. There are, occasionally, children who have absorbed from the school all that they are capable of getting from it, and further time spent in school would be wasted time. Because we have no motor activities to which such children might devote themselves, and so obtain some mental development, it is perhaps as well that they should leave school. From September to the present time 113 have left school from all the grades. By schools the losses are as follows: High and ninth grade 11, Crosby 33, Locke 21, Cutter 14, Russell 33, and Parmenter 1. The reasons for leaving are: Moved to other cities or towns, 76; to go to work, 11; removed to other districts in Arlington, 13; failed

to pass probationery period, 2; to attend private and parochial schools, 1; sent to truant school, 1; too immature for first grade, 1. Most of those who have left to go to work have done so because the help was actually needed at home.

This does not mean that our membership has diminished 100. New pupils have been coming into the schools so that the membership for the month of December is practically the same as for the month of September.

School Attendance. The daily attendance of the children in our schools continues to be very satisfactory. The slight falling off in the per cent. for this year (.3 per cent.) is due to the epidemic of measles last spring. The per cent. of attendance could be raised considerably if the Superintendent of Schools were more liberal about ringing the no-school signal on stormy days. The question of striking the no-school signal is a difficult one to decide. There are days when there is a heavy rain storm and driving wind, and there are days in winter when there are heavy snow storms and deep drifts, when it is much better for the children to remain at home. On the other hand, it must be remembered that the no-school signal deprives 2000 children of instruction in the public schools. This does not mean, of course, a direct loss, because the work that would have been done on these days, must be done in the regular school course, anyway. I feel, however, that it should not be rung except when the children run risks from exposure to storms. Our New England weather is such a variable quantity that even with the daily weather predictions one cannot be sure in the morning what the weather will be an hour later. One is likely to make a mistake of judgment either way. If the Superintendent does not ring the no-school bell, and the weather proves to be bad when the time for going to school arrives, parents are at liberty to keep their children at home. If, however, the no-school signal is rung, and weather conditions improve, so that it would be best for children to attend school, there is no way of undoing what has been done. Superintendents on this side of the city on stormy mornings usually call each other up by telephone, and try to decide what is the best thing to do, and then work in harmony.

A spirit of hearty disapproval of tardiness and of tardy pupils has developed in most of our schools, and the matter has thereby been taken almost entirely out of the hands of the teachers and looked after by the class. The pupils look upon a tardy pupil as an offender against the good name of the class. They take great pride in the tardiness record of their respective rooms. No punishment except the disapproval of teachers and classmates is meted out. I can find no records back of 1905-1906, but on look-

ing over the registers for the year 1904-1905, I find that with an average membership of 1662 there were 3227 tardinesses, which amounts to almost two for every pupil. In the year 1905-1906 with the average membership of 1719, there were 2170 tardy marks, making an average of 1.27. In the year 1906-1907, the average membership was 1778, and the tardy marks numbered 1827, or 1.03 for each pupil. Last year, while the average membership increased to 1883, the number of tardinesses was reduced to 1418, or an average of ¾ of one tardiness for every child in the average enrollment. It may be seen that the improvement has been persistent and steady. The record for this school year to the present time is a great improvement over the corresponding period of a year ago. The Crosby eighth grade has had no tardinesses for the 18 weeks that have elapsed since school opened in September. The Russell fifth grade, the Crosby seventh, and the Cutter eighth have had 16 consecutive weeks without tardy marks. The Parmenter fourth grade has had 14 consecutive weeks, one ninth grade and the Cutter first grade have had 12 consecutive weeks, and the Locke fifth and the Crosby third have had 10 consecutive honor weeks. These results show what can be accomplished when we have team work—teachers and pupils pulling together for one purpose.

Health. One of the chief duties of the modern school is to care for the health of the child. The heating, ventilating, lighting, and care of the building are matters of the greatest importance. Bright, clean rooms with an abundance of fresh air of the proper temperature promote mental effort as well as good health. The causes which occasion disease may be divided into two groups, constitutional and environmental, but we know that men of vigorous constitution do not always succumb to conditions and diseases due to environment, while those who are weak and have a feeble constitution are not only the first to contract the diseases that enter the system from without, but are also the first ones to contract diseases that arise from within. Inasmuch as the children of the public schools represent the weak, as well as the strong, come from homes that may be sanitary or unsanitary, or live in sections that may be active or indifferent to the requirements of public health, it devolves upon the school to take the best of care of the health of the child during the time he is in school. In doing this, we are also educating him in the value of fresh air and clean personal habits.

A breach of discipline is not to be wondered at in a room in which the children cannot get a sufficient supply of oxygen, and therefore cannot concentrate upon the lesson. Inattention, mischief, and insubordination are sure to result. The effect upon

the teacher is equally mischievous, for however amiable and loving she may naturally be, she is likely to become a loveless scold under conditions which render good temper and sane judgment impossible. Most of our rooms are well ventilated and sufficiently heated, but it is easy to understand the difficulty of keeping the air pure in a room containing 50 pupils, many of whom come into the room with unclean clothing, saturated with the odors of a kitchen which is never ventilated. The principals, teachers, and janitors must be ever on the alert and pulling together to accomplish good conditions under such circumstances.

The physical exercises or gymnastics are proving an excellent aid to the good health of our children. In any complete system of education, physical training has an important part, for practically everyone now is coming to realize that in order to develop the strongest mental child it is necessary to develop a strong physical child. During the five hours which the child spends in school on each of the two hundred days of the school year, he must remain in a sitting posture three-fourths of the time. The results of this extended and regularly recurring physical inactivity, during that period of life when the child needs motion to enhance growth and general vigor more than at any other period of his life, are hindered blood circulation and insufficient respiration. The round-shouldered, gaunt-necked, flat-chested and awkward school child needs carefully chosen exercises to correct his physical shortcomings. The continued and often faulty sitting necessitates repeated corrective exercises. Physical inactivity always produces awkwardness, and, therefore, marching and rhythmic exercises, as well as other forms of leg exercise, are valuable in giving ease and grace in handling the body. Not the least valuable feature of our gymnastic exercises is the thorough enjoyment which the children get from them. Visitors from other places frequently remark that our children sit and stand better than they do in most places. With all our efforts here in America, we are still far behind some foreign nations, notably Germany and Sweden, in our care for the physical well-being of school children.

Long before the State law made medical inspection obligatory, Arlington had established an excellent system. The report of the school physician will be found appended. The work proceeds without friction. This is due largely to the good judgment of our inspector in dealing with children. His greatest value lies in his success in discovering incipient cases of contagious diseases, and by removing them from school, preventing disease from becoming epidemic. Through his efforts pediculosis has been practically eliminated, and children come to school cleaner. The public has faith that the school is a safe place for the children to be in.

The law demands that the sight and hearing of every child shall be tested annually. The results following the enforcement of this law have been salutary. To many closely associated with the children of the schools, it seems a pity that the law should not be made to include dental inspection as well. The mouth of one whose teeth have not received proper care is a veritable culture tube for deadly bacteria, which later find their way to other parts of the body.

It has been said that 94 per cent. of school children have decayed teeth, and that not infrequently cases of tuberculosis can be directly traced to this cause. Medical authorities also claim that an impaired condition of the throat, nose, ears and eyes is the result of lack of proper attention to the teeth. The New York bureau of municipal research in its report states that out of 1442 children examined 74 per cent. were in need of proper dental treatment. The fact that dental "cripples" cannot get the full nutritive value of their food illustrates the dangers that are sure to follow a simple case of tooth rot.

Prominent dentists for some time past have noted the alarming growth of disease among young school children, the origin of which could plainly be traced to neglected teeth, and have at last banded for the purpose of correcting the evil before it spreads. We have noticed that at least two-thirds of the children who are backward in their school work have poor teeth. The importance of this matter is being recognized, and in several towns and cities dental inspection has become a reality, and in several foreign countries it is a national requirement. Paul Gardiner White, D.M.D., to the Boston School Masters' Association, says in part:

"Infectious or contagious diseases are now recognized to have their origin in minute vegetable organisms known as bacteria.

"The mouth under the most favorable circumstances, is an ideal incubator for the development of many forms of bacteria. The life-circle of these bacteria demands certain conditions—viz., suitable temperature, moisture, food, and a removal of their waste products sufficient to prevent their own destruction. That all these conditions are found within the oral cavity goes without saying.

"Fermentation, putrifaction and uncleanliness in the oral cavity predominate in and about the teeth, consequently these organs need first attention.

"Good health demands thorough digestion; thorough digestion demands sound and healthy teeth.

"Dental, gastric, and acoustic, as well as general neurasthenia may often be ascribed to infection from the oral cavity. It is a most unfortunate thing for this country that nine-tenths of the

people have not the knowledge or the energy to protect the teeth of their children.

"The child is taught to wash his hands, to bathe his body, but the human mouth, the very vestibule of life, is left wholly without intelligent care.

"Nowhere do human beings congregate more closely and constantly than in the school room, and nowhere can contagious diseases be more easily propagated. Light and air and cleanliness of face, hands, and apparel, on the part of our children are now considered indispensable requirements in nearly every public school throughout the country. But the fact is utterly disregarded that a single unclean mouth, despite all superficial precautions, may vitiate the atmosphere of a schoolroom and become fruitful source of disease. What place more appropriate than the schoolroom, therefore, for instilling into the mind of youth the necessity for cleanliness of the teeth and mouth.

"There is not a disease to which the human body is liable that is not aggravated by an unhealthy condition of the mouth, and many are originally caused by neglected teeth. Health is impaired, beauty marred, happiness destroyed, and life shortened by the deplorable ignorance of the hygienic laws governing the preservation of these important organs."

If we accept these statements it is clearly our duty to again be among the leaders in the matter of inspection of our children, and arrange for the systematic investigation of the condition of the teeth of the children in our schools.

Playground. It is coming to be more and more recognized that the responsibility of a town for the restraint, control, and education of its children is not limited to the five hours a day in school, or to the 40 weeks of the school year. Much of the waking time of children is spent, as it should be, out of doors. In the absence of useful occupation, and the direction of their sports, and without playgrounds to which they may resort, they roam the streets in aimless idleness. It is not strange that they often get into mischief, that they trespass on the rights of property holders, that vicious habits are formed, and their moral standard falls far below what it should be. For these reasons, school authorities and all others interested in social betterment, are everywhere doing what they can to control and give direction to the activities of children during out-of-school hours and vacation periods. Whatever concerns children, either in school, at work or at play, is the subject of public interest and activity. Just now playgrounds for children are receiving special attention. It has been wisely said "The boy without a playground is father to the man without a job." Play is the normal occupation of childhood. It is a well recognized fact that play properly directed

has an educational and an ethical as well as a hygienic value. Hence there has arisen a widespread movement to provide playgrounds near schools and homes suitably equipped for gymnastics and play, and placed under the direction and control of competent supervisors. Millions of dollars are being spent by municipalities all over the land in fitting out playgrounds. The following act was passed by the General Court of Massachusetts and approved May 12, 1908:

Chap. 513. Acts of 1908.

An act to provide for public playgrounds in certain cities and towns. *Be it enacted, etc., as follows:*

Section 1. Every city and town in the commonwealth having a population of more than ten thousand, accepting the provisions of this act shall, after the first day of July in the year nineteen hundred and ten, provide and maintain at least one public playground conveniently located and of suitable size and equipment, for the recreation and physical education of the minors of such city or town, and at least one other playground for every additional twenty thousand of its inhabitants.

Sec. 2. Cities and towns may appoint, and determine the compensation of a qualified supervisor of each playground, who shall direct the sports and exercises thereon.

Sec. 3. In cities and towns where the provisions of this act are not already satisfied, land for the purpose aforesaid may be taken and the money necessary to pay for such land may be raised in accordance with sections nineteen, twenty and twenty-one of chapter twenty-eight of the Revised Laws; and any land owned by the city or town may be set aside by vote of the city council, or of the board of selectmen, for the purposes of this act.

Sec. 4. In cities and towns which have a population of more than ten thousand, and which have not already satisfied the provisions of this act, the following question shall be placed on the official ballot at the next city or town election:—Shall chapter 513 of the acts of the year nineteen hundred and eight, requiring certain cities and towns to provide public playgrounds be accepted by this (city of town)?

Sec. 5. This act shall take effect in any city or town to which it applies upon its acceptance by a majority of the voters voting as aforesaid. (Approved May 12, 1908.)

Through the public spirit and generosity of two citizens of the town, Mr. and Mrs. Henry Hornblower, a playground to be called the Spy Pond Athletic Field is being prepared for the recreation and physical education of the minors of Arlington. It consists of a tract of land containing seven and one-half acres, bounded by the Boston and Maine railroad tracks, Lombard Terrace, Wellington St., Spy Pond and the Arlington Boat Club property. It is an ideal place for a playground, being near the center of the town, easily accessible, and bordering a beautiful lake. The park is laid out with a baseball field, which can also be used for football, a six-lap to the mile running track, a hundred yard stretch, places for jumping and vaulting, tennis courts, and a sand garden for young people. To make the ground suitable for athletic uses, it was necessary to do a great deal of grading. This was finished and seed sown in the early spring, but because of protracted dry weather a firm sod did not form. It is doubtful if the baseball field will be in condition to use next spring. The tennis courts and the running track will doubtless be ready for use. The town is to be congratulated on the prospects of having such a fine place for boys to play and sincere gratitude from the whole town is due those who have made our vision of an ideal playground a reality.

Text Books. A phase of school expenditure which requires careful consideration and expert judgment, in the selection of text books for our schools. Several changes have been made since the present Superintendent took charge of the schools. In 1905-1906, because we had in the grades no language books worthy of the name, we adopted the Woodley series and the Webster-Cooley Language books for use in our schools. In the spring of the same year, we adopted the Whitehouse system of copy books in penmanship to supplant the vertical system then in use. In 1907, because the arithmetics which were in use were not fitted for our present method of teaching the subject, we substituted the Southworth and Stone arithmetics. The Aldine Primer and first reader have been added to the list of books for beginners. This year, because of the fact, that the spelling books which have been in use here for twenty years have outlived their usefulness, we have adopted the Alexander spelling books.

It is our policy to select the books best fitted to our needs, irrespective of the claims of publishers. The method of procedure which we have followed when a change of text books is under consideration, is to send word of the proposed change to the various publishing houses which have books of the kind sought, and to request them to send samples to the principals of the various schools and to the Superintendent. After some

months are given to careful consideration, during which time the agents of the publishing houses are requested not to visit the schools for the purpose of urging their books upon the principals, a meeting is held for the purpose of discussing the merits of the various books. Little difficulty is found in arriving at a practically unanimous decision which we feel is based entirely on the merit of the book to meet our requirements. Quality and adaptability are the factors which determine the choice. The book selected is referred to the Committee on Text Books and Course of Study for their consideration and presentation to the School Board.

In the High School the following books have been adopted to supplant unsatisfactory books: Slaught & Lennes Algebra, Morey's Outlines of Greek History, Maxwell & Smith's Writing English, Buehler's Exercises in English, and Bergen's Foundations in Botany.

No change of text book is recommended unless we feel that there is something decidedly superior to offer in its place. Supplementary books for Reading, History and Geography which, because of their adaptability to present day conditions, are superior to those in use will be brought to your attention for adoption. Copies of these books may be bought as our means will allow to replace worn-out books or to add to the supply in schools not well equipped. We should have on our list the very best books on the market.

While teachers are alike in their good intentions, they differ materially in their oversight and care of school books and in their judgment regarding renewal. A system of recording, charging, and inspecting books is being worked out this year, which I believe will prove beneficial and economical.

Teachers. There is a saying, "As is the teacher, so is the school." This is indeed true. A good teacher will do good work under whatever conditions she may have to face, while a poor teacher will never do good work no matter how favorable the conditions. The most important work included in the functions of the School Board and of the Superintendent of Schools is the selection of teachers. It is a difficult task to find good teachers and it grows increasingly difficult every year. It is easy to find many applicants for every position, but it is not easy to find teachers who measure up to our standard. Our standard is high, but not too high. No one unacquainted with the practical side of the work can realize the amount of travel and investigation necessary to secure teachers who, we feel assured, can satisfy our requirements. During the last year we have had 13 vacancies to

fill, as stated by your chairman. The investigation of each candidate by the Superintendent includes the following points: Moral character; scholarship; personal appearance; habits and peculiarities; influence in community; grades of school taught; grade of school now teaching; salary; reasons for desiring a change; success as a teacher; success as a disciplinarian; does this teacher possess a true educational spirit; to what extent dependent upon the principal; ability to interest pupils; ability to originate and execute original devices; how receive suggestions from supervising authority; to what extent tactful in dealing with children and parents; to what extent successful with backward and weak pupils; to what extent studious, energetic and progressive; ability to avoid friction with other teachers; most skillful in what line of work; fitness for the particular place to be filled.

The first essential element in a teacher's equipment is a thorough knowledge of the subject matter to be taught—an element that is frequently lacking. To this should be added the knowledge of a few fundamental principles and methods, some knowledge of child nature, an interest in human affairs, a love of the work, and an ambition to succeed. Accurate knowledge of the child's mind is a thing to be hoped for, but it is rarely, if ever, acquired by any of us. Upon this equipment, to which must be added in our schools the desirable element of experience, we can base such training as we can give in our schools.

One of the general means of training teachers, both inexperienced and experienced is the teachers' meeting or conference. Sometimes these are general in nature, according to some prearranged plan of the Superintendent; at other times, particular; the subject being suggested by observation made during the work of supervision. They are held for the purpose of helping those teachers that are in need of inspiration, confidence, or knowledge of method. Probably the most effective of these conferences are those arranged by grades. In these the teachers of the classes in the same grade come together and discuss some phase of their work, their difficulties, their expedients for overcoming them, their methods, or the results attained. The teachers themselves take a prominent part in these meetings, the Superintendent guiding the discussion to accomplish the aim desired. There is much enlightenment to be derived from this plan. A discussion of the work in the grade above and the grade below gives perspective and prevents teachers from becoming mere piece workers. To make these conferences effective, the Superintendent must visit the classes subsequently, to see that the points brought out are heeded, and to give suggestions. General meetings and lectures to large bodies of teachers, while sometimes inspirational, are likely to be barren of helpful results.

Another means of training, made use of freely and effectively, is the visit by the teachers to other classes in the school, or to some other school, for the purpose of observing something definitely determined beforehand. It may be to see some special method of teaching, or it may be to get inspiration or a new point of view from the observation of good, regular work. With the younger teachers, this observation is productive of much good. The opportunities to make these visits are sometimes sought by the teacher; at other times, they are suggested to them. In some cases a teacher may be getting into a rut; or, perhaps, it is thought that seeing the greater difficulties under which other teachers labor and do good work will be a source of satisfaction and improvement. By these visits many good things are spread from school to school, or brought in from schools other than our own.

Much may be accomplished in the training of young teachers by the helpful suggestions in their reading. I do not think that reading upon the general theory and history of education is usually very profitable. It should rather bear directly upon their daily work. Teachers are face to face with the problems of learning the art of education, and their efforts should have reference to the acquisition of that art. Standard books on methods and the practice of teaching, good educational magazines well edited and not given to the over-elaboration of trivial things, supply good material. For the purpose of furnishing this help to teachers, I wish to establish here a Teachers' Reference Library containing the best books to be found on education. It will then be possible to refer teachers to some particular book or chapter of a book for the reference which she most needs.

We have some teachers who are wide awake and alert to every thing that is helpful to them in their work. They know of the newest things in teaching and where to find them. They are original and practical. Moreover they love children and love their work. "They live on the sunny side of the street" and know how to say "Come on." They are true leaders. They are like great generals, who, by their personal power, have led their armies to great victories; not like the commanders who have had to drive their men into battle. A good leader is as inspiring to children as is soul-stirring music. The value of such teachers is beyond computation in dollars. Their greatest reward must come from the gratitude of those who have been so fortunate as to come under their influence. It is unfortunate that all are not of this kind. It is a pleasure, however, to report that our teachers, as a body, are competent, conscientious and hard-working. Most of them are giving the best that is in them. They are trying to be-

come better teachers. They do what is asked of them willingly, and cheerfully accept all suggestions that may increase their efficiency. They are worthy of your hearty commendation. They need your sympathetic appreciation and encouragement.

All of which is respectfully submitted.

JOHN F. SCULLY,

Superintendent of Schools.

REPORT OF TRUANT OFFICER.

Mr. John F. Scully,

Supt. of Schools.

Dear Sir:—I herein present my third annual report as Truant Officer of the Town of Arlington, Mass., for year ending December 31st, 1908.

Number of calls	296
Number of truants	26
Kept home by parents	79
Kept home by sickness	135
Kept home for lack of clothes	27
No one at home when officer called	10
Taken to school	30

On December 5th Thomas Briano was committed to Training School at North Chelmsford as a school offender.

Respectfully submitted,

WM. T. CANNIFF,

Truant Officer.

REPORT OF THE SCHOOL PHYSICIAN.

ARLINGTON, MASS., Jan. 1, 1909.

Mr. John F. Scully, Superintendent of Schools:

I herewith submit my report as school physician for the year ending December 31, 1908.

The total number of pupils examined during the year is 1570. Of these, 289 were examined as to vaccination. A small number were found to be without a satisfactory scar or physician's certificate of unfitness and were required to comply with the law.

The total number of children temporarily excluded from school is 89. Of the contagious diseases, 1 was found suffering from scarlet fever, and 3 who had been exposed to scarlet fever; 3 had been exposed to diphtheria; 7 had measles and 16 had been exposed to measles; 7 had chicken-pox, 8 mumps and 10 whooping cough.

There was one case each of refusal or neglect to be vaccinated, personal filthiness, headache, nausea and alveolar abscess, 5 of impetigo contagiosa, 5 of tonsillitis, and 18 of pediculosis. The daily routine work has gone on as usual.

The problems which concern us are different in some respects from those of a large city or a largely manufacturing community. For instance, the question of free eye-glasses or free breakfasts very seldom comes up in our schools. Of course delay is sometimes experienced in getting a child to an oculist, but this is rarely on account of lack of means. Very few of the pupils are insufficiently fed; very many are unsatisfactorily. This is not due to poverty, but to indifference on the part of parents. Many times on questioning a complaining child as to what he ate for breakfast the reply is "cake and tea." The same cost certainly would have furnished at least a bowl of cereal or bread and butter and a glass of milk. I have it on the authority of an eight-year-old boy and his mother that he habitually drank ten to fifteen cups of tea daily. As far as possible warning and advice is given the children on the matter of diet.

A kindred subject is the care of the teeth. From 60 to 70 per cent. of pupils have markedly defective teeth. Many parents seem to think the temporary teeth are not worthy of care, as they are to be replaced. This is entirely wrong. A mouth full of decaying teeth is an unsavory object, and many a case of malnutrition and chronic indigestion perhaps permanent, originated in de-

cayed, sensitive, aching teeth. In many cases molars, appearing later in childhood, and which are never replaced by Nature, are lost under the mistaken idea that they, too, are renewed.

The contagious diseases in relation to the public schools is a subject of great importance. The idea seems ineradicable among parents that a mild case of contagious disease is very little menace to others. This is not true, and if mild cases are not strictly quarantined, they are a much greater public danger than the patients who are too ill to be about. Another false idea is that whooping cough and measles are trifling ailments. In robust children of school age there may be few deaths from these diseases, but in infants and weakly children the mortality is high.

Occasional cases of whooping cough and mumps have been found during the year. A boy suffering from scarlet fever was found seated in the corridor of one of the schools. He and his brothers were at once dismissed, and the chairs and surrounding floor were at once scrubbed with sulpho-napthol. The same articles were later scrubbed with a corrosive sublimate solution, and fumigation was carried out by the Board of Health. No cases of the disease followed.

On another occasion it was found that a teacher who had not been feeling well for a few days had diphtheria. Her indisposition was so slight that it was not called to my attention. Her school room and the room occupied by her in a private house were fumigated by the Board of Health and fortunately no secondary cases were reported.

I wish to thank the Teachers, Principals and Superintendent for their assistance and evident desire to co-operate in making the work effective.

Respectfully,

CHARLES F. ATWOOD,

School Physician.

REPORT OF THE JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS.

The Joint Board of Selectmen and Board of Public Works herewith present their fifth annual report for the year 1908:

The Board met March 9, 1908, and organized by electing Frederick S. Mead, chairman, and Horace A. Freeman, clerk. Regular meetings have been held on the second and fourth Mondays of each month, and special meetings whenever called by the chairman. Twenty-two meetings have been held during the year.

STREET WATERING. Bids for street watering for the season of 1908 were received from eight different parties, the bids varying from $80 to $90 per month. The parties, to whom the contracts were awarded, were as follows, the price being $85 per month:

Route 1. Joseph Pichette.
Route 2. P. J. Lennon.
Route 3. W. A. McDonald.
Route 4. James Wilson.
Route 5. Timothy J. Ryan.
Route 6. John Kelly.

The contracts covered the season from May 1, 1908 to November 1, 1908, subject to specifications.

Street watering before May 1st and after November 1st, was generally done by the highway division, chargeable, however, to street watering appropriation.

The cost for the year is $3693.95, the same being met by an appropriation by the Town of $1000 by general tax, $2500.97 assessed on abutters, and an overdraft of $192.98, the assessment being 2½ cents per front foot. Last year it was 2 7-10 cents per front foot.

STREET LIGHTING. A clause in Article 8, of the new street lighting contract, reads as follows:

"If, during the continuance of this contract, the company's regular prices for arc or incandescent lights furnished to other

municipalities are reduced, a like reduction shall be made in the prices of the arc or incandescent lights herein provided for."

The Edison Electric Illuminating Co., having revised their general street lighting rates, the Board of Selectmen deemed it advisable to take advantage of the fact, and addressed the following letter to the company:—

August 25th, 1908.

EDISON ELECTRIC ILLUMINATING COMPANY,
39 Boylston St., Boston, Mass.

GENTLEMEN:—Application is hereby made for a change in the billing of arc and incandescent lamps furnished the Town of Arlington, to agree with your schedule dated 7-1-'08, the Town being entitled to the lowest price therein, and also for a change in the incandescent lamps from the 32 C.P., now in use, to the 40 C.P., as provided in said schedule.

It being expressly understood that the Town reserves all its rights under and by virtue of the agreement entered into by and between the Town of Arlington and the Edison Electric Illuminating Company of Boston, dated July 1, 1907, and does not hereby waive any of the provisions thereof.

JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS.

By_____

Clerk.

A reply to the above was received as follows:

BOSTON, MASS., August 26, 1908.

JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS,
Arlington, Mass.

GENTLEMEN:—We have your letter of August 25th, and in accordance, therewith, we will proceed to change the lights in the Town of Arlington from the old carbon to the new Tungsten lamps.

The work of changing the lights will be done during the month of September, and the billing will begin from September 1st. Yours very truly,

THE EDISON ELECTRIC ILLUMINATING COMPANY OF BOSTON.

By W. H. Lott,
Supt. Right of Way and Street Lighting.

And later the following, notifying the Board that the change had been made:

BOSTON, MASS., Sept. 8, 1908.

JOINT BOARD OF SELECTMEN AND BOARD OF PUBLIC WORKS,
Arlington, Mass.

GENTLEMEN:—This is to notify you that the street lights in the Town of Arlington have been changed to the Tungsten system, in accordance with your letter of August 25, 1908.

Yours very truly,

THE EDISON ELECTRIC ILLUMINATING COMPANY OF BOSTON.

By W. H. Lott,
Supt. Right of Way and Street Lighting.

By this change of rate our streets are lighted by lamps of greater candle power at reduced cost, the estimated saving being about $100 per year.

The rates under the new schedule are as follows:

Incandescent lamps, 40 C.P., $10.80 per year, 1-4c. per hr. per lamp; incandescent lamps, 80 C.P., $14.40 per year, 4 4-10c. per hr. per lamp; arc lamp, 425 Watt. A.C., $36.00 per year, 1 5-10c. per hr. per lamp.

On these prices a discount of 10 per cent. is made. There is also a discount of 1c. per hour per incandescent lamp, and 3c. per hour per arc lamp for outages.

The street lighting during the year, under the new contract, has been satisfactory and has improved under the revised schedule of rates, the candle power of the incandescents being increased from 32 to 40 C.P., while the arcs have about the same candle power as before.

During the year two incandescent lights have been discontinued, and eight incandescents and two arcs have been installed, making a net increase of six incandescents and two arcs. Four incandescent and one arc light have been relocated.

The number of lights in commission Dec. 31, 1908, is as follows:

Arcs, 425 Watts A.C.	83
Incandescent 40 C.P.	241
" 80 C.P.	1

The Town of Belmont continues to pay for half the cost of the arc at the corner of Lake and Pleasant Streets, and the

Arlington Boat Club for one-half the cost of the arc at the foot of Whittemore Street. As heretofore, the lights are turned on in the early morning when needed by the Highway Department for snow ploughing.

Inspector LeBaron reports the current as having been up to the required standard during the year.

Comparatively few outages have been reported during the year.

In July, one 80-C.P. incandescent lamp was installed at the entrance to Pleasant Street, near the watering trough, and burns all night. The lamp was installed as an experiment and appears to give good satisfaction.

The question as to the advisability of readjusting lights in the centre of the Town and replacing present arcs by incandescent Tungsten lamps of 80 C.P., is worthy of consideration. It may be advisable to do this to the end that the lamps in Arlington Centre burn all night.

Twelve petitions for lights have been received, seven of which were granted and five refused.

It is the opinion of the Town Counsel that the Board has no authority to install lights on private ways, hence petitions for lights on said ways cannot be considered.

PERMANENT SIDEWALKS. Attention is called to the reports of the Town Engineer and the Board of Public Works for extensions and renewal of permanent sidewalks and detail relative to the same.

In accordance with the policy of the Joint Board most of the extensions installed have been of brick.

Sidewalk assessments, as authorized by Chap. 49 of the Revised Laws, to the amount of $653.66, were committed to the Collector of Taxes. These assessments are for construction of sidewalks on Bacon, Brattle, Gray, Water Streets, Massachusetts Avenue, and Broadway.

Sidewalk assessments are a lien on abutting property, and may be collected in the same manner as taxes on real estate. The lien is good for two years after said assessment is committed to the Collector.

No apportionments of sidewalk assessments are authorized as the statute permitting the same does not appear to have been accepted by the Town.

All permanent sidewalk construction, of whatever character, must be done in accordance with Town specifications and to the satisfaction of the Town Engineer.

The present policy of the Joint Board is to allow abutters, relative to the cost of permanent sidewalk construction:—

For tar concrete, one-half the cost.

For brick, one-half the cost.

For granolithic, 55 cents per square yard.

Three thousand dollars were appropriated in March for permanent sidewalks, not less than $1500 of this amount to be used for extensions carried out under the Sidewalk Act, Section 43, Chap. 49, of the Revised Laws.

The total amount expended during the year is $3180.32, of which sum $2013.53 is for extensions, and $1166.79 for renewals.

Pole Locations. Seven petitions for pole locations have been granted to the Edison Electric Illuminating Company of Boston, on four of which hearings were given, as required by law. The three petitions granted without hearings were for purposes of relocating and reconstructing existing lines, hearings not being required.

Three petitions for pole locations were granted to the New England Telephone and Telegraph Co. of Massachusetts, two of them being without hearings.

For further detail as to pole locations attention is called to the report of the Inspector of Wires.

Plans Approved Relative to Streets. Plans contemplating the laying out or constructing of streets must be approved by the Board of Survey before said streets can be laid out by the Joint Board. Neither can the Town, nor any other public authority, place any public sewer, drain, water pipe, or lamp, in or do any public work of any kind on a private way open to public travel until the plans of said private way have been approved by the Board of Survey, except in case of a trunk-sewer, water or gas mains as engineering demands may require.

Plans relative to laying out of streets on the Bacon premises on Pleasant Street, and adjacent territory, were executed by the Board of Survey under authority of Sect. 3 of Chap. 249, Acts of 1897, and approved in due form, special study of the territory having been made by Town Engineer Pond as suggested in last year's report.

The Board of Survey also under authority of Sect. 3 of the above Chapter, executed plans contemplating the laying out or constructing of Alpine Street, through Churchill Park, and in due form approved of said plans.

The Board of Survey being of the opinion that the present

and future interests of the public require that streets should be located through territory adjacent to Tanager Street, and Wollaston and Wachusett Avenues, gave a public hearing on the matter April 13, 1908, but have taken no further action on the matter. Further study of this territory will probably be made next year.

Petitions for the approval of plans relative to Lombard Terrace, Park Avenue extension, Oakledge, Belknap and Webcowet Streets, were received, hearings given, and said plans approved.

Petition for the approval of plans relative to Albermarle Street was received, and hearing given, but the plans were not approved. Petitions for the approval of plans relative to Dow Road, Hilton and Edgar Streets were received, but the petitioners were granted leave to withdraw and advised to confer with the Town Engineer relative to new plans.

Hearing was given on petition for the extension of Schouler Court and the matter laid on the table.

Petition for the relocation of Laurel Street was received and plans relative to the same were approved.

The Joint Board are of the opinion that steps should be taken towards the lay-out of desirable streets through territory adjacent to Mystic and Summer Streets, the extension of Gray Street to Oakland Avenue, the extension of Summer Street to Bow Street, and the extension of Water Street to Mystic Street. To this end a larger appropriation than usual should be made for the Board of Survey in order that careful study of said propositions may be made.

New Streets Laid Out or Constructed. The following streets were laid out in due form under the provisions of law, authorizing the assessment of betterments:

Sawin Street, from Teele Street to Henderson Street; Wollaston Avenue, from Wachusett Avenue to Tanager Street; Woodland Street, from Jason Street to Bartlett Avenue; Bartlett Avenue, from Gray Street to Woodland Street; Gray Street, from Walnut Street to Robbins Road.

The following streets have been constructed under the Betterment Act, as authorized by the Town and appropriations made for that purpose, namely:

Summer Street, from Grove Street to Pine Street; Sawin Street, from Teele Street to Henderson Street, Wollaston Avenue, from Wachusett Avenue to Tanager Street.

Betterment assessments amounting to $5,099.88 were made arising from the construction of the following streets under the Betterment Act:

Avon Place, from Mass. Avenue northerly to certain point; Palmer Street, from Broadway to Warren Street; Wyman Street, from Broadway to Warren Street; Tanager Street, from Wollaston Avenue to Wollaston Avenue; Summer Street, from Grove Street to Pine Street; Wollaston Avenue, from Wachusett Avenue to Tanager Street; Sawin Street, from Teele Street to Henderson Street.

These betterment assessments were based on the assessed valuations of the land and in case of all except Summer Street and Sawin Street were equal to one-half the cost of construction; the assessment on Summer and Sawin Streets was equal to one-third of the cost.

Taking plans were executed and accepted by the Board in each of the above cases and awards for land damages voted in the case of Summer and Sawin Streets.

The total cost of constructing these seven streets was $11,-608.57.

For further particulars in the construction attention is called to the reports of the Town Engineer and the Board of Public Works.

TRANSPORTATION.

Further correspondence with the Boston Elevated Railway Company relative to better car service for Arlington people in transit from Boston to Arlington was had in the early part of the year, also additional counts of passengers at Harvard Sq. on cars for North Cambridge and for Arlington were made through the police force.

The Boston Elevated also have taken counts of passengers at different points placing the same in tabulated form to determine just when the over crowded condition of Arlington cars complained of exists and in a communication dated Feb. 24, 1908 say that "we have arranged, commencing as of Thursday Feb. 27, as a means of relieving the conditions complained of, to operate between the hours 4:00 and 6:00 P. M., 10 additional cars per hour between Dudley Street Transfer Station and Arlington Centre. The riding on these cars will be watched very carefully and if it is found they do not afford the necessary relief more trips will be added between Harvard Square and Arlington."

It will be remembered that the Railroad Commissioners in their answer to the petition of this Joint Board rendered in March 1907 said that "It seems unnecessary to say more than that proper accomodation ought to be furnished either in one way or the other, either by granting the transfer which is de-

sired or by providing at Harvard Square a sufficient number of extra cars, and that the company ought to be allowed its option as to which method it adopts."

The above remedy appears to be somewhat in accordance with the instructions of the Board of Railroad Commissioners. Whether the change is affording satisfactory relief we are unable to say at present. Probably another count of passengers will be necessary before knowing how the change works. It should be said, however, that since the change was made we have heard little complaint. It is intimated that if passengers in transit for Arlington should more frequently improve the opportunity of changing cars at Harvard Square they would secure seats on the special cars running from the Square to Arlington during rush hours.

The arrangement of having the Medford Hillside cars come to Water Street and immediately return to Sullivan Square appears to be satisfactory, except the delay, noise and congestion sometimes made in transferring said cars at Water Street from the outgoing to the incoming tracks. An official of the Elevated Company stationed at this point during rush hours shows a disposition on the part of the Elevated to reduce trouble here to a minimum.

The great noise occasioned by the cars of the Boston Elevated in passing over its tracks in the Town of Arlington is exceedingly annoying and from various complaints made to the Board, as well as from the Board's own observation, must be adjudged a nuisance, especially that caused by the semi-convertible cars. This noise is particularly noticeable at curves insufficiently oiled or greased, at railroad crossings, and when cars are moving at high speed. The Board believed this nuisance could and should be abated and to this end on September 10th called the attention of the Boston Elevated to the matter. The Board appears to have authority to make regulations governing the speed limit of cars in the Town, and it may be necessary to do this. The grade of Massachusetts Avenue from the Heights to the Centre, the narrow width of the Avenue, the protection of the public, and the cost to the Company consequent from possible accident, should impel the Boston Elevated to exercise special care towards limiting the speed of their cars on this section of the Town.

Rapid transit cannot be permitted to the sacrifice of all other considerations.

The attention of the Lexington & Boston Street Railway Company has been called to the congestion of that part of Massachusetts Avenue near the car station at Arlington Heights occasioned by standing cars of said company obstruct-

ing travel and endangering life. Officials of this company met the Joint Board on the evening of August 24th and the matter was informally discussed. These officials seemed anxious to relieve the situation and asked that they have further time to consider the matter and confer with officials of the Boston Elevated relative to certain schemes they had in mind, which in their opinion if carried out would greatly help the case. The Board granted this request.

GAS MAINS.

Three petitions were received from the Arlington Gas Light Co. to lay gas mains and the same were granted under conditions covered by agreements filed.

These gas mains were on Mass. Ave., Appleton St., Oakland Ave., Park Ave., Wollaston Ave., Hillside Ave., and Claremont Ave.

The location and laying of said mains were to be to the satisfaction of the Town Engineer.

This Company was also granted permission to run an oil pipe line from the freight yard on Water Street through Water, Russell and Mystic Streets to their works on Mystic Street. An agreement covering conditions was drawn up and signed and placed on file.

Henderson Street Extension. As was intimated in last year's report a hearing was given by the County Commissioners on the petition of this Board to extend Henderson Street across Alewife Brook. This hearing was given Jan. 17, 1908. After the hearing a letter was received from the County Commissioners, who say that while they believe the street should be laid out, the question as to jurisdiction in Somerville would probably not permit the decree to become effective. The petition, however, is continued on the Commissioners' docket.

A committee from the Joint Board has been appointed to confer with Somerville authorities to the end that said extension may be accomplished.

Assistant Supt. of Wires. Special attention is called to that part of the report of the Supt. of Wires when he refers to the need of an assistant.

The present efficiency of the Wire Department is due to the expert character of Mr. R. W. LeBaron in this line of work, and he it too valuable an officer for the Town to lose.

The Board, therefore, recommend the favorable consideration of appointing such an assistant.

POLICY OF THE BOARD. The following votes indicating the policy of the Board have been passed.

(*a*) *Width of Streets.* At a meeting held Oct. 14, 1907, it was

Voted, That it was the sense of the Board of Survey not to approve of plans for the laying out or constructing of streets less than forty feet wide.

(*b*) *Crosswalks.* At a meeting held Oct. 28, 1907, it was

Voted, That whenever a sidewalk is changed by the construction of a new street the sidewalk, including the new crosswalk, must be relaid in as good and permanent a form as before the change, the cost to be a charge against the party constructing the street. In case the Town desires a higher cost walk than existed before the change was made the additional cost must be made by the Town in case of permanent sidewalks only.

(*c*) *Rough Grading of Private Streets.* At a meeting held Dec. 9, 1907, it was

Voted, That after Jan. 1, 1908, no water or sewer pipes shall be laid in streets approved by the Board of Survey until such streets, including sidewalks, have been brought to subgrade satisfactory to the Town Engineer.

PETER SCHWAMB,
WILLIAM N. WINN,
HENRY W. HAYES,

Joint Board of Selectmen and Board of Public Works.

REPORT OF THE TOWN COUNSEL.

To the Joint Board of Selectmen and Board of Public Works,
Town Hall, Arlington, Mass.

GENTLEMEN:—The suit of George Lothrop, to recover a portion of the Great Meadows, on the ground that the Town had abandoned the same, has been settled without expense to the Town by an entry of judgment for the Town.

Under authority of a vote of the Town, on March 7, 1908, a contract was entered into with the Lexington Peat Company whereby the Town is to receive the sum of $5737.30 for the right to excavate peat from Great Meadows, East Lexington, during the next fifteen years. This agreement was entered into by the Town because of the recommendation of the Board of Public Works and for the purpose of the improvement of the Great Meadows area as a reserve water supply.

The claim made by Frank I. Whittemore for damages to personal property because of a defect in the highway has been settled for $50.00.

The claims of Mary F. Rockeray and her husband for severe personal injuries received by her on or about June 15, 1908, while a traveller on Henderson Street, by reason of falling into a manhole, improperly covered, has been settled for $425.00.

The claim of Catherine Hammall for injuries received at or about the same time and place and under the same conditions has been settled for $40.00.

The petition by the Selectmen to abolish the grade crossing at Whittemore Street and Avon Place is still pending.

There are no suits pending against the Town.

The legal work of the different departments has been attended to.

Respectfully submitted,

HORACE D. HARDY,
Town Counsel.

REPORT OF THE TOWN ENGINEER AND SUPERINTENDENT OF STREETS.

ARLINGTON, MASS., Jan. 21, 1909.

To the Joint Board of Selectmen and Board of Public Works:—

GENTLEMEN:—Herewith is respectfully presented a report concerning work under my charge for the year 1908.

The organization and character of work has been the same as last year.

ENGINEERING. There is no separate appropriation for engineering, therefore the expense is charged each week to the Department or Appropriation for which services are rendered.

The classification is shown in the same form as in previous years, so that comparison can easily be made.

Highway Division: For marking all lines and grades, making plans, profiles, estimates, locations, and records of work done and in contemplation by the division	$508.90
Sewer Division: For all surveys, plans, profiles, lines, grades and records, including superintendence on cleaning and flushing sewers	371.66
Superintendence and inspection on sewer construction	34.34
Superintendence and inspection on particular sewer construction	156.68
Water Division: For all lines for new mains and locations and records of gates, hydrants, specials, service boxes, work on registration data and office records, and reading meters	556.54
New Streets: For all engineering work required in the construction of new streets by Highway Division under Special Appropriations	87.04
Sidewalks: For all lines, grades, measurements of edgestone, concrete, brick and artificial stone walks, data for assessments, etc.	83.77
Board of Survey: For all surveys, plans and profiles of streets laid out by the Board, and studies in connection with the street locations under consideration by the Board	103.97

Cemetery Trustees: For all plans, surveys, grades, etc., in connection with new travelway construction, grading and locating additional areas.....	71.97
Miscellaneous: Copying plans and deeds from Registry at East Cambridge, description of real estate, and tax titles, street numbering plans, work for Park Commissioners, and all miscellaneous work for the various boards and committees.....	117.05
Total	$2,092.12

It should be understood from the above classification, that a large part of the expense charged to engineering is for superintendence in the Sewer Division, and for office work in the Water and Highway Divisions.

Board of Public Work: For details of work under the direction of the Board, concerning costs, quantities, etc., reference is made to the statistical tables contained in their report.

Highway Division. The principal work in this Division is the maintenance of streets and sidewalks, and all matters relating thereto. As explained in former reports, it is the aim of the Division to keep the streets in as good a state of repair as the available funds will permit.

The main through streets are very heavily traveled; consequently, they require the first attention, and the large mileage of sidewalks, which are constructed almost entirely of local material, also require constant attention in the attempt to keep them in a reasonably fair condition.

It is always the case in those sections of a town or city, where development of property is under way, that there is a constant interruption to street surfaces, due to laying of sewer, water, gas pipes, wire conduits, etc., with the result that many sections of the streets which would otherwise be in good condition, require frequent repairs and resurfacing. There seems to be no economical way that this expense can be avoided, until a permanent pavement is constructed, which can be easily repaired where trenches have been excavated.

There were 16,191 sq. yds. of Macadam resurfaced at a cost of about $0.48 per sq. yd. Of this amount, 13.366 sq. yds. were on Massachusetts Avenue; 800 sq. yds. on Mystic Street; 1,278 sq. yds. on Palmer Street; 747 sq. yds. on Bacon Street. This amount does not include the area of streets where miscellaneous repairs were made, nor about 4,000 sq. yds. of gravel resurfacing on Irving Street, Ravine Street, Gray Street, and Kensington Park.

In the process of resurfacing Macadam streets this year, a machine known as a Scarifier was used with excellent results. This machine is on the principal of a harrow and is drawn by the steam roller. The advantage lies in the fact that only the top of the street is loosened, and the foundation of the street is not disturbed as would be the case if steam roller picks were used. This results in a decreased cost of the work by reason of time and material saved; also a more permanent construction, because the strength of the foundation is not impaired. At least twice as much street surface can be prepared for resurfacing with the Scarifier as could possibly be done with the roller picks in the same time.

In a portion of the resurfacing work, a preparation known as Tarvia was used to obtain approximately a Tar-Macadam construction. The advantages are: greater durability, a more uniform surface, and most important of all, a surface which will not loosen under automobile traffic; also a very considerable lessening of the dust nuisance. There were 1,350 sq. yds. of street resurfaced in this manner, and at the present writing gives evidence of being very satisfactory.

There were 5,007 tons of stone crushed during 1908. In the early part of the year two steam drills were operated at the ledge. As a consequence, very little steam drill work will be required next year, because the amount of stone drilled (but not blasted out), including stone obtained from excavations for other work, etc., will probably be sufficient for the season's work.

In 1909, the following sections of streets,—now of Macadam construction,—should be resurfaced: Massachusetts Avenue, from Pleasant Street to Lake Street, on the Northerly side; from Pleasant Street to Avon Place, on the Southerly side; on both sides, near Park Avenue, and on both sides, near Lexington line. On Mystic Street, near Winchester line; and on the South side, near Glen Avenue; also parts of Water and Warren Streets, and Broadway.

Portions of Franklin Street, Brattle Street, Tufts Street, Hillside Avenue, Claremont Avenue,—now of gravel construction,—should be Macadamized.

Pleasant Street, from Addison Street to Belmont line, at least, should be resurfaced. It is possible that the State Highway Commission may favorably consider aiding in the cost of construction under authority of Chapter 279—Acts of 1908—in this particular case.

The relaying of the Boston Elevated Railway Tracks on Massachusetts Avenue west of Water Street will be necessary at an early date. As suggested in former reports when this work is done the grade of the tracks should be raised six or seven inches

to secure proper dainage of surface water and so reduce the cost of maintenance on this portion of the street.

STORM DRAINAGE. There has been no extension to the storm drainage system during the year, with the exception of two catch basins on Lake Street, near the Railroad crossing; miscellaneous repairs, etc. Therefore, I repeat the recommendations made last year which are: that provision be made for the construction of a drain on Academy Street, from Massachusetts Avenue to Maple Street; a drain on Massachusetts Avenue, from Barnes Lane to Tufts Street; and a storm drainage system, for Hutchinson Road, near Old Mystic Street.

PAVED GUTTERS AND CROSSWALKS. Seven hundred twenty-five sq. yds. of new paving in gutters were laid on Appleton Street, between Florence Avenue and Park Avenue; on Mill Street, West Side, near B. & M. R. R.; Claremont Avenue, near Appleton Street, and Massachusetts Avenue, near Appleton Street. Also 65 sq. yds. of paving were relaid on Massachusetts Avenue, at B. & M. R. R. crossing.

One hundred ninety-four sq. yds. of crosswalks were relaid on Massachusetts Avenue, and at the corner of Mill and Bacon Streets. Crosswalks were removed at Junction of Academy Street and Massachusetts Avenue; also at Jason Street and Massachusetts Avenue,—the Tar-Macadam construction at these points taking their place, and making their continuance unnecessary. It was also possible at these points,—owing to the system of storm drainage which had been installed during previous years,—to do away entirely with the very annoying gutters across these streets at their intercessions with Massachusetts Avenue.

I believe that the placing of granite crosswalks in any Macadam road to be undesirable; that these walks are an annoyance, at least, to all kinds of vehicles, and unless given close attention they may result in a serious defect in the highway.

New concrete crosswalks were laid at the corner of Jason Street and Irving Street; Ravine Street and Irving Street; and Walnut Street and Massachusetts Avenue; and general repairs were made to others where necessary.

The setting of edgestone was finished on Bacon Street. Other edgestone set during the year was in connection with new street construction and sidewalk construction, and will be given in detail in the work under those headings.

SIDEWALKS. Tar concrete sidewalks were resurfaced on portions of the following streets: Bacon, Gray, Jason and Medford Streets, Massachusetts Avenue and Park Avenue, amounting to about 2000 sq. yds. not including miscellaneous repairs.

Brick sidewalks were laid on Massachusetts Avenue, West from Brattle Street, on the Northerly side of the Street. On Brattle Street, Easterly side, between Massachusetts Avenue and Dudley Street. On Water Street, Westerly side, from Massachusetts Avenue, and on Gray Street, near Ravine Street, amounting to 1050 sq. yds., at an average cost of $1.34 per sq. yd., including grading and resetting of edgestone.

An artificial stone sidewalk was laid on Massachusetts Avenue at the corner of Winter Street, amounting to 164 sq. yds. One-half the cost of brick sidewalk construction is paid by the Town, and 55c per sq. yd. toward artificial sidewalk construction is allowed by the Town.

I again recommend that the Town extend the permanent sidewalk construction, especially along the avenues of through travel. Permanent sidewalks at the present time are urgent, on the Northerly side of Massachusetts Avenue, from Bartlett Avenue to Brattle Street; and on one side of Mystic Street, from Russell Street to Old Mystic Street.

New Streets. Under a Special Appropriation made by the Town in March, 1908, Summer Street, between Grove Street and Brattle Street, was widened to 50 feet, and sub-graded to be later constructed as a Macadam road. In this work 1030 feet of storm drain were laid. Four catch basins were built and edgestone set at the corners of Grove, Pine and Brattle Streets. About 450 cubic yards of ledge were excavated, fences set back to the new lines of the street, etc. The gross cost of the work was $3,654.78, which gives a net cost of $2,999.76, after deducting the credits for loam and rock.

Also under a Special Appropriation, the portion of Sawin Street, between Henderson and Teel Streets, was widened to 40 feet and constructed as a Macadam road. Edgestone was set on both sides of the street, and the sidewalk surfaced with stone dust. The subsoil on this street was largely sand, and so it was necessary to use several inches of rock ballast to hold the Macadam. The net cost was $1,226.38.

The acceptance and construction of this street completes a plan for the improvement of Henderson and Teel Streets which has taken five years to execute.

Wollaston Avenue,—from Tanager Street to Wachusetts Avenue,—was likewise accepted and constructed under a Special Appropriation. This portion of street was a connecting link between the accepted portion of Wollaston Avenue and Tanager Street, accepted in 1907. The street was cut down to grade, necessitating the removal of some large boulders, loam and blue gravel. The entire length of the street was surfaced with gravel in a

similar manner to Tanager Street. Edgestone was placed at the corners of Wachusett Avenue and West Street. The net cost was $469.67.

STREET WATERING. The street watering routes are similar to those of 1907. They are arranged for six carts, for six months' service, from May 1st to November 1st. The routes are too long to give proper service. The total length is about 11 1-2 miles, or about 2 miles per cart.

On Mystic Street, from East of Summer Street to the Winchester line; on Medford Street, East of Lewis Avenue; and on Lake Street, from Cross Street, Easterly, the surface of these streets was beginning to loosen or unravel, and therefore, required immediate attention. Sections of the steets named were difficult to care for with water, on account of being located on the extreme limits of the watering routes, and a remedy of this condition had to be found at once to prevent serious and expensive injury. The trouble was caused largely by automobile traffic, and it seemed best to use a method of repair which would withstand this traffic; accordingly, a preparation known in the market as Tarvia-B was used. This material was put on the surface of the streets in the locations mentioned,—with a covering of sand over the Tarvia to prevent the material from adhering to vehicles. The result was: the surfaces of these streets were held intact throughout the season, and no further injury ensued, and are in a good condition at the present time. I am of the opinion that this method more than repaid the cost of application, for certainly these streets would have been ruined without attention.

From the nature of the material, Tarvia is not an absolute dust layer, but as already stated, the binding qualities possessed by this preparation are most to be desired, and in this respect it is certainly a success. The cost per sq. yd. of the treatment, including cost of preparing streets and application on about 23,500 sq. yds. was 2c per sq. yd., 6,898 gallons of Tarvia being used.

On some sections of Mystic and Medford Streets which had been treated with Tarvia, an application of Terrecolio was used as an additional dust layer. On these sections of street the watering service was discontinued, after July 15th, and the streets remained practically dustless, with only a light application of the material about once in three weeks. On one section of Mystic Street Terrecolio exclusively was used with good results, the street remaining hard and free from dust. The cost of the Terrecolio application was 6-10c. per sq. yd. on 19,420 sq. yds. with 660 gallons of material.

On the Northerly side of Broadway, from North Union Street to the Somerville line, oil was tried as a dust layer. Results were

not satisfactory, because the oil disintegrated the road surface. After the oil had dried out to a large extent, water-gas tar was tried as a combined binder and dust layer, with very fair success.

The results obtained in Arlington and vicinity during the season just closed show that the surfaces of Macadam streets can be preserved by treatment, and that the dust nuisance can be avoided. Also that the cost of these treatments is reasonable and that the results obtained are far more satisfactory than by the use of watering carts.

The cost of street watering for 1908 was about 2 3-10c. per sq. yd. on 210,000 sq. yds., including the value of water used.

Therefore, I am led to believe and to recommend that the Town do away with the sprinkling of streets with water altogether as soon as practical. Street watering is now obsolete, is expensive, and at best unsatisfactory; and is a decided injury to the streets.

Sewer Division. Very little sewer construction was done during the year. The Brattle Street sewer was put in commision by the installation of an electrically driven pump. This system has proved to be satisfactory and economical,—the cost of electricity ranging from 76c. to $1.60 per month. The plant has not been accepted by the Department, owing to changes in the electrical equipment which are yet to be installed. Short sewers were laid in Warren Street, at the Junction of Medford Street, and on Westminster Avenue, near Park Place. There has been a less number of sewer connections than in any year since the system was built. Applications for several extensions to the sewerage system are now on file.

Equipment. The equipment of the Department is in good shape, with the exception of the stone crushing plant. It is a question, whether the present plant should be repaired and remodelled, or whether the further use of the ledge should be discontinued.

The ledge is located near a growing section of the town and in a few years will be a detriment to the community. The present crushing plant is inadequate, the storage bins being entirely too small, the crusher itself is worn out, and is not the proper size to handle stone economically.

A large factor in the cost of producing crushed stone at present is the labor item of reducing the ledge stone to a size which this crusher can handle. It is obvious, therefore, that a large amount of labor could be saved with a machine of greater capacity. The town has appointed a Special Committee to consider the purchase of land for the use of the Town Departments, and the question of the best method of obtaining crushed stone should be carefully

considered in connection with the recommendations of the committee.

A considerable expenditure will be required in the event of the present plant being remodeled. If the Town votes to purchase land for use of the Departments it may prove best to buy stone and erect new storage bins on this land. The Town could then handle what stone is procured from excavations by the several Departments, with a portable crusher, or if a large job in ledge was being carried on, a portable plant could be set up near the site of the work and a large amount of teaming expense saved.

Collection of Offal and Ashes. Early in 1908, by the building of a new one-horse offal wagon, the collection of offal was placed in the hands of two men, working independently. This method employs the same number of men and horses as formerly. The results have been satisfactory and show the wisdom of the change.

The ashes have been handled in the same manner as heretofore.

About 450 cords of offal; 2700 loads of ashes and 500 loads of paper were collected.

Board of Survey. Twelve plans were examined on which hearings for locations and grade were held by the Board. Of this number, five were not approved.

Under section III, of the Board of Survey Act, studies were authorized to be made for the locations of streets through the C. N. Bacon estate between Pleasant and Jason Streets, which the Board approved.

Studies were also made for the development of land in the rear of Tanager Street, and South of Wollaston Avenue. One hearing only has as yet been given, the final plans not being completed.

Three years ago the Board gave a hearing for an extension of Henderson Street to connect with Stockton Street, Somerville, and thus make an inter-Town way between East Arlington and North Somerville. Public necessity and convenience both in Arlington and Somerville demand a connecting street at this point, particularly so that residents may have convenient access to the Boston Elevated Railway lines on both Broadway and Massachusetts Avenue. Recently a committee,—composed of members from the Joint Board of Selectmen and Board of Public Works of Arlington and the City Government of Somerville,—have been appointed to consider the matter, and make recommendations.

Studies have also been authorized for a location of the extension of Summer Street to Forest Street, on which hearings will be given early in the year.

General. The various highway bridges are in good condition. The River Street bridge was strengthened and replanked.

The placing of soft coal ashes on sidewalks for drainage purposes was continued and a few years more of the same treatment will show a great improvement in sidewalks not of artificial construction.

Fifty-four permits were given to the various public service corporations to open streets for repairs and extension of sevice.

I again recommend that the question of a permanent pavement on Massachusetts Avenue be considered so that the maintenance of our streets may be carried on economically.

Since my last report, options have been taken by the Metropolitan Park Commission for land on both sides of Alewife Brook from the Mystic River to Spy Pond, for the proposed improvement of the brook, and adjoining lands. It is expected that during the present year the proposed work will be commenced.

New tar concrete walks have been laid across Russell Park from Mystic Street to Chestnut Street, and the surface drainage of the park improved.

At the Town House site, 110 loads of loam from the construction of Summer Street were put on the lot. No other work was done with the exception of mowing, cleaning, etc.

A path across the lot with a small fountain near the centre is under contemplation.

May I again refer to the need of beginning a set of Assessors' Plans, which will show the lines and areas of all real estate in the Town. These plans would be of great value to all departments of the Town service, and if a small appropriation were made for the work each year, the plans could be systematically completed in a short time.

ROBERT W. POND,

Town Engineer and Superintendent of Streets.

TABLE SHOWING THE LOCATION, LENGTH AND WIDTH OF ACCEPTED AND PRIVATE STREETS.

REPORT OF THE SUPERINTENDENT OF WIRES.

ARLINGTON, MASS., Jan. 20, 1909.

To the Honorable Board of Selectmen and Board of Public Works:—

GENTLEMEN:—I have the honor to submit herewith my ninth annual report as Superintendent of Wires for the year ending December 31, 1908.

At the Annual Town Meeting the appropriations which have in the past been made separately for the Fire Alarm, Police Signal and Inspection of Wires Department were consolidated under one appropriation to be known as the Wire Department. This change was recommended to the Auditor by your Superintendent, to the end that the keeping of the accounts might be simplified, and also to make an expenditure of the appropriation made for the Town's electrical systems more advantageous in the purchasing of supplies direct for one department instead of for three as in the past. This recommendation received the approval of your Auditor, and the electrical appropriations called for were submitted by him to the Committee of Twenty-one as one appropriation for the Wire Department.

The work of the Wire Department may be classified under the following divisions:

1. Inspection of Electrical Wiring in Buildings.
2. Inspection of Electrical Wiring on the Streets.
3. Maintenance and operation of the Fire Alarm System.
4. Maintenance and operation of the Police Signal System.
5. Construction for Fire Alarm and Police Signal Systems.
6. Supervision of Poles and Wires on the Streets.
7. Supervision of Underground Conduits and Wires.
8. Supervision of Street Lighting.

INSPECTION OF ELECTRICAL WIRING IN BUILDINGS. The work of inspecting electrical wiring in buildings has been given careful attention as in the past. Each year shows a very marked improvement in the class of wiring and fittings installed for electric lighting and power. This condition has been brought about by the united efforts of the various insurance, electrical, architectural

and other allied interests, which have approved of the rules and requirements of the National Board of Fire Underwriters governing the installation of electric wiring and apparatus as published in the "National Electrical Code."

The enforcement of these rules and requirements by the various electrical departments, the hearty co-operation given the inspection departments by reliable electrical contractors, with the most excellent work done by the Underwriters' laboratories in the testing and standardizing of electrical wires and fittings manufactured, has brought about a more durable and safe class of construction, and it should be the aim of all property owners to see that proper notifications are given the electrical inspection departments of any new work, or changes made in an electrical installation, to the end that an unsafe installation, which has not been inspected, may mean an electrical fire or probably more serious results.

Tabulation of Interior Wiring Inspections. Made in 1908.

Number of applications received	210
Number of inspections	291
Number of incandescent lights wired for	2136
Number of motors installed	8
Horse power of motors installed	39 5-8
Number of unfinished inspections, Dec. 31st	42

Permits Issued for Installing of Meters.

To Edison Electric Illuminating Company, of Boston	288
To Lexington Gas & Electric Company, of Lexington	3
Total	291
Incandescent lights installed on Edison service	3683
Incandescent lights installed on Lex'n G. & E. Co., ser	35
Total	3718
Number of motors installed on Edison service	8
Total horse power of motors installed on Edison service	39 5-8
Arc lights installed on Edison service	1 of 3990 watts

The Lexington Gas and Electric Company were given permission to run wires and supply service for lighting and power in buildings on Sylvia and other streets near the Lexington Town

Line, in accordance with the requirements of this Department. Permission being given by the Edison Electric Illuminating Company to the Lexington Gas and Electric Company to establish this service, the Edison Company not having wires in this vicinity.

Inspection of Electrical Wiring and Supervision of Poles, Wires and Underground Conduits in the Streets. Careful attention has been given to the condition of wires on the streets, and notification immediately given to the companies owning wires and poles when the same were found defective, all such notices receiving prompt attention from the various companies. Very little trouble has been experienced with the poles and wires on the streets other than on May 30, at 1:09 P. M., when two hard pine poles on Mystic Street, owned by the New England Telephone & Telegraph Company broke off, and fell into the street nearly opposite the residence of Mr. J. Howell Crosby. The breaking of these poles was in all probability caused by the tightening of the span wires of the street railway several days before. These poles were located on an angle of the street and the strain was very great at this point. As these poles had been inspected and passed as safe several months before, this is a very weighty demonstration of the unreliability of a hard pine pole as a support for wires. The use of hard pine timber for poles has not been permitted by this department for several years, these poles having been set for about eight years. In the breaking of these poles all wires were carried to the street, the poles falling directly across the street, and narrowly missing an electric car that had just passed. The fire alarm wires, including Box 28, telephone wires and trolley wires were all broken, entirely blocking traffic. The breaking of the fire alarm wire gave immediate notification to this department of trouble, which was quickly located. The street was cleared by this department in a short time of all wires and broken poles and, with the assistance of the wire employees of other companies summoned, repairs were made in a very short time to the trolley, thus allowing the electric cars to proceed. Box 28 of the fire alarm system was placed in a new location and cut into commission inside of one hour after the break occurred.

The great value of the Police Signal was given at this time, as Box No. 23 of this system, which was in close proximity, was used to telephone to police headquarters orders to notify the various wire companies of the trouble and a quick response was made by all.

Forty-six (46) old poles were replaced on the highways by the following specified companies: Edison Company, 16 poles; New

England Telephone & Telegraph Company, 25 poles; Atlantic Telegraph by Edison Company, 5 poles.

Seven new poles were set in locations granted as follows:

Petitioner Company.	Street.	Poles.	Date Plan.	Date Granted.
Edison Company.	Paul Revere Road.	2	Jan. 7	Jan. 27, 1908.
" "	Jason St. Cor.			
" "	Brantwood Road.	1	June 15	July 20, "
" "	Cleveland St.	2	" 8	" 20, "
N. E. T. & T. Co.	Brattle St.	2	May 8	May 25, "

Three (3) poles were removed by the Edison Company, and locations abandoned, these poles not being considered necessary by this department. Three (3) poles were changed to new locations, one being too near to a fire hydrant, one for relocation of street light and one at the request of an abutter to allow building of a driveway. Twenty-four (24) permits were issued to the above companies to set, replace and remove poles as specified above. Complete records of pole construction are on file at Wire Department headquarters. The high tension system of wires built by the Edison Company on Broadway, from the Somerville line to Junction of Warren Street and on Mystic Street from Corner of Russell Street to the Winchester Town Line, is a very satisfactory piece of construction, the greatest care being shown in the building of these wires and poles.

All construction for electric lighting and power which has been built during the past year has been very satisfactory, and in all cases care has been shown to do work in accordance with the town requirements. The pole construction as done by another company owning poles on our streets has not in many cases been satisfactory, very poor judgment having been shown in the selection of poles to be set, and also in the manner the work was done, and it has been necessary on several occasions to order poles replaced or reset, which has made much more work than was necessary if this work had been done properly in the first place. More attention will have to be given this question in the future by companies interested, or drastic measures will be recommended to compel a compliance of the requirements governing this class of work.

The Edison Company installed eight thousand five hundred and six (8,506) feet of No. 1/0 3-conductor lead encased cables in conduits built in 1907, from Broadway opposite Warren Street, through Warren Street to Medford Street, to Chestnut Street, to Mystic Street, terminating at Corner of Mystic and Russell Streets, this cable being installed in two lengths each of three

wires, and being for high tension current, connecting with aerial construction as specified heretofore in this report. This high tension system of wires is used for transmission of electricity for light and power to the City of Woburn and the Towns of Winchester and Stoneham direct from the L. Street Power Station of the Edison Company at South Boston.

The Boston & Northern Street Railway Company have repaired and strengthened wires of their trolley system on Mystic Street, and also insulated all feed and signal wires where passing through trees. The cutoff switch on trolley and feed wires was ordered removed from near Corner of Summer Street, as located in the past, and placed at the Junction of Mystic and Chestnut Streets. This switch is installed for the use of the Fire Department to shut off all power from trolley and feed wires between Chestnut Street and Massachusetts Avenue in case of fire, to the end that live wires shall not impede the work of the firemen.

Supervision of Street Lighting. The Street Lighting system, as furnished by the Edison Company, has been maintained according to contract during the past year. Tests made at the Street lighting switch board, in Wire Department office, have shown current furnished to have been, at all times, up to contract requirements of six and six-tenths (6.6) amperes. The replacing of all incandescent lamps of thirty-two (32) candle power with the new Tungsten lamps of forty (40) candle power has made a great improvement; the light given from the latter being more brilliant and with the increased candle power has added greatly to the efficiency of the street lighting service.

The following changes and additions have been made in the street lighting system for the year 1908.

NEW STREET LIGHTS INSTALLED.

Street.	Location.	Pole No.	Inc.	Arc.	Date of Installation.
Broadway,	250 ft. west of Alewife Brook,	812-3		1	Feb. 5, 1908.
Broadway,	cor. Marathon St.,	812-8		1	Feb. 5, "
Hillside Av.,	250 ft. east of Wollaston Av.,	837-3	1		Feb. 19, "
Hillside Av.,	225 ft. west of Prospect Av.,	837-18	1		Feb. 19, "
Hillside Av.,	210 ft. north of Florence Av.,	837-9	1		Feb. 21, "
Hillside Av.,	391 ft. east of Florence Av.,	837-14	1		Mar. 10, "
Paul Revere Rd.	215 ft west of Park Av.,	877-10	1		Mar. 17, "
Prescott St.,	75 ft. south of Russell St.,	864-4	1		June 3, "
Mass. Av.,	60 ft. west of Pleasant St.	Tel.pole 1-80c.p.			June 18, "
Jason St.,	Opposite Brantwood Rd.,	839-26	1		Aug. 22, "
Totals			8	2	

STREET LIGHTS CHANGED TO NEW LOCATIONS DURING 1908.

Old Location.	Pole No.	New Location.	Pole No.	Inc.	Arc.	Date of change in Location.
Mystic st., cor. Russell st.	854-11	Mystic st., opp. Russel st.	9-299	Tel. 1		Feb. 5, 1908.
Hillside av., 115 ft. east of Wollaston av	837-2	Hillside av., 20 ft. east of Wollaston av.	837-1	1		Feb. 19, "
Avon pl., 250 ft. south of Mass. av.	902-3	Wellington st. 530 ft. east of Pleasant st.	882-6	1		Feb. 29, "
Court st., 75 ft. west of Water st.	819-4	Court st., 125 ft. west of Water st.	819-3	1		June 2, "

STREET LIGHTS REMOVED DURING 1908.

Street.	Location.	Pole No.	Inc.	Date Removed.
Broadway,	Cor. of Marathon st.,	812-8	1	Feb. 7, 1908.
Broadway,	250 ft. west of Alewife Brook,	812-3	1	Feb. 5, "
Totals			2	

Seven (7) additional incandescent and one (1) arc lights are to be installed on or about January 1st, 1909, as per vote of the Joint Board of Selectmen and Board of Public Works, Nov. 23d, 1908, as follows:

Incandescent Lights. Henderson Street, 1; Teel Street, 1; Park Avenue, 1; Westminster Avenue, 1; Bow Street, 1; Brattle Street, 1; Gray Street, 1.

Arc Lights. Massachusetts Avenue, near Amsden Street, 1.

Summary of Street Lights, 1908.

Total number of lights in use, Dec. 31st	325
Incandescent lights, 40 candle power	241
Incandescent lights, 80 candle power	1
Arc lights, 1200 candle power	83
Totals	325

The 80 candle power light specified was installed at the corner of Massachusetts Avenue and Pleasant Street temporarily as an experiment to determine the results given from this class of light on an all-night service. Results have been satisfactory and should

recommend installing five (5) more on Massachusetts Avenue, between Water Street and the Soldiers' Monument. With these additional lights the business district would be greatly benefited and much assistance would be given the Fire and Police Departments after one A. M., when the regular street lighting circuits are shut off.

Fire Alarm System. This system has given good service during the past year, and all alarms were correctly transmitted. But on one piece of line trouble was experienced, that being on May 30, caused by breaking of poles on Mystic Street, as specified heretofore in this report. A thorough system of inspection has been maintained at all times of aerial and underground wires, signal boxes and other appliances of the system to insure perfect service. New construction has been installed as far as possible in accordance with appropriations made for this purpose.

Seventeen thousand, one hundred fifty-eight feet (17,158) or 3 25-100 miles of old bare iron wire was replaced with insulated No. 10 triple braided iron wire. Thirty-two 4-pin cross arms were used in rebuilding of old lines.

The new wire installed was placed on the following specified streets: North Union Street, 2,270 feet; Warren Street, 1,523 feet; Palmer Street, 1,090 feet; Medford Street, from Warren to Chestnut Street, 248 feet; Russell Street, 896 feet; Mystic Street, from Russell Street to Box 28, 4,551 feet; Summer Street, from Box 43 to Brattle Street, 758 feet; Brattle Street, from Summer Street to Massachusetts Avenue, 1,757 feet; Brattle Street to Metropolitan Pumping Station (new), 680 feet; Appleton Street, 2,078 feet; Park Avenue, from Massachusetts Avenue to Hose 1, 628 feet; Henderson Street, 260 feet; Massachusetts Avenue, 419 feet. Ninety (90) feet of No. 14 lead covered duplex cable was installed in conduit from manhole on Massachusetts Avenue, opposite Jason Street, to Junction pole at the corner of Jason Street. Signal boxes Nos. 13, 28, 38 and 43 were placed on new poles, old poles being replaced. The tower bell striker at Hose 2 was provided with a new foundation support for this machine, one of the iron rods to platform in the top of the tower breaking, and temporarily putting bell striker out of commission. Tower striker No. 4, in the Henderson Street District, was also repaired, one of the connecting clamps of the hammer rod breaking. Signal Box No. 4, on Jason Street, was rewired to top of pole with circular loom cable. Hose No. 1 Station was equipped with an automatic fire alarm light switch, and lights were rewired on apparatus floor to operate from this switch. All fire stations are now equipped with these automatic lighting switches.

Forty (40) Type B. T. storage batteries were added to head-

quarters equipment to replace old batteries installed in 1900. One Weston Mil-Ammeter was purchased for testing of signal wires. The Evershed Testing Set owned by this department was sent to the manufacturer, and thoroughly recalibrated to be in perfect working order. The automatic time clock at Fire Alarm Headquarters was cleaned and necessary adjustments made to operate this clock with its electrical attachments. A new air compressor for the fire whistle was purchased in accordance with appropriation made. This compressor was placed in motor vault where old electrical compressor was located.

A new foundation of cement with hard pine wood sub-base was provided; also all wiring for this machine was done in iron conduit. A new slate switchboard for automatic governor, service switch and cutouts were installed and the brick work of vault painted.

This compressor is of the double cylinder pattern, being operated from a 7 1-2 horse power 500 volt D. C. motor, the compressor and motor being enclosed in dust tight iron cases which are mounted on one iron bed plate.

The new compressor was very much needed as the old electrical compressor had given many years of service, and was in a bad condition and costing far too much for repairs. The hydraulic compressor was taken apart and stored in the basement of the Town Hall, the old electric compressor being placed on a new foundation and piped up to air tanks to be held in reserve. With this system the Town is assured of an efficient and economical service for its fire alarm whistle for many years to come and also has a much improved service, as the new compressor is of much larger capacity than the old machine and can restore air to the receivers very quickly after an alarm. The new air compressor was placed in commission on June 12, and has given most excellent service since.

Metropolitan Water Works Cable. Five thousand, five hundred and fifty (5,550) feet of three conductor circular loom cable was installed for the Metropolitan Water and Sewerage Board from the Pumping Station off Brattle Street to the Stand Pipe at the top of Arlington Heights. This system of wires was installed to electrically indicate the height of water in the stand pipe.

Fifty-one (51) cross arms were used to do this work, and cable was run from the Pumping Station, via Brattle Street, to Massachusetts Avenue, to Robbins Road, and from there to Park Avenue to the stand pipe.

Permission was given the Metropolitan Water and Sewerage Board to occupy cross arm space reserved for town wires in the

installing of this cable. The cost of building this line was paid for by the Metropolitan Water and Sewerage Board. The maintenance of the same is under the supervision of the Wire Department of this Town, and all expenses incurred for such maintenance are paid for by the above Board.

Police Signal System. This system has given excellent results for the year past with very little trouble in operating. Ninety (90) feet of No. 14 lead covered cable was installed on system in underground conduits at the Junction of Massachusetts Avenue and Jason Street, for connection to aerial wires on Jason Street.

All batteries were recharged at Police Station for operating the system, these batteries having given over two years of continuous service since the system was first placed in commission. All signal boxes were provided with new dry batteries for operation of telephones. The entire system is in first-class condition and is a most valuable asset to the town's protective signal systems.

Proposed Intercommunicating Metropolitan Fire Alarm. Plans are now being formulated by the Fire and Electrical Departments of Boston and thirty-one other cities and towns for the establishing of an Intercommunicating Metropolitan Fire Alarm, to cover an area of about twenty miles from the State House in Boston. This system if installed will make it possible to assemble quickly the largest and best equipped fire-fighting force in the world, which can be summoned all at one time or in relays, as desired. With such a system in operation at the time of the great Chelsea fire, it is very probable that this fire would have been confined to a much smaller area and saved an immense amount of property.

With the proposed system, every fire department headquarters in the thirty-two cities and towns will be kept informed at all times of any fires requiring help from other places, and it will also be possible for any city or town to call help as needed from neighboring municipalities, at the same time keeping all other fire departments informed as to the assistance given, who responded to the call, and will also allow for a proper covering in system of all districts from which apparatus has moved.

The establishment of this proposed fire alarm will have to be done by an act of the Legislature to apportion the expense of building and maintaining the system, and also making it mandatory as to the response to be given by the various fire departments covered by this alarm.

Competent committes are now formulating plans for the establishing of the proposed system, and also as to the best and quickest method of transportation of apparatus to neighboring cities and towns.

The Fire and Wire Departments of the City of Somerville and this town are now considering plans for the connecting of the Central Fire Station in this town with the house of Engine No. 6 at Teel Square (Clarendon Hill). With the proposed system, the Somerville Fire Department will answer on first alarms several boxes in the lower section of our town, and will respond to other sections of the town when needed. The apparatus of this town will respond on first alarm to several boxes in the Clarendon Hill section of Somerville, and will also cover in to Engine No. 6 house in case of a large fire in Somerville, which would uncover that district of apparatus at such a time.

This proposed system of mutual aid will be a very great safeguard to the property in both municipalities, and will allow for the quick concentration of apparatus besides keeping other sections covered by apparatus that would have to move if such an arrangement was not in force.

The details and expense of the proposed system are not as yet thoroughly planned, but will in all probability be submitted to the citizens for consideration at an early date.

Recommendations. I would respectfully recommend that the question of installing additional fire alarm boxes be given consideration, and that annual appropriations be made for this purpose, until all districts are properly protected by the Fire Alarm System.

Additional boxes should be located as follows: Corner of Park and Prospect Avenues (top of the Heights); Wollaston Avenue near Tanager Street; Junction of Park Avenue and Lowell Street; Massachusetts Avenue, between Lowell Street and Park Avenue; Gray Street, between Jason Street and Bartlett Avenue; Mystic Street near Old Mystic Street; Mystic Street near Chestnut Street; Medford Street near Russell School; Broadway near Gardner Street.

The underground systems of wires for the Fire Alarm and Police Signal should be extended as fast as practicable, and the replacement of all bare wires on the Fire Alarm System with insulated wire should be continued until this class of construction is completed.

Once again I would respectfully call your attention to the pressing need of the services of an assistant to your superintendent. The duties involved by this department are increasing so rapidly that such a step has become imperative to the end that the safe and efficient service rendered may be maintained as in the past. A comparison of appropriations made in other cities and towns for the supervision of the electrical departments as against the amount of work done by this department will be convincing that

the merits of this question should be given due consideration by the citizens. When the above is duly considered, and the fact also taken into consideration that all the new construction and engineering required for the past nine years by the various branches of the Wire Department have been performed, and results given that will show for themselves, without the employing of other outside expert labor, it should show if the town wishes to continue on this basis, it will have to make the appropriations sufficient in the future to cover the demand of such services that may be required.

Conclusion. Thanking your Honorable Board for the many courtesies shown, and assistance rendered me in the discharge of the duties of this department, I respectfully submit the above for your consideration.

Respectfully submitted,

R. W. LeBARON,

Superintendent of Wires.

REPORT OF THE BOARD OF HEALTH.

The Board of Health respectfully submits the following report for the year ending December 31, 1908:

The Board, composed of Dr. Charles F. Atwood, Dr. Lawrence L. Peirce and Alfred H. Knowles, met and organized March 5th with Dr. Atwood as chairman, and Horace A. Freeman as clerk.

The appointments made by the Board may be found in the list of Town Officials.

The general health of the Town has been good during the year. Aside from a very extensive outbreak of measles during the first half of the year, only a very moderate number of contagious diseases have been reported.

A very important part of the work of the Board is the collection of ashes and offal. Last spring a new offal wagon was purchased, and side boards have been added to the ash wagons. With this improvement in equipment we have been able to do the work in less time and more economically. The appropriation asked for in March proved sufficient to carry out the work in a satisfactory manner and a good unexpended balance remains.

The cost for collection for 1907 and 1908 is compared below:

	1908			1907		
	Labor	Horses	Total	Labor	Horses	Total
Offal	1,620.70	705.31	2,326.01	1,548.29	549.45	2,097.74
Ashes	2,164.56	809.23	2,973.59	2,186.36	689.31	2,875.67
New offal cart			225.00			220.00
Repairs and supplies			270.79			113.39
			5,795.39			5,306.80
Unexpended balance			89.61			1.20
			5,885.00			5,308.00

Many complaints of nuisances and sanitary defects have been investigated, and where a nuisance was found to exist it was abated.

The Board desires that all complaints be addressed to the clerk in writing, and that parties aggrieved will affix their signatures to the complaint.

No complaints have been received of the slaughtering establishments licensed by the Board. One unlicensed slaughter house has been closed, and the case is still pending before the Court.

The method of garbage disposal will come up before the next Board, as the contract for the town offal expires in July.

Mr. Edwin Mills, who had acted as plumbing inspector for the town for several years, handed in his resignation in June. The vacancy was filled by the appointment of George W. Day.

The Board has felt throughout the year that it has had the hearty support of the Selectmen and the Police Department.

The services of all the appointed officers has been very satisfactory, especially praiseworthy being the work of the sanitary inspector, Mr. Hartwell, and the clerk, Mr. Freeman.

Medical and Surgical Appliances. At a meeting held Nov. 29, 1907, the following list of medical and surgical appliances was approved, the same to be kept and maintained by factories and shops in Arlington in compliance with Chap. 164, Acts of Legislature of 1907.

2 Elastic tourniquets (minimum or inches).
2 Rolls 1-2 in. zinc ox. adhesive plaster.
2 Rolls 2 in. adhesive plaster.
4 Dozen gauze bandages, assorted sizes, from 1 to 4 inches. 10 yds.
1 lb. Absorbent cotton.
1 Yard Sterile gauze.
1 Dozen Emergency slings.
5 Yards Canton flannel (used with carron oil for burns).
1 Pair Surgical Scissors, straight (2 1-2 in. blade).
200 Tablets 7 3-10 gr. corrosive sublimate and citric acid.
6 Whitewood strips, 40 x 4 x 3-16.
2 Pillows.
1 Package of Pins.
3 Dozen Safety pins.
8 Ounces Spt. Ammonia aromatic (rubber stopple).
1 Gallon Carron Oil.
1 Pint Brandy.
1 Basin.

Home Work for Factories. No home work for manufactories is allowed except by persons receiving a license from Dr. Charles E. Simpson, state inspector of health.

Several persons residing in Town have been granted such licenses, a list of which is on file with this board.

Health Districts. In accordance with Chapter 537, Acts of 1907, the State has been divided into health districts.

Arlington is in District No. 9, and Charles E. Simpson, M.D., of Lowell, has been appointed state inspector of the district.

The act establishing health districts is as follows:

CHAPTER 537. ACTS OF 1907.

An Act to Provide for the Establishment of Health Districts and the Appointment of Inspectors of Health.

Be it enacted, etc., as follows:—

SECTION 1. The state board of health shall as soon as may be after the passage of this act, divide the Commonwealth into not more than fifteen districts, to be known as health districts, in such manner as it may deem necessary or proper for carrying out the purposes of this act.

SEC. 2. After the division aforesaid has been made, the governor, with the advice and consent of the council, shall appoint in each health district one practical and discreet person, learned in the science of medicine and hygiene, to be state inspector in that district. Every nomination for such office shall be made at least seven days prior to the appointment. The said state inspectors of health shall hold their offices for a period of five years from the time of their respective appointments, but shall be liable to removal from office by the governor and council at any time.

SEC. 3. Every state inspector of health shall inform himself respecting the sanitary condition of his district and concerning all influences dangerous to the public health or threatening to affect the same; he shall gather all information possible concerning the prevalence of tuberculosis and other diseases dangerous to the public health within his district, shall disseminate knowledge as to the best methods of preventing the spread of such diseases, and shall take such steps as, after consultation with the state board of health and the local state authorities, shall be deemed advisable for their eradication; he shall inform himself concerning the health of all minors employed in factories within his district, and, whenever he may deem it advisable or necessary, he shall call the ill health or physical unfitness of any minor to the attention of his or her parents or employers and of the state board of health.

SEC. 4. The state inspectors of health shall be under the general supervision of the state board of health and shall perform such duties other than those hereby imposed upon them as the said board from time to time shall determine. They shall keep a record of their proceedings and observations, shall annually make a report of the same to said board on or before the thirty-first day of October, shall from time to time furnish said board with such information as it may require touching circumstances affecting the public health in their respective districts, and shall in every instance where written suggestions are made by them to the local authorities send copies of such suggestions to said board.

SEC. 5. The state inspectors of health shall, under the direction of the state board of health and in place of the inspection department of the district police, enforce the provisions of section forty-one of chapter one hundred and four of the Revised Laws so far as said section provides that factories shall be well ventilated and kept clean, sections forty-one, forty-four and forty-seven to sixty-one, inclusive, of chapter

one hundred and six of the Revised Laws, chapter three hundred and twenty-two of the acts of the year nineteen hundred and two, chapter four hundred and seventy-five of the acts of the year nineteen hundred and three,, chapter two hundred and thirty-eight of the acts of the year nineteen hundred and five, and chapter two hundred and fifty of the acts of the year nineteen hundred and six; and the powers and duties heretofore conferred and imposed upon the members of said inspection department of the district police by section eight of chapter one hundred and eight of the Revised Laws in respect to the foregoing sections and acts, and in respect to all acts in amendment thereof or in addition thereto, and in respect to any other laws, are hereby conferred and imposed upon said state inspectors of health or such other officers as the state board of health may from time to time appoint; provided, however, that neither said board of health nor any inspector thereof shall have authority to require structural alterations to be made in buildings, but shall report the necessity therefor to the inspection department of the district police. Whereever in said provisions of law the words "inspector" or "inspectors of factories and public buildings," "inspection department of the district police," "inspector" or "inspectors of the district police," "district police," "factory inspector," or "inspectors," and "member" or "members of the district police" occur, they shall be taken to mean state inspector or inspectors of health. Whenever the words "chief of the district police" occur, they shall be taken to mean the state board of health.

SEC. 6. The governor, with the advice and consent of the council, shall establish the salaries of said state inspectors of health, having regard in each district to the extent of territory, the number of inhabitants, the character of the business there carried on, and the amount of time likely to be required for the proper discharge of the duties. The salaries thus established shall be paid from the treasury of the Commonwealth monthly.

SEC. 7. There may be expended out of the treasury of the Commonwealth annually, for the purposes specified in this act, for salaries, a sum not exceeding twenty-five thousand dollars, and for other expenses, a sum not exceeding five thousand dollars.

SEC. 8. For the purpose of carrying out the provisions of this act the state board of health may employ from time to time experts in sanitation.

SEC. 9. This act shall take effect upon its passage. [Approved June 19, 1907.]

Circulars of Information. Circulars of instruction for the general care of patients, suggesting means for preventing the spread of diphtheria, scarlet fever, typhoid fever, measles and consumption or tuberculosis have been printed, to be sent to families in which any of said diseases occur.

Fumigation. A more thorough system of fumigation has been adopted, and on the recovery or death of each case of diphtheria, scarlet fever, and tuberculosis the Board attends immediately to the fumigation of the premises. The expense is met by the Town, except where extra fumigation is requested.

Reportable Diseases. The Board has adjudged the diseases known as scarlet fever, measles, typhoid fever, diphtheria, small-

pox, membraneous croup, cholera, yellow fever, typhus fever, cerebro-spinal meningitis, hydrophobia, malignant pustule, leprosy, trichinosis, tuberculosis, opthalmia of the newly born, actinomycosis, glanders, tetanus, varicella, whooping-cough as infectious or contagious, and dangerous to the public health and safety within the meaning of the Statutes. Physicians are required to report immediately to the Board every case of either of these diseases coming under their care, and postal cards conveniently printed and addressed are supplied to them for this purpose. On receipt of a card from a physician the Superintendent of Schools, Principal of High School, Trustees of Robbins Library, and School Physician are notified. Mr. Charles T. Hartwell acts as fumigator in behalf of the Board.

Culture Stations. Culture tubes for diphtheria, sputum bottles for suspected tuberculosis, and anti-toxin are provided by the State Board of Health and placed by this Board with H. A. Perham, druggist, for the use of physicians.

MISCELLANEOUS.

Board of Infants. The Board has given its approval to applications for licenses to board infants or children as follows: Rosa Simmonds, 32 Appleton Street; S. A. Gilpatrick, 14 Teele Street Place; Margaret Whelply, 81 Westminster Avenue; Martha Priestly, 203 Lake Street; Mary E. Smith, 16 Walnut Place; Mary E. Hallice, 43 Massachusetts Avenue.

Hospital Cases. Two cases of diphtheria were committed to Contagious Hospital at Somerville, and claims against the Town for care of contagious cases by Revere, Boston and Cambridge were paid.

Reports of Officers of the Board. The reports of the several officers of the Board are appended, to which attention is called.

Financial. For detail as to expenditures reference is made to the report of the Auditor.

LICENSES.

Licenses have been granted as follows:

Stables. George Clark, 30 Mystic Street; John Lyons, Bucknam Court; Mary A. Law, Mill Street.

UNDERTAKERS. J. Henry Hartwell & Son, Medford Street; Daniel W. Grannan, and William D. Grannan, 378 Massachusetts Avenue; James P. Daley, 20 Franklin Street.

SLAUGHTERING. Henry R. Borman, rear 27 Broadway; William Borman, rear 27 Broadway.

PLUMBING. Joseph A. Tole, 30 Lewis Avenue; Andrew Bain, 49 Lowell Street; George M. Bruce, Frank E. Gallagher, Charles F. Burton, Mathew H. Rowe.

CHAS. F. ATWOOD, M.D.,
LAWRENCE L. PEIRCE, M.D.V.,
ALFRED H. KNOWLES,
Board of Health.

Attention is called to the following regulations of the Board of Health and extracts from the Revised Laws:

DISEASES DANGEROUS TO THE PUBLIC HEALTH.

From Regulation of Board of Health.

SECTION 3. Upon the outside of every house in which there is a person sick with small-pox, diphtheria, membraneous croup, measles or scarlet fever shall be placed a suitable placard with the name of the disease. The Board of Health may in special cases permit the placard to be placed upon interior apartments only. This placard shall not be defaced or removed by any person without authority of the Board of Health.

SEC. 4. No person shall remove or permit to be removed from any house or apartment upon which a placard has been placed, as provided in Section 3, any clothing, books or other property without a permit from the Board of Health; nor after a house is established as a hospital, under provisions of Chapter 80 of the Public Statutes, shall any occupant of such house take up a residence elsewhere without such permit. No public or circulating library book shall be taken into any house or apartment whereon a placard has been placed, as provided in Section 3, before the authorized removal of said placard. All books, papers, toys and other articles in a room where there is a person sick with scarlet fever or diphtheria which cannot be thoroughly disinfected must be destroyed.

SEC. 5. No person living in a house or interior apartment upon which a placard has been placed, as provided in Section 3, shall attend or visit any school in the Town without a permit from the Board of Health.

SEC. 6. No person who has visited a house in which there was at the time a case of small-pox, diphtheria, membraneous croup, or scarlet fever, shall attend school until the expiration of two weeks from such visit.

SEC. 7. Danger of conveying small-pox, diphtheria and scarlet fever shall not be considered to have passed until two weeks have expired after the rooms occupied by a person who has been sick with either of said diseases, and the articles used by him have been disinfected to the satisfaction of the Board of Health.

SEC. 8. In case of the removal of a child from the house where a person is sick with any of the diseases mentioned in Section 11 of Chapter 496 of the Acts of the year 1898, two weeks must elapse before such child is allowed to attend school.

SEC. 9. No case of diphtheria shall be considered recovered until a negative culture has twice been obtained, at not less than three days' interval, from such patient.

SEC. 10. No case of scarlet fever shall be considered recovered until desquamation is complete on every part of the body.

SEC. 11. No child having chicken-pox or mumps shall be allowed to attend any school in this Town.

EXTRACTS FROM THE REVISED LAWS AS AMENDED.

Contagious Diseases.

[CHAPTER 480 ACTS OF 1907]

An Act to Provide For the Compulsory Notification and Registration of Tuberculosis and Other Diseases Dangerous to the Public Health.

Be it enacted, etc., as follows:

SECTION 1. Sections forty-nine and fifty of chapter seventy-five of the Revised Laws, as amended by chapter two hundred and fifty-one of the acts of the year nineteen hundred and five, and section fifty-two of said chapter seventy-five are hereby amended by inserting after the word "disease," wherever it may occur in said sections, the words:—declared by the state board of health to be,—so as to read as follows:—Section 49. A householder who knows that a person in his family or house is sick of small-pox, diphtheria, scarlet fever or any other infectious or contagious disease declared by the state board of health to be dangerous to the public health shall forthwith give notice thereof to the board of health of the city or town in which he dwells. Upon the death, recovery or removal of such person, the householder shall disinfect to the satisfaction of the board such rooms of his house and articles therein as, in the opinion of the board, have been exposed to infection or contagion. Should one or both eyes of an infant become inflamed, swollen and red, and show an unnatural discharge at any time within two weeks after its birth, it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the board of health of the city or town in which the parents of the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatural discharge exist. On receipt of such report, or of notice of the same symptoms given by a physician as provided by the following section, the board of health shall take such immediate action as it may deem necessary in order that blindness may be prevented. Whoever violates the provisions of this section shall be punished by a fine of not more than one hundred dollars. Section 50. If a physician knows that a person whom he is called to visit is infected with small-pox, diphtheria, scarlet fever or any other disease declared by the state board of health

to be dangerous to the public health, or if one or both eyes of an infant whom or whose mother he is called to visit become inflamed, swollen or red, and show an unnatural discharge within two weeks after the birth of such infant, he shall immediately give notice thereof in writing over his own signature to the selectmen or board of health of the town; and if he refuses or neglects to give such notice, he shall forfeit not less than fifty or more than two hundred dollars for each offense. Section 52. If the board of health of a city or town has had notice of a case of small-pox, diphtheria, scarlet fever or of any other disease declared by the state board of health to be dangerous to the public health therein, it shall within twenty-four hours thereafter give notice thereof to the state board of health stating the name and location of the patient so afflicted, and the secretary thereof shall forthwith transmit a copy of such notice to the state board of charity.

SEC. 2. This act shall take effect upon its passage. [Approved June 6, 1907.]

Vaccination.

Chap. 75, Sec. 136. A parent or guardian who neglects to cause his child or ward to be vaccinated before the child or ward attains the age of two years, except as provided in section one hundred and thirty-nine,* shall forfeit five dollars for every year during which such neglect continues.

Chap. 75, Sec. 137. The Board of Health of a city or town if in its opinion, it is necessary for the public health or safety, shall require and enforce the vaccination and re-vaccination of all the inhabitants thereof and shall provide them with the means of free vaccination. Whoever, being over twenty-one years of age and not under guardianship, refuses or neglects to comply with such requirement shall forfeit five dollars.

Chap. 44, Sec 6. [Revised Laws, as amended by Chap. 371, Acts of 1906.] A child who has not been vaccinated shall not be admitted to a public school except upon presentation of a certificate signed by a regular practicing physician that he is not a fit subject for vaccination. A child who is a member of a household in which a person is ill with small-pox, diphtheria, scarlet fever, measles, or any other infectious or contagious disease, or of a household exposed to such contagion from another household as aforesaid shall not attend any public school during such illness until the teacher of the school has been furnished with a certificate from the Board of Health of the city or town, or from the attending physician of such person, stating that danger of conveying such disease by such child has passed.

Note—Section 139, referred to above, exempts children who present a certificate signed by a registered physician that they are unfit subjects for vaccination. Application for free vaccination, by persons who are unable to pay for it, may be made to the Clerk or Agent of the Board of Health.

REPORT OF THE SANITARY INSPECTOR.

Board of Health:—

GENTLEMEN: — I have the honor to submit my report as Sanitary Inspector for the year ending December 31, 1908.

The work of this office has been the same as that of previous years.

All complaints have been investigated and wherever actual nuisance or unhealthful conditions were found to exist they have been satisfactorily abated or adjusted in every instance.

Respectfully submitted,

CHARLES T. HARTWELL,

Sanitary Inspector.

ARLINGTON, December 31, 1908.

REPORT OF THE FUMIGATOR.

Board of Health:—

GENTLEMEN: — I have the honor to submit my report as fumigator for the year ending December 31, 1908.

Whole number of cases fumigated fifty-four (54).

Twenty-six (26) cases of scarlet fever requiring the fumigation of seventy-five (75) rooms.

Twenty-one (21) cases of diphtheria requiring the fumigation of thirty-six (36) rooms.

Seven (7) cases of tuberculosis requiring the fumigation of fourteen (14) rooms. Halls, stairways and closets fumigated wherever necessary.

Respectfully submitted,

CHARLES T. HARTWELL,

ARLINGTON, December 31, 1908. *Fumigator.*

REPORT OF THE INSPECTOR OF PLUMBING.

To the Board of Health of the Town of Arlington : —

GENTLEMEN : — Below please find the report of your Inspector of Plumbing for the period from June 26, 1908 to January 1, 1909.

Total number of calls made	166
Total number of applications received for which permits were issued	55
Total number of certificates issued	48
Issued on applications on file previous to the time when I took the position	7
Number on file on which work has not been completed	14

The quality of the work done in the town has generally been first class. That of the mechanics of the town has been especially commendable.

There have been no infractions of the law that were not promptly and properly righted when called to the workman's notice.

Respectfully submitted,

GEORGE W. DAY,

January 1, 1909 *Inspector.*

REPORT OF INSPECTOR OF SLAUGHTERING.

To the Board of Health : —

GENTLEMEN : — I submit the following report for the year ending December 31, 1908.

Licenses have been granted to the Bowman Brothers to slaughter animals in the Town of Arlington.

They have a well ventilated and well kept house to slaughter in.

Have made one hundred and eighty-five visits to the two houses during the year and have inspected 3779 veal, four cows, thirty pigs and four lambs.

I would recommend that they be granted licenses for 1909.

Inspected veal slaughtered by Herbert Hathaway and condemned and seized seven.

Respectfully submitted,

FRANK P. WINN,

December 31, 1908. *Inspector of Slaughtering.*

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS

The Board of Examiners of Plumbers make the following report for the year 1908.

In accordance with the requirements of Section 3, Chapter 103, of the Revised Laws, the Board of Health on May 29, 1908, appointed Dr. Charles F. Atwood and Alfred H. Knowles to serve on the Board of Examiners of Plumbers, the Inspector of Buildings being a member of the Board ex-officio.

The Board after having suitable forms of examination prepared in accordance with those in general use in this vicinity, examined three applicants, and recommended to the Board of Health that licenses be issued, one in the grade of master plumber and two in the grade of journeyman plumber, the applicants having each passed a very creditable examination in their respective grades.

ROBERT W. POND
CHARLES F. ATWOOD, M. D.
ALFRED H. KNOWLES
Board of Examiners of Plumbers.

BOARD OF PARK COMMISSIONERS.

ARLINGTON, MASS., January 9, 1909

To the Honorable Board of Selectmen of the Town of Arlington:

The Park Commissioners submit the following report for the year 1908:

Meetings have been held during the year, and business brought before the department acted upon. Time has been given to the discussion whereby the Park System can be improved, and how the improvements now being made in Medford will effect Arlington. The Commissioners also find it desirable to have one man look after the different parks, caring for the vines, grass plots, shrubbery, flower beds, etc. On account of the dry summer it has been difficult to keep the grass looking well, as there is no means of keeping the ground sprinkled.

At Menotomy Rocks Park a patrolman has been employed several Sundays during the summer and fall, keeping out undesirable visitors. The hot summer weather brought a great many to the Park where they found it cool and refreshing. It is the desire of the Commissioners to make this place attractive with the least possible expense. A great deal of care was taken with the flowers and shrubbery at the Jason Street entrance, and a fine variety of bulbs have been planted this fall which will flower in the early spring.

In Russell Park concrete cross walks have been laid, also a concrete gutter built in the rear of the Russell school. The dry season has killed the grass somewhat in this Park, but we are in hopes it will show more life in the spring.

Trees and shrubbery should be planted in this Park, also the remaining cross walks concreted, to give a more attractive appearance.

Bills contracted by another department for the care of Wellington Park have been paid by this department, although the Park has not been turned over to the Park Commissioners.

At Meadow Brook Park the usual amount of filling has been done during the year.

The Medford Street triangles have been cared for, grass cut, hollow places filled, and some of the curb raised.

Respectfully submitted,

CHARLES H. GANNETT,
WILLIAM E. LLOYD,
BERT HOUGHTON,

Park Commissioners.

REPORT OF TREE WARDEN.

On December 5, 1908, Mr. A. Foster Brooks, for the past six years Tree Warden of the Town, died at his home on Massachusetts Avenue, after a long illness.

During his illness, which extended for a period of nearly two years, the work of the department devolved to a great extent on me as his assistant.

On December 11th, 1908, I was appointed by the Board of Selectmen to fill out the unexpired term as Tree Warden.

The experience gained while assistant to Mr. Brooks makes me familiar with the work of the department, and enables me to make suggestions and recommendations for the advancement of the work, which would be impossible did I not have this training and experience.

I would, therefore, make the following recommendations for the coming year:

Tree Planting. Each year, owing to the change of grade on various streets, a number of trees are removed. These trees should be replaced with young trees in all cases, as failure to do so will in a short time deprive us of our shade trees.

I would recommend for this purpose an appropriation of $200.00.

Tree Trimming. Your attention has been called every year to the necessity of removing the decayed limbs of the trees occasioned by the pruning of the trees in removing the Gypsy and Brown Tail Moths. These decayed limbs are in many cases a menace to the people passing under them and should be removed.

While I believe it would cost at least $1000 to do this work properly in one year, I would recommend an appropriation of at least $300.00 this year in order to remove the most dangerous limbs and give a good start for the whole work without putting too much burden on the people in any one year. I, therefore, recommend an appropriation for this purpose for the ensuing year of $300.00. This amount would also provide guards for small trees where required.

The reappearance of the Elm Beetle in large numbers the past year at one time looked serious, but through the efforts of Superintendent William H. Bradley, of the Gypsy and Brown Tail

Moth Department, in spraying the trees the spread has been checked and our elm trees are in better shape and look better than those of the surrounding towns.

The thanks of the department are extended to the Superintendent of Streets, Mr. Robert W. Pond, for many courtesies received during the year.

For receipts and disbursements I refer you to the Auditor's Report.

JOHN J. DONOHUE,

Tree Warden.

REPORT OF

Commissioners of Cemeteries, Robbins Fund, Soldiers' Monument Fund, and Samuel C. Buckman Fund.

ARLINGTON, Jan. 15, 1909.

The Commissioners of Cemeteries, Robbins Fund, Soldiers' Monument Fund, and Samuel C. Buckman Fund herewith submit their report for the year ending December 31, 1908.

During the year three sections of driveways within the Cemetery—Linden, Elm and Maple Avenues—were constructed by putting in a base of screened gravel, covering with Tarvia, and surfacing with gravel. The benefit of this method of construction is evidenced by the absence of mud and the rutting of the driveways during the frost period, freedom from weeds, and the prevention of dust.

The rapid sale of single graves and small lots during the past few years necessitated the grading of additional area to meet future requirements and during the past year a large portion of Plot "Q" has been graded, the loam stored for future use, and the excavated gravel carted to the adjoining park lands.

Water mains have been laid during the year in those portions of the cemetery heretofore without water, so that now all sections of the grounds that are laid out are supplied with water.

The following number of lots and single graves have been sold and interments made during the year:

Number of lots sold	24
Number of single graves sold	17
Interments in private lots	83
Interments in public lot	7
Interments in single graves	23
Total interments	113

RECEIPTS.

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington:—

The Trustees of the Robbins Library submit their annual report. The circulation of books shows a gain of 624,—45,128 for 1908 as against 44,504 for 1907, and in the Children's Room 12,739 for 1908 as against 10,918 for 1907, a gain of 1861. The average daily attendance in the Children's Room has risen from 22 to 30, a further increase of eight over the gain of three of the previous year; that of the Reading Room shows a loss of four,—55 against 59 in 1907. The stack room has been increasingly used by students and scholars for reference work, no record being kept of the volumes consulted, but this use of the Library may account for smaller number of books taken home for examination,—29,980 as against 30,753 in 1907, and 3,016 periodicals against 3,627 in 1907.

We have continued to keep the same number of books, 30, at Arlington Heights, as well as a small supply for the Arlington Heights Study Club. During 1908 these were called for by 792 individuals.

We have long felt the need of securing better accommodations for the branch library at the Heights, and hope during the current year to realize this desire.

We have recently changed the electric wiring of the Library, where it could be easily done, adding new apparatus and Tungsten lamps, a great improvement, and necessary to the safety of the building. A further expenditure must soon be incurred to make the work complete.

We are glad to report that the policy of open shelves is an increasing success. The stack room has been enriched by a case of birds placed in the northeast corner and loaned by Mr. Warren Freeman. This has attracted much attention and afforded a great deal of pleasure, as well as a Bald Eagle in the Catalogue Room presented by Mr. Bushnell. Among the more notable additions to the Library have been the Catholic and Jewish Encyclopedias, and the Biographies of distinguished citizens of Middlesex County, edited by William R. Cutter. The Library has also

been enriched by gifts of books by Winfield Robbins, the Misses Robbins, Melvin L. Severy, Rev. Geo. W. Cutter, Frank P. Stearns, Miss J. M. Maynard, Arthur J. Willis, Geo. L. Raymond, Charles Bradley, the Washington Elm Chapter of the Daughters of the Revolution, Cambridge, the Massachusetts Society of the Sons of the American Revolution and others.

Congressman McCall has sent us public documents, and arrangements were made for the return of 95 duplicate copies of similar documents which the government was glad to receive.

The Editors of the Advocate have continued to send us a file of that paper.

To show the value and attractiveness of the Children's Room, mention might be made of the efforts of the Assistant, Miss Edith C. Rice, to make the little people feel at home in that part of the Library. This was done by an exhibition of free hand drawing by the pupils of the primary and grammar schools, all the available wall space being used for this purpose, and some of the work being of high merit. Parents who found it difficult to visit the schools could thus easily examine the work of their children. The children were also encouraged to take an interest in current events by writing their names under the pictures of the various candidates for the Presidency, the girls expressing their preference for the lady they would like to see in the White House. Three hundred and thirty-seven votes were thus cast, the smaller children not included. It was also suggested that the children should write letters to their favorite authors, asking for autographs on cards of uniform size. From 64 such letters 55 responses have been received, many expressing their pleasure at being considered the friend of the boy or girl asking these favors. A collection of mosses from four of our Massachusetts beaches was made last summer and placed on exhibition to teach the children the difference in color, form and fragility between the mosses of our north and south shores. Care has been taken to increase the taste of the children for non-fiction books such as history, geography, travel and stories of great men.

The bulletin board has proved very useful in many ways, especially for holidays and birthdays of notable individuals. By these and similar methods the interest of the children in the Library has been greatly increased. The work of the other departments has been carried steadily forward. No adequate idea of the reference work done by Miss Baston could be given without using much space in furnishing subjects, titles, etc. The Trustees desire equally to commend the work of the Librarian and all her assistants.

Exhibitions of photographs, etc., have been given in addition to those hitherto reported.

Y.; Wakefield (Beebe Town Library); Wilkes-Barré, Pa. (Osterhout Free Library); Winchester; Woburn; Worcester.

Respectfully submitted,

ELIZABETH J. NEWTON,

Librarian.

Arlington, December 31, 1908.

REPORT OF BOARD OF PUBLIC WORKS.

The Board of Public Works herewith submit their annual report for the year ending December 31, 1908.

The first meeting of the Board was held on March 2, 1908, the organization resulting in the election of Peter Schwamb as Chairman. Forty-eight regular and one adjourned meetings were held during the year. The former policy of acting as a whole on all matters coming before the Board was continued.

APPOINTMENTS. At a meeting held March 30th, 1908, Thomas Roden was appointed Superintendent of the Water Division, Robert W. Pond, Superintendent of the Sewer Division, and Charles C. Lothrop, Water Registrar and Clerk. All appointments holding for one year.

HIGHWAY DIVISION.

The same policy adopted in the care and repair of streets last year has been continued this year. For details of the work done reference is made to the report of the Superintendent of Streets, with whose recommendations we concur as follows:

Raising grade of Boston Elevated Railway tracks on Mass. Avenue, west of Water Street.

Storm drains and extensions of same.

The elimination of cross walks on the main streets.

The extension of permanent sidewalks on a systematic basis, with a view of obtaining continuous walks on the most traveled sections of our streets.

The crusher plant should have the necessary repairs to enable it to be run another year in view of the probability of securing land for railroad yard, and probable change in method of obtaining crushed stone.

EXPENDITURES. A financial statement, showing a summary of all expenditures and costs is given in Table I, while Table II shows in detail the cost of constructing Tanager and Sawin Streets and Wollaston Avenue, at a total expense of $4,695.71, giving an overdraft of $195.11. Table III shows location in details of cost of permanent sidewalks and renewals of permanent side-

* Work begun in 1907 at cost of $265.76. † Reimbursement. A stands for Artificial Stone B stands for Brick. C stands for concrete. E stands for Edgest one,

walks. The total costs have been made to include all indirect expenses in the same manner as formerly.

The value of property controlled by this Division Jan. 1, 1909, amounted to $16,204.82, classified as follows:

Crusher, roller, scarifier, drills and buildings	$8,690.00
Horses and vehicles	4,796.00
Materials	356.22
Tools	2,362.60
Total	$16,204.82

SEWER DIVISION.

During the year a short extension to the sewer in Warren Street from Medford Street was made.

At the Town Meeting held in November, 1908, an appropriation of $50 was made for a sewer extension in Westminster Avenue. The cost of this sewer was $55.49.

Fifty-two connections have been made with the main sewer at a total cost of $1,714.13.

The necessary flushing and cleaning of the sewerage system has been done at a cost of $162.56.

A detail statement giving costs of sewers built in 1908 by streets, including also particular sewers, is shown in Table IV.

A financial statement, giving distribution of expenditures, is shown in Table V.

Table VI gives a complete sewer statement to date.

The value of equipment and of materials on hand in the sewer division January 1, 1909, was as follows:

Materials	$504.12
Horses and Vehicles	456.40
Tools, appliances and storehouse	1,320.99
Engineering instruments and supplies	494.80
Total	$2,776.31

It is recommended that the sewers be extended wherever it can be shown that they are necessary.

An appropriation of $1,500 is recommended for general purposes, including maintenance and operation of new pumping plant.

SUMMARY OF SEWERAGE STATISTICS.

(In form recommended by Sanitary Section of Boston Society Civil Engineers.)

For the Year Ending December 31, 1908.

Arlington, Mass.

GENERAL.

Population by census of 1905, 9,668.
Total area of city or town, 5.5 square miles.
Area served by sewerage system, 1.8 square miles.
Collection System
For sewage only, 27.28 miles.*
For sewage and surface water 0 miles.
For surface water only, 7.0 miles.
Method of disposal: Sewerage into Metropolitan Sewer, surface water into brooks.

*Includes 3.47 miles local Metropolitan Sewer.

GENERAL.

Total cost of collecting mains including maintenance to date..$298,679.55
" " " pumping system .....
" " " disposal works .....
Bonded debt at date,, $100,000, notes, $19,000 ..... 119,000.00
Value of sinking fund at date. Included in general fund.
Average rate of interest on bonds 4 per cent.
Proportion of cost of system assessed on abutters about 45 per cent.
Yearly assessments for maintenance. None made.
Method of assessing abutters and rate of assessment 28 cents per lin. foot, frontage and 52-100 cents per square foot for area within 100 feet of street line.

BOARD OF PUBLIC WORKS.

Sewer Division Statement, January 1, 1909.

	Cr.	Dr.
Total Assessment levied to January 1, 1909.		$139,661.90
Assessments Abated	$1,718.21	
Assessments levied on cemeteries and Town property and deemed not collectable	2,900.32	
Assessments on church property. etc., deemed uncollectable	1,404.99	
Assessments levied on sewers built by Metropolitan Sewer Commission and to be paid to the Commonwealth	4,315.45	
Assessments not collectable by reason of expiration of liens	617.53	
	$10,956.50	10,956.50
Net assessments to January 1, 1909		$128,705.40
Appropriation for Henderson Street District Sewers		10,500.00
Bond issued 1896 for Sewer Construction		100,000.00
Sale of Main Sewer to Commonwealth of Massachusetts, less collectable assessments		42,400.13
Appropriation for construction, care and maintenance for years 1903 to 1908 inclusive		19.327.89
Amount expended for Sewer Construction and Maintenance (including Henderson Street District sewers) as per Town Treasurer's balance, January 1, 1909	298,679.55	
Balance, January 1, 1909	2,253.87	
	$300,933.42	$300,933.42

This Balance is made up as follows:—

Balance from Bonds and Assessments	$907.22
Balance from 1904	1.07
Balance from 1905	266.13
Balance from 1906	47.74
Balance from Kensington Park District Appropriation	507.90
Balance from 1907 appropriation	357.17
Balance from 1908 appropriation	166.64
	$2,253.87

WATER DIVISION.

Extension of Street Mains. In all there have been laid 543 feet of 8-inch and 1298 feet of 6-inch pipe, to extend the high and low service systems at a total cost of $2,735.45. Funds were obtained by the issue of notes for $2,000 by the Town Treasurer and a balance of $419.15 from the notes issued in 1907, and an overdraft of $316.30.

Renewal of Street Mains. In all 2937 feet of 8-inch and 1666 feet of 6-inch cast iron pipe has been laid to replace cement-lined pipe. The total cost of this work was $6,090.40. For this renewal there was appropriated $7000, leaving a balance which was used to purchase cast iron pipe for later renewals, which appears in the increased value of stock on hand.

The total overdraft of this division for the year 1908 was		$2,158.70
Offsetting this we have the following:		
Credits for 1908 remaining unpaid.....	$59.74	
Overdraft on extension of mains.....	316.30	
Increased value of stock, that of 1907 being $5,341.94 and that of 1908 being $6,561.86.....	1,219.92	
Balance for 1907 not allowed the department as formerly	568.83	
Balance in favor of water division		6.09
	$2,164.79	$2,164.79

The detail costs of extensions and renewals are shown in Table VII, and the distribution of expenditures to construction, maintenance and stock is shown in Table VIII.

* Includes exchange of horses. † Includes net expense of office, lost time, tools and salaries in part.

MAINS. The lengths and sizes of cement-lined and iron pipe in use January 1, 1909, together with the number of hydrants and gates on both the high and low service systems are shown in the following table:

LOW SERVICE SYSTEM.

	Size, Inches.	Length, Feet.	Hydrants.	Gates.
Cement-lined pipe....	12	8,530		
" "	6	1,240		
" "	4	10,521		
Total	.....	20,291	28	19
Iron pipe.....	12	6,771		
" "	10	6,977		
" "	8	17,781		
" "	6	32,738		
" "	4	11,794		
Total	.....	76,061	148	126
Total both kinds....		90,352 18.25 miles.	176	145

HIGH SERVICE SYSTEM..

	Size, Inches,	Length, Feet.	Hydrants.	Gates.
Iron pipe.....	12	16,503		
" "	10	14,644		
" "	8	13,716		
" "	6	50,431		
" "	4	1,497		
Total.....		96,791 18.31 miles.	204	171

The total of both systems is 36.58 miles of pipe, 380 hydrants and 316 gates. In addition there are 4,448 feet of smaller pipes, 2-inch to 1 1-4-inch laid in places where hydrants were not needed, and the amount of water required was small.

REPAIRS ON MAINS. There have been three leaks in the cast iron pipes, all on the high service, due mainly to the lead starting at the joints. There have been four leaks in the low service system, one in the cement-lined pipe. To repair the latter it was necessary to substitute cast iron pipe, the cement-lined pipe being badly corroded. Had the system been subjected to a pressure

increase as was the case last year doubtless more trouble would have arisen on account of breakage in the cement-lined pipes. It is, therefore, very necessary to push the work of renewal of the cement-lined pipes until all the 4-inch and 6-inch pipes have been replaced. To reduce the pressure fluctuations due to pumping and to render the system less liable to interruptions due to pipe leaks the Metropolitan Force Main has been extended in Massachusetts Avenue from Brattle Street to Robbins Road and connected into our pipe on Robbins Road. This force main is to be eventually extended up Robbins Road to the standpipe.

SERVICES. Sixty-five new services have been added during the year. Forty-two on the high service and twenty-three on the low service system. Nine services have been changed from the low to the high system. There are 1221 services on the low and 792 on the high service system, 65 in use by the sewer division for flushing sewers and 27 services for street watering standpipes.

REPAIRS ON SERVICES. Many complaints have been received of insufficient pressure which upon investigation have been found due almost wholly to rusting of pipes, on the premises of the consumer, which are often too small for the service required.

RESERVOIR. The nests of the brown-tail moths have been removed, the underbrush cleared up, the fences repaired and the brook cleaned.

HYDRANTS. The hydrants have been repaired and all have been oiled and painted, and are now in good condition.

METERS. The following table gives the number of the various sized meters in use during the year and the uses of the water:

WHERE USED.	SIZE.					TOTAL.
	⅝ Inch.	¾ Inch.	1 Inch.	1½ Inch.	2 Inches.	
Church	1					1
Library		1				1
Domestic	772	47	15			834

Hotels		5	1			6
R. R. stations		1	1	1		3
Milk rooms	1					1
Bakeries		1				1
Clubs	3			1		4
Restaurants	1					1
Miscellaneous	11	7	10	2		30
Total	822	91	56	12	11	992

According to an Act passed by the Legislature, viz., Chap. 524, of the Acts of 1907, the department is obliged to meter all new services installed after Dec. 31, 1907, and during each year to meter at least 5 per cent. of the unmetered services in use Dec. 31, 1907. There were in use Dec. 31, 1907, 1094 unmetered services, thus making it necessary to install 55 meters per year, in addition to those for new services.

The water supplied by the Metropolitan Water Board has been of good quality and the quantity used as measured and reported was as follows:

	Gallons.	
	Per day.	Per capita per day.
January,	759,600	73
February,	893,400	86
March,	767,400	74
April,	835,200	80
May,	927,700	89
June,	1,315,700	126
July,	1,316,500	126
August,	1,024,600	98
September,	1,161,000	111
October,	938,900	89
November,	855,000	81
December,	861,900	82
Average for year,	971,400	93

The per capita consumption is arrived at on a basis of 10,500 consumers.

Balance from last year		$375.30
To receipts		25.00
		$400.37
By amount returned		161.27
Balance on hand		$239.10

RECOMMENDATIONS.

Recommendations. We urgently recommend that the renewal of cement-lined pipes, in use since 1872, be concluded as soon as possible and suggest that the pipes in Beacon, Park, Pleasant and Webster Streets be renewed during the coming season.

We also recommend that the use of water meters be extended more rapidly than the 5 per cent. basis now required by law on account of the saving in water consumption thus brought about.

Respectfully submitted,

PETER SCHWAMB,
WILLIAM N. WINN,
HENRY W. HAYES,
Board of Public Works.

ARLINGTON, Dec. 31st, 1908.

TO THE BOARD OF PUBLIC WORKS:

GENTLEMEN:—My report for the year ending Dec. 31st, 1908, is hereby respectfully submitted:

EXTENSION OF MAINS. Mains have been extended on the high service system in Harvard, Linden, West and Oakledge Streets, and in Park Avenue extension, and on the low service in Magnolia Street.

GATES AND HYDRANTS. One 5-inch hydrant has been set in Harvard Street, one 6-inch gate and one 5-inch hydrant in Linden Street, two 6-inch gates and one 5-inch hydrant in Oakledge Street, and one 8-inch gate and one 5-inch hydrant in Park Avenue extension.

RENEWAL OF MAINS. The 4-inch cement pipe in Medford Street, has been replaced by an 8-inch cast iron pipe from Massachusetts Avenue to Parallel Street, three gates and four hydrants have been installed and two gates and four hydrants discontinued. This street from Massachusetts Avenue to the Mystic River is now complete with cast iron pipe.

The 4-inch cement main in Franklin Street between Broadway and Warren Street has been replaced by a 6-inch cast iron pipe, one hydrant set and one removed.

A 6-inch pipe has been laid in Lake Street, between Cross Street, in Belmont, to about one hundred feet east of the Alewife brook to replace the 4-inch cement pipe abandoned, one gate and one hydrant set and one hydrant removed. A cast iron pipe is now laid in Lake Street, the entire distance between Massachusetts Avenue and Pleasant Street.

RESERVOIR LOT. The reservoir lot has been cleared of brush, the brook cleaned out and the fences repaired and put in fairly good condition.

STANDPIPE LOT. The standpipe lot has been cared for as usual the driveways regraveled and raked where the gravel was washed off by the overflowing of the standpipe.

RECOMMENDATIONS. I would recommend that the cement pipe in Beacon, Park, Webster and Hamlet Streets, be renewed the ensuing year and that the high service be extended in Mystic Street, between Summer Street and the high service hydrant opposite the Peirce and Winn Coal yard.

Respectfully submitted.

THOMAS RODEN.

SUMMARY OF STATISTICS.

For the Year Ending December 31, 1908.
In form recommended by the New England Water Works Association.

ARLINGTON WATER WORKS.

Arlington, Middlesex County, Mass.

Population by Census of 1905, 9,668.
Date of Construction, low service, 1872; high service, 1894.
By whom owned, Town of Arlington.
Source of supply, Metropolitan Water System.

CONSUMPTION.

1. Estimated total population at date, 11,500.
2. Estimated population on lines of pipe, 10,600.
3. Estimated population supplied, 10,500.
4. Total consumption for the year, 354,563,920 gallons.
5. Passed through meters, 101,644,170 gallons.
6. Percentage of consumption metered, 28.7 per cent.
7. Average daily consumption, 971,408 gallons.
8. Gallons per day to each inhabitant, 84.
9. Gallons per day to each consumer, 93.
10. Gallons per day to each tap, 490.

DISTRIBUTION.

Mains.

1. Kind of pipe, cast-iron and cement.
2. Sizes, from 4-inch to 12-inch.
3. Extended feet during the year, 1841.
4. Discontinued———feet during year.
5. Total now in use, 36.56 miles.
6. Cost of repairs per mile, $6.55.
8. Length of pipe less than four inches diam., 4,448 ft.
9. Number of hydrants added during year (public), 4.
10. Number of hydrants (public and private) now in use, 380.
11. Number of stop gates added during year, 7.
12. Number of stop gates now in use, 316.
15. Average pressure on mains at centre of Town, 90 lbs. high system; 50 lbs. low system.

Services.

16. Kind of pipe, cement-lined, galvanized, cast-iron.
17. Sizes ⅝ inch to 6-inch.
21. Number of service taps added during year, 65.
22. Number now in use, 1,979.
24. Average cost of service for the year, $17.51.
25. Number of meters added, 157.
26. Number now in use, 992.
27. Percentage of services metered, 50 per cent.
28. Percentage of receipts from metered water (B÷C), 54.3 per cent.
30. Number of motors in use, 4.

FINANCIAL.

REPORT OF REGISTRARS OF VOTERS.

ARLINGTON, December 31, 1908.

The Board of Registrars of Voters herewith submit their report for the year ending December 31, 1908.

During the year the Board held seven sessions, as required by law, arranging them so that there was one meeting in the spring and one in the fall at Arlington Heights.

The total number of registered voters as reported January 1, 1908, was 1892.

Whole number males	1774	
Whole number females	118	
		1892

During the year 152 names were stricken from the list for death, removal, or other causes.

At the various meetings held during the year the number added was as follows:

Town Hall, Feb. 5, 1908	6	
Union Hall, Feb. 14, 1908	11	
Town Hall, Feb. 21, 1908	17	
Town Hall, Sept. 16, 1908	29	
Town Hall, Oct. 16, 1908	43	
Union Hall, Oct. 19, 1908	42	
Town Hall, Oct. 24, 1908.	114	
		262

Making a total registration for the year of 262.

The list as revised to Jan. 1, 1909, is as follows:

Whole number registered		2002
Whole number men	1884	
Whole number women	118	
		2002

JOHN W. BAILEY,
WINTHROP PATTEE,
EBEN F. DEWING,
THOMAS J. ROBINSON,
Registrars of Voters.

REPORT OF TOWN CLERK.

ARLINGTON, Dec. 31, 1908.

The Report of this department for the year ending December 31, 1908, is herewith submitted :

The full Reports of Town Meetings, Cemetery Commissioners, Registrars of Voters, and Death Statistics, all of which come under the work of this department, may be found under those headings.

BIRTHS AND MARRIAGES REGISTERED DURING THE YEAR 1908.

Total number of births registered	252
Females	134
Males	118
Born in Arlington	229
Born in other places	23

The parentage of the children born was as follows:

Born in the United States, both parties	214
Born in Foreigh Countries, both parties	178
Born in United States, one parent	56
Born in Foreign Countries, one parent	56
Born in Arlington, both parents	14
Born in Arlington, one parent	47

MARRIAGES.

Whole number of couples recorded	91
Residents of Arlington	106
Other places	76
Solemnized in Arlington	51
Solemnized in other places	40
Groom, first marriage of	79
Groom, second marriage of	12
Bride, first marriage of	83
Bride, second marriage of	8
Age of oldest groom	58
Age of youngest groom	18
Age of oldest bride	49
Age of youngest bride	18

DOGS REGISTERED.

Whole number		305
Males	253	
Females	38	
Females Spayed	14	
	—	305
Paid to County Treasurer		$663 00

THOMAS J. ROBINSON,
Town Clerk.

I have examined the Town Clerk's record of Dog Licenses, and found the same correct with receipts from the County Treasurer for the above amount.

GEO. McK. RICHARDSON,
Auditor.

HARVEY S. SEARS,

Collector of Taxes.

December 31, 1908.

I have examined the accounts of Harvey S. Sears, Collector of Taxes for the Town of Arlington, Mass., and find the same correct, agreeing with the Auditor's Books.

GEORGE McK. RICHARDSON,

Auditor.

December 31, 1908.

AUDITOR'S REPORT,

For the Financial Year Ending Dec. 31, 1908.

The books of the Treasurer and Collector have been examined and found correct, and the balance of cash on hand as reported. A list of unpaid assessments verified by the Auditor is on file in this office.

The books of the Cemetery Department have been examined and agree with the Auditors.

The Dog License book, kept by the Town Clerk, has been examined, and the proper amount paid to the County Treasurer, and receipted for by him.

The books of the Sealer of Weights and Measures, and the Inspector of Milk, have been examined and amounts paid to the Town Treasurer found correct.

The amounts collected and paid to the Treasurer for rents of Town Hall is correct.

The accounts of the following Trust Funds have been examined and found correct, and the Investments on hand as reported by the Trustees of the various funds:

Elbridge Farmer Fund.
Nathan Pratt Library Fund.
Nathan Pratt High School Fund.
Nathan Pratt Poor Widows' Fund.
High School Income Fund.
Sinking Fund.
Martha M. W. Russell School Fund.
Martha M. W. Russell Poor Widows' Fund.
Mary Cutter Poor Widows' Fund.
Income Poor Widows' Funds.
William Cutter School Fund.
E. Nelson Blake, Jr., Memorial Fund.
Henry Mott Library Fund.
Timothy Wellington Fund.
Julia Fillebrown Fund.
Military Fund.
Citizens Soldiers' Fund.
Soldiers' Monument Fund.
Robbins Fund.
Samuel C. Buckman Fund.
Cemetery Perpetual Care Funds.
Income Cemetery Perpetual Care Funds.

The bequest of C. H. Pattee received in 1907 was paid into the Cemetery Perpetual Care Funds by order of the Board of Selectmen.

Overdrafts. The overdrafts in Abatements, Interest, and Incidentals are due to the fact that payments on these accounts must be made whether the account has a credit balance or not, all legal claims and awards being charged in the Incidental account.

The overdraft in Watering Streets is due to the prevailing custom of anticipating credits. It has been customary for some years to receive a contribution of $200 for this account, and as it was anticipated this year and contracts made on that basis, payments were made in accordance with the terms of contracts. The contribution, however, has been withheld this year, thus causing the overdraft. The anticipating of credits should be discouraged so far as possible.

The overdraft in Water Division account is due to the fact that in making up the estimated income for 1908, the balance of cash on hand, and stock on hand, were both included, while the cash on hand was appropriated to Interest account, and stock on hand Dec. 31, 1908, shows an increase over the stock on hand Dec. 31, 1907.

No separate account being kept of the Extension of Mains, the Auditor has no control over the expenditures. This cost is certified by the Board of Public Works at the end of the year and a transfer entry made of the amount.

The same statement applies also to Renewal of Main Pipes.

The Auditor would recommend that appropriations be made and accounts kept in such a way as to show clearly the regular cost of maintaining each department, and such charges as go to the Maintenance account should be thoroughly understood when appropriations are made.

Financial. Attention is called to the Financial Statement by which it will be seen that the borrowing capacity of the Town is now considerably below $100,000, and the question of further borrowings should receive very careful consideration. No account is taken of the Town's share of the Metropolitan Debts as these are apportioned and paid each year as Metropolitan Taxes. These taxes are made up of Sinking Fund Requirements, Interest, and Maintenance charges. The interest charges paid by the Town on Metropolitan Debts in 1908 amounted to $16,935.12, which added to the interest paid in Town Debt and Water Debt, shows a total payment of $45,647.71 for interest in 1908. The increase in Town Debt will add about $2,000 to the Interest account, and with an increased Metropolitan Debt will carry our Interest account close to $50,000 in 1909.

The Auditor feels it is his duty to call to the attention of the Town the fact that a contract between the Town and the Lexington Peat Co. calls for the payment of $2,000 on or before May 1, 1908, and the balance ($3,737.30) on or before August 1, 1908, the first payment only has been received and the matter is now in the hands of the Town Counsel.

Under the provisions of the act relating to Cemeteries recently accepted by the Town, the receipts from the sale of lots are placed under the control of the Board of Cemetery Commissioners and the Board of Selectmen. As statute law takes precedence over the vote of the Town holding these receipts as funds available for transfer or appropriation, the Auditor would recommend that such receipts be placed to the credit of Cemetery account and no appropriation by taxation be made for this department. A portion of the receipts from sales should be used in establishing a fund, to provide for additional Cemeteries in the future.

A list of unpaid bills for 1908 reported by the several departments is as follows:

HIGHWAY DIVISION.

Dec. 31	Peirce & Winn Co., Grain and Straw	$86.95
Dec. 31	Sewer Division, Cement and Teaming	$106.40

CONSTRUCTION SAWIN ST.

Nov. 1	S. & R. J. Lombard, Edgestone	$235.31

ROBBINS LIBRARY.

REPORT OF ASSESSORS.

With the appropriation granted us by the Town for the year 1908 we have been able, in addition to our own work, to also make out the tax bills and the bills for street watering for the Town Collector. It seems proper that this work should be done by the assessing department.

There are constant calls for the Assessors, both by the town officials of other departments and by private citizens of our own and other towns. The office should be open all the time.

We have adopted a system of card catalogue for the transfers and it is proving very satisfactory. The poll tax list will also be done by the same system during the year 1909.

With the help of the Supervisors of Assessors, recently appointed by the State, over $125,000 in personal property was added in December.

We believe that a start should be made towards establishing a block system. This work can be economically done by the Town Engineer and his department, and we would recommend an appropriation of $300 by the Town to begin the work.

Street Watering. We believe the Town should assess the abuttors on the streets watered two cents per front foot, the balance to be paid by the Town. We must not forget that the abuttors besides their direct tax also have to pay their proportion of the balance. Street watering is largely to protect the surface of the streets and the Town at large should pay for it.

The Assessors are in their office every Thursday afternoon from two to four P. M., and are always pleased to meet any tax payer who has any suggestion or complaint to make.

The Town makes the tax rate; the Assessors are doing their best to apportion the burden fairly and justly.

O. W. WHITTEMORE,
L. D. BRADLEY,
A. H. SEAVER,
Assessors of Arlington.
